Anna Cellmer(06-04-1974)

Some Polish female living in the heart of the greenest region of Poland called 'The land of thousands lakes', married and mother of two beautiful boys, working at the University of Warmia and Mazury at the Real Estate Management and Regional Development Chair.

Poetry is the way I use to fill my days to make them full of love, light and smiles and hidden desires :)

A Kiss

I run through the rainbow
Drenching my mouth
In the pastels - tints
Of its passing,
Absorbing every touch of its colour
This warmth I love,
It pulsates in blood,
And I penetrate
Across its variety,
Pages of you
To become only
The small particle
Drinking from your mouth
My own soul

Anna Cellmer

A Letter

Just be it's enough to me
And please
If you'd ever need
Someone like me
If you'd ever feel lonely,
Sick, depressed, fail, or just not OK
Call me and
I'll come, always
Please don't forget my name
Don't forget address
And I'll come, always
Even if I should go to the end of the world
I'll come
Not because I'll sorrow you
But because I love you
And perhaps
It could be the only chance to me
To stay by your side for a while
Please don't be so proud
Just don't forget and call
If you ever need me, please
If I said or did
Something stupid, forgive me
I didn't mean anything wrong
You are this man I never forget
In my heart and I hope that
We will have a chance to meet
Someday
If it be your will
I'm here

Always love

Anna

Anna Cellmer

A Little Gift

I know that perhaps
You never wished
To find this room I stayed
When I was waiting for you
I know that you've never meant
To break my heart at all
You were just too busy for love
I know that you were confused a bit
To get my words free so suddenly
But you were strong enough to understand
That there is no way to find each other again
You are too smart to believe
That we could receive the same moment we've lost
In these passing days, my love
So just see what is left and take this little gift
I have had to you after years, nothing more
But I hope you like it,
When you know
That there is no price for this at all
Because I don't need you anymore.

Anna Cellmer

A Little Message

There is like that in our life
That sometimes we have to fight
With the nonsense of everything
We do on this ground
We all have to build
Some routine activity to live by
But the most important thing
Is not to lose your self within
All these things
To not lose your mind
And to enjoy this life all the time

The art of life is to know
How to play well in this world
Of course, but do you know
This soft difference
Between your own freedom
and this what you can call is right?

Oh this freedom what is that
There is not so fine
To not care about anything around
And feel free from this what you see but
Don't worry life without this
Contact could be very empty, very sad
So, you just have to adjust to the rest of this world
Somehow to feel good, to feel that inside you are
If you don't want to be alone all the time
And if you don't have the force enough to fight sometimes
Or if you have this force but
Don't forget this simply message

That all the art is not to lose your self
Around all these things
To not lose your mind
And your joy of life
And don't think too much about such things as I do right now
It's just without sense to care about

Just feel the life and have some fun
From the little things you do or this big one

Anna Cellmer

A Puzzle

Closed in the tin of my own
I forgot about the essence of the world
Remembered in this dance
Whirling, I come in more and more deeply
Inwards of my own images
But it's not me who is the riddle
On which all looks for the answer
Nor even none of you
We are only the element of the puzzle
In order to find
A right place in the suitable time
In order to not destroy the world
In order to not overlook it's chance
Of participation in evolution of the life
And then look in to the eyes
With the pride - not a shame...

Anna Cellmer

Addictive World

Higher knight

Jump to this little star

That I'm keeping hanged above

Just for pleasure for us both

What can be wrong in it?

Addictive you said

So what?

Can you find something around

Better

Right now?

This outside world

Is nothing so special

We all know it

So better drown

Deeper here

So you can eat

All sweets of my spreading wings

Created for you and me

To love and to live

Beautifully

From one to another day

We can fly like this

There is nothing else

Worth a while

More

Than this little spark of delight

Inside your mind

Anna Cellmer

Agreement

You just killed one dream
That I'd leave for you
my home
but I still can find another one
dream to live by
you just turn this love
into a simple affair
but it's OK
I can live with this
I suppose
maybe it's even better dream
for both
yes my love

Anna Cellmer

All Because Of You

It's all because of you, my darling
If my life seems to be a wonderful one
It's just because I've found you
If my words can touch you and give you warm
It's because you lighted me for you
If I'm special for you I feel this way too
And I smile but I'd never be like this if not you,
My love
I'm alive because of you
Because of this what I feel to you
And because of this open book
I write still and I wish, I wish so much to be here
I don't know when and how we meet
One day but, me too, my love
I wish this so much and I live for this right now
Just as for another smile from your side

Anna Cellmer

All Is Fine

All is fine

Yes

Just why each time

It hurts the same

This lack of the answer

This silence

I should used to this

I know

I should be calm

Happy

And I'm

Just this silence

For a moment

Is so heavy still

I can't stand this

But don't want press you too much

I don't want expect

You are perfect

I know this

So all what I can do

Is just to believe

I know

It's just sometimes

When I don't know what to do

To let you be close enough

To listen your thoughts

To hold

Anna Cellmer

All The Truth

What the truth are you looking for
Just take me and you will see it
Within my eyes, baby
All the truth
Is this what turns you on
What makes you feel
This way as you feel right now
So happy with me somehow
So come on stop this silly talks
About the philosophical aspects of the world
About this special place which not exists at all
Don't say that you look for the challenge in me like this
Just come and take me
In your words, in your thoughts, in reality
The way is the best for you and me
Occasionally or still,
No matter how you wish and dream
What kind of truth
Do you want to know more?
Just come and take me, honey
You've won me already
With this big lottery of thoughts
So you can have this what you want
You were brave enough
To stay my love

Anna Cellmer

All Your Letters

I love these capital letters you use

Writing to me your words

I love the message you include in them

I love each single thought

I can look at it and feel it so well

Sometimes they are as flowers

Touching deeply my senses by its natural beauty

Sometimes they are as a tender through strict little pins

That let me aware of my actions just done before your eyes

I love all tastes of them

And I wish doing more

To receive all kind of words you give

As a proof of your love or your warning as well

All kind are always so special and right

And hits home as you say so

I love them as you I love

Anna Cellmer

Another Touch

Seeing you from time to time
I always smile inside
We speak about nothing
It's like a prelude
To something else
Something more
I don't know yet
But I like this
Somehow and I know
You like this too
So we are waiting
For another time
Another way
To find
Each other
Someday
Perhaps
Only in our dreams life
But it is so nice
So strange
When I see you
Again and again
It's like a ray of a new day
Inside my heart
Another reason to smile
Another touch

Anna Cellmer

Are You Confused?

Are you confused over me, dear?
I know you want to be the right man still
But what to do with the situation like this
When the woman wants you and miss
And the way which means 'proper'
Can be just a great disappointment to her?
It's kind of trap I know but
You didn't know that you find on your way
19 years old virgin anyway who dreamt
About the man as you are
So, now you see what can be
With the little girl I use to be still
I'm a bit older now
And much more open for you but
This what I try to do
Doesn't sound right to you
But from the other hand
How to refuse such a offer?
I know that you don't know
What to do with me now
My love, but I just have a hope that
You don't charge me too hard
And that you know I'm real to you
In everything I say and I'm asking for

Anna Cellmer

Ashes

I left my lover
I left my friend
The man who loves me
So much and deep
I didn't love him
Enough to stay I think

Yes I wanted
I wanted you for a while
You are so sweet to me
But without him
I can't
I just can't
Be with you again
As you wish to

I can't love anymore
I'm broken
Not able to see
To feel, to live
I do not exist

He is gone
He is gone
He doesn't love me now
I can't stand my self
In his eyes so hard to me
He doesn't want me
Doesn't respect
Doesn't believe
That I'm worth his one breath
I'm leaving now
I'm not able to love
He is gone
His heart is cold for me
He closed the doors
Any way I can't see

By one cut

He destroyed all the joy of life
All love I have had
To the world

So I can't
Let you to come in
These are only ashes
Which stay
For today
In me

Anna Cellmer

Be Realist

I hate this word
I hate and why I must
Hear this so many times
"Be realist"
I hate to be realist at all
Why should i like this, why
I hate to be just a good wife
I hate live in my town all my life
I need to fly
I hate this science carrier too
I wanna be an artist a poet a writer a dancer
What ever it's not important at all
I wanna be a woman in love
But i don't wanna be a realist at all
No, no, no
I hate this kind of job
Realist means to me
Just live normally but it is so
Boring and mean
It's like nothing just things without any meanings
I never wanna be a realist, no
And i wish to find someone
Who let me be not a realist at all
Who let me fly who let me sing
I need love to dream about
I need the touch so shy again
I need whole world in my hand
I want the real love to start again
And new dreams about the perfect man
Who is touching me by his soul
So wild, so pride, so deep and so warm
By his merrily flowing thoughts and palms
I wish to be real but not realist at all
Every age, every time is great
To feel so good to feel OK
With this sensual dance
Living in imaginary embraced
Of my thoughts, so hungry
This voice, this touch, this caress

This deep oceans of desires hidden
Somewhere in the cave of their eyes
And within my and your soul
Still so mysterious, so unknown

Anna Cellmer

Beautiful Are Your Words Still

Oh so beautiful are your words to me

Again still

I hope you are not telling me this

just to f..k me one more time

But you know you can do it any way

So it's sweet from you

To be always so nice

Any way

That's why I love you so much

Anna Cellmer

Believe In Dreams

Do not kill dreams you believe in,
Embrace it

Even if some just have gone
Let moments of joy to fill you all
And relish it

Caress your mind by beauty and smile
And live by this every day
Do not murder hope
For something special which will come
Soon

Just believe and smile

And wait a while

And you will have it

Anna Cellmer

Beloved

What can I do my Beloved
That I'm happy enough
Only when I love you
Only when I see you
As a man I dream about
As a wonderful knight
I'd like to thank you
For your beauty
For your face so sweet to me
For your voice so tender
For the eyes I remember
Were always so joyful to me
I want to dream about you always
My lover from old days
I'll never forget you, my love
Your picture is always above
Every day and every night
I feel your understanding sight
And this is so much to me
That it just used to be
Forever.

Anna Cellmer

Best Wishes To My Friend

Natural born poet you are, and I?
I'm just a woman in love sometimes
But now I'm not sure
I have anything to say to this world
Your every breath is like a mystical dream
Which you can share so sweetly with me
But me, I'm just an empty space to fill
Without my own dream, I'm just a girl
Who doesn't have power enough
To change the world anymore
But I'm glad
I have a friend like you somehow
And I think besides
It was worth to try, to fly
But I can't promise I'll do it again
It's not so simple to me, my friend
I don't speak by poetry like this
I need to feel something special first
Perhaps it's just a question of the time
I wish to believe on this tonight.
Have a wonderful time this New Year
I wish you all the beauty in space
Which only you can discover so great
I wish you new poems so pretty
So wonderful and
I wish you reality as well, my friend.

Anna Cellmer

Broken Promises

So many broken promises
You did
But all I need
Is to believe
In all of them again

It's just because you are
This perfect man for me
I wish to be with

Anna Cellmer

Can I Come Back?

I set free my heart
From the ghost of love
I have had within my soul
And now I'm back
I can try
To love again
The real man
As you are
The husband of mine
Would you try?
Or it's too late for us?
Tell me because
I know now
Much more than before
And you too, my love
So, we can try again
Yes we can
Just don't crash this
By a stupid thoughts
and silence anymore
Let be again
Together
As never before
Would you like
To come home?
I'm here again
A little changed
I know it was hard to you
I know I hurts you but
I'm still your wife
And the mother of
These beautiful children we have
So, let try again
My real man
What do you think?
It'd work
To live happy together?
After this moment of the war
Within my soul and heart

That ended
Just a second ago
Please let try
It's still worth I hope
Yes let try to fight for love
For us
Not only for these children we have
Do you believe at me?
That it could work?
Let try again my love

Anna Cellmer

Carpe Diem

I hope you remember
This pretty life's rule
Carpe Diem,
Mon Amour
Because everything
What exists between
Such a while as this
With you and me
Is just an empty space
To fill and feed our souls
By memories and hopes
For the next
Miracle of love
Maybe these are just a few
Whiles like this
Which makes us to believe
That it's really worth to live

Anna Cellmer

Cold Inside

When I'm not in love
I feel this special sadness
Inside
When I start again
To be with the man
But I need to be a woman
So I go to another
Who makes me feel this way
And for a while it's OK
But this sadness inside
Is still racking my heart
To the end
Of the new romance
With the man
I'm not in love
I can't love anymore
If I know
That the man
I wish to be with
Is so close but silent and
In the deep of my heart
I'm still with him
In my dream
Lying with husband
Trying to love a new one too
Always this same
Sadness of the heart
After another cold night
Cold inside

Anna Cellmer

Come Back To Bed

I' wish to know
Why you don't want
To stop me at all
On this way to you
Which I chose
Some time ago
As you know

How do you like
This transmission to your heart?
Could you make love to me
In your dream?

Oh, yes
I want to be undressed
For you today
I want to show you
All these little steps
You could find
To make me feel so fine

Don't you know yet?
What should you do?
I'll show you

So watch me
I'm here waiting
Please come back to bed
Did you forget
How it is nice to be
So in love with me?

