I am 22 years of age. I have a wonderful 5 year old daughter and a 2 year old son. My kids are my life. everything on here I have gone through. I am here to connect with people that write poems not for people to feel sorry for me so far I am doing a good job and it is going smooth for very one out there anything can come true if you want it bad enough.

A Special Friend

Everyone needs a special friend
A friend they cantalk to
I didn` t have one
Until you came along
Even though you are far away
I can still talk to you
You are far but still very close
I am glad that a have a special friend that i can talk to
With you, my life is good and sweet

An Old Friend

Your there no matter what
I have no clue what i did to get someone so caring as you
I get so excited to talk to you and when I see you
i just want to jump into your arms and never let go
I feel safe when i am with you
like nothing could ever go wrong
you have been like this since we met
and i dont understand
but i am not questioning why you were put in my life
i am just glad that i have you no matter what

Blood

The blood on the wall
Is what I see
I cut my wrist again and again
The pain is what I feel
Are you blind?
Can't you see the real me
Even though I am hiding
Behind these tears
I am waiting for you
Help me please
They are taking me over
To late I am gone

Can You Even Tell

Here I am
Pouring my heart out to you
The heart I`ve locked up for so long
I finally found someone to talk to
Someone I didn`t have to say a word to
They would understand
Even if they don`t know the half of it.
I tried.....For you
Why don`t you talk to me anymore?
Why don`t you want to see me again?
Why did you lie?
Why are you doing this to your-self?
Why am I doing this to my-self?
Why do I find my self screaming?
I scream my lungs out to you
But only when you`re not here
And when I can see you
I might as well be on the edge of the universe
Looking down.
Ready to jump
Ready to end my life
Whenever you come to mind.....I cry another tear
I destroy another thousand brain cells today
From holding my breath
Though no matter how hard I try
I can`t push you out of my mind
I smashed another glass today
Just to try to picture what is going on
Inside my head
Inside my heart
Why does it hurt so much.....When you were never mine?
It finished
Before it began

Can You See It

I've seen the blood before
This is not the first time
Here I go again
The blade is to my wrist
I'ma about to move it
Its hurts so bad
But not as bad as you hurt me
It's going all over the walls now
Can't you see it
Can't you see what you've done to me?

For The One I Thought I Loved

I am yours
until you hurt me
then I will say
'Back Off Me'
but you love me to much
so now I am saying
'Get On Me'! !

My heart beats faster and faster
when I'm around you
you make me happy
when I'm really down
no matter what is going on
you're always their next to me

I though you loved me
but I know the truth
how can you hurt me?
when I did nothing
I just want to say
go with that little sluty hoe

I Am Addicted To Leaving The Real World

I am addicted to leaving the real world
sittin in my chair
puttin the headphones in
turning the music up as loud as it will go
not wanting to hear anything
but the vibrations in my ear
let the beat come out of my fingers onto the keyboard
for hours upon hours
till the sun comes up

I Love You

I wish you were still mine
I had a lot of fun
And I know you did to
so please, please, please, come back to me
I love you so much
and you mean the world to me

I May For You

I may yell
but I am yelling for love

I may throw stuff
but never at you

I may not speak
but you should know what I am saying

I may get stessed
but I am looking for you to hold me

I may cry
but I am always happy

I may not say 'I LOVE YOU'
but I always will

I Wish

I wish

I knew if you liked me

I wish

I was with you

I wish

I was layin with you

I wish

I knew if you liked me

A new Life has bgan

I.....

I wish
I never knew you
I see
the blood running down my wrist
I hurt
but not as bad as you hurt me
I hear
all the whispers in my head

A new Life has bgan

In Love

you may hate me
but i still love you
i wish i had you
touching me again

i wish and pray
that you will be mine
but some how someone stole you

i need you i love you
with all of my heart
but scence you found her
you have not needed me
but sooner or later
you will trust me

It Will Always Be

My feelings for you
are boiling over the edge
There goin to explode
so you know how I feel
I cant stay quiet for much longer

So here I go
I have liked you since I have layed eyes on you
your hair glows in ther sun
your eyes sparkle in the light

When you touch me
I skip another beat
When you kiss me
I stop breathing
When you hold me
I feel like I am melting

There is so much more
but I have to show you
to tell you

Lindyzea Rose

Little hands, little feet
crying in the night
wanting mommy.....
wanting daddy.....
saying tuck me in tight

we may get made
we may get sad
but one look at her
and it all goes away

Love

What is Love?

Does it hurt?

Does it make you cry?

Does it make you happy?

Does it make you want to die?

Does it stomp on your heart?

Does it brake your heart it in two?

Will someone please tell me

What is love?

