## Allison Unknown()

I am 16 years old, and more mature then ever. I have looked death in the eyes, and told it I was not scared. I have looked at life, and noticed that it get's even worse. Meaning of love, is like hate to me. You have to trust someone first, in order to be betrayed.

## 45 Trigger

Why did she do this  
Why did she commit suicide  
Why god why  
Did you have to do this  
To me  
She had a future  
She had a life  
Didn't she  
I wonder  
What Her  
Last Thought was  
Before she did it  
Before she pulled  
That trigger  
Of the 45

Allison Unknown

# A Hurting I Love You

Im crying so hard  
Asking you not to leave  
Im holding you back  
From going out that front door  
Demanding you stay with me  
You stop and turn towards me  
You tell me to knock it off  
I smack him across the face  
For telling me what to do  
He puts his hand to his cheek  
He looks up at me  
And chases me into the bedroom  
He slams the door and locks it  
He starts to yell at me  
I ask him if Im pretty enough to be seen with him  
I run into the bathroom and bring back makeup  
I put lipstick over my lips and eyeshadow over my eyes  
I ask him again if Im pretty enough  
He stands there with his head down towards the ground  
I walk over towards him and hold his head up  
He stares at me  
I stare at him  
I hug him with all my might and he hugs me back  
I asked why he was going to leave  
He said he had to go do something  
I asked him what  
He said it didn't matter because it was too late  
I just hug him harder  
He tilts my face towards him and we kiss  
A slow, warm kiss  
It felt so good  
He whispered in my ear  
You are too pretty for me  
I dont deserve you  
Then we look at each other once more  
Then he says it  
I love you, Allison  
I reply back to him  
I love you too, Ace

Allison Unknown

# All I Wanted Was A Friend

All I wanted was a friend, I came your way and you just blew me aside. Told me you didn't want anything to do with me. I see how it is, Im not important enough to you. I can't afford the nice clothes you can. You have a mommy and daddy to give you money. I don't, I have a mom only, she can barely pay the bills with the money she's making right now. Your a selfish brat, you don't know who you're messing with. You call me names I hate to hear. You say things about me that aren't even true. Im fed up with it, I tired of you, Im tired of everyone. Ace wouldn't let you do anything to me. He would protect me from you. Without him I am weak, but Im learning to fight. Next time you see me, be prepared to fight. For I will rise, and you will fall.

Allison Unknown

# All In My Head

You say  
Its all in my head  
Then why do I  
Feel so lonesome  
Sometimes  
I wish I was dead  
Everyday  
You say Im crazy  
Should I say  
Its all in your head  
I know it isnt  
Because Ive heard it  
Too many times before  
Im just trying  
To ease the guilt  
From my heart  
So please  
Dont say  
Its all in my head

Allison Unknown

# Alligator

I want to escape  
This place  
This life  
Im tired of it all  
End my life  
With a blade  
Stab or cut  
What do I prefer  
Stab slow and painful  
Good option  
Cut releases pain  
Then die  
Another good option  
What shall I do  
I go into my bathroom  
And lock the door  
I figured out what I will do  
My wrists are cut  
Now I just need to stab myself  
Yes I am doing them both  
No that is not cheating  
Im about to stab myself  
Then I hear a noise  
Of footsteps downstairs  
That just does it  
I hurry up and stab myself  
I pull the knife out  
Covered with blood  
I take a note  
I had written  
And put it through the knife  
And stab myself again  
Leaving it there  
For I will not touch it  
Ever again  
Someone comes  
And unlocks my door  
They see me their  
On the floor

They take the note and read it  
As they will  
It says  
'See you later alligator'

Allison Unknown

# Alone

In the dark  
I cant see anything  
No noises  
No movements  
I wonder  
Where I am  
I take  
Steps into the darkness  
My footsteps  
Make no noises  
I reach out  
Trying to feel  
For something  
But no contact is made  
With my fingers  
In this darkness  
I am alone

Allison Unknown

# At Night

At night  
I feel like a vampire  
It's just not right  
Running from secrets  
No one must know  
The deep burden  
That is hidden in my soul  
Keeping me away  
From human kind  
Afraid if I get to close  
They will see  
Right past the mask  
Into my eyes  
And figure out  
The lives Ive killed  
The pain and sorrow  
From the families  
That have been dealt with  
There losses  
All of these things  
Only happen  
Because I feel like  
A vampire

Allison Unknown

# Beats Of The World

Walking down the street  
Hearing all the beats  
Going all around  
Construction sites  
Alarm systems going off  
Honking horns  
Mothers yelling at there kids  
Drivers screaming at other drivers  
Jackhammers pounding the ground  
Water fountains pouring down water  
Coins falling out of hands  
People talking on cell phones  
Guitars from street performers  
Getting caught up into the sound  
Just wanting to scream out  
Letting the world know  
This is the beat  
This is the real music  
Others join  
Wanting to help  
Walking down the middle  
Of the street  
Cars pulling over  
People getting out of cars  
Starting a group  
That stands strong  
Stomping there feet  
At the ground  
Screaming out  
These are the beats of the world  
Others join  
Wanting to have fun  
Police come out  
To stop us  
From having the world go mad  
By the beats of music  
We go on  
Starting a riot  
Dancing down the street

And singing our hearts out  
No one can stop us  
Kids join in  
Hitting trash cans  
With there hands  
Police form a wall  
We still go strong  
Breaking it down  
They know  
They cannot win  
When we dance to the beat  
Of the world

Allison Unknown

# Because Of You

Sitting there  
Tears streaming  
Down my face  
My eyes  
Blood shot red  
Snot running  
From my nose  
Cant control myself  
From having shivers  
Run throughout  
My body  
All of this  
Is because of you  
Making me fight  
Against my will  
You came at me  
And I couldnt do anything  
About it  
Except fight back  
So I did  
Leaving hurt  
But am proud of myself  
Because I hurt  
You too  
All of this  
Is because  
Of you

Allison Unknown

# Black And White Kisses

I walk into the house  
And see nothing  
But black and white  
I turn in circles  
Getting lost  
In my own mind  
Every room  
Black and white  
I walk into a bedroom  
And see a black bed  
With white pillows  
All the furniture  
Is black  
The walls are white  
I start to settle  
Into this room  
Comprehending  
Everything here  
Until I feel a presence  
Standing right behind me  
I turn around  
Oh so slowly  
And see a man  
Black hair  
Almost white skin  
White T-Shirt  
Black pants  
Black shoes  
He looked like a god  
Coming to save me  
From this place  
But something is wrong  
With this god-like-creature  
His smile  
His nose  
Especially his eyes  
For they are pure black  
I step closer  
He steps back

Surprised  
At what I am doing  
I take another step  
He does the same  
For we are face to face  
Standing in front of each other  
Smiling like little children  
His hands move to his face  
Touching his lips  
With two fingers  
And brings them  
Down to mine  
I think to myself  
I just had a white kiss  
But this man is not done  
He leans  
Closer to me  
He looks like he is in pain  
I try to say something  
But nothing comes out  
I just keep my lips  
Closed shut  
He is so close  
I stop breathing  
He brings his hands up  
And cuddle my face  
He leans in  
And gives me a kiss  
A kiss that seems deadly  
I do not mind  
I just think to myself  
Thinking that I have just been  
Kissed with black kisses  
I can finally speak  
And ask him his name  
He leans in  
And whispers in my ear  
My name is Death  
And I am here  
To take your life

Allison Unknown

# Black Tears

So much pain  
Putting the knife  
To my wrist  
It hurts just too much  
Watching  
Thinking  
How I ended this way  
My soul  
Is getting taken over  
By little demons  
Dragging me to black safety  
When I fall  
Down into the black hole  
I wonder where I am  
Something starts to laugh  
Muahahahahaha  
I wonder who it is  
I only have one guess  
Im in hell  
The devil had taken me  
From life to death  
For that I thank him  
I look down  
And see my wrists  
They are covered  
With knife scars  
I start to cry  
But not regular tears  
Im crying  
Black tears

Allison Unknown

# Blackened Heart

Smoke is everywhere  
Deep breath  
Inhale  
Blow out  
You smell it  
It smells of death  
You poison other people  
Around you  
Near you  
You hate  
You know it does no good  
You dont care though  
You take in another breath  
Think of everyone  
You're affecting  
Blow out  
You start to laugh  
Smile on your face  
You love hurting people  
You don't care about them  
Breath in  
Breath out  
It all over  
You throw it away  
Step on it  
So it doesn't start a fire  
It takes away anger  
It takes away pain  
Great invention  
Made by men  
It is  
The cigarette