Because you were
I remember well
What you can give
To me,
My lovely man again

So watch me,

I'm here you can touch
Everything
But please don't hurry up
And try to not forget
About all these
Little part of me
Which are not always
So hot
Oh, yes I know
How it's nice
To feel your touch
Inside
To feel your lips
So sweet
Every little inch of me
Is hungry

It is so many years
Between us, darling
How do you feel with me?
What do you think?
Can you tell me your wish?
What can I do for you?
Oh, how it is nice
When I feel your touch,
You know you can ask
And you can get
Whatever you wish
You are my King
So, yes
Don't hesitate and
Come to bed
To me, so bare, so missing
I need your lesson again
I need it so bad
Please come back
I'm waiting for you
My teacher of love

Anna Cellmer

Come Inside

Come inside me
I want this so hard, darling
Please come inside

Anna Cellmer

Come To Me

I don't need your words
My lover
I don't need them anymore
I just want you to come to me
To go on this dream
Which've started some time ago
So, come to me soon
My love
Come to me for real
I wish to be your girl
I wish your fingertips on me
I dream about you within
So come to me soon
I'll remember you
All my life through
You can be sure

Anna Cellmer

Come Tonight

Yes you're right, my love
We don't need to hurry up at all
We have a lot of time
To meet each other
Step by step
We will know more and more
That you would fill my soul
To complete me whole
I don't want to disappoint you
Not at all
I just love to hear your voice
I just need to be sure of it
That you feel the same
What I feel
That's why I write
All these things
But I believe
That you want me still
And I have hope
For this love
Which won't disappoint
Anyone

I'm so hungry of your words
I'm curious of your soul
Your point of view
For the things
Your relationships
Your life which you live
As much as your touch and kiss
As much as your palms and lips on me
I want you whole in me
Please complete me
Be within
This is my dream
But you know
That I wish still
To have your heart
So I will try

To be this right girl
If you wish
Even living here
Within your dreams
About me
I wish to make you happy
And I know you want this same
And I love this
I want this
I need
So, please come to me
When I'll go to sleep
Come to my dream
I need to feel your touch inside
I wish to hold your mind
And kiss you for good night
Tonight

Anna Cellmer

Comeback

Just come to me
You don't have to
Love me anymore
Just come
And make love to me
Then you can go
Forever
He wont come
Here
I love you

I love you
The problem is
That you talk to another man

You told to another man
Come inside me

It's not truth
I never said these words
To another
I let him go
I don't want another man
Just you I want
He wont come
To me
Come back, please!
I can't live without you
I can't live

I'll come
Just be patient my love
I'm really busy man

As you know
I have this girl
but
You have a family
You have a husband
Be patient
And wait for me
And never have another

You left me, you left me again
How come you do this to me
My man
I love you

I was jealous
Never mention to me
About another
I'm passionate jealous man

I wont, I wont do it again
I promise
I love you

I love you

Anna Cellmer

Coming Back

I forgot
For a moment
About your existence
Immersed in dream
In real
Gorged with delicacies
of the World
Passed me on tray
From wine binding
I walked away
To stop for a moment
Think about you
And I come back now
Yours again
Washed from sin
By love
To you
Even without you
Even not with you
Always yours.

Anna Cellmer

Conqueror

You entered on my territories
You mastered them without question
Like William the Conqueror
I kept silent, expressing agreement
With your English imperialism
And now what, you resign?
Then fear, tells you to put out
This what you earlier lighted
You want peace suddenly
You play in the diplomat
You want friendship but you forgot
But a moment ago
You already had almost all.

Anna Cellmer

Could You Touch Me There?

Could you touch me
There?
And here...
And here...
And here yet
Oh yes
And don't forget
About this...
And there...
And here...
And here yet...
Oh it's wonderful
And here...
Here...
Yes
A little more yet
Please
And here...
There...
Yes
And there...
And here...
Here...
Oh, don't forget
About my little finger yet
Oh, My Sweet Boy
You are just wonderful tonight
Let me touch you now...
Let me kiss...
Yes I wish...

Anna Cellmer

Could You?

I can't face all days alone
You are only love I have ever known
I love this dream to live to
But sometimes it is just not enough
And I wish you could be here
I wish you could be my man again
I want to have you as a lover too
I dream about you
And I decided
So, what do you think about it?
Before I was wrong, to be so slow
And now I know
What I want the best
So, could you
Go with me to bed?
We shouldn't waste another year
We are getting to be old my friend
I think that ten Years is enough
To wait for you my love

Anna Cellmer

Cute Buster

I love in you even this

How sweet buster you are

Telling me that your heart was with the Polish team

But money you gave for another one

Which you find better in your mind

What a clever bad boy you are!

I adore it

It makes me smile

Cant help

You are just wonderful

Perfect

Cute

Sorry to say so

But I cant stop my words

After you call phone

I'm too happy to stop my self

I couldn't even sleep last night quite long

I had so many lovely emotions in me

I was just so happy

Amazing

Anna Cellmer

Daily Misses

I'm dying again
Life is so empty today
He is silent from two days
It's hard to stand

But he is back
And this is good
He is back in the way
He could
He is always to me
Occasionally
But loving still and only me
As he said
And I believe again

Love makes me not able
To do anything again but
I can't forget about love
I can't
And I'm in this strange condition during a day
External life doesn't exist
I wish to look at his picture that's all I wish
And wait for him
Months or years
Doesn't matter
And never wake up from this dream I have
I'm writing to him
When I feel I must
I write a poems too and that's enough
And I learn how to be patient in love too
As he wants me to be right now
He creates me from the start
Because I forget my self
I forget the world and the life
I have one direction from now
To be in his arms
Someday
Only this has some meaning to me
Anything else

Is just a dream

Anna Cellmer

Delicate Case

It's a case very delicate
I want you
But I know as well
That pressuring you too much
I can scared you away
And this way
I'll lose my heart forever
Because so far
I was just keeping you
Inside as a treasure
But I've never tried
To stand face to face
With this case
And now
I can't wait
Because I realized
That I just
Waste the time
Dreaming all my life

Anna Cellmer

Desert

desert
time is going
quickly
slowly
some things
to do
to control
make a coffee
dinner
TV
suddenly
something happened
excitement
talk
hot
high
feel
strange
smile
the end
desert
little things
around
dreams
life
hope
for the next
feelings waves
in the air

Anna Cellmer

Did You?

I wonder where

Do you feel the scent of me now

And how intensive it is still in your mind

Can you see me still, can you find

In all of those places you were write about?

Do you remember I asked you once

'Steal me'

You said that you already did

Really?

Wasn't just a loan?

I could think like this

When I don't see you now

Only your last words 'don't worry'

Let me believe and let me be calm

I wish it could be forever.

Anna Cellmer

Disappointment

I know it was just a while
But so intensive
So far I didn't feel
Anyone else and now
It is just a hunger inside
For something real
For something strong
Something so special
What was so close
I don't like it
I don't like the lost chances
This time it wasn't my fault
This time it is you
Who went out
Before real start
To miss everything
I don't like it
I know it wasn't my choice
And I can't do too much
But it's just
The last word I can say
For the end
I don't like it
I know we even
Haven't seen each other
But I don't like it
When the man who seems to be
This guy right
Is such a coward
By the way Mr. traveller
What are you looking for
At this world
If you afraid
Love

Anna Cellmer

Discovering

With you
I feel like
I just discovered
How beautiful love and sex
Can be
With all this
What is
In this short space
Between my and your lips

or

other things

we use

to this

Anna Cellmer

Distance

I don't feel you so strongly now
Your smell grows flat
It stayed only
An empty gust of oblivion
Your eyes walk away
How birds' flock
Disappearing in the blue of the ocean
But I stay here
Pressing in my small world
Again putting to shame
My own steps
And hands without support
I am not already strong
Loneliness wraps around me his overcoat
We become to be one
It is my soul
I became its incarnation
And I got lost in it
And I do not know where I am
And I don't know who I am
It is everywhere

Anna Cellmer

Do I Love You?

Do I love you
My man?
Do I love?
I don't know
Some part of me
Is still with you
but there is so much
Of me so alone
Independent from you
and wanting more
or just something else
I don't know but
I could be much more lonely
Without you
I know this
and I could
Feel that I waste the time
On this world
and now I don't feel like that
So it's quite right
and because of you
I have my beautiful boys too
So, you are on my route
I'm walking my own way inside but
I'm still living in your flat so
There is not so bad yet
Perhaps we still have a chance
To find each other again
But I need the light just a light
Without it I feel
I'm dead
and I just can't pretend
That I'm all right
When I don't feel like that
When I want just a dream
The whole day and whole night

Anna Cellmer

Do You Know

Do you know
What is the value of you?
Is that how many rules do you have
Or maybe how many you can break
How proper you are
Or maybe how free, individual?
How many skills you possessed
How cool, beautiful you are or how smart
Or maybe just how open hearted
How much money maybe?
How much power to say to others
They should live like
Or maybe how many loved by, you are
Are you sure
What is the value of you?
In this grand world?
Everything depends on you
And the world you live or just see
The world you go through
And how you do it too
To feel you do it right, I think but
Everything is so untouchable by this
What you are able to thought about it
Or maybe just a few or the one person
Can measure this
This one who loves, who knows you well
Who understand and who believe

Anna Cellmer

Do You Want Love?

I can feed my soul by this love to you
But are you sure you can stand this, my love?
Do you have the time and place
In your heart
To let this feeling grow?
Are you sure you want love?
Maybe just take this beautiful body I own
And that's will be enough?
Are you sure you want me whole?
You still have a choice
Because you are wonderful boy
Who I want

Anna Cellmer

Don'T Ask Me Again

What is this what are you asking for
Do you want words of love without love?
What do you mean by this
It kind of trick must be
I know you want that I'd think about you more
This is the reason of your wish so strange
This is the need of you to be with me
Even like this

Or maybe you think that this way
I'll start to love you
Living again
Within my own world of words
But it doesn't work like this at all
Such art for art doesn't have a sense
I need to love first to write about this
Any improvement I can't find
In this idea of empty light

Better to die in the cold ocean could be
Then listening me

No my friend I can't do this for you
I wont feed your soul
These words which I can't feel
I wont tell you these lies sweet
It's not a point to make it this way
Only real thing can be ok
Only real love can bring us joy
So don't ask again
About words of love
Which I could say from my heart

Anna Cellmer

Don'T Be Afraid

I just don't understand
Why you can't speak with me
My friend
Is it because I was too strong?
I was too open for you?
Telling you what I want?
Do you find me too hot?
Or sometimes too sad?
But don't be afraid
I don't have any altar
With your picture
To pray
You are the Love of my life
I have you inside
And I needed to tell you
About this
But now I feel free
I can do
What will be
The best
For you and me
So don't worry
And try to think
How to keep the touch
With me
Because I'm waiting
And I always will be
Your girl
In my dreams.

Anna Cellmer

Don'T Be Friends

No, my love
Don't be friends
We could destroy
Everything again
No, I don't need
Another friend
I want you as a man
Are you ready for some change?
I want to play with you
At this game
I want to wait
In the darkened room
For your hand
I want to see
Your silhouette on me
In the mirror
Which is hanging above
In my dream
I want to feel your frame
Trembled when you are touching me
I need to feel your tender fingertips
Wandering slowly,
Upward, inward
Of my body
I need you like this
Please come again
I miss you, my only man

Anna Cellmer

Don'T Be Kind

Please don't be just kind
Tell me what you really want
And if you don't love me
Just say no
Because I'm getting be so mad
Without you here
But with this hope
For you
I can't live normally anymore
I'm hungry you
And I don't know
What to do with my self
I'm so sad
Please I can't live
Just this hope
So long
I need you
So bad
Please come back
Or tell me
That I shouldn't
Miss you
Because your heart
Is cold
I feel I'm dying
From this love
But I can't
Leave you alone
I just can't
My Friend

Anna Cellmer

Don'T Miss Me

You say you miss me,
So why don't you come?
If you miss me, my love
So please don't
Just come to me
You know how I love
Your voice
And every touch of your
Beautiful shining soul

So please just come
Every time you need this
Every time you want
I'm always for you
As you know

Just
Don't forget it
My boy

Anna Cellmer

Don'T Resist

When the woman wants a man
So much as I want you
I think you have to know
That the world's custom is
That you shouldn't resist
Too much, especially when
You know me and I know too
That I'm not indifferent to you
That you were in love with me
And we have some chance today
I know it was very long time ago,
But you are still alone
And I always feel this same
So, stop hesitate and come
Because I'm waiting all the time
For a little sign from your side
Just let me know
That you are in love too
And everything will be good
I think that no one
Never molested you
This way I do
So, be happy
And be sure
That I love you

Anna Cellmer

Don'T Say I Wont Find My Home

What I can do with my wishing silly mind
Where to go with it
If I search nothing but love
But each time I'm closer to it
It seems I'm not able to drown deep

Is it something wrong with me?
What is this practical love you talk about
You don't believe I'm able to love like this?
You think I'm always far away from these who I should be with?
There is no help for me?

Please do not say this
I wish to hide right now right here
Not wandering anymore
There is no need
I know my heart and its greed
Don't say I want more than I should
Don't say I will never be able to find home

I'm a bit away now I know
My mind fly to another land
But do you think so
It will be always like this?
No I hope you are wrong

It was just another step to do
And right now there is another one
Finally I'll rest in his arms for good
Don't say I wont
You don't know this at all
Please don't say such words

I was never more sure anything but this
That one day I'll have to leave.