Love And War

What is love
what is war
love and war
its a battle fought
all through life
it cant be taught
instinct of husband and wife
boy and girl
man and woman
we all feel it
its nothing we plan
sometimes it hurts
and other times
we just need a break
we laugh, we cry
we love, we fight
some people got to
bed mad at night
then we talk
and forgive
we make up
and continue to live
till the day we die
after living our life
eternity in heaven
with the almighty christ
we have to fight
for what we love
love and war
war for our love

Lyndsea

As i feel her kick me
over and over again
i start to think
Does she miss her father
i know she has not seen him but
i will put it on anything
she misses his touch and his sweet voice
i just wish i knew what to say to her
it seems like she would sometimes
want him more than me
i just hope she knows her mother loves her

Michael

At first, i was sad
even wen i saw you
but after i heard your voice
i was like yea this is his voice
but why did he not look the same
wen he touchd my hand
i did not feel like i first did last year
then i relised that i was depressed
my home life traveled with me
i listen to what he said
and started to cry
i guess after all the trouble we got me in to
i still love you and i am glad we are together

My Dear Mother

you`ve given me life
you`ve shown me love
you`ve taught what i need to know
best of all you taught me that i can be or do anything i want

we fight, we yell
but one day soon
i hope we can make up for good
i hope you know
i love you forever and always

My Feelings

It happened once before
we got caught and stopped
we stopped talken
but at the end of the school year
something changed
over and over again
It may be just for the summer
but I want more

My Life With You

when I close my eyes
I can see me and you
layin in bed
while you whistper in my ear
chills goin down my back
moving my body so I can be closer
having me wrapped in your arms
I feel the warmth flowing inside of me
never felt so good, never felt so loved

Once Before

i was in that trap once before
i dont want to go back to that
you say 'you`ll be there'
you say 'you`ll always help'
but when the time comes
you just bail
after a while i want your help
you say the same thing
then realized you were lying the whole time

Pain

I have the thought going through my mind
never is it easy to say no
I have been in this spot before
You have seen sign after sign
why have you not tried to help me
is anything ever going to change
you dont know the rush i get when the blade hits my skin
when I slide it as deep as i can go against my wrist
everything changes
all my pain and fear goes away for a split minute
then I have to do it over and over again
all of the blood sliding down my wrist dripping o to the floor
I know its not just your fault it is mine as well
I will take the punishment that is served to me
I just feel like you are trying to pull me into your choices

Past

Could it be the old feeling coming back to me
or am I just happy to have an old friend back
just the fact that you can turn my frown upside down makes me ponder
I open my heart and it gets stomped on, burned, cracked, and torched
I dont have a clue what to do now

Secret Place

It has been so long
Since I have seen you
I really need you
To hold me in your arms
Just like before
I wish I could zap you here
just for me
and no one else
I know you are
thinking the same
I wish we had a secret place
that we could meet at day and nite

Something Special

here i am
around the world
trying to find something again
i found it once
so why tell me why
i can` t i find it this time
should i just sit back and wait
or should i keep looking
i am really tired
but i am not going to give up

Summer Love

we have been friends
for two years
all of a sudden
it turns in to
summer love

Having you in my head
feeling your lips touch mine
you rubing my back
is all that i like

The One I Trusted

I trust you more than anything or anyone
And I really think that you are the right person that I can talk to
So here it go`s
I am having trouble with a guy
And I see my-self doing this every day
I scream my lungs out to him
But only when he is not around
And when I see him
I might as well be on the edge of the universe
Looking down
Ready to jump
Ready to end my life
Whenever anyone says him name it is likemy body turns to jello

Thinking

sitting here thinking
smiling on the outside
laughing and giggling
like nothing is wrong
wondering why
things went like they did
hoping they will go away

sitting here thinking
crying on the inside
bundling my feelings
so no one can see
wanting to tell you
but dont want to get hurt myself
why cant they just go away
i want things to be how they were
before we met

Trust Me Baby

I wish I knew
how to put this
so I will write it like this
When I look at you
my mind just goes blank
when I touch you
my body shuts down
when I kiss you
my breath goes away

What I am trying to say is
I need sometime to start up again
that is the only way
I now how to tell you
that express my feelings
About you

If you really love me
you will give me a little space
It is not you
Its me
Trust me Baby Trust me

When We Met

When We Met

I never dreamed how much
My life would change.....
How much your love
Could touch
Every part of my life.
I didn't realize what I had been missing
I never imagined
How wonderful I could feel,
How truly alive my spirit could become
You have awakened in me
Feelings I never knew existed
You have helped me see
A whole new world
Of possibilities
Cause you came into my life,
My soul is filled
With tender passion
And my heart has found
The sweetness love
I ever could have wished for

You

You have no clue how I feel with you living with me
I finally have a protector
Someone that loves me with everything
Yea we have problem just like everyone else
Tell me who do you see that is perfect
When i lay down on your chest
Everything just melts away
I dont have to worry bout anything
You try so hard to take care of stuff and make me happy
The thing is you make me smile everytime you kiss me

You Know How I Feel

You know how I feel
you have been in this same place
how can you tell me to forget bout my daughter
I am doing what is right
being with both of my babies
if he truly loves me then he will show it
he will get back on track and provide for his family
he may need me but he also knows that i would do anything for him
my babies need me more now then ever

You Say.....

You say you love me
but i dont think so
You say you dont know how you feel
but i think you do
you say you will be there
but guess what your NOT
You say you are sorry
but your not
You say that you will help
but you sit on your ass
You say you love me
but i dont think so