Allison Unknown

# Blood And Chocolate

The taste  
Is so sweet  
I just want  
More and more  
It starts to melt  
In my hands  
So I have  
To eat it fast  
Or it wont last  
In my hands  
This taste  
Is unbearable  
It is warm  
In my mouth  
But has an iron taste  
That sends  
Some people  
Through the roof  
Mix these two things  
Together  
And make a new creation  
So please  
Can I have some  
Blood and chocolate

Allison Unknown

# Broken Glass

Standing there  
Looking at the glass  
Seeing myself  
Look back at me  
In little shards  
Of glass  
I look closer  
And see a girl  
That is crying  
And looks like  
She is in so much pain  
Then I see her  
Killing herself  
I back away  
Frightened at what I saw  
And look back  
She is in the act  
Of committing suicide  
I do not want to watch  
This anymore  
So I bring up my fist  
And hit the glass  
Then I wonder  
Why do I look  
Into this mirror  
And see myself  
Laying on the ground  
Tears still coming down my face  
Eyes are wide staring back at me  
Through all my pain and sorrow  
That girl on the other side  
Of this broken glass  
Is just me

Allison Unknown

# Broken Sky

Walking down  
Death row  
Looking up  
Into the sky  
Wondering  
When I can go  
From this place  
Called home  
Something is wrong  
The sky  
Is broken into two  
One side is black  
The other side  
Is white  
I wonder why  
The sky  
Is broken into two  
I look down  
To see the faces  
Of men who'll die  
Before me  
I look up  
Back to see the sky  
All one color now  
Its black

Allison Unknown

# Bullet For My Valentine

February

The time of love

Valentines Day

Questions being asked

All over the world

Will you be my valentine

Answers being said

Yes or No

What do you say

People carry around guns

Wanting to claim

Their valentine

They have a love of their life

What will they do

To get the other person

To love them back

They shoot them

Into their hearts claiming

This is my valentine

No one can do anything

About it

That is why

I'm giving you

This year

A bullet

For my valentine

Allison Unknown

# Bumpy Road

Driving down  
This bumpy road  
Trying to avoid  
All these obstacles  
I have made  
In my life  
All the relationships  
All the hatred  
All of the emotions  
In my time  
Friends and enemies  
Mostly enemies  
Always trying  
To kill me  
On this road  
Is mostly debris  
Scattered on the side  
My lights  
Getting dimmer  
As I go into the dark  
I didnt see  
That brick wall  
Right in front of me  
I hit the wall  
Straight on  
With much force  
So I died  
On this bumpy road  
Called life

Allison Unknown

# Crying Sky

Poor sky  
Whats the matter  
Why are you crying  
On all of us  
Did we do something  
To hurt you  
Please stop crying  
Youll make me cry  
Your skys  
So gray  
And depressing  
Just wanting me  
To stay at home  
To have a good  
Long cry  
So no one will hear me  
That makes us the same  
We both will be crying  
Maybe we can cry  
Together  
Will you cry with me  
That will be so great  
Having someone else  
Cry with me  
I just want to know though  
Why are you crying  
You can tell me  
Ill keep it nice and secret  
Just for you  
No one has to know  
Tell me please  
Its starting to rain  
Harder and harder  
Stop crying  
Youre making me cry  
Here  
All by myself  
I want someone to be with me  
The sun is coming out

You're lucky  
You have someone  
To be there with you  
To stop making you cry  
When you see the sun  
You stop crying  
Can't we still be friends  
Even though  
You have the sun to look after you  
I need someone to look  
After me  
I'll do stupid things  
Things I don't know how to handle  
I won't know what to do  
I need you  
To look after me  
Can you please  
Don't go away  
Crying sky  
You're my only friend  
Friends stick together  
No matter what  
Stop disappearing  
I see what you're doing  
You're going away  
Fine little clouds  
I don't need you  
I can cry  
On my own

Allison Unknown

# Crying Soul

My soul  
Is crying out  
For someone to help it  
It cannot take  
Anymore of the pain  
It has dealt with  
For so many years  
Every night  
It cries  
From all the pain  
People put on it  
They do not understand  
How much it hurts  
If only  
They were in my shoes  
How would they deal with it  
Would they be perfectly fine with it  
Or would it drive them insane  
I dont know  
Lets see how you do  
Inside these shoes

Allison Unknown

# Dark Soul

Their are angels all around us, we just can't see them. Most of them are nice and gentle, but I believe their are some bad also. For instance, my 'guardian angel' is not an angel you want to mess with. She is an angel that well doesn't fit in heaven or hell. She is a loner, she is her only kind.

Allison Unknown

# Darkness Will Rise

We'll find a way  
When we are dead  
All good is gone  
No happiness left

Screaming and screeching  
What do you need  
What do you want  
Tears streaming down the face

Cant take much more  
Nothing is wrong with me  
But something has to give  
Push me again  
This will be the end for you

Skin and bone  
You're by yourself  
But not alone  
Driven by hate  
We cant take it back

Leaving the dead behind  
Darkness will rise

Allison Unknown

# Deep Breaths

I can't see  
Running through the trees  
At night  
Running so fast  
Must run faster  
Go to the left  
Go to the right  
Watch out for that tree ahead  
Breathing so hard  
Deep breaths  
Must relax muscles  
I stop to catch my breath  
I dont know how far I got  
Away from you  
You yell my name  
It sounds like a whisper  
I know you must be getting closer  
But Im so tired  
I have to go on  
I force myself to go on  
Go now  
I start to walk  
I hear things around me  
I start to jog  
There are footsteps behind me  
I start to run  
Faster Faster Faster  
Im going so fast  
I dont know whats ahead  
I jump off a cliff  
And fall  
I dont know how long  
Ive been falling  
But I hit water  
I cant breathe  
Im about to drown  
I reach the surface  
Deep breath  
I swim

To the next shore  
I get up  
And start to run  
I find the road  
Waiting for a car  
I see headlights up ahead  
The car keeps coming  
And doesn't slow down  
I get out of the way  
And look to where the car was heading  
I notice that it's stopped  
I walk to the car  
And look inside  
It's you  
And you have a gun  
You raise it at me  
Deep breath  
Which will be my last  
And then all I see  
Is white gun blasts

Allison Unknown

# Disturbed

Feeling your life  
Beat in my hands  
Screaming up  
Towards the sky  
Asking why  
You had left me  
For a different place  
Holding your body  
Trying  
Just trying  
To have you come back  
Back to me  
But its no use  
For you wont answer  
To me  
When I call your name  
Tears falling  
From my eyes  
Everything that I felt  
About you  
Had just vanished  
All the happy times  
Are gone  
Why do I  
Feel so  
Disturbed

Allison Unknown

# Dragon's Fire

What is held  
In the dragons fire  
Is it power  
Or is it life  
Burning down things  
Making new things grow  
Trees and grass  
Falling to ash  
Castles and knights  
Arrows and swords  
Weapons to kill  
One another  
Wings flap  
In the sky  
Noises coming  
From afar  
They are the noises  
Of dragons roaring  
Scaly bodies  
Powerful claws  
Teeth are still  
Razor sharp  
Blowing fire  
From deep within  
It is made  
From there hearts  
So what to see  
Inside these yellow flames  
Of the dragons fire

Allison Unknown

# Drooping Rope

Standing in that room  
White walls  
No windows  
No door  
Everything is absolutely white  
No color  
Its making me  
Go crazy  
No one  
Can get in  
Only one way out  
It is the only color  
In the room  
A brown  
Drooping rope  
Calling my name  
Wanting me to come  
And introduce myself  
I get on a chair  
And say my name  
Asking it one question  
How will you get me out of here  
It does not speak  
The only thing it does  
Is wrap around my neck  
I dont know whats going to happen  
So I start to struggle  
Very bad idea  
Im trying to get it off  
That evil rope  
Just keeps on getting tighter  
Making it hard for me  
To breathe  
One false move  
Kicking the chair over  
I fall  
But am caught  
By the rope  
That is around my neck

I see a new color  
No more white  
Everything else  
Is pitch black

Allison Unknown

# Everybody's Fooled

Act happy  
Put on a smile  
Pretend like everything  
Is alright

Hide the tears  
What a fake smile  
Nothing will  
Be alright

Put on a mask  
To cover the truth  
Heart is hurting  
Make sure no one knows  
The truth