Anna Cellmer

Don'T Stop Poet

I feel good
when you find your self comfortable
Within my soul
You know you are welcome
I feel good in the place you create too
All your pictures are
so captivate so intriguing
And make me wish more
Please don't stop
You let my mind and heart grow
With wishes of talk
And this is actually all what I enjoy
Right now

Anna Cellmer

Don'T Wake Me Up

If love is nothing but ilussion of the heart
so let me live in this dream forever
let me believe still
that you and me
is we
Dont wake me up
I love to dream like that
Dont wake me up
I want to sing my song
Till the end of love

Anna Cellmer

Don'T Worry About Me

You turned your back on the crowd
But remember
That here is the heart
Which is beating for you
So never mind
And come back to me soon
I'll be waiting for you
Whole my life through
I'm not impatient now
You know that
You have my heart
So you can go away
For as long as you need
As long it is necessary,
Don't worry about me
I know how to feed my soul
By smiles beauty and love

Anna Cellmer

Dream

I want a big house
I want to listen to the music around
I want to play with my thoughts
I want to dance
I want to wait
For you inside
I want to see the ocean down
I want to take a bath
Naked delighting in the waves
Which are caressing me in the sun-rising light
And I want to come back
To our great bed
When you are just waking up
My man
I love you then
And you are
With me again

Anna Cellmer

Dreams

Anything is not so simple at all
I know, it's not like that
You didn't deserve
For such a strong words I had
You and me
It was something
Very special and beauty
But after years
It's just a kind of past
A wonderful dream we have but
We can't just forget
About all this reality around
We can't just fall to each other
As it was so long ago somehow
No, it doesn't work at all
The charm of our meetings is gone
But I'm glad that you are
This part of me you use to be forever
Just as a dream because I love it, my sweet
Yes I love it but I don't need you now for real
I swear

Don't let some dreams to become reality
We can destroy everything
Some dreams are part of us
And they should just stay like that

Anna Cellmer

Drowner

I go down underground
The hazard of existence
And I am in this tunnel
Of the submissiveness
Delightfully
Windingly,
With the laughter
I bite the fetters through
Of the reasonable honesty
And I'm drowned in the puddle
Of the ecstatic repugnance
Insecure tomorrow

Anna Cellmer

Drug

Suddenly I realised
That I'm going to be mad
And this poetry site
Is just a kind of drug
I see more then really is
And I just make a fool
From my self
I don't know what to do now
Who am I?
Who are you?
What I'm doing here with you?
I think I need the rest
To consider if I have a chance
To survive this time
Calling to your heart
Again

Anna Cellmer

Even If All We Have Is Nothing But Dream It's Still Worth To Live By This

Even if all we have here
Is nothing but wonderful dream
I'm able to die for it
Or at least fulfill my days
With joys and little tears
And thoughts so magical and sweet
That let my days come with new dreams
Which make my life so special trip

For all this I can only thank you
And my own heart so full of love
I suppose
And few beautiful friends too
Yes, for sure.

Anna Cellmer

Even If For A While

If I wish to be sure something
in this world
it's you - my love,
but you know too that
even if you dont have
too much to offer to me
it's alright too,
it's enough to believe
enough just to live by this
so long as it is possible,
if i say 'be real with me'
it is just that i wish you here
to be with me so open
and familiar and just as you are
I wish to believe in your heart
and your words
always so sweet to me
but you know
there wont be any consequences
if you dont,
even if it's all nothing but dream
I still appreciate that you came
to me just to light my life
even if for a while

Anna Cellmer

Every Kind Of Love

I think that this what I like the most
Is this scent of love I feel in the air
When I see such eyes as today
Then I can imagine my self
With this man who I find so special
And in some way who can be mine
Mostly this is the beginning and the end of the story
Between me and such a man as I saw this morning
I like imagine about the life of this man
Who seems to be so charming guy
With this 'something' in his eye

Yesterday I saw the car too
With the licence plate
I found from your land is
And it was so exciting, when
I imagined that it's you who came
To me suddenly
I know it's a little funny
To imagine such a things
And live by this
But it's something what I like
Maybe even more
Then a good dinner
In a fancy restaurant
Even more then the evening
With my husband and child
I'm looking for the touch of love
In the eyes and voice
Of the men I can meet on my way
My husband looked so familiar too
I saw in him the father
Maybe it's the reason we
Are together

But you
You were always
Just a man
The man and lover

And you stayed like that
Inside
You are the man I love
And I wish to be forever with
In dreams or in reality
However
Waiting, making love, touching
Feeling, being above

Every different kind of love
Is the reason I live here in this world

Anna Cellmer

Exciting Experience

Right now after a while
Thinking about this case
And about this crazy year
With all this love I have had
I can say that
It was the most exciting
Experience of my life
So, thank you for that again
Thank you for your silence
I know this end wasn't the best
But life is sometimes hard
So, I'm happy this while
I had with you
I'm happy because of this year too
So full of dreams about you
And now I just need
To find another reason to live
To write about
And to feel this way again
Because I love it the most my friend
I love to be in love
And nothing else is not
So exciting to me
I love to fly I love to believe
And I love to dream too
I don't think so that
I need some changes at all
I love my self
Just this way I am
So be careful men
I can charm you and come to love
But I will demand this same from you
Another way I'll walk away
To look again for another one
To stay with or to go
You never know.

Anna Cellmer

Expectations

I don't expect
You'd marry me
No, my boy
This what I want
Is something much more
I'm going to make you
The slave of love

Anna Cellmer

Fellow Passangers

Everyone has this same problem all the time
How to live on this ground
And how to be happy with it, somehow
Everyone want this same
All the mankind one by one
All we are just wandering through the years
To find out in the end, the perfect way
Of our existence here
We all wants to be drowned sometimes
In this what we love the most
We are looking our own chances and smiles
Our own worlds and whiles
And in the end we are all lost
How to not love this world?
How to not love?
Some of us are monsters
Some of us are just a simple guys I know
But we are all looking for the same basic goals
We are all looking for the same in the different ways
And we all are lost in the end of course
But what to do then?
Let's try to no loose all this time we have
That's all we can do all we can be sure
It's always worth to fight for this
What we miss the most
It's always worth to look
Another way to go through
Or to not go at all too
It's always worth to believe
It's always worth to be real
And it's always worth to drink
Another cup of tea, I think.
What else?
Just don't forget
That we are all here
For this same
We all share this same end as well
So, don't be so alone
Don't be even so strong

We are together one by one
Living here on this Earth
So, maybe it's time to stop this fight?
What do you think the friend of mine?
Do you agree with me, somehow?

Anna Cellmer

For You

A thousand nights after you, when
The time was flow
In to the rain of my thoughts

A thousand kisses after that, when
The night was grow
In to the madness of my hungry soul

A thousand thoughts about you, when
The day was slow
In to the single voice of my own

A thousand smiles through you, when
The time was come
In to the shinning heart of love

I owe to you, my love

Thank you for be this first man I saw and loved
Thank you for make my heart so strong and know so much
About truly delight of love inside

I'm sorry too that I wasn't ready yet to love
And that we lost each other somehow during this time
When we had some chance yet for more

But, my love I know that you have had your own plan for life
And I had mine, I know it wasn't so easy to stay together this time
But I want you to know that I'm glad
I met you on my way
I'm glad you were this first man I fell in love with
And I know it was a good choice to stay in my dreams
And memories forever
I know there is no time for us anymore
But thank you again for all this time I was so full of you
And even for this that you came to my world and you `ve gone
Before this love could die in my heart somehow
And now you are living here
In the deepest part of me

The man I loved and I love still as a memory

Anna Cellmer

Forester's House

The last raindrops
Flow down from the windows
Of my little forester's house
There is still cold here
It lack me your warm
You've never been there
But however I miss you
You vanish in a downpour
The whole world disappeared
My forester's house glides in vacuum
Maybe someday it will subside on the shallow
I'm waiting for the ray of the sun
Its touch will restore the hope
That I will see you soon
Looking in the window
You will appear suddenly
As a visitor waited from long ago
And you will come maybe for ever
The spring will start suddenly
The green leaves will pierce the walls
And a joy will break in to our hearts
You will wake up me from numbness
You will unlock the outside doors
I will smell open air in your force
You will surround me by your tenderness and heat
You will refresh me by your touch
You will save me and my forester's house.

Anna Cellmer

Forever Apart

It seems that
This what you want
My love
Is just to whisper
To my soul
Your sweet words
To make me believe
In this dream
Which you never want
To make real
But I forgive you
I wish to dream
All my life then
So, do what you want
If you only know
How to make me alive
You can stay here
Within my heart
Forever and ever apart

Anna Cellmer

Forgive Me

You are silent
It always makes me a bit sad
Especially when before that
I had written something what
I regret
When I'm too emotional
To you sometimes,
When I have my black thoughts
or doubts,
And I have put them all to you
Then this silence,
Then I feel
Such an emptiness
Such a idle day,
You blend into me as a tree
I'm not sure how could I live
Without you
I don't want even to imagine this
You are within me
And it's enough to live
And to feel
Everything
What is possible
And to love you still
Forever and ever I will
And forgive me
Every doubt
I have had so far
Every bad word
Every thought
Which is against
Our love,
You and me,
Which is because
I feel so weak
Sometimes
Without your arms
Around me

Forgive Me My Love

I didn't know I can be so cruel in love
So it all just hurts you that I'm here
That all makes you feel insane
Because you can't
Have me the way you wish
Only because you are weak enough
To not do it
Only because we live
Too far away...

Yes I'm a bit cruel I know
But sometimes you run
and you don't think too much
What you do
You just run for this
What you find beautiful
And I found you
I crash in to your life
As a bomb
Now I see this
I didn't know
It will be like this
Believe me
I didn't plan this
But now I see
It's all my fault
Please forgive me
Forgive me
To make a hell in your soul
Forgive me
That you fell in love
Forgive me
That we can't be together
For real
Forgive me
That I'm here
Still so smiling and tall as you say
Even if you tried so hard to trample me down
Just to forget me

Forgive me
That I was so blind my love
Forgive me my write
Forgive me that I fell in you too
Forgive me
That I'm so far away from you
Forgive me to not be even faithful to you
Forgive me to let you down
Forgive me all my faults
I'm guilty
It's not you
You are just beautiful
That's all

You were harsh to me
Just because you wish me to leave you in peace
I shall respect this and I will
Thank you to let me live still.

Anna Cellmer

Fragile Line

My love
I wish to be only
A reason to smile for you
But sometimes
I'm afraid that
Whatever I say or I do
Is touching you
Not the way I wish to
So tender is this
Little commitment
So fragile
I have to be careful more
For this what I say
Each word, each action
Can be too much to stand
Can let you feel down
And this is the last thing I want

Anna Cellmer

Freedom

We can live as we want
We have the freedom
So, you can be my King
And I can be your Queen
My Love
How it's wonderful world
When you came back
To my soul
And I can sing
This song of love
To you
And I'm so happy to do this
My dear,
So don't be afraid
To use the words like this
Don't be scared to be great
Don't be afraid
To stay a King
You can be everything
If you only believe
At this dream

Anna Cellmer

Games

It's well to know what is right and what is wrong
choosing this what is good to you
occasionally just at the moment through
but even if you know
that something is just an illusion
take this and don't lose the truth
all the pleasure of illusion's world is
its fluency

Take me tonight deeply and free
I'm here for you
you can believe
even if we never
see each other

I can play with you
to love affair
taking a pleasure of it
to dissolve, to dipped into us but
I know that it is he
who's love is real
he is this one who stays by my side still
but I want you both
tonight, for a while, forever, whatever
our mild possession
devoid of big risk
because I'm here
you are there still
we just take a pleasure of our illusion
to inspire, to fly for a while
to rise this hunger for a special life
we all fight with the boredom outside
we play exciting games
to turn us on
to another day
living for a pleasure
for these whiles we can catch
we can suddenly find

tame the strangers
to create internal world
we can watch TV
it's almost this same but
less funny

My favorite game is to make
the stranger my friend

but these are
different kind of plays yet
friends become lovers
lovers become slaves
slaves become masters
masters become enemies
enemies become strangers

there is always some risk
between you and me

Another art is to devote yourself
in the name of idea
to everything you wish
God, policy, sex, pleasure, love
there is just one condition
in everything you do
you must be real
you have to be
able to drown
but of course
you can just slither on the surface
laughing
but is never enough
to the one
who name himeself the philosopher

Sometimes the family
is the key of true life too
you can built your life around
of this what you love, you care about
but sometimes the family
becomes this thing you want to escape of

to the world of illusions
it's not a bad world
just easy to crash
you can stay alone in the desert
trying to build your world again
but after years you don't have
so much force and enthusiasm as well
so there is some risk
your life' d stay empty enough
to let you feel bad if you can't
live for idea just

look positive
the light is better
then darkness
in a long distance
relationship
with the world

there is also like this
that we are going through
another step into the knowledge
if I'm the woman I know a bit more than the girl I was
if I'm the wife I know a bit more than miss
if I'm mother I know a bit more than wife
I'm mistress, I'm wife, I'm mother
everything is just process in progress
we turn into the wisdom of reality
we turn into experience
of our life

so jump into the life
Don't be afraid
this is the way
to fill your self

There is some story about life too
life is an empty glass
to fill
put the stones first
you can see the free space yet
so put the gravel in

not filled still?
put the sand
but don't put it first because
there wont be space for nothing else

Anna Cellmer

Girl Go To France For A Little Romance

Girl if you don't feel well
With this place you live in
And the men around
Aren't as you dream about
Let's go to France
For a little romance
And then you will feel
As a natural woman again
Because of this
Plaisir d'amour which
In this lovely wine's flowing country is
Yes I know this and I can recommend
Frenchmen are great
They know how to speak
They know how to kiss
They know every woman's need
They know where to go for a dinner
They have such a delicious cuisine
And this wine which is so
Delightful aphrodisiac to feel more
From this lovely cheerful kiss of simple love
Yes, girl if you don't feel well with the place
You live in, go to France, even for a while
To believe in your self and in the men again
I would stay there I'm sure
If I hadn't lost my heart before

Anna Cellmer

Give Me Just One Night

Please, my love
Don't be sorry
Of all these years
We have had lost
I know you never
Meant to break my heart
I try to understand
You had to go but
Now, please
Don't be afraid
Pick up the phone
When I'll decide to call
To start this new age
With you, my friend
Don't be sorry of the past
Maybe we needed this time
To understand a few things
But now, now
We could start again
So, please don't hesitate
Don't worry about me
Even while with you
Is worth more than everything in this world
Please don't let me destroy this again
Don't let me find another lover, my man
I want to be with you
Because it's you who are my love so true
Even if for a while
It's worth
Please wait for me than
Prepare your bed
Show me your place
And be my man again
This is all I want
From you, all I expect
Give me this
Give me your self
And this holy while with you
Which I could remember

To the end of my days
I'm ready even die
After this night
But before
I just wait for you
My Love

Anna Cellmer

Go On Deeper

If you are not going to fall in love with me
Then go away from my dreams!
Do you want me?
I don't think so
This what you want is just a little dream
But you don't want me in real
You don't expect anything, so
You have what you want
This short and flat bly bly
Between the strangers we are

Busy man, busy man
You don't have the time for love then
But do you know what the time is for?
You are so busy as you want
As you need and wish mostly
Are you the owner of your time?
Are you the master of your life?
Are you ready to go outside?
Are you able to drown
Within someone?

Anna Cellmer

Good Bye My Lover

Yes it was good time to say goodbye
I'm strong enough now to survive
I'm able to go further
and to appreciate all things that happened to us
you were such a lovely man
and it was a perfect romance
but it's time to go
to our separate ways - I know
and I accept
so goodbye
for good
and have a beautiful life
my wonderful sweet one
love

Anna Cellmer

Goodbye And Hello

Yes my love
I think I'll be always in love
With you
I'm glad I just can see
Your beautiful face
On this virtual space
And then I smile
To you
To my thoughts too
Even if now I'm more sure
That we wont see each other
Maybe for another year
Or more
I'll dream about your touch
All my life perhaps
But it's all right
I use to live like that
Mental life is as strong
Or even more
As this reality around
So we can stay as we are
Just here
Inside
Good bye
And hello
My love

Anna Cellmer

Goodbye My Lover

You see it is much better like this
To leave this way without anger and regrets
You forget I'm a whiles collector
And I can't have bad memories
It's not a good way for me
Just to live with sadness and hate
You are still able to make me happy
or destroy me as well
So it's good that your mysterious plan fell
And we stay beautiful to each other
And we can stay in peace
Knowing only this that if we could
We will be together.

Yes the world is as big and beautiful
as your imagination that's true
So thank you too to be so beautiful
And to fill my days by love passion and joy
You were just as you should be, my love
To make me the woman I'm right now
I hope I was able to leave some little sign in your heart
And that whenever you will think of me
You will smile and just feel all right
That something like that
suddenly happened inside your heart
Never regret never be sad
It's best like this
We leave
But we still have our memories
We still have our dreams
And this life as no one else
Because we feel and we are real
That's all that matter
My dear lovely sweet lover man
Yes I can accept this goodbye
But I'll stay with my memories
This you can't take away from me
I do not agree :)

Guns Is Not A Way For Peace

Using all the gun you have
Is not a way for peace
You will hate each other
Every day more
And after all when you finish
There will be no one and nothing to enjoy
This what you have both done
Why why you hate each other so much?
What's the reason of that?
Because you are Jew or you are Arab?
There is no sense in this
Forget the past
And try to understand each other believes
And try to share experiences
And learn how to talk
About everything including god
And let be free in everything
You do
Excluding violence
That you use so easily
And dont say you dont have any choice
It's stupid voice

Anna Cellmer

Hamburger

There is nothing more stressful to me in this world
Than eating the hamburger at the train station bar
So far
It's so big with so many things inside
And this is just not possible
To open your mouth so wide
To eat this without panic in your heart
That you can't get it right
And everything will go down
To the ground or on the table around
I did this maybe three times
In my life
I mean I bought it
And its always the same
I can't eat this hamburger
Not because of it taste
Which is quite normal bread vegetable meat and souse
But because of this stress
I need to fight with a piece of bread
And I do but after that
I promise to my self
Never again
How the people do this
How they can eat
Such a difficult things
Maybe they have better tooth
I don't know
Recently I was smarter then before
I got some fork but
It doesn't help too much
It's always very hard
So it was the last time
I bought the hamburger
I swear

Anna Cellmer

Happy New Year

Yes, I was a bit crazy
This time last but
Wasn't it nice to you?
I hope that a little bit was
And right now I just think
We lost our chance
For a spectacular romance
Oh, yes
So, my friend
I hope this new year
Brings to you a lot of joy and smile too
Because I believe that in life
Only this is important enough
To live with a smile to make a joy
Every day which is coming
From anything you can find
Through the whiles
A big planes are good too
But sometimes
The dreams are more wonderful
When it never come true
And this simple joy of life
Is everything what we really have
I wish you could find on your way
Some interesting people too
Because it's a great pleasure
And I wish you could be
So interesting to your self
Because there is nothing worst in life
Then to be bored with your self
And with the life you have
And don't work too hard
If you don't have to
Because it's not good to you at all
Just find the time for pleasures of life
For love too, and be good
As you are, I'm sure
So, hello and goodbye
My love

In this new year

Anna Cellmer

Hard Childish Words To Everyone Who Think That Work Is Something Very Important To Him

Hard work?

No, never

What to do if I don't believe

In the hard work at all

That it can help in life, to be better to be fine

To have whatever I want, to be more worth

If I still reach for this little star

Which would fall down to my hands somehow

And everything will be just like this

Just like in dreams

Then it's enough to wait and believe

And this is all I love to live with

I love to have some wishes

I love to believe that

I can catch all the world

Just like that

One day, somehow

Or just to believe at this

And share my dreams with someone else

That's it

But hard work, oh no

It's not to me at all

I can't believe it's worth to live

I don't have the force enough, I think

I don't have the time for such things

No, no not at all

I quit

Anna Cellmer

Help Me

I change my name
Almost every day
Once I start to be brave
And I see my self
So strong so great
As a queen of this game
As a woman from your dream
As an Athena with
The sword of words
To win this premier price
You, I mean
But you know
That sometimes I'm so weak
And I can't even speak
Standing so close to you
And I don't know at all
What to do with this heart
So broken-down, so afraid of
This real truth or of even you
And this life too
Please help me
To understand
What should I do
To be with you
My friend

Anna Cellmer

Hey I'D Like To Know

Where are you, my lover
Where Is your home
What do you do these days
Are you there
In your place?
Are you with me
In your dreams?
Do you understand my words?
Do you believe at this song?
Hej, is it you?
Who can read my soul?
Or I'm wrong?
Do you want me at all?
Hej, I'd like to know
Maybe you don't like
Make love at this crowd?
But don't worry about
I'm not very popular so far
How I'd like to know
Your heart and your thoughts
Please let me know
If you are in love
And that you are waiting for me
To come in reality

Anna Cellmer

How Much Me You Need?

Just sometimes

I worry a bit

You don't really need daily me

You have your world, pleasures, thoughts

That are so completely unknown

To my world

No me there still

It's ok I love when you come back

So suddenly sweet guest you are

Each time

So good to see you again

Yet still

I worry a bit

No daily me you need

Anna Cellmer

I Can Give You Only Bright Colors Of Love

It's a privilege
To stay
Your w...e
I've never felt so good
Before

Licking
Smacking
Sucking
Oh, so sweet
Is our little sin

We grow up
Together in it
In to the new beginning
In to the life

We are
As we are
Poets
Lovers
Sinners
That's all because
You are so beautiful you
And you let me be
Your w...e

You have a gift
To change the meanings
Of the words
My baby
My love
How it's sweet
Your c..k
In my mouth
Let's start again
I wish to have you
In my hand now

We were there
In our small room
And we did
As we want
Yet still
So little me
You let me to show
To you
No time, no place
To use all charms
We have to meet again
But I'm afraid
We wont have the time to lose again
And I'll need just to taste you, feel you
Listen
And to be your girl
again

It's just suddenly I felt
Unsure a bit
Am I great enough
To be your love
This lady you need
Your queen
I can be your w...e
Yes, this I can

I hope you were satisfied of me this way
Did my mouth work well for your pleasure,
Or should I learn more?
Tell me
I need to be your perfect whore
I need to give you the best love
I wish this and I want to know
How to give you more
And more

I forget to show you
My dance
We have to start again

This romance
You have to see me
Dancing for you
It's the part of the secret ritual
You have to see
I'm princess too
For you

But to be your w...e
Was so good
You know
And I wish to be like this
Again
Yes, my man

I love to finger my self
Thinking that it's you
Doing it so sweetly
Still
I love you
Doing it
To me
Here
And in all of those places
Train
Cinema
Such a wonderful things
We create
Being together
I miss
Your smile
The way you move
Our steps
Harmoniously connected
Your arms on my waist
Holding me tight
Your hands in mine
Our kisses in the crowd
On a bus on a tube
And your face

Your eyes watching me now
My beautiful
Oh, how beautiful
You are.

I never gave you any chance
To feel real loss of me
You do not know than
How violently but merrily you could
Keeping me inside
After my depart
I'm not strong enough
To give you this
I've never been strong enough
To leave
As you did to me
Twice
Perhaps
I'd never know
How much I love you
And have you
If you never tried
To tear us apart
For a while.

I should let you know
All colors of love
But I'm not able
To do that at all.

But you too
Never do this to me again
It's too sad
We live too far for this
To hurt each other this way
We have our own distance love
For years for now
And this is enough
To miss and to live

And to keep it within
As a treasure and our own dream
Don't you think?

Anna Cellmer

I Hope You Are Happy With Me

How I wish to know
You are happy with me
or no
I just want to be yours
So I'm writing this song
Of love
Do you think it's wrong?
To say to you what I want
That I'm still in love with you
And about this night too
I haven't planned to confuse you
Don't forget
I gave you so many chances
To say no, to tell me that
I shouldn't go this way
But silent you are
I'm not ready yet
To check
Will you answer
My phone or no
But we have still a little time
To wait for
So I just hope
You are happy with me
My Love

Anna Cellmer

I Just Came To Say That You Are Beautiful

I can't say yet if I want anything from you

I came here just to say

That you are beautiful

And that I enjoy this what I found

In your world

It's so different from this one I know

Maybe that's why so interesting to me

But there is something more in it

I think you are special

You gave me new smiles

You gave me wild dreams

During last night

Because I saw all of you

And I wished to be there too

This image so inspiring as frightener

But beautiful and sweet the same

What to do if I see only a beauty in you

Maybe we all miss for pain as for love

Maybe we all search for this what we can't find

In this simple world?

Without going a little bit the frames out

We can't really know who we are

I found your world tender, sensual and beautiful

No real brutality is in you even when you give pain is just to feel more

Besides I always believed in the charm of new experiences

As I saw on your site

How enjoyable!

Thank you, one more time to leave me with smile!

And quite excited!

That what is all about!

Anna Cellmer

I Know It Hurts You

I like this what you wrote to me
Recently
It helps me to believe
That you are a special man to me
I know you are not so bad
As I said to you
I know you care
I know you try to understand
I know you are a good man
And I still
Feel warm in my heart to you
But I'm afraid
This marriage can't be good
For both of us
For me and you too
There is something inside me
What makes me still think
About another life
About another place
Beside him
And I know how it hurts you
But there is nothing I can do
For it
I'm still the woman who lives
By my dream
And I can't just throw out him
From my heart
I couldn't live without him
I couldn't work I couldn't smile
Without his sight inside my mind
You are still so handsome one
And you know
What is right and what is wrong
I respect your mind but
Sometimes I think
That I'm not so good as you are
I like to be a little rude one
And this how you think
I should live I just can't

I love my fantasies
I love to be as I am inside
Without too many rules sometimes
I feel free then
And more happy
So, I think we can't be together
If you can't understand
Even this that
I need him so much
I need my lover to feel alive
I need my lover to smile
But if I'll go I hope
That you will forgive me
That I didn't love you
Strong enough to stay forever
I hope you can understand
You are the smart man
I know I should hide this
I know you shouldn't know
To save this marriage
But I can't be silent
When I love
I know it hurts you
And it hurts you strong
But this that you couldn't
Forgive me
Is the reason I should go
If you can't live with me and him
You must live alone
Because he is my soul
Without this man I couldn't live anymore
I always loved him and I always will
Even if he doesn't want me
Right now and right here
He lives inside me
And he will stay there forever
I tried to forget him
But I wasn't complete
I wasn't my self to the end
Now I know this
And I can live with this
But you don't

Even if everything happens
Only in my mind
It's too hard for you
So, I can't
I can't live with you
Because I'm cheating you
All the time even sleeping in your arms
I know it is sad for you
I know it hurts but
He is the man I love most
And I can't pretend anymore
That I'm only yours
Because it is not truth

Anna Cellmer

I Like The Way You Look At Me

I like the way
You look at me
I like also this
Shyness
I read from your sight
But this look is all
What I feel inside
Standing so close to you
That I don't know what to do
I'd like to stay a little longer but
There is no way
You have a company around
And I'm afraid
So, I go and I wait again
To see your face to touch your hand
But I can't do anything more
I'm too shy to you right now
I need to go out

Anna Cellmer

I Live For You Now

I live for the feeling
Like this
I have right now
From the time
You came to my life
So suddenly
I live for the man
As you are
I live for this night
I could spend
Within your arms
I live for the charm
Of these words
You gave to me so far
So sweet so wild
I live for you now
And for this
What can be
between you and me

Anna Cellmer

I Love The Way You Talk

I love the way you let me know

That you don't mind and that you love me what ever I do

And I wont lose you so easily as I'm always afraid that I could

You don't even know how much I love when you talk to me

How much I love that you are here still

I love when you are good and sweet

I love that you let me feel so good each time you come

However I'm able to express it to you

It's real and it's wonderful

My heart is yours

And this makes me feel

As never before

I learn each day to love you more

This is what I was born for

Anna Cellmer

I Love This In You Too

Yes I do worry a bit

That maybe you work too much recently

But from other hand I know

It's your entire world right now

It gives you power to live and to smile

And to make this world

A bit more tasteful and special place to live in

To enjoy

So actually

I love you are like this

So multi skilled, so active

I wish I could be like you too

I adore this and I'm proud of you

Except the fact you are so sweet and cute

Also that you know when to say no

And how beautifully you can make love

And talk

And you say you love me

And this make me feel so good

And then I know that this life is just so beautiful.

Anna Cellmer

I Love This Sweet Madness I Drowned

Are you sure my love that all we feel here
Is not but simple illusion of our heart?
And maybe we shouldn't meet at all
To not crash this sweet dream we own?