Somehow though  
Through all of this  
You still have  
Everybody fooled

Allison Unknown

# Evil Soul

Your soul  
Is just to evil  
Im sorry to say  
But youre a monster  
In this tiny little world  
Called Earth  
How do you like it  
Having people  
Think your evil  
I dont understand  
Why they are so scared  
Of you  
Your a plague  
That affects lives  
Every single day  
Your name  
Why must I say it  
It leaves people  
With goosebumps  
On their arms  
Making people cry  
For all there loved ones  
Who were taken by you  
Your name  
Is death  
And you have  
A very  
Evil soul

Allison Unknown

# Fade Away

You have done  
Your job on earth  
So now  
You must go  
I want you  
To stay with me  
For all eternity  
But that is no use  
Because I know  
You have to go  
There is no other way  
So when the sun  
Rises over the horizon  
I say goodbye  
One last time  
And watch you  
Fade away

Allison Unknown

# Fake It

I want to heal  
I want to feel  
I didnt know  
It could feel so real  
I never could feel  
Until my wounds were healed  
When the spark was there  
And the fire was lit  
I never knew  
That my soul could fade  
But because of you  
I now learned  
To just fake it

Allison Unknown

# Feeling So Safe And Secure

I sit  
On top of my bed  
My arms  
Wrapped around my body  
Like a child  
Holding on to a new  
Stuffed animal  
I cannot get love  
Any other way  
So I have to give  
Myself embracing hugs  
I want to feel  
So safe and secure  
Why cant I  
Ever feel that way  
Safe and secure  
I want to feel  
Someones arms  
Wrapping around me  
Saying everything  
Will be alright  
I want those  
So much  
I cannot have  
My wish come true though  
So I just have to  
Hug myself  
So I can feel  
So safe and secure

Allison Unknown

# Fire Player

Ive been burnt so bad  
But I still play with fire  
Sometimes naked truth  
Is what I cant believe in  
It burns my soul  
But I keep going back  
Why must I believe  
All your lies  
When I cant even  
Accept the truth  
Fight fire with fire  
Someone will be burned  
And hopefully that one  
Will be you

Allison Unknown

# Forget My Name

Never being important  
Never being helped  
All I wanted  
Was someone  
To recognize my name  
I know you  
I dont know your name  
I forgot  
Im tired of it  
Not being a person  
That people recognize  
Im invisible  
To most people  
They dont care about me  
Never have  
Never will  
Getting bumped into  
Oh sorry  
I didnt see you  
Of course you didnt  
Remember  
Im invisible  
Being home  
No noises  
Its not like Im here  
Not making  
Any noises  
Just laying their  
On my bed  
Wanting to be remembered  
I turn left and right  
Still not making noises  
Tears start to fall  
Down my face  
Quiet little tears  
I want people to recognize me  
I want people to remember me  
Why cant I have  
Those things

All I want  
Is someone  
To remember  
My name  
But I know  
I cannot have that  
So I just keep living on  
With people  
Who forget my name

Allison Unknown

# Go Ahead

Go ahead  
Do it  
Just do it  
Jump off that cliff  
We'll be right behind you  
Telling you  
To do it  
If you need a push  
We will give you  
That push  
When you fall  
The wind is blowing  
My brown hair is flying in the wind  
I almost fall from the strong gusts  
I look back everyone is pointing and laughing  
At me  
Calling me weak  
I can't stand to be called weak  
I just stand there looking out in the sea  
Wanting you to save me  
They call my name  
I turn back around to face them  
They have a picture of you  
They rip it to shreds in front of me  
Tears flow down my face  
They start laughing even harder  
Watching me as I cry  
They throw the pieces of paper  
They float  
Down down down  
They land on the water  
Covered quickly by other waves  
I can't take it anymore  
I jump in after them  
I can't find the pieces of picture  
All of a sudden a wave crashes down on my  
Drowning out my breath  
I see the sun  
Its covered by black waters

I don't see nothing but black  
Everything starts to fade  
Until I see a light  
It looks like a ghost  
But a person  
He has blue eyes  
Black hair  
And a smile that takes your breath away  
I recognized who this person is  
Its Ace  
The one I will always have a spot in my heart for  
He was my first love and still is  
I miss him dearly  
He reaches his hand out and I grasp it  
Somehow we end up at our spot  
The prairie where we first met  
We ran hand in hand  
Through the grass and flowers  
It was great  
Until he talked to me  
He said he had to let me go  
I told him I was dead too  
He said that I had a purpose I had to fill  
I woke up to find myself on the shore  
Cold and wet I got up and started walking  
I kept playing that moment over and over  
Until something went through my mind  
My purpose in life  
Was to let him go  
Move on  
Forget about him and find a new lover  
I stopped walking and began to cry  
I didn't want to let him go  
Then one last thing went through my mind  
His feelings about me if I let go him  
He would love me even more if I did  
I decided I could have someone on Earth  
When I die  
I will see him again  
Then he will be the love of my life in that world  
I walk down the street holding my head high  
Not caring what other people think of me

Until I run into him again  
I will look for a new love of my life

Allison Unknown

# Goddess Of Pain

Oh Goddess  
Of Pain  
What will I do  
Without you  
Everyday  
You bless me  
With the feeling of pain  
You make me hurt  
Every single day  
Do you like to  
Hurt me so much  
With all the pain  
You give me  
You tear my heart  
Apart so much  
I cant stand it  
I try to stitch it  
Back together  
But you dont want  
That to happen  
So you just tear open  
My new heart  
Sometimes I wonder  
If what you give me  
Is not a gift  
I wonder  
If it is  
A curse  
That you pledge on me  
I dont know  
What I shall do  
With you watching me  
Every single day  
Making my life  
Miserable then ever  
Some pain is good  
But I have one little question  
Just for you  
Will you please

Let up a little bit  
From all the pain you give me  
I cant take it  
Anymore  
So please  
Just think about it  
And hopefully  
Youll understand  
I am just human  
That is not the strongest  
In the world  
So like I said  
Please  
Just think about it  
I know I will  
Be thinking about it  
Hoping that you understand  
Because it hurts so much  
I cry myself  
To sleep every night  
Wanting the pain to go away  
I feel very tired  
Right now  
So I am going to go  
And cry myself to sleep  
Wanting you  
The Goddess of Pain  
To take away  
All the pain  
You have given me  
From day after day

Allison Unknown

# Hand In Hand

Little girl  
Whats wrong with you  
What makes you different  
Then the rest of them  
Is it how you look  
Is it where you come from  
Who your parents are  
I know what makes you different  
You only have a father  
That is a psycho  
He kidnaps other girls  
And brings them to your house  
He makes them do things  
That he makes you do  
To him  
If they dont cooperate  
He beats them dead  
He beats you  
Leaving bruises and scars behind  
He tells you he does those things  
Because he loves you  
He loves you so much  
He beats you  
You wear long sleeve shirts  
To hide the bruises on your arms  
And to cover your back  
That is covered with scars  
That will never disappear  
You wear jeans  
To hide the scratches  
Around your ankles  
From the string that holds them still  
He brings a new victim home  
She is older  
Than the little girl  
They turn into best friends  
The dad is fed up  
With his daughter's friend  
He takes her into his room

And shuts the door  
The little girl  
Hears screaming  
She runs into the room  
To help her friend  
The father is raping her  
He yells at the little girl  
Telling her to go away  
She does not listen  
She goes and tries to pull him off  
Of her best friend  
He hits her  
So hard  
She flies back a couple feet  
She gets up and runs into the kitchen  
To grab the knife  
That has killed many before  
She goes into the bedroom  
Holding the knife behind her  
She walks to his side  
He does not notice  
He is too busy else where  
She brings out the knife  
And stabs her father  
In the throat  
Her friend is telling her to run  
She does not leave  
She unties her friend  
And they leave  
Hand in hand

Allison Unknown

# Happiness Stalls

So sad deep inside  
Pain ripping through the mind

Tears fall  
Happiness stalls

Heart so dark to care  
Not being able to destroy what is fair

Never letting go  
That just cant be so

Dying lives  
So many lies

Never being proud  
Not even loud

Do not pretend  
Just make it end

Allison Unknown

# Hate Life

Don't Worry, it's going to be over in a very few seconds...or years...what ever one you prefer.