I feel so good in this lovely madness I have
I do not want to lose it
or lost any touch of yours
I do not want wake up to real life
I just want to believe in you and me
And live with this charm all the time
And feel you beside me
As I do now

Anna Cellmer

I Love To Know This

How I love to know
That you are my man
That you are my love
How I love to see
The words of you so sweet
To me
How I love to wait
When I know that you will come
Soon
To give me so much pleasure
To give me so much joy
How I love to be yours
How I love to believe
That you will come to me
For real

Anna Cellmer

I Love You

I love you
And this is so natural
I love you
And I can let you go
I love you
You live within my soul
I love you
And I smile knowing this
I love you
And mostly I miss you too
I love you
And I don't need to touch you
I love you
And this is enough to feel you
I love you
And I feel your words this special way
I love you
And I'm ok even if you are so far away
I love you
And it doesn't matter what you do
I love you
And you can love someone else too
I love you
And you can go wherever you want
I love you
And I can meet on my way whoever I do
I love you
And this is some kind of absolute
I love you
And the time doesn't matter anymore
I love you
And this is like a faith in a god
I love you
And I feel joy and calm in my heart
I love you
And this is like a dream I have
I love you
And you live here within me
I love you

And this sounds like music in my mind
I love you
And nothing can change this I suppose
I love you
Even just as a voice I hear still within me
I love you
And it's going on
I love you
And it's good to know this truth
I love you
And this is like a whisper to my soul
I love you
And this keeps me alive
I love you
And every time I think of you
I love you
And there is no need inside me anymore
I love you
And this love is pure right now
I love you
And this is fine

There is open space between us darling
I know
There is freedom that makes our love grow
There is time
That makes it eternal
There is a world
Where we choose our own path to go
There is life
That brings to us new lovers and smiles
There is place
Full of changes and surprises
Every day but this
What is between us
Never change
Even if it has many faces
And even if we can see each other
In many different ways
And this is a miracle
That makes our life beautiful
So, fly my angel of love

Fly to the beauty of this world
And let this life makes you happy and full of joy
But stay with me by your thoughts and mind
To feel me forever inside
And I'll be there
Wherever you will need to see me
And I'll support everything
You wish to do or to have too
And I'll stay here for you
Whenever you will need to come
So be free as much as you can
As much as you want
And be my love
Forever

You gave me freedom and
My love will fly to you
On the wings of desire

Anna Cellmer

I Said Goodbye But

Yes I said good bye to you
But it doesn't mean that
I stopped to dream
About your lovely face
About this perfect romance
About me in your arms
Yes I love you still
You are this right man to me
I wish to spend the night with you
I wish to be yours

Yes I got married
When you have gone
But it's not a reason
To not say any word
Besides romance
Is very common here
So, don't be afraid
Too much

I can't set free
From you
No one else is not
So cute
What can I do
I wish, I wish
To be yours

I don't understand why
Why you are afraid even to speak
What's wrong with me now
That you can't
Hey, where is this man
In you I met once
Don't waste this time
We could spend together
Just come for a while
You know what I want
Just take me my love

And then you can go
If you must
But don't leave me like that
Without any word
Without any sign
It's not right

Anna Cellmer

I Saw The News Today

I saw the News today
And I'm really afraid
Because you are there
On this black list
Of al-quaeda terrorists'
I'm not yet, probably
It's because my country
Is not yet rich enough
To be worth of the terrorists' holy bombs
But, my love, this way
I want more that you could stay
At my land for good
I need to protect you
I'd like to hide you somewhere
Maybe at this little town
When we met at the mountains
How I'd like to see you there
Safe and only for me, deare
But if you need to fly
Maybe only to get by,
So all right, I understand
You are the man, but
I spread the coat of love
To protect you forever my boy
I hope you will be fine
Because you are mine.

Anna Cellmer

I Should Protect You

All I have to do is just to learn

How to take you away

From all these dark clouds that suddenly come

I should protect this little castle of us

From the war

Hiding you in to the warm shelter

Of silent night

We have to wait in calm and peace

For another day with the sun

These storms are not good for you

I should remember and erase this all

I should protect the peace inside your soul

No need to rush it no need to say any word

That could just let you worry again

Yes there is always a smile after rain

So why share this all

There is no point

The war is over now

And we are born again

To another day

And a walk hand in hand

Anna Cellmer

I Shouldn'T Ask

Who am I?
I'm the woman
Married, mother of the two
Beautiful boys
Which aren't yours
So, what I'm looking for?
What can I offer to you
My Love
I wasn't strong enough
To wait for you
So long
And now I shouldn't ask
Of anything from you
I know, you are so wonderful
It's not important how I feel
I don't have the right
To be your girl
Yes, I think
That you deserve
For someone better
Then I could be
Because I've done everything
To him not to you as I should

Anna Cellmer

I Want You Here

I want your hands
Put on me
I want your head
On my breast
I want your eyes
Look at me
I want your smile
So sweet
I want your voice
Talk to me
I want your sight
Just be
I need your touch
I need you
Lying by me again
I need to play with
Your blond hair
I need you here
Please come back
To me

Anna Cellmer

I Wish To Be A Perfect Woman For You

I wanna be a perfect woman for you
Yes that's all I want to do
I want to stay your mistress too
That you could take me
In your office the break time through
I'd like to be your lunch
And you know that I taste good
As a orient fruit

And then I'll write another poem for you
To tell you how much I love you
How wonderful man you are
And if I get well with this
You will touch me so sweet
And so deep, that I could
Feel you so strong
And then I'll call you
My master

I can be some cleaner lady too
If I could make your bed
At the hotel you stay for a while

I'd like to be your secretary
If you will look at me
And tell me hello in the morning

I could be your little cat too
If you take me to your home
And give me some milk and caress

But the most I'd like to be a little mouse
That you could put me to your pocket
Then I will feel your warm, so close
And I could see the world by your eyes,
I could go wherever you go, besides
It will be wonderful to me to be like this

But if you want I can be everything you wish

Because I live in your dreams

Anna Cellmer

I Wish To Be Yours But

I wish to stand by you
I want to be yours but
Maybe I'm just a fool
To think that you do
Ever want to speak with me
When I'm not your girl

Or maybe I'm?
Are you still my man?
Have you ever been?
What do you think about me?
How I wish to know
Your heart and your thoughts

Anna Cellmer

I Wish To Know

I wish to know
Do you read me or no
It's so sad to me
When I start to think
That all I do
Is just nothing to you
And perhaps
You don't even find the time
To look
What I have to say to you
How it's hard to think like this
How it's sad to not believe
That someday you'd be with me
I'm not sure I could live
Without this hope anymore
It is growing inside me quite long
These thoughts embedded deep
Within my soul, and now
This dream becomes a part of me
And I can't even imagine
How could I live without it.

Anna Cellmer

I Wish To Know More You

How I wish I could
Know you better
My love
But I don't want to ask
About all things
You do
Because already I know
You
Good enough to be sure
What are these answers
You could tell me
But still kind of mystery you are for me
Still so hungry of your thoughts I have to be
Because you are silent enough
To be sure only - your love
Nothing more
How I wish to see
All your soul
Talking freely to me
During a night during a day
And in our entire dream we live in still
Just listening your voice I wish here
Just reading your soul
Is all I need
My dear

Anna Cellmer

I Wish To Know Your Daily Habits

I wish to know
Your daily habits
You live alone, so
You must like something
And dislike too
I wish to know
All of these
A little things
You do
I wish to be
Someone who can
Understand the man
As you are, my friend
I wish to know
Your thoughts
And desires
And your silence
I think I can
Forgive you
Everything you could do
And I wish to know
How it is with you

Anna Cellmer

If No One Can Stop This War Let All People Leave This Burning Boat

Lebanon is right now
As a drowning ship
No one cares too much
What happens there
Inside the all civilians lives
And how many of them are going to die
All care just who started
This fights and all agree that it is not nice
And dangerous for the rest of this world
This conflict which is going to grow
All our leaders agree that this is bad thing
But no one can help
It seems that there is not possible
To stop this madness at all
These two crazy men are ready
Just to go deeper inside this war
They want to show all the world
How they are big and strong
All foreigners wants to escape
So the governments tries to help
But what with the rest of civilians there?
Should they stay inside this hell?
If no one is able to stop this war
Let the rest of people go
From this ship they don't want to be in
Because there is not safe home within
It's not their fault that this war began
So help them to survive somehow.

Anna Cellmer

I'M Happy That You Are

I don't know, my love
We will be together or no
But one I'm sure
From this time I found you
I feel that I live again
And I'm so glad
That I have a kind of contact
With you
And this is enough
To be happy
Violently happy, my love
Because it's sometimes so hard
But please don't go anymore
So, far away
I need to know
Where are you, my boy
Don't disappear to me
I'm asking you about this
Even if you can't be with me in reality
Stay like this and try to be my friend again
Try to speak with me sometimes
Maybe you need more time
I don't know, but just stay where you are
And I'll be fine to know
That you are still on the range
I love you I accepted this fact
And I feel all right

Anna Cellmer

I'M Here For You

My sweet man
I'd like to ask you
For something today
I'd like you could love me this way
I'd like you could read and enjoy this what I say
Just like this
I'd like to be your private distraction
I'd like to be your favourite poet too
I'm here for you

That you would live within this dream land
Just with me
I realised that I have already found
The place for me and you at this world,
So, you know that you have my heart
But how do you feel with that?

I'm here to describe my dreams
To open your eyes for these secrets of art
Which are natant from my heart
Which are taken from your charm
My open soul is carrying you to this world
Where you should exist, my love

I'm this woman who lives in your dreams
So watch me and try to play fair
Within this game called love,
By the way, this play is for you
That you could know me well
With all the best I can give
To the man

I'm happy with you like this
I can dream about you always
But I need this dream to live
Do you think we could be
Together like this in real?
And at last baby, don't forget
You let me to do this again

You let me drown in you
Because you didn't say 'no'
When I was asking you
To stop me on this way to you
If you don't feel you could take this
And now is too late, my sweet
I just would like to believe that some day
You could tell me what do you think
About all these feelings I share with you
And with the whole world too.

Anna Cellmer

I'M Not In Love With You

I'm not in love with you
Not anymore I do
Everything I said was true but
It's just a past and now
If you'd even decided to come back
I won't need you as I did before
You are not a sense of my life anymore
You are just a past, am I right?
You are this moment in space I have but
You are not the one, no no you have gone
I just love to come back to this while
When you were so close to my heart but
I'm not in love with you anymore, no
So, don't try if you ever need me
This way someday, don't call
I'm not in love with you
And I won't be back
If not only in these dreams I have

Anna Cellmer

I'M Sorry But I Love It

Why each time I put another poem

On this wall

I feel like I loose a bit of us

This what we have.

I feel I can lose you

But it doesn't stop me at all

I love this risque

I love to wait

Your answer

What you can tell after all

I need your reactions

Like new water to drink

I cant live by memories just

Or dreams

I need you now

Even angry sometimes

Even mad

Even surprised unsure

But you

In love

Forgiving

Or amazed

I need you near

I'm sorry to be

Such a little girl

Using tools I shouldn't maybe

Writing about you and me here

I'm sorry

But I love it

Anna Cellmer

I'M Sorry For Black Thoughts

I'm sorry my love
I shouldn't accuse you
Just like this
Especially right now
When you are ill
I shouldn't be so angry
Because of something
What is not perhaps depended of
Anyone
I'm sorry to be like this today
You see I'm not even able to try to leave you
I was just so full of these sad thoughts
That you don't care of me
One more time I doubt
Once again I did this
I stopped to believe

I still hear your words
'Never ever questioning my love to you'
But it's so hard sometimes It's so hard
My love
To believe that you care
When I don't see this
When everything is against
You and me

Why do I feel this sorrow
Because of this what
Didn't happened

Why

I don't know
But now
Please believe me
I want you to live here
I don't feel well thinking that I could stop
No I don't want to leave at all
I just wish you could

Care a bit more just a bit
Just don't be silent too long
That's it

Anna Cellmer

I'M Sorry For You Terrorists

This same talk
All the time
And as I see
We have some kind of civil war today
And I hear this terrorists pray:
"You are hard worker,
You are smart,
You have more money, more power, than I
So, you must die"
In the name of God
Of course
Oh, poor people
How you are small
With your mad minds
It is so sad
I'm sorry for you
That you are not smart enough to love
Don't you really know
What is the best in this world?
That you can only make fun
Playing at this war?
With your dirty games
Taking pleasure from the people's fear
What kind of men are you? ?
Don't you really have
Anything to do?
I'm sorry for you.

Anna Cellmer

I'M Sorry My Love

I'm sorry my love
But I don't have
Much more force
To get you
Maybe you are right
It's rather man's job
I give up
I don't want
Anything anymore
Just don't forget
That I love you
Just don't be scared
To come someday
When you will want this
OK?
Just remember
That my doors are always open
For you
And that I miss you
In the deep of my heart
I'm keeping you
And I'll always
Have you
Some way
And maybe someday
We will share our lives
For real
And thank you again
That you left me
With this hope
My Friend.

Anna Cellmer

I'M This Girl

Something happened
Ten years ago
I met my love
And suddenly
The time stop
I was reborn
I was so happy
To know that I love
Even when you've been gone
Even staying alone at home
Because I believed your words
And I knew that
You just need some time
To fix your things around
And you will be coming back to me
To be my man as when it started
So I waited for you
So happy and so sad too
Because it wasn't simple
To love you without you
When you were always
So far away from this place
When you were so silent
But after some time
When I started to live
In the world of different feelings
And things around
I became shy and scared
That you are not real
So you started to be
My lover from the dreams
But now, against everything
When you are so close again
I'm more strong to believe
That I can be for you
This one girl you need.

Anna Cellmer

Important Things For Today

What is important to me today
It's just to stay as I'm
So nice girl, so sweet, so OK or not so much
It's still to live by my little passion
I have and enjoy it
And to believe and besides
Just live and love
These few person around
And this world and these words
Everything else is important too
Less or more
Like a work or
The simple daily pleasures
Every day through
With everything around
Which is nice or not nice
Or exciting sometimes
It's just a life

Anna Cellmer

In Love Again

And again

All I can do my man

Is just to dream

Of our sweet love

We have here

In our lovely trip

Through you and me

And all I wish

Is just that you could

Take a pleasure from me

So in love with you

Still

Oh, down to earth

It's so hard to be

When you are near

In To The Shadow

My silly greed for daily emotions
Kills another day
Of light
And turn my mind into abandon
So many words messing the air
I sent to you again
What is it for?
If nothing but you
I wish to have in my world
But I play still
Each time when new refreshing smiles
These little sparks of mystery
Put the shadow between you and me
And turn my world of words
In to the cloud of your silent voice
Please stop
I wish so
You know that the best feeling I keep inside
Is this one from you
Nothing can change this
Only you
Or this mess I make around

Anna Cellmer

Inside My Head

Inside my head
Is nice for you
Oh it must be
Because all of those thoughts
That came to my mind
After time
You live here,
So sexy thoughts
I can say
So fine

It seems you talk during it
Me after this
Yet our minds compare
As all other parts of us
Fit to each other
To live together
In the stars
Yet still
Down to Earth
We are
Romantic but real

Anna Cellmer

Insomnia

My hands wander about thicket of delusions
They go for the rhythm of rocking remembrances
The threads weave joining it with moments of happiness
They rock to sleep it's unfulfilled dreams
They build inexpressible, divine unreality
They compress - desirous to hug all mankind,
Helpless they shove after the edges of bed
They perish in the darkness shameless, naked and thirsty
Until they put to sleep lying on the sheet powerlessly.

They know more than I'm able to say
They still feel this what was so long ago
They are the memory of the past moments
They are the imagination of events which has't been
They are you and me and all that is
And what it lacks, they live and feel
Though they are feeded with only homesickness continually
They are as a spirits which never experienced the quiet
They wander continually, helpless in the face of they own torment.

Anna Cellmer

Instead Of All

Instead of all I loved when you say

That you respect my p...y

So you can't just come and go

And you will f..k it one hour or more

That was cute

Just as your c..k

So different you are

From all

Even this wild part of you

Is just exciting and so good

This bad boy in you

Is wonderful

My sweet tender brutal you are

And this way it's a real pleasure

To be your w...e

Yes, my love

You have a key to this door

Fits perfectly

Welcome

Internal Words

Sometimes I try to be hard
and not write for a while to you
To make you feel this way as you do
unsure
For a while
Is this love real
Are you in love with me still?
But my words are growing in me
And then I just can't
To not let you know
That I care that I want
you
I wont beg you for anything
I'm strong enough to not do it
But I miss your words
The sight of you
Momentarily I'm scared
That you go away but I know
That everything will be ok
I still have hope
For this special love
But if you ever decide to
Not start this in reality
Please tell me
Tell me everything you think
I'm so hungry your soul
Within me
If you decide to go away
I'll understand
I'll be sad
But life is like that
And we both must want
This same
To make this love
Great

Anna Cellmer

Invisible Hope

I know
That you are
Quite invisible
In my life still
But these little
Touches
I have from you
In time
Mean to me more
Than all my world
And this hope
For you soon
Is all
I really long
And live for

Anna Cellmer

It Doesn't Hurt So Much

It doesn't hurt so much
No you don't hurt me
This time too much
That you didn't come
Maybe because
There is natural
In us, that every time
It disappoints less
Besides I bought some new dress
So I can say
I'm in good mood today
Yes Just a little bit regret
Not even this that you didn't come
But this
That I believe less
In every word you can say
From now
By the way
Why you didn't come
This time?
I wonder if you explain
In some interesting way
This fact that
You Made me fool
Again
I hope just that you make fun
With this game
You call by big words sometimes
But now I know
That you just play
But it's ok
It's good to laugh
We don't have the time for sorrows
It's without sense to worry
About such things too long
I'm just not going to take your words
Seriously
So, yes love me more
And forever

Be my boy
And feel good with these sweet lies
Which makes us fools sometimes.

Anna Cellmer

It Is Sometimes Hard To Be Together Somehow

All they are
Just a beautiful strangers to me
But only you
Who is by my side
All the time
Only you are this one
Who I can be sure of
Only you are the man
Who wants to stay
Who cares of me too
So, maybe all these
Feelings I have
From time to time
Is not so important at all
Because it is you
This man of mine
And this is so fine
To live by your side
I'm the lucky one
I know
To have someone to love
And to be loved by
But you know that
There is sometimes hard
To be a wife
It is some role
I try to play good but
I know that my soul is against
Sometimes
To every roles I have to had
But I know that you like
Some of this in me too
But it is still hard
To live just like that
Without this what we felt
At the beginning
And what just disappeared
Yes it is hard to live together
Somehow

Everyone knows this truth
Everyone who try

Anna Cellmer

It Was Just A Dream

So you don't want this

In real
All it was
Nothing but dream

Once again
I was naive

It's all right too
I can understand you

It was just a dream
And it's time to wake up
Again

Anna Cellmer

It's A Long Ago My Lover

It's so long ago I haven't seen you

lover

is it all good in your life?

are your days full of smiles?

oh please let me know soon

I wish to know all you do

and if you are happy now or no

and if your face is so sweet

as it was before

and if your eyes

are hiding the same light and love?

oh comeback to just tell me this

please

Anna Cellmer

It's For You Right Now

You say you love my poetry
You say you read it
you eat it, you drink

Maybe it's just because
I put my heart
To every word I write
And you know too
That most of it is for you

I came to this world
To make you happy, you know
To make you my man, my friend
and my lord

So, enjoy

Anna Cellmer

It's Just

It' just that you fill my days by something

I can't live without any more

The most important little thing

that let all system in my mind and soul work

Without this I can't handle my days

I can't feel safe

I can't enjoy all what this life brings to me

and feel happy and feel free

to go one this journey and to love

Maybe it's because...

when you once taste

this special charm of real love

anything else is not so good for you anymore

to enjoy and to go for

Maybe I could find

a bit similar atmosphere

to create this special warm in my heart,

this belief, this charm but no it's never the same

I've found you and from now

it's just so important to me

that without it

I don't feel me enough to ever move out

to live without you inside,

so I will

But oh how happy I'm to see you again so close to me

My dear, my sweet, wonderful one

Oh yes also bad sometimes but so full of charm

In each thing you say, or you do,

you are just so beautiful

Such magic I can't resist at all

So there is no more to do but enjoy and take it all

I live by this what you offer to me

To create more love, to make you warm enough

And to make you as happy as I'm right now

With you, my love.

Anna Cellmer

It's Nothing But Mind

What makes you feel so fine

Seeing nothing but this naked mind?

This little spark of naughty smiles

Don't let you sleep at night?

Ha ha

Ups I shouldn't laugh this way

I know exactly how it works for me

And how dangerous it is

This mind creation in your head

Is all what really makes you mad

But happy too

So why not?

Anna Cellmer

It's Really Nice Mr Blair

How it's nice from your side
Mr. Blair that you decided
To open your door
For the Polish workers to go
To your country
I'm so proud of you too
My lovely English man who I know
That you are from
The country like this
And you know that
There is not very important
How many people
Would work there or here
But much more brilliant is
These possibilities
That some of us can just try
To go and fight
On this common war
For a better job and the life
Or just to go to know
That we can try to live and find
Something interesting
At the foreign land
Just for adventure and the joy
Of life
And for this wisdom
Which is coming
From the difference
Between you and me
How it's great decision
Mr. Blair
I really appreciate
And I think
That someday
I'll try to go
To find some job too
To be sure
That I'm good
So, thank you Mr. Blair

What else I can tell
It was nice to hear
Such a news today

Anna Cellmer

It's So Easy

Oh, so good
You came back
I can rest a bit
I can smile
So happy I'm right now
It's so easy you see
Happy with you
Sad without
Nothing between
Nothing around
Just me and you
Inside each other
Is all the world
Is love

Anna Cellmer

It's So Easy Now

How it is easy now
To sing my ancient whipping song of love
When you are waiting for me on the other side of this dream
With open arms
No real longings I feel inside my heart
Either wanting to be loved
If I feel and I believe in us
Someday together
So close

My love how I'm glad that you came to my heart
To live here inside

Anna Cellmer

It's Such A Long Story Of Us

Our love
Is such a beautiful long story
Each single word has a meaning in it
Each thought
We care so much to not spoil
This what we have
At the same time
We are just as we are
Free inside, so natural
In each action we do
And something else too
This what is the most wonderful
What ever comes to our minds
What ever we decide to do
It's always just so beautiful
And exciting too
It's because of this natural charm of yours
I suppose :)

Anna Cellmer

It's You Who Stayed

I place my thoughts
Before the sight of you
Searching this longing
I have still inside
Looking for the man
As you are
I find my self
In an empty space
Of wanting
Lost in the world
Which is just a flash
Of touching words
Floating from your minds
Across the light of my screen
The window is open wide
For all of these rays of smiles
Curiosity is a guider of mine
So I'm still looking around
To another one small world of your own
To catch to feel to feed my soul
But only you is this one
Who stayed for good
To belong
To want
To love
To waiting for

Anna Cellmer

I've Never Expected Too Much

I have never expected too much
From you, I think
I never expected too much
Just another day with you
Just another night
I have had hope for
Going to your side
I never think about us
Together forever, no
I just had wish to see you
To speak or even just to know
That you are you live
And to this day
I can't close this part
This chapter of my life
With you inside my heart
I don't know why
I like to come back
To this dream about
You and me
Closed in these special few days
We had a chance to get
Just like this
Just a little lovely place
In the space of my life
You are still
And this is really nice
To me
I don't know why.

Anna Cellmer

Journey To Heaven And Hell

Been traveling two days

Little journey to the dark side

Seems fine

For a while

Discovering new

Exciting pictures

From little hell

For sell

Oh, sweet sin

Seems to be

For a moment

Until you see

Something too dark

And all fun is gone

Only scar

Is it all real?

Too horrible,

Disgusting

So easy to find here to follow to have

Hell for sell

On the Earth

No boundaries

No heart

Just a big fat cock to smack

Right know b...h!

Slut!

Go one

Yes do your job!

F..k, f..k

Deeper w...e

Yes Master!

Yes!

Sir please more

Hit me f..k me

Piss

On me

Can't stand this anymore

It's too much

She cant

Like this

They are monsters

Nothing more

Pigs, jerks oh

No human at all

It was nice fun at the start yes

I cant deny

Some play

Some smile

And pleasure and pain

Yes

The theater

But then one picture too much

And I wish to run

Just run

And forget this hell

She cant love this

I don't believe

It was a rape nothing more

Disgusting scaring sick

What a gate I opened suddenly and why

To be aware to know more?

I don't really know

What is inside human race

Darkness

Madness

Is there god behind?

Can he save all of them?

Can he cure mad minds

We all can have

And give them the rain

And heaven

Without pain

Give them forgiveness or dream

Not boring but beautiful

Acceptable, a bit wild, free

Still black and white

Still full of excitement and this joy of fight

But clear, more clear

Not like that

Please

Please god if you exist

Don't let me see such movies!

It's too far from love and beauty

It's too far from reality

And dream I have to live

It was hard trip

Too much to stand to much to understand

I can't get it

Yes in to the shadow

I can find

This deep extreme joy

Of submission

To explore

To feel to know

Yes it's still so many ways

To try to go

Until you see

Something what is just too much

And you know

You have to be back

To normality

What ever you think of this

Be back to your own sweet dream

Of love of heaven

Of you and me

Yes baby

I'm back

Nothing compares to us

And this love we have

Anna Cellmer

Just A Drop

I thought I'm talking to my friend
But it seems that
You were always just a stranger
It is sad but I understand
The time is important to you
And these few days
So long ago
Do not exist anymore
Means nothing to you
Because it's just
A dropp in the sea
Of this life which
You used to live
Without me

Anna Cellmer

Just A Little Sign

Just a little sign of you
Makes me feel so complete
So alight within
I don't know why it can be still...
If I know you are not the man I should love anymore
I don't understand why I'm so happy again
To see just a little notice about you, my friend
That's simple smile to my soul to know you are still here
Nothing special at all but
I'm so happy to see that, I'm so glad
Another reason to smile during a day, so bright
And I'm all right even to know
That you and me is just a past nothing more
How it can be that I'm still so happy
To see another sign of your existence
On this world, I don't know
But is it important at all?
I wish you the best, my love
And I have a little hope too
That you wish me this same with everything I do
I just hope you are not angry for this what I've done
Telling you so many things
You didn't want to hear at all

You know and I know now too, that
I cannot follow you, my love
And you cannot follow me
You are the distance
I learned to live by
To feed my soul
This romantic love
Which couldn't work
If we stayed together
For real

Anna Cellmer

Just A Piece Of Your Heart

No one knows me
Better now
Than you
And you know
What you can't do
You are just wonderful
I'm ready for anything
That is why
You can't be mine
It is too late
For us, my Love
You are strong
And you are good
You are everything
That I have inside
I was hiding you for so long
And now you know
That you must stay
In my dreams zone
Forever.....but...
How I'd like again to
Have just a piece of your heart
In my hand.

Anna Cellmer

Just An Answer You Are

Your love is

Just an answer of my needs

You are coming each time

I'm calling you and I wish

You to be here

When I crave for you

Using the right words

But you are never here

When I'm silent

When I'm like this

You simply disappear

How it can be?

What should I do to make you

More active, more real?

Anna Cellmer

Just Can'T Forget

Do you think
I shouldn't love you still
After so much time
We haven't seen each other?
Do you think
That I just lost my mind?
Or maybe it's just imaginary?
Do you find me unreal or funny?
Please check me, my love
Don't wait too long
I know it looks strange
I know it doesn't have a sense
All these feelings I have but
Why I cry, when I think that
I should maybe give up
Because I already have
The family
Because you are still
So far away from me
Because you kept silent again
But I can't, I can't forget
And how come you come back
To this land where I am
You are so free and so strong and so alone
Don't you understand it hurts me?
I almost feel your breath
I see your face
And I just can't
I can't forget
I feel as a loser now
Only because
I wasn't strong enough to wait
For you
I dreamed about you a few Years
The next few I tried to forget
But when you came back why I'm married?
But you are so afraid to meet me
Why it's so hard to tell me
What do you feel with that?