Allison Unknown

# Heart Broken Boy

I said goodbye  
But all I got was a cry  
For valentines  
I want to ask if you'll be mine  
The time I left  
Was because of theft  
But now I'm back  
Starting new  
And asking if I can get a redo  
The only reason I smoke  
Is because my heart is broke  
I have to confess  
You were better than the rest  
Stop pushing me away  
And let me stay  
Whatever I have to do  
I'll wait for you

Allison Unknown

# Heart Broken Girl

So many years  
That you've been gone  
I'm sorry, but I've moved on  
Those roses  
You gave me last time  
To me is like a crime  
I lost my love for you  
There isn't anything you can do  
I needed you  
And you needed me  
I missed you  
And screamed for you  
But you never came through  
You killed my heart  
And it will never be revived  
So just leave me alone  
And let me fight on my own

Allison Unknown

# Heartless Man

His eyes were lifeless  
Not moving an inch  
He just kept staring  
Off in the distance

This man had no feelings  
It's like he is heartless  
Not screaming or talking  
Not even a little peep

Why oh why  
Did I try  
To get something other  
Than just a stare  
From this man  
That seemed so heartless  
All the time

Allison Unknown

# I Gave It All

I gave it all to you  
My love  
My happiness  
What else could you want  
Im already yours  
Do you know that  
Im yours  
You must not  
Because you keep  
Asking for more  
I think and think  
Wondering  
What you could else  
Want from me  
Then I come  
Up with a solution  
I will  
Give you my heart  
With my heart  
You have my soul  
Be careful with it  
Its very fragile  
For it breaks  
So easily  
Is that  
What you always wanted  
From me  
I hope it is  
Because I gave it all  
Just for you

Allison Unknown

# I Hate You

I scream at you  
You scream at me  
You're a liar  
You might have loved me once  
But not anymore  
I come into school  
Wanting to see your face  
I had a miserable night last night  
I just needed someone to hold me  
And say I love you  
I go to my locker  
And grab my books for class  
I walk down the hallway  
Wondering where you are  
I go past a little area  
That is all just lockers  
I stop  
And turn around  
Something caught the corner of my eye  
I look around the corner  
And see you  
But you are not the only one  
There is also that prep  
In my class  
That I hate the most  
She slept with almost everybody in the school  
You guys aren't talking  
You're kissing  
I just stare  
I blink and come back to the real world  
I turn around and start to walk  
My cover is busted though  
Someone calls my name  
I walk over to them quickly  
And tell them to shut up  
We walk away talking about random things  
I was in a different world  
The rest of the day  
I start to walk home

And you come running up  
And tell me to slow down  
I dont listen  
I keep walking faster and faster  
You grab my shoulder  
And turn me around  
You can easily tell Im pissed  
Whats wrong you ask  
I say that we're over  
And walk away  
You ask why  
I tell you that I saw you  
You stand there  
And let me go  
You follow  
Slowly behind  
I can hear your footsteps  
I get into the house  
You pick up the speed and come inside  
I start to yell at you  
You start to yell at me  
I finally scream it  
I hate you  
I never loved you  
Leave me alone  
You stop yelling  
Your expression on your face  
It looked like you just had your heart  
Torn out of you  
I tell you to get the hell out  
You turn around  
And walk away  
I did not cry for once  
I guess you weren't  
My true love

Allison Unknown

# I Want To Believe

I want to believe  
But for some reason  
I just cant find  
The will in my heart  
To try to believe  
Everything happens  
For a reason  
Everything has  
A purpose  
But for I  
Have nothing in life  
To look forward too  
If it rains  
I wonder what the reason is  
For it  
If someone dies  
There had to be a purpose  
Were they getting to old  
Or is the world  
Being over populated  
That lives are having to be taken away  
From family and friends  
If I could have one thing  
In my life  
It would be that I would  
Believe

Allison Unknown

# I Want You Gone

I want you gone  
Out of here  
I never want to see  
Your face ever again

Never wanting to hear  
Your voice  
Or the music  
You love

Everyday I hear  
That song of ours  
Switch the channel  
Hoping to find  
Something new

When I try to fall asleep  
I hear that same tune  
Playing over and over  
Again in my head

'I can feel you'  
'All around me'  
'Thickening the air'  
'I am breathing'

I cant stand this  
Any longer  
I have to see you  
And tell you face to face

I want you gone  
Out of my life  
So where does  
This leave us

I think I may know  
You should go out the door  
Keep walking

And never turn around

Because I want you gone  
And out of my life

Allison Unknown

# I Won'T Suffer

As I sit there  
On the chair  
In the hospital  
And hold your hand  
And say  
Everything will be alright  
When I know  
That it wont  
Im trying to hold back  
All the tears  
That are trying to escape  
From my eyes  
You start to talk  
About what will happen  
When you die  
And I just cant hold back  
All the tears  
They start coming out  
Like they will never stop  
And you start to comfort me  
I am so selfish  
You are the one  
In the hospital bed  
Preparing to die  
And you are comforting me  
Thats just sick  
You are starting to let go  
Of this world  
I can sense it  
Coming to happen  
You tell me  
I have to promise you something  
And I say  
Of course  
You tell me  
To not suffer  
After you leave  
And I once again  
Say of course

Then you let go of my hand  
And tell me that you love me  
Then close your eyes  
Tears are starting to come  
And all I can hear  
Is that solid line  
I just sit there  
While doctors and nurses  
Come running in  
I get up  
And walk out of the building  
And remember the promise  
That I made to you  
My promise is that  
I won't suffer

Allison Unknown

# Ice Blue Eyes

Your eyes  
So sweet  
And sincere  
They change  
From ice to blue  
How I love those eyes  
Can we switch  
When your angry  
They are pure ice  
From what I fear  
You have this color too much  
Are you ever happy  
All those pictures  
Of you and I  
You have those same eyes  
They are never blue  
Unless Im their  
With you too  
We both have blue eyes  
Yours are prettier  
Than mine  
How we stare at each other  
Hours and hours  
Pass by  
When I say its getting late  
You stand up and blink  
Your eyes  
Turn back to ice  
We walk to the door  
By each other  
Not saying a word  
I open the door  
You go outside  
And turn around  
To say goodbye  
Your eyes  
Are so cold  
I get goosebumps  
On my arms

I want them blue  
Before you go  
So I lean in  
And give you a kiss  
You blink one last time  
Your eyes  
Are warm blue  
I get a smile  
On my face  
And so do you  
Knowing what I was trying to do  
We say goodbye  
Then you leave  
For I shut the door  
And say  
A little prayer  
For you to be safe  
Keep my blue eyed angel  
Safe to play  
With me once more  
For day after day  
I lay down  
And fall asleep  
Dreaming of those  
Ice blue eyes

Allison Unknown

# Just Die Already

Die

Your life is a mess

You have no purpose

No one loves you

Not your mom

Not your dad

Not your brothers or sisters

They all hate you

Go please just run away

Run where no one will find you

Crawl into a cave and just die

DIE DIE DIE

Get Help

You have options

You have friends

You have a purpose in life

Everyone loves you

You feel like you're the king of the world

Stick around and have everyone admire you

Well That's Just Swell

It is ain't it

Just kill yourself now

Or live

What ever you prefer

Its your choice

My choice

Kill yourself

Allison Unknown

# Killer Animal

It lurks in the shadows  
Deciding who  
Will be its next victim  
Teeth razor sharp  
Claws like knives  
Ready to rip  
The flesh off  
Of its prey  
Using the bones  
As toothpicks  
And the fur  
For a warm blanket  
It hunts alone  
Not having to feed  
Other ones  
What is this  
Cruel thing  
It is a  
Killer animal

Allison Unknown

# Kissed By A Rose

Kissed by a rose  
With all the thorns  
My eyes become large  
And I can see a glow  
I see you  
Standing there by your grave  
I walk slowly over to it  
I kiss the rose  
One more time  
But my lips are cut  
So my blood drips onto the rose  
I plant the rose  
On top of your grave  
It blooms with red roses  
Little droplets of blood  
Dripping from the leaves  
The light that you shine  
Can be seen  
You walk to the roses  
And your light  
Hits the blooms just right  
I lay down on your grave  
My power  
My pleasure  
My pain  
I feel all of it  
At the same time  
I've been kissed by a rose  
On a grave