I don't want to pay
For my mistake like this
I don't agree
So I must be strong
To believe my love
When nothing is told
I can change everything
Because nothing is wrong
In love

Anna Cellmer

Just Don'T Ask Me To Come To You

It's so nice you have been back
In the form you like the most
My love
As some sweet little answer
For the basic question of my own soul
Now all is going on the way it was before
Just don't tell me anymore
How much you need to see me
Just don't ask me to come
Because I know
You don't want this at all
Our home is here
Forever and never we change this
It's good to live here for us
So please never say such lies
As before
Because I don't want
To be fool anymore
By your pretty charming words
And this hope for something more
I feel good here and I never want any change
No no I wish to dream of you
Right here and more
But never ever want to see you
In real world

Anna Cellmer

Just Don'T Say That I Don'T Love You Enough

Just don't say that I don't love you enough

Just don't say that it's only you whose love is real

You don't even know how every touch

Comes deeply here to me

How this create every my move, every day

If I'm not good enough so ok go away

And never comeback again

You dont understand or it's not for you

This world i'm living for

It's not for you this heart

It's not for you

This light and smile

If it's giving you not this what you want

Be free to go or be free to love

Just don't say I don't love you enough

I'm as I'm

If you don't see beauty if you don't accept

Simply go away

Anna Cellmer

Just Don'T Say You Don'T Know Me

Be realistic and don't live by the past
You said and this is all I wanted to know
To be sure that I was just an episode to you
That's all
No, you are not bad
No, you just live
Your own world today
That's all
But don't say that
You don't know me now
Because you should know
I'm just as I am
And as I was before
And everything is here
You can come and see
And it was in my eyes before
You were just silent too long
To not let grow
All these dreams, all these words
Which were born in the past
And flowed away from my heart today
Now I'm just free from this love
I've kept so long within my soul
I'm free from you, mon amour
To live for real again
Without this ghost which you were
My sweet English boy I've meet once
You stay like that to me
Just in my dreams
So, don't worry
I wont let you know again
That I'd like to see you
In reality, old friend
You are the most romantic love
I have ever had
So, thank you for that you were
My man
Maybe in next life
We will meet again?

But at this life we can't
I know, I understand
It's not possible to move the rock
If you couldn't help
If you don't want this same
But I know that you are right
My man
I know I must stop this love
So I did, believe me
I understand everything
Just don't say
You don't know me
Because I think you know a lot
I was never more open
As right now
During this year whole
Through you could read me
As an open book
I did everything that you could know me
I thought
But if you don't
So, I was wrong

Your side of this story was quite short
You know?
But If you could love me
This way I loved you
We could change the world
We could be so happy
As no one was never before
I suppose but...
Life is just a life
And love is just love
As everybody know

Anna Cellmer

Just Listen Your Self

There is few who knows
This one of possible truths
That perhaps there is not god above
And we are all alone
On this world
But don't listen them
Only you know
If he is alive or not

Listen all voices that let you go deeper
In to your self
And listen your heart
Then the way you go would be right
Even if you try to run away
All you believe in is yours
Just as a dream
Just as love

Anna Cellmer

Just One Your Word

Just one your word, my love and all sadness disappeared
You are the most wonderful man of this world
And I'm the most happy and lucky girl
To have your heart and soul
I know

Anna Cellmer

Just This Word

All I want from you now
Is just that you could tell me
What do you feel
I'd like to know
Do you love me or no
It is just a few words
Then I'll be sure
That I'm here for you
And I'm not alone at this world
I don't need anything more
Just this word
I know how to live
Without you baby
But I want to believe
At this dream
Where you let me be within
So just make me sure
That I'm yours
Just this
I really don't expect more
I just wanna know.

Anna Cellmer

Keep Believing

I remember we were stayed
In this lovely rubbish room
Full of you and your things too
I remember so well
We were lying in your bed
You were talking so sweet
And so clear
I remember so well all the words you said
During these wonderful days
And that was just love
I never forget in my soul
But I still hope to be with you again
Someday
I think of you, my man
Every minutes, every hour
Of every day
I think of this
To drown in your arms again
I'll never stop to believe at this
My love
Yes I do I keep dreaming
I can't give up
I can't end it all
It'd be conflicting with my own

Anna Cellmer

Labyrinth

Another empty corner

Trapped me here

Yes it was a nice ride today

My little wildy need

Was dancing freely

For your eyes

Such art for art

Smiling gates

The show for two

But in fact

It was nothing so special

Yes nice little ride

To the stars

We all love it

From time to time

Just run rabbit run

But you know

And me too

There is an empty corner

And not enough

To fill your mind and soul

With real joy and something more

Than simple pleasure

Which is easy to find

But this is not what we really care about

Yet still nice

Anna Cellmer

Laugh

The sparkling herds
The imps of Idleness
Pierce me thoroughly
That they would extricate oneself
The pearly Mass
Of Impertinent Blaze
The uncontrollable Joy

Anna Cellmer

Library

She belongs to another race

Knowledge hunter

She follows a good names

To use them

For her own progress

In mean time

We are here

Drinking

The wisdom

Of our shelves

Unwritten still

Books of emotions

Anna Cellmer

Life

Life is just a collection
Of the different
Impressions which exists
During a day
Inside us and around
This place we live in
It's kind of mish-mash
Of our feelings
Thoughts and this
What really happens
To us
During this lessons
We get all the time
From our life

Anna Cellmer

Life Is Beautiful

My life is so beautiful
From this time I have found you
You belongs to me
I see your face around me
I feel you in the air
I find the sight of you everywhere
In every tree and the stone
On the grass and on the rocky hill or
During the sunny day and in the rain
Whole the Earth has the smell of you
Which I can touch by my thoughts
And it's so wonderful to feel you there
My life is so real again
I'm going all the years through
Taking delight from these sweet memories of you
I can feel you at the present things I do
And I can dream about these wonderful days too
When we will start to share our life, and I know
That I couldn't live without you anymore
Even just inside my soul, yes my love
I'm waiting again and I have hope
That someday you will come
And thanks to you I set free
My heart and my soul
And now this life becomes so light
You let me be for you, like that
I was missing this such a long time,
I think you know that
I'm like a bird which needs this song
To feel free and alight within my heart
So, thank you for that, my love.

Anna Cellmer

Little Sign

I don't have
Courage enough
To see you again
But it's good to know
That you are still here
So close
It's good to know
That everything
Is all right with you
I hope I didn't touch you
Too much
I hope you didn't have
A hard night
Because of this
Little sign

Anna Cellmer

Little Smile

Life seems so exciting
When you have your lover beside still

Anna Cellmer

Little Wish

Sometimes I think about this
What has just passed away between us but
I still wish to know your mind
Because this short time we met
Wasn't enough for me
To understand you, I think
You were not as I was dream about
I know but
You forget to tell me a lot
About your self about the questions I have had so far
About the way you felt
During this year and about the past
There is a lot I'm unsure of
So, I lack your open mind
And if I wish something from you
It is just to know a little more about your soul
Just this, I wish to see some note
About your heart about your mind
Here on this virtual site
Because there is no way to us
In real life, this I can understand
My friend

Anna Cellmer

Living In A Dream

I live within my memories of when
I'm there with you, my man
And sometimes I'm not sure
I want you more in reality
Or only here at this dream
Because this way
I have you even more
Than probably I even could
At this real life through
So, I can't decide yet
Is this dream just a waste the time
Or not at all,
Or something much more
I'm here with you
So sweet, so complete, so free
And this is great to me
You know?
Maybe it is just another dimension
Which is perfect for you and me
To live in
And we can do here
What ever we want
Yes mon amour
I want this dream
Maybe even more then you
In reality
I can play with you here
And it is enough to me
Still

Anna Cellmer

Looking

Trying to find a key
What is important to me
In this life, simply I can't
It's still not so easy
As it should be
Especially to me
Mother and wife
Who has a good husband
Beautiful children too
Nice job and friends
I shouldn't look for something else
I feel I don't have the right to feel like that
To search for something new all the time
But what I'm looking for?
What do I want?
More money, more sex, what?
Do I know?
Perhaps I'm just looking for
Something different I have
I'm just a little too far away
From this life I have
I still can't believe
That this is the way I should go
And that this is all
Besides I'm just silly girl
And I don't know what do I want
Or maybe I just like to search
This what I don't expect to find
At all
Always new land

Anna Cellmer

Lost All Illusions

You just didn't understand
Any message I had to you
So now I know
What I'm standing on
I just lost another love of life
And even friend I had hope to have in you
And all illusions I have had so far too
Yes I see now very clear
Yes it was all just a big mistake
We did both
And yes all I see
Is that we are all alone on our way of life
And all lovers betray
That's how you have used to this and live again
And be born for another day for another dream
Of perfect love
That will come.

Anna Cellmer

Lost Lover

You got lost my dream lover
Your ship sank
In the depths of life
Among which you forgot
Where you have to swim
You crashed on the rocks
Which I poured out for you
From the last tears I shed for you
I am free now
In the isolation of this place
Expectant of betrothed
I go there now where he waits
This who is and will be
And to whom I'm whispering
And he is so close
That I can hear his voice
Even when he keeps silent,
The one who I feel
The one who I see
The one who is me
Because I am his

Anna Cellmer

Lost Without You

Suddenly such sadness
Flowed in to my heart
You seem to be so far away
My love, my beautiful man
And I'm in the middle of this colorful crowd
Just to feel how empty is my heart right now
When I'm not sure if all I do is not
Just one step to lose you on my route
I love you
Please don't forget
I love you
And I'm just lost
Because I simply don't know what to do
To have you a bit closer to me right now
Why I must miss you so much?
Why do I waste so much time for
All around?
I'm just lost without you
And I can't stand this silence
I need breathe by love, I need
To prove my self every day
That you are this man
You are this one
I'll never ever wish to lose
I'll never ever stop to love
Even if it hurts me sometimes
When I'm not sure
If it's not too much for you
This me all
I'm so afraid you just want to go
Because you can't see here beauty
Or because it's tiring this love
Or because you don't believe anymore

Anna Cellmer

Love Creation

I've learnt how to
Not hide of this
What I miss

I've seen this
In my heart
What I lack

I've built
This world
Which can be
The essence to live

And then you came
To show me
What the love is

And then you filled
This open dream
I use to live in

To make it real

The guest of mine
Arrived and now
I have to learn
How to share this world
I've built

To create the new dream
About you and me
To live and to feel
The new space
And the new reality
In you
In me
In the place
Within

To make our hearts
So happy and shined
Just to make us alive

Anna Cellmer

Love Fears

It's great that I can
Write to you
Almost every day
I have something to say
But, my love
Do we have any chance
If I'm scared even call to you again?
And you afraid to call me back
I'm not sure of that
What is wrong with us
Why we are so shy
That we can't just speak
Normally
As everybody do
What is wrong with you?
What is wrong with me?
Where is the end of this story?
Can you tell me now
What are you afraid about?
You know that I'm ready
For a while as well for eternity
So, you don't need to be worry
What are you doing tonight
Are you waiting for my sign?
I'm waiting for this same
So please don't be afraid
And call someday

Anna Cellmer

Love Is You And Me

Love is the way
You and me
Feel each other here
Love is touch
Of your words
So sweet for me
Love is faith
In you and me
Let's be together like this
My love be here for me
As I'll be
And smile to me
That's all I need
My sweet
That's all I need

Anna Cellmer

Love Letter From The Past

Love must be just a while
In reality
And eternity
In your mind
after
I know this
I feel this
I experienced this
You are the proof
Of my new theory
Yes, you my Love
So much years far away
This quickly light
In my life
For real
But don't worry
This light stayed
Inside me
Besides
I found you
I can speak again
It's wonderful
Don't you think?

Please lose your head
It will be so nice
If you could do it to me
You wont regret
I promise
You are a little bit
Too strong
With this silence
So long, I think

Come on, come talk to me
You are worth so much to me
You don't need to be so hard
Let's think

How to tell me
About your wishes now

Yes you didn't come
To meet me some time ago
But you called
And now
It's all I have
To build my dream
To be brave
And to write, my Love
Having hope
That you want this

You don't know
How it's sometimes difficult
To believe
That all I do
Is nice for you
Because you love me

Yes because
I know how it is
If you are not in love
And someone try
To be so nice
And you know
That he just waste the time
Because you are cold

But you were never cold to me
You've just been silent too long
Am I wrong?
But I must give you some advice
Don't try to pretend
Just tell me
What I meant for you
I really need to know
I'm waiting so long
Please do it for me
And tell me or show
What do you feel

Because it's not easy to me
To live with my family
When I see you
So strong, so intensively
I'm still waiting for you
I don't know what to do
To change this

It's your turn, my Love
To be honest to be sure
Let me come to you
And please don't treat me
As a idiot
Only because
I still love you
And I'm writing
Poems about this
It's just once
I'm like that in my life
And only to you
You should be happy
I'm rather reasonable girl
Mostly
No one knows me as a woman
So crazy for the man
I'm sorry if it's too much for you
To stand
I didn't know
I'll do it for you
But I have to

Collecting a whiles
It's not bad idea
They are not heavy
So you can bring them
Everywhere you go

These are moments when I agree
With that situation
That you are silent
And maybe it's better

Perhaps it's the best way
To be with you
Right now like that
Maybe if we meet
If we would try to be together
It wont work at all?
It will be too difficult?
I don't know
But most of the time
I think that I'd like to try.

If you want
We don't need to talk
About the past
Just tell me
Is it nice to you
What I'm doing now?
Is it nice for you
That I love you?