Allison Unknown

# Letting You Go

I lay on my bed  
In a tight little ball  
Tears streaming down my face  
I scream out your name  
No answer  
The music is blasting  
Only you can hear  
I cant take this anymore  
Being alone not in your arms  
I feel so cold  
I want you with me  
Life is starting to fade from me  
I want to see your face  
I want to hear your voice  
Where are you  
I keep asking myself  
You promised you'd show  
I see a picture of you and me  
We look so happy  
I grab the picture  
I clean the dust from the glass  
I kiss my fingers and put them on your face  
My tears are coming down heavier now  
I feel like I'm going to drown in them  
God I wish you were hear  
My sadness turns into pure anger  
I throw the picture of us at the wall  
It shatters into millions of pieces  
I now just recognized what I have done  
I worry I won't be able to fix it  
I fall to the ground  
Pick up the picture and hold it to my chest  
I scream out your name  
Ace, Ace, Ace  
Im lost without you  
I hit the wall with my fist  
I gouge a hole into the wall  
The pain felt so good  
It felt almost as good as that time at the lake

It was the first time you said 'I love you' to me  
I miss back then  
We were going to graduate together  
We were going to go to college together  
After that we were going to get married  
Have children  
Have a family  
We can't do those things anymore  
Now that you're gone  
I think it was my fault  
My fault you died  
Coming to my house for our date  
I wait their in my midnight blue dress  
The whole night I waited  
Wondering when you were going to come  
You didn't show  
You never did again  
I went to school wanting an explanation  
Someone came up to me and said 'Im so sorry'  
I didnt know what they ment  
Until I heard over the speaker  
'Yesterday a student named Ace died in a car accident'  
I screamed and everyone looked at me  
I broke down into tears  
I ran through the front doors of our school  
Didn't stop until I reached my house  
My mom was just getting off the phone  
She was crying  
She just found out too  
I think she knew what our plans were going to be  
In the future  
In life  
We went to his funeral  
I just stood there  
Watching everyone as they cry  
Tears were streaming down my face  
I didn't say anything for the next couple of days  
I didn't eat  
I didn't sleep  
My mother was getting worried  
She took me to a therapist  
I just sat there

They tried and tried  
Nothing worked  
My mom gave up on me  
She stopped trying to get me to talk  
She stopped making food for me even  
I was just a waste of space  
I decided that I should talk once for my mother  
I opened my mouth to say something to her  
All that came out were sobs  
She came and hugged me  
Kissed my forehead  
I missed being hugged  
I missed being kissed  
I went to school the next day  
No one dared to talk to me  
I sat with my friends and they just stared at me  
I probably looked like a mess  
Red, puffy eyed girl that looked like she wanted to kill someone  
I came home that day and went into my room  
I just layed on my bed and stared at the ceiling  
I look at my walls  
Pictures of you are everywhere  
I get up and tear them all down  
I rip them up and throw them in my trash  
I take my trash outside in the back  
Take a match and light it  
Throw it into the trash can  
I fall to the ground and watch it burn  
The smoke is black  
It flys into the sky like a free bird  
A bird that is a dove  
Meaning freedom and life  
I look back at the smoke  
It starts to rain  
Puts the fire out  
I go inside  
My mother is just staring at me  
I walk past her and go to my bedroom  
I blast the radio  
It was our song  
I scream and shout  
Cry myself to sleep

I don't go to school the next day  
I stay in my room and lay on my bed  
Just laying there  
Not doing anything  
I scream  
No one can hear me  
You can't hear me anymore  
You're not with me anymore  
You can't hug me like you used too  
My heart just hurts too much to think about you anymore  
That is why  
I'm letting you go

Allison Unknown

# Masked Victims

Walking in the alleys  
At night time  
When the beasts  
Wake up  
From their naps  
Always having  
To watch your back  
Shadows form  
Everywhere you look  
Just standing their  
Watching your moves  
All shapes and sizes  
More appear  
Calling to you  
To come closer  
Making you speed up  
Even more  
But thats no use  
They could out run you  
Any time or day  
Who are these  
Creatures of the night  
No one knows  
So they just call them  
The masked victims

Allison Unknown

# Midnight Creature

They run in the dark  
Swift and sleek  
Their eyes glow midnight blue  
They go in packs  
Teeth razor sharp  
Claws that scrape the ground  
They growl and fight  
Mothers with pups  
They bring in others  
As if they are all family  
They hold their heads high  
And howl into the night sky  
At the full moon  
They are a mammal of night  
They are  
The wolves

Allison Unknown

# Monster

I feel like a monster  
Trapped in  
My own little cage  
Just trying  
To be free  
Of my secrets  
Trying to hide  
From the beast within  
All the nightmares  
I create  
For all man kind  
Just screaming at me  
Telling me Im a monster  
Someone please  
Come make this end  
Before I tear  
My soul apart  
So that the beast in me  
Will come out  
I must confess  
Of what I feel  
Like a monster

Allison Unknown

# My Enemy

I cannot explain  
All the grief and sorrow  
I feel about you  
You used to be my friend  
But now you come towards me  
As my enemy  
I said one thing  
And now  
You hate me  
Giving me  
The cold shoulder  
You were all I had left  
You were my only friend  
And now I lost you  
I don't know what to do  
You have other friends  
I don't  
Every time I see you  
My heart  
Just becomes  
A cold stone  
I feel nothing  
When I see you  
Except pure hatred  
And anger  
So my old friend  
You are now  
My enemy

Allison Unknown

# My Eyes

I say  
I love you  
Right to your face  
So you know  
Of how I feel  
About you  
You say it back  
I love you  
But I look into  
Your eyes  
And see that  
You really dont mean it  
Can you look  
Into my eyes  
And see if Im lying  
Because Im not  
Lying to you  
I just cant  
Thats impossible  
For me  
To lie to your face  
Because you read me  
Like an open book  
You know  
If I feel horrible  
You know  
If I feel great  
I hate that in you  
Being able to read me  
Like that  
Im learning though  
How to shield my emotions  
So no one can see  
Of how I feel  
So see if Im lying  
And look into  
My eyes

# My Teddy Bear

My teddy bear  
So sweet and small  
I've always had you  
From since I was three  
You were there  
When I got my first homerun  
You were there  
For my first day of school  
You were there  
For my first kiss  
Don't you remember that  
We were at the park  
Under the stars  
Laying in the wet grass  
Cuddling with each other  
You might not have seen it  
You were in my backpack  
But you were there  
And that's all that matters  
To me anyways  
There is something wrong now  
You are getting old  
You keep getting holes in you  
Ones I stitch up  
Trying to save your life  
It's no use  
You're just too old  
It was fun while it lasted  
My good old friend  
But it's time  
For me to put you to rest  
So you can die with at least some fuzz  
Left in you  
Please remember  
Those good old times  
You and I had together  
I know I will  
Forever until I die too  
Then we will meet again

Allison Unknown

# No Noises

I scream  
And shout  
Still not making  
Any noises  
I try to talk  
But nothing  
Comes out  
I try and try  
Not getting  
Anything right  
I try to whistle  
High and loud  
But still  
Nothing comes out  
I think and think  
Having nothing  
Come to mind  
I get a gun  
As my last option  
And put the saftey  
On unlock  
I hold it up  
And pull the trigger  
Something came out  
No noises  
But a bullet  
That had my name  
Written all over it

Allison Unknown

# Octane Airforce

We salute  
To the beats  
Of octane  
As we are proud  
To help our country  
Deciding the songs  
That we listen too  
We do not fight  
In wars and battles  
But we do  
Defend the music  
Of our nation  
Our main weapon  
Is satellite radio  
So I am proud to say  
I am part of the  
Octane Airforce

Allison Unknown

# Open Wounds

Red spots  
Appearing on my shirt  
My wounds  
Are now coming undone  
I guess they werent healed  
All the way  
I never try  
To stitch them back up  
I just want to bleed  
To death  
I can feel myself  
Getting weaker  
How I love  
These open wounds

Allison Unknown

# Pain

Pain Pain Go Away  
Come Again Another Day  
If you do  
I don't Care  
Ill get rid of you some other Way

Pain Pain Come Again  
I really need you  
Without you  
I dont feel  
You are my only feeling

Pain Pain Go Away  
I dont really need you  
Just forget  
I wanted you  
Go and kill another one

Allison Unknown

# Pain And Sorrow For Life

My heart goes numb  
From all the things  
That he has done  
Truly you  
Can understand

Its not fair  
For me  
To go against  
This burden alone

So congrats to me  
For living this long  
With all the pain and sorrow  
Ive had for life

Allison Unknown

# Passage Way

Death is Great

I love to see what it does to a person

Death might not be great for some people

But for me...

It's a passage way to a new life

A start in heaven or hell

Death is everywhere you look

Might as well get used to it

It's not going anywhere

For a long time

Allison Unknown

# Poem Of A Prisoner

We will fight  
We will fall  
It doesnt matter  
We knew  
That we would die  
In the hands  
Of the Devil  
We tried and tried  
But didnt succeed  
With our lives  
Because we threw  
The chance away  
By doing something wrong  
That no one  
Will be able to forgive  
Lay us to rest  
For our punishment  
Let us burn  
In Hell  
Make us scream  
Out in pain  
Make us cry  
So others can watch  
And lastly  
Stab the knife  
In our chests  
So our lives  
Will be taken from us  
Watch us bleed  
Out in the streets  
This is  
A poem  
Of a prisoner

Allison Unknown

# Poisoned Mind

I cannot escape  
This poisoned mind  
Of mine  
Screaming in agony  
Eyes are burning  
Heat going throughout  
The body  
This poison  
Has nothing to do with love  
But it does with hate  
Temperature rising  
Tears start to fall  
Bleeding from the eyes  
I cannot escape  
This poisoned mind

Allison Unknown

# Prom Night

Its a dream come true  
My first prom  
The lights and colors  
Cameras flashing  
The night when hotel rooms  
Are the busiest  
Girls lose there pride  
Boys gain pride  
Its a lose win situation  
Its been months since Ace  
Im almost over him completely  
Im scared though  
To go with you  
To prom  
You gave me a room key and everything  
I dont know what to do  
Should I go  
Or should I stay  
We walk down the aisle  
Smiling at cameras  
As we go by  
We dance for a while  
Then we leave  
We go to the hotel  
There are many more  
Prom people  
We get to our room  
Non Smoking  
Room number 129  
Im scared for my life  
When you open that door  
I look in  
There are two beds  
Im shocked but we walk in  
I just stare at him  
He was already looking at me  
Big smile across his face  
I ask him what this is  
He says

I know you're not ready  
Im not either  
So lets wait  
Maybe we can help each other  
I go to bed that night  
Full of joy  
I fall asleep  
But wake up in the middle of the night  
I hear bed springs  
From all around me  
Poor kids  
They dont know how to be responsible  
It will probably not last  
After this night  
I close out those sounds  
And listen to your breathing  
Slow and peaceful  
I get chills  
The blankets do not keep me warm  
I am scared of the dark now  
Thinking of things  
That wont go away  
I get out of bed and go to yours  
I get under the covers  
You wake up  
Asking me whats wrong  
I say just nightmares  
You pull me in  
Like the ocean did with the Titanic  
And say everythings alright  
Nothing will get you  
Im here  
I will be your knight  
In shining armor  
So now Im the princess  
That is locked up into her castle  
And he is my knight  
Who saves me from everything  
Lets see how long that lasts

Allison Unknown

# Pull The Trigger

I scream at you  
Telling you to do it  
Pull the trigger

You aren't killing me  
You're just killing yourself

Your eyes have no life  
They are simply blank  
No emotion in them

Put the gun to my head  
Or at my heart  
And do it  
Get it over with

Pull the trigger  
Pull the trigger  
Pull the trigger

Dead silence  
Then a bang

Pull the trig  
Pull th  
Pull  
P

You actually did it  
You pulled the trigger  
Killing me and you  
At the same exact time  
Congratulations

Allison Unknown

# Punctured Wounds

I lean my head back  
Inviting you  
To come on in  
And have a little bite  
Your eyes  
That were on my face  
Now fall to my throat  
You pull me in  
And hold my shoulders  
I can feel  
The cold  
From your hands  
Seeping through my shirt  
Your eyes  
As black as night  
Are still on my throat  
Your head comes  
To my throat  
I can feel a sting  
When your teeth  
Puncture my skin  
Everything seems  
So peaceful  
When you pull back  
I see your face  
Your eyes  
Are now  
A light blue  
That can pierce  
Through a heart  
So easily and quickly  
I walk and look  
Through a mirror  
And see  
Two small  
Puncture wounds

Allison Unknown

# Red Slush

I run through the white  
Winter snow  
Running from you  
You want me to do horrible things  
With you  
Trudging through snow  
Very hard thing to do  
You shout out my name  
I keep going  
A shot is fired  
I scream  
It hadn't hit me  
You call my name  
Telling me to come back  
I don't listen  
To you  
If I come back  
You'll hit me  
You'll make my life even worst  
Than before  
Another shot is fired  
It hits my hand  
I scream in pain  
I almost fall  
But keep going  
I know  
I will not get away  
Never have  
Never will  
You put drugs in my food  
Make me almost paralyzed  
Unable to fight you off  
I can't feel a thing  
Except your heavy weight on me  
I try to scream  
Your mouth covers mine  
I hate you for that  
Not letting me speak  
On my own

I hear a noise  
It's your belt  
Coming undone  
You take your shirt off  
Unbutton mine  
You start kissing my chest  
My face is covered in tears  
I want you off of me  
Then you get off  
I look at you  
You're staring at me  
Taking your jeans off  
You grab my legs  
I try to keep them shut  
You just open them again  
You rub yourself  
Against me  
I try to scream again  
You put your hand over my mouth  
And start to laugh  
Telling me to be quiet  
You unbutton my jeans  
Unzip my zipper  
And slide them down my legs  
Im completly naked  
So are you  
I close my legs one more time  
You yank them open  
Telling me Im being difficult  
You lay down on me  
And bite my lips  
You go down  
Lower lower  
You bite my neck  
You bite my breasts  
You are a sick person  
You look down  
And make it go in  
In and out  
In and out  
I start to sob  
You start to laugh

I hate you  
I hate you so much  
You scream out my name  
My hand hurts so much  
Im losing blood  
Too much  
You shoot one last time  
It hits my side  
I scream and fall  
I lay their  
Wanting to get this over with  
I put my hand to my side  
Pull it back  
I see blood  
I hear crunching snow  
You're coming closer  
You roll me over  
I stare into your eyes  
They are black  
Lifeless eyes  
You start to yell at me  
You hit me  
Many many times  
Snow starts to fall  
Down on my face  
Everything is getting darker  
Its almost pitch black  
One last strike  
I died  
You keep hitting me  
Even though you know  
Im dead  
You step back to look  
At my body  
You see the scars and marks  
You created  
Then you see  
My blood  
Going around my body  
That white snow  
I fell in  
Is now

Nothing but  
A red puddle  
Of slush

Allison Unknown

# Rollercoaster Of Life

Life is like  
A rollercoaster  
Its has its ups and downs  
Those up times  
Just make you want to  
Throw your arms in the air  
And scream  
Without being looked at  
In a weird type of way  
Then when you have  
Those down times  
You just want to feel  
Like your high in the sky  
Above the clouds  
Where no one can see  
How you truly are  
Life is like  
A rollercoaster  
That will never end

Allison Unknown

# Sands Of Time

I am going  
Through the sands  
Of time  
Wondering  
When it all went wrong  
Reaching in  
And pulling out  
Little stories  
Of my life  
When I was happy  
I crush the past  
In my hands  
And drop  
Little grains  
Of sand  
And keep moving on  
All my best memories  
Crushed  
By myself  
Making me forget  
That they ever happened  
Im still searching  
For what I was looking for  
Until I finally see it  
In the light  
I reach up for it  
And pull it down  
Into the darkness  
I hold it  
For only minutes  
Then begin  
To close my hand around  
Its little box  
It starts to crack  
And finally collapses  
In my right hand  
I breathe in deep  
And blow  
All the debris

From my hand  
I start to fade  
As my mission was done  
I destroyed  
The day I was born

Allison Unknown

# Shapeless Shadow

Im walking down  
An isolated road  
Wondering where my fate  
Should go  
Heaven or Hell  
What should I choose  
Heaven is on my right  
Hell is on my left  
I look to the ground  
For some help by my shadow  
But all I see  
Is a shapeless shadow  
On the left

Allison Unknown

# Sickness

I feel  
So sick  
Of this place  
Of this life  
Hot then cold  
Chills running  
Through my body  
I feel so sick  
Of all the lies  
Everyone has told me  
In this life time  
Why must they  
Lie to me everyday  
When they know  
I know the truth  
My soul  
Is getting weaker  
Every second  
I live  
So why not now  
Just kill me  
With this weird  
Sickness

Allison Unknown

# Snow Blizzard

Snow is falling  
Making it hard to see  
The temperature is dropping  
To negative digits  
Winds are picking up  
Swirling snow into piles  
Having little finger drifts  
Cover the roads  
Hiding the ice patches  
That are dangerous  
To most drivers  
Kids are no where  
To be found  
Only adults  
Out on the driveways  
With red and blue shovels  
Scooping up snow  
And throwing it off to the side  
These winter storms  
That most people fear  
Are the cold and miserable  
Snow blizzards

Allison Unknown

# Somewhere In Time

An unforeseen future  
Nestled somewhere in time  
Unsuspecting victims  
No warnings  
No signs  
Creeping along the sides

Tick tock  
Tick tock  
The bells run off

Allison Unknown

# Soul Killer

I'm sorry for whatever I've done to you. I never meant it, really. For the first time in a while I'm telling you the truth. You have to believe me. No, please no, don't do that, you think your just hurting yourself, your not. Whatever happens to you I take in the pain. Why do you think that you have never felt it. What Are You Doing! ? ! No! Don't go grab the knife. Stop, listen to me, this isn't the only way. I can help you, as much as you can help me. You don't know what your doing with that knife. STOP!

As I watched you stab that knife in your heart, I felt the pain that you went through. Everything you did and didn't. My heart is sore for what you did. You think you only killed yourself with that knife, you didn't. You took my life, everything I worked up to, but most important, you KILLED my SOUL!

When I watched everyone go to my funeral, some people cried, others looked like they didn't care that I was dead but I could see it, I could see how hurt they really were. Others came and cussed at me for being so 'selfish' I don't care. I was really surprised to see how many people really loved me, and for others I was their own personal hell.

'What? ' I don't care if it wasn't my time. Everyone dies at there own rate. Mine just happened to be today, watching someone take their own life in front of me, then I guess I was in death's way at that moment. Telling you the truth, it's like I was already DEAD!

Allison Unknown

# Sounds Of The Violins

Slow majestic sounds  
Coming from all around  
Flowers come falling down

The music that speaks to the soul

From dark to light  
Making people fight  
Turning it into something bright

The sun that shines down  
Helps people of not to drown

Giving them something to swim to  
Helping them come through

The darkness is gone  
Then the violins break out into song

Allison Unknown

# Stairway To Death

I cant escape this room  
Down in the basement  
I stand on dirt  
Waiting just waiting  
For you to come  
Down those stairs  
And say Im next  
Im here with other girls also  
They scream and cry  
I just stand there  
Wanting to go up those stairs  
But you never call my name  
I cant take this anymore  
I start to hear a beat  
In my head  
Going throughout my body  
I start to follow the song  
I fall to the ground  
And start digging with my fingertips  
They start to bleed  
I love this pain  
Too much then I should  
You open that door  
And come down those stairs  
And call my name  
I just stare at you  
You stare at me  
I get up  
And dust myself off  
I come without trouble  
Thinking its about time you came for me  
I go up those stairs  
Smiling for my last time  
I go through the door  
That has been my way out  
For so many years  
I turn around  
And just give in  
For you have burned me

With fire  
From the world  
Known as hell

Allison Unknown

# Suicide

What can it possibly do  
It takes people  
From the earth  
Every single day  
It makes families  
Have an empty hole  
Like a spot is missing  
From a jigsaw puzzle  
More found in teens  
Because thats when  
Popularity means most  
Most are kids  
Out of the crowd  
Some could be cool  
But dont have respect  
For themselves  
Its mostly  
Under pressure  
The sadness  
And pain  
In there hearts  
Finally win the war  
Against happiness  
And it just takes over  
The whole heart  
Making things  
Seem much worst  
Than before  
So they go  
And grab  
The knife or gun  
And kill themselves  
Making all the pain  
And sadness  
Go away  
Many people  
Still wonder though  
Why do they do it  
I know why

Because  
I am a thinker  
Of committing suicide

Allison Unknown

# Suicide Line

Step in line  
You are not the only one  
Every day or every night  
People killing themselves  
Do you know why  
They kill themselves  
People always wonder  
Or ask this question  
Why?

Just think as you are reading this  
Someone is killing themselves  
Did anybody try to stop them  
Maybe but not hard enough  
That person just ended their life

Others thinking about it  
Anger rises  
Happiness falls  
Someone just killed themselves

So come on in  
Step in line  
Wait your turn  
Before you die

Allison Unknown

# Suicide Wonders

I walk  
Dead or Alive  
I may look  
Alive on the outside  
But on the inside  
Im dead  
Some can see  
Past the mask I put on  
Everyday  
To cover up  
My true emotions  
But do they say  
Anything to anyone  
Of course not  
They want me dead  
As much as I want  
Myself to be dead  
And that  
Is truly a lot  
I know  
People do not  
Want me around  
And Im fine with that  
I get it  
So just think  
When you hear  
That someone in  
Your school  
Has committed suicide  
Think  
Wonder  
If you were  
A reason why  
They committed suicide  
And if you know  
That do didnt  
Think again  
Because you  
Could have done something

To help  
Save that life

Allison Unknown

# Tears Of Sadness

Sitting there  
Looking out  
At the horizon  
Feeling the wind  
Blow on my face  
Making my hair  
Dance in the wind  
Tears streaming  
Down my face  
Feeling not important  
Wishing  
That you would come  
And sit right next to me  
But for some reason  
You never showed up  
Never giving me a call  
To tell me  
That you wouldnt show  
Its getting darker  
Every minute  
Passes by  
Still your no where  
To be found  
Because of you  
Im crying  
These tears  
Of sadness

Allison Unknown

# That Empty Space On Your Right

Look to the right  
What do you see  
Is it empty  
Or is it filled  
I know I may have hurt you  
In the past couple of years  
But now Im here  
To try to comfort you  
Through all your fears  
If you need someone  
To just hold you tight  
I will be there  
Or if you need  
A shoulder to cry on  
I will be there  
And comfort you  
If you just need a friend  
To say hello  
And be there for you  
Think of me  
Because I will  
Be that empty space  
On your right

Allison Unknown

# That Little Beep

Laying here  
On my death bed  
Just wanting  
It to be done  
And over with  
Tubes going  
Throughout my skin  
That one little line  
That indicates  
If Im dead or alive  
Keeps beeping  
Little beats  
That is getting  
Stuck in my head  
Im getting  
So tired  
I only start to hear  
One flat line  
I know what it means  
And somehow  
I feel so peaceful  
That now  
I can sleep  
Without having to hear  
That little beep  
That indicates  
Im alive

Allison Unknown

# The Death Of Me

You tear me down  
But then try  
To pick me up  
You break my heart  
Then try to fix it  
You play with my emotions  
As if they didnt care  
How do you feel  
That you will be  
The death of me

Allison Unknown

# The Devil's Numbers

I walk down  
The firey halls of Hell  
Wondering what I did  
To deserve to be here  
Little demons  
Dancing by my sides  
Chanting that they have  
Found a new one  
Getting pushed and tripped  
Falling to the ground  
My skin is burning  
From the inside out  
I get back up  
To my feet  
And look down  
For I am covered  
In black sheets  
My wrists are starting  
To feel like they are on fire  
The pain is just  
So unbearable  
Something is burned  
On my skin  
It reads 666  
For that is  
The devil's number

Allison Unknown

# The Lives Of Two Great People

Alec

I know you and I  
Never got together  
So well  
But if you get  
A second chance  
Let us please  
Try to push away  
Our differences  
And start over  
Without the yelling

Adam

You are younger  
Than me  
But that never  
Made a difference  
Of how we would fight  
With punches and kicking  
Choking one another  
As if it was all  
One big game

I want you both to know  
That I love you  
With all my heart  
And hope you will come back  
So we can start new  
You have the lives  
Of two great people  
My friends  
My brothers  
I love you

Allison Unknown

# The River Styx

Forming a crossroad  
Between the living  
And the dead

Down this river  
To the world of evil  
Darkness appears  
Ravens flying near

The reaper comes fourth  
And take souls from the north  
Putting them in pain  
Making them go insane

Feasting upon there souls  
Making there hearts, turn to coal  
This is where the dead roam  
And call there place home

Allison Unknown

# This Is War

Moments to tell the truth  
Moments to still tell lies  
What do you prefer  
The time god  
Decides if you should live or die  
The time when you kill  
And not to feel the guilt  
This is war  
Some think its great  
Others think its hell  
People getting  
Shot or stabbed  
This is war  
They march in the shadows  
In the streets or fields of battle  
This is war  
We wear our medals  
Proud to be alive  
Holding little burning candles  
For the ones who died  
This is war  
To the right or left  
We will fight to the death  
Till the edge of the world  
Comes to a rest  
This is war  
We come home to our families  
Tears in our eyes  
Just so happy  
To see there smiling faces  
We kiss and hug  
Making sure everything is alright  
Then we say goodnight  
For the day has come to a rest  
This is war  
We will always have  
The memories of others  
Until one day  
We will see them again

In the light of shimmering candles

Allison Unknown

# This Place

Loud noises  
Coming from every side  
Whispers going throughout the class  
The walls are white  
No body to talk to  
Hearing people talk about you  
Don't turn your head  
Just keep looking forward  
Its too late  
They know you heard them  
There goes another person  
Into there little group  
Feeding them new information  
Rumors that aren't even true  
I did NOT go to an insane asylum  
I did NOT get arrested  
Why are you saying these things  
Don't you know I have feelings to  
My heart starts to break  
A tear forming in my eye  
Come on clock hurry up  
Turn the time when I get out of this place

Allison Unknown

# Time To Die

Tick tock  
Tick tock  
Time keeps going  
Out the window  
Watching it fly  
Right past my eyes  
Wondering  
When it'll be mine  
Day by day  
Night by night  
I go on  
Wondering  
Just wondering  
Fall asleep  
Wake up  
The same old routines  
Getting so tired  
Of it all  
Laying there  
On my bed  
Watching time fly  
Above my head  
I cant take it  
Time is mocking me  
Laughing  
Deep deep laughs  
Pointing hour and minute hands  
Straight at me  
I go and get  
Into my car  
Trying to get away  
From it all  
I start it up  
And back out  
Driving down the road  
I keep going  
Getting in that crash  
Saved my life  
Time is flying

All around  
They start to go  
All away  
Finally  
Im getting away  
From all of it  
So I guess  
It was my time  
To die

Allison Unknown

# Torn Apart

All of your games  
I cannot take anymore  
For they are just tearing me apart  
In the heart  
The arguments  
Between you and I  
Just hurt me  
Instead of solving  
The problems we have  
I cant take it  
Sometimes  
I want to say  
Its over  
But for some reason  
I just cant  
When you leave  
You dont even say goodbye  
I sometimes wish  
I could say goodbye  
To you  
Forever and more  
I wish that was us  
But its not the way  
Life works  
You may like me  
But you dont show it  
We may be together  
For a while  
But not forever and more  
Im sorry  
But I cant take  
Anymore of your games  
For they are  
Just tearing me apart

Allison Unknown

# Truth

If you gave me the truth  
Would it keep me alive  
From all the lies  
That you have sighed

I keep falling down  
So you pick me up

From all those kisses  
I get nothing but  
The truth escaping your lips

How many times  
Have I fallen for you  
Then change my mind  
For how I truly feel

You lie so much  
Do you even know the truth

You never gave me the truth  
So now I am dead  
Being buried  
With all your lies  
Still stuck in my head

# Umbrella Of Hate

Standing there  
Tears streaming down my face  
Holding up  
A black umbrella  
Emotions rolling off  
My umbrella  
Used to be white  
But then it turned black  
With all of the hate  
People have towards me  
Im trying to shield myself  
From getting poured on  
With hate  
My umbrella is getting heavier  
Every single moment  
For it is just catching  
Every emotion  
I cant hold anymore of it  
So I just collapse  
Down on the floor  
The umbrella  
Rolls away from me  
So all that hate  
I was trying to get away from  
Hits me in one swift move  
I started to drown  
For that umbrella of hate  
That kept me safe for so long  
Had finally collapsed  
On my pained  
Black heart

# We Did Nothing Wrong

We can love  
We can hate  
We still did  
Nothing wrong  
We are the victims  
As the violence  
Takes control  
We cant quit  
Until we try  
Just please  
Open your eyes  
And see  
We did nothing wrong

Allison Unknown

# When I Talk To You

When I talk to you  
My legs begin to tremble  
As if they were  
Going to collapse  
Ride beneath my eyes  
When I talk to you  
I get shivers  
Going up my arms  
That I feel  
Will never go away  
When I talk to you  
My teeth begin to chatter  
As if they were going to break  
Into a million pieces  
When I talk to you  
I feel so safe  
Like nothing  
Will get to me  
When I talk to you  
Im hoping to say  
I love you  
The next time  
I talk to you

Allison Unknown

# When Will I Be Free

I ask Him  
When will I be free  
He says  
I am  
I just have to believe  
Put your arms  
Toward the sky  
And think you will fly  
High in the sky  
Heaven has a ring  
Around it  
If you cant see it  
Still know its true  
From the eyes  
That are in you  
The older you get  
The more youll see  
You will understand things  
That dont make sense  
I want to scream  
I want to dream  
Giving us your life  
So we shall do the same  
And give our soul  
To the greatness of God  
You are free  
And always will be  
Amen

# Written Signs

People standing  
Holding up  
Written signs  
Oh how they feel  
About anything  
A girl and boy  
Standing right by each other  
Not wanting to talk  
They hold up signs  
The girl's sign reads  
'I Hate Him...'  
The boy's sign says  
'I love Her...'  
Relationships can be so hard  
A sad little girl  
Holds up a sign  
'I want to die...'  
Tears streaming down her face  
Sometimes they could be confessions  
A little boy  
That is filled with rage  
Admits what he has done  
'I killed my family...'  
A girl  
Only about fifteen  
Holds up her last sign  
And tells the world how she feels  
'Im Going To Commit Suicide'  
No one tried to stop her  
They made her do it  
Two little girls  
Dressed in red  
Hold up one big sign  
It says  
'Where is the peace in the world'  
Silly little girls  
Have you not heard  
The world  
Will never have peace

It is all one big war  
A boy  
So confused and lonely  
'I dont like being alone'  
Everyone is alone  
Even me  
No family  
No friends  
No life  
Dont let that bother you  
It doesnt bother me  
I am used to it  
People try to help  
I dont need any help  
Just let me live my life  
The way I want to  
And if I dont like it  
Then Ill just die  
All by myself

# Your Shoulder

Why do you love me  
Im nothing but a beast  
I scream and hit you  
Telling you to go away  
You just keep coming  
Why dont you stay away  
Please for my good  
I cant stand you  
Coming and telling me  
I love you  
To me  
When Ace and I  
Are together  
Whats wrong with you  
I should have told him  
That you said that  
To me  
For some reason though  
I didnt  
Now look what happened  
I can never tell him  
What you said  
Im sure he's figured it out  
That you said that  
Because I know  
Hes watching over me  
Making sure I dont  
Do anything wrong  
I must say thank you though  
I had no shoulder  
To cry on  
Then you came  
To my house  
And asked me  
If I needed  
Someone to listen  
Someone to help me  
Get through it  
I invited you in

You came in  
We went into my bedroom  
And sat down  
We just sat there  
Talking  
Then came the tears  
You pulled me closer  
And hung onto me tight  
Like you would never  
Let go of me  
I felt so safe  
In your arms  
It wasn't right though  
I belonged to Ace  
I could tell you felt me stiffen  
For you had let me go  
You stared at me  
I stared at you  
Then you say  
I should leave  
My voice is shaky  
I ask him why  
And he says  
You love Ace, not me  
I can't help you  
If your not willing to let him go  
He says his goodbye  
And walks out  
I wait until I hear  
The front door shut  
Then I cry  
A new batch of tears  
Of letting you go  
Not trying to stop you  
I shouldn't have let you in  
So I could cry on my own  
But I needed someone  
So bad  
To listen to me  
When I saw you  
The next day  
I went up to you

And said I was sorry  
You smile at me  
And said it was no problem  
We hung out  
The rest of the day  
Turning out to be best friends  
You're always there  
When I need someone  
I know you still love me  
But you do not say  
You are pushing aside  
All your feelings for me  
But tonight that's going to change  
I'm going to have you tell me  
What you think of me  
And you will tell me  
If you ask  
If I want to date you  
I will say yes  
Because I'm starting to have feelings  
For you too  
So thank you  
For giving me  
Your shoulder  
To cry on