I don't have a choice
I see you all the time
You don't know
How it's difficult to stop
I just can't concentrate
Seeing you in my bed
Even making love with him
Especially then
I can't stop to talk to you
So I don't have the choice
I'm in love,

I just can
Stop to write to you
If you wish
But it wont change
This what I feel
So maybe it's better
To tell you
It's better if you know
That you are still here

And you can't remove
And that I don't know
What to do
To be with you
And that this is all
I wish
But the worst is
That he is so good
I shouldn't hurt him
And I don't know
How to do it
If I want to be with you
And the children yet
Could they feel all right
Could they understand
The new situation?
In a new apartment
With you as a my partner?
It could be difficult
But maybe just
At the beginning?
Maybe after some time
It will be all right?
And my husband
Could visit us
And take them
To him for some time?
And we all could be friends?
I don't know
Is it possible
But it works
With his first son
That's why
I can believe
That it could be
Possible but
What do you think
About this?

I can't explain
Why I'm like that
Why I think about

Destruction of my family
But
I see you all the time
I can't stop
I know it's mad
Loving you
After so many years
Just because
I found you again
And I heard your voice
And It was
So sweet to me
And I was so happy
But what do you feel?
My Love
How do you find
Your role in my life
Now
So special

Do you love
To be loved by me?
Do you love, me?

I didn't know
That this year
I'll start to live
So intensively
In my secret life
But you are
Again inside and
What can I do
For that
You are so wonderful to me?
That I can't find
Another topic
So interesting
To live
Love is all I need
And you are my love
From the first day
I saw you

And still
I just don't understand
Why we are not together
I know I talk too much
About my love to you
But I can't find
Other words
To speak with you
I'm sorry
I'm so mono-topic
I hope you don't find
It's boring

For me it's just
A sense of my existence
It's all I believe
I'm sorry I'm so simple girl
Do you think
We should speak
Rather about the politic?
All right
I can tell you
That your Blair is a quite nice man
I hope that you like
Our president, he is ok
What else
I'm really sorry
Because of the war
But maybe
It wasn't so bad
To try to win with
Osama Ben Laden?
And Hussain?
They are not a good men
But war is never great
So many people died
Again no sense with that
People fight
Besides it's nice
We are together
In this big organization
The European Union, European Integration

I'm sorry we are not so rich yet
And maybe we try to much to take of it
But it's normal conversation of the politic
So let's not talk about this so much
It's hard sometimes to understand some of the men
Who are there on the top and who speaks in our name
So, maybe let's talk about your land?

British culture
what do I mean?
It's John Lennon
The Rolling Stones
I know you
From the history
About the conquerors
Henry XVIII
Queen Elisabeth too
And Irish conflict through
You have a nice queen
You have a Hyde Park
In London
You are rather friends
Of us
Excluding the Jał ta Pact
You have a nice
A Prime Minister now
You are known
In this World
But this what
I remember the most
Is one Englishman
In Jersey born
And all I believe
That love
Is all I need
This simple truth
In all culture
From the Lennon's lips
What I also believe
But love is not so
Simple now, I know
But all I can say

Is that I just can't
Forget
And I can't
Just let you go again.

I think there is one big danger
That all love I have for you
I'll give you in these letters
And then
I'll stop to need to meet you in reality
So if you don't want this
I think that you should think
About the date of our meeting
This or next Year, ok?
Yes maybe this is not the best moment
To be together
But if only for one night?
Could it be all right?

Anna Cellmer

Love Me Or Break My Heart

You know
You must love me
Or break my heart
Because your silence
Is too ambiguous
Too exciting for me
And this way
You make me
Your slave
Forever
Don't you see this?
Do you want this?
Really?
How long
You will tease me
This way
I didn't know
That you are
So cruel man
That you will play
With me
At this silent game
But just don't be scared
To speak with me
Just don't hide
Behind me
That you love me
I'll be calm I promise
I'll wait when the time
Will come
For us
Just don't forget
To tell me
What do you really feel
All right?
I won't resign
From you, my Love
Not this time
When I'm so sure

When I know
That you are my
Only Love
I have inside
My soul

Anna Cellmer

Love Us Love Dear God

Dear God,
Whatever You think about this world
Love us, love
We are made from Your body and soul
We are just so different, so difficult
We are angry, lonely, in love
We are the broken hearted too
We are the cowards or the brave one
We are like a stone or like a stars but
We are worth of love
Without doubt
We live here for all this beauty
We can touch, discover again and again
Walking through the years
Learning all this time
What is worth to living for
What is not
But at the end we all know
That there is only love
This power to live here
To understand every wisdom of this Earth
So don't forget to realise again
This dear God and forgive us
Every little sins we have
During this long time of living here
On this ground and love us love
As we are, dear God
We will appreciate this
And love You more

Anna Cellmer

Lovely Taste Of Love

It's such a sweet taste

Of this fresh unexpected feeling of light

That comes suddenly to you

From the sight of beautiful stranger

Who touch your heart so merrily from the start

By look, by smile, by touch or some words

That flows gently to your soul and you know

It's something in the air again

It could be this man this special one for you

And you smile you don't know why

Just somehow

And mostly this is all you have

Just this moment in space to catch

To enjoy and to feel this something special in the air

This gentle breeze of life, this little light

It can turn into many forms

Dance, poetry or song

Sometimes it's a beginning of relationship too

Sometimes even something more

You wish to believe that - in love

But only time will show this

If you want to know

Now the only thing you have is this smile

And some little need to do something more

And to go for it deeper a bit

We never know but this smile is all

We are looking for

And what we adore each time it comes to us

For good or for a while

Anna Cellmer

Lover

What to expect from this love
That came to me some time ago
And filled my days with joy and light
What to desire if you are so far
What to believe if you say that you love me
And then you are not here
What to share with you
If you don't even touch my soul
Because there is no time for this
In your life still
You are as a split
In a long distance
I use to live
Just by my self

When I think of you
My eyes smile
When I dream of you
My soul is full of joy
But after some time
When you are gone
For few days
For so long
I feel so sad
That I can't stand my self
But then I'm finding again
Some things to live by
And then you are
To make me sure
That you are still
With me
And I'm so happy
I'm so yours
To another silent days
That comes
But I can't leave this
You are the part of me
And all I can do
Is just agree with the reality

That you can be with me
Just for a while
You - lover of mine

Anna Cellmer

Maybe It's Better Like This

Oh yes you are not only sweet

But also very bitter one

How should I forget

And be silly enough to share with you my thoughts

You are the man who needs

Just another type of woman than I'm

I can't be true to you

It kills us and this love

This love which doesn't exist anymore

Or maybe it was all just imagination?

But no, too much anger in you

After my words

But you left me, do you remember?

You did

So what did you expect?

Sometimes we all have to fight

With this madness inside

I'm not without a fault

I know I can hurt

The same way you do

What is wrong with us, my love?

Where this path leads us?

Oh but actually all is gone

So what to worry about?

You can make me a fool

Or even the last idiot of this world

I can say many not important words

But at the end

All I can do

Is just to face this true

That you are this one I love

But it doesn't matter anymore

I lost you I know

I have to go my own wrong

Pointless way right now

Bye bye

Maybe you are right

Live your life

I hope I'll find some sense in mine

But you know that perhaps

It'd be a bitter moon

Between me and you

So maybe it's better like this

Good your answer is

so we can really go in peace right now

No one hurts anyone

All are winners

In this case

All stay tall no one fools anyone

It's just no way for us that's all

How easy is this right now

I can go with a smile

Thank you for this my love

You are one who is able to kill me by your words

You have to be careful too

Goodbye my love

Goodbye stay in peace forever

Meanings

Meanings are very individual things
Does the boat Nb 32 has any meaning to you?
I don't think so
You care of something else right now
Maybe about your child who is outside
Maybe about the tea, apartment or something like that
Maybe about some while you spend just right now
Sitting with someone at the bar
Looking around searching your own meanings
To live by
Sometimes it is the cell
What has a special meaning to you
It's when you are waiting for a message
Or the telephone so important
Or so exciting to you
It can be many things
Yes your own meanings
Your own people to care about, your own whiles
There was so many who studied or just walked on your way
But only few who stay in your heart in your life
So many people have died but only few one's death
Has a meaning to you
But of course some things
Have a meanings to all around
World Trade Center, Osetia,
This what is scaring to everyone
Who understand such a terrible crime
For a big scale
Only these spectacular acts of terror
Can have some meaning to whole the world
Is it not sad that this what we all care about
Is just the great terror act?
What about act of love, friendship?
Oh yes, there are some too
When we all try to help
During deluge or
When someone makes
Some great movie too
Something to cry or to laugh through

Yes, the art is this what moves
A lot of us too
It's great, but it's not so real
As this what we can see
At the news today
But one is good that the individual meanings are stronger
You care of the world when you see all of this but then
You can turn off the TV and you live your life again
Another way you could get mad
To care of all these crazy world things around

So there is a lot of meanings in life
To care or not to care about
Sometimes

Anna Cellmer

Melody Of Your Words

Once again your words

Seem to be

As a melody flowing straight in to my heart

The sweetest one I could ever hear and have

So I sing this song all day

And all I want now is to dance

As you play

As you say

As you wish

My man, my dream

You are everything

And you cherish this

As me

It is all I was waiting for

You are right

My love

Anna Cellmer

Men Be On Guard

Men be careful
For a young girls
They can find you
After years
They can be some poets
And then writes a lot of poems
To you

And then you wouldn't know
What to do
With such a woman
As she is for you
And now you have to pay
Your rent because you are still
The most wonderful man to her
You must pay
For all these years
She was dreaming
About your comeback

And now you must read
All these words of love
She has been keeping
For you
Long enough
To scares or to make you in love
In her forever
And it's hard to decide
Sometimes
What to do with such a girl
Who wants you so much
But she is able only to write

Anna Cellmer

Missed Conversation

When I'm with you I wish nothing but make love

after some time I love to write

but when is this little spark

for an interesting conversation between us?

I'm afraid it's not possible to do that

not important so much

as long as you find my mind attractive place

for you

to stay

for good

Anna Cellmer

Missing Lover

I wish you were here
My lovely deare
I wish you'd take me
To our secret place
In the mountains' alley
I wish you lied by me
I need you to touch me
I wish to take your head
With my fingertips
I wish you were with me
I wish you touched me there
I wish you could run
Your fingers along my back
I wish you kissed me
In my neck
I wish to feel your lips again
I wish you could find the way
Inward me
I wish your hands
I wish your touch so bad
I miss you my lover man
I miss you as no one else
I wish we could go farther
Inside of us
I wish to know
What means the real orgasm
I wish my Lover
Came back to me
Not only in my dream

Anna Cellmer

Missing You

I still look for you
I miss you all the time
Listening with attention
in the silence
One's small sadness
And sweet joys
I'm reflecting of the
Events of the day and night
To stand up again
Before the wall
Silent loneliness
Closed somewhere
There, in the center
Of my being
Deaf to words
An insecure nobody
Wanting nothing
Abstract from the world
Perfect and beautiful
In one's hopes
On self annihilation.

Anna Cellmer

Missing Your Thoughts

The whisper of love
Came to my soul again
But I'm not sure of your heart
Still
As I know you
And this
What do you want
The most
My Dear

Perhaps you don't have
Whole my heart yet
But it doesn't mean
That you can't take me tonight

I'm suspicious still
A bit
But it doesn't mean
That I don't love you
Because I do
Yes I do

It's just that
I'm still unsure
This what you hide inside
I'm still afraid that
You and I it's just a dream
Which can't exist in reality

By the way

You make my days so full of life
You make my heart so full of smiles
I'm so glad to find you

but

How I wish to be sure
That we can survive the time

All this time
When we are not together,
Do you think of me still
Even when I'm silent
Even when you are silent,
When we don't see
We don't touch each other,
When we don't see our thoughts,
When we do so many things around
And we don't know anything about this?
I need your words as an air
Please come and say
That you love me
And you care
I don't like it that
When I'm silent
You are like this too
At this time I'm afraid
Our love is not growing
At all
At this time
We can stay strangers again
You and I can disappear
I don't want this
I feel good with you
I feel as a part of your life
As a part of you
But these whiles
When I'm not sure
Annoying me a bit
But I can't do anything

Where are you?
My love?
And why so little time
You can spend with me,
Why you don't want
To share your soul freely
You don't need
You don't feel you have to, perhaps
But I miss your words
I try to live normally

And enjoy other things
But I miss your thoughts
And I'm afraid of this love
I don't want to lose
Something so special
So good
I get from life again,
So please don't let me think
This way
Come and say
That you live
That you think
And you are with me still
In this dream

Anna Cellmer

More Real Be

All you are able to
Are these sweet lies you do
That's how you live
And I love it but I wish
Something more I think
Is it the end?
I don't know
Just a break I suppose
Just kind of calmness
When I'm waiting
For a miracle
You could bring to my heart
If you would only try
To be more real than you are
Right now

Anna Cellmer

Muse

I know that my poetry
Makes you hard
Is this bad?

Anna Cellmer

Naked Soul

What do you feel?
Looking to my naked soul
So clear
So open for you
My dear
Sitting alone
At home
I think
How to capture
My love
In words
To take you
Inside my thoughts
I love to live
Within this world
So full of you
My lord

Anna Cellmer

New

You can be very brave to the man
You know well or long but
With another one you are
Again so shy as a teenager
It's strange feeling
It's like a new beginning
You are again as a virgin
Another time you try
But you afraid
You don't know anything
The new start
New life
And you
Too
Is
it
not
wonderful?

Anna Cellmer

No Named

If I can't call you
My lover
How can I call you then?
You closed the doors to you
So, I'm where I'm
At the beginning and at the end
Of this simple story
About the woman and the man

Anna Cellmer

No Need To See You

Through all these years
I've been learning only this
How to run away
From you
And how to come back

You still live there
But I can't meet you again
You can have another one
So I should be careful
And walk away
From your doors
Before you could come

And this is alright
I don't need to
See you again at all
I just had to know
Are you still here
Close to my world

Anna Cellmer

No Words

All right then
Don't say any word
Just be there
When I'll come
I don't need
Your words at all
I prefer your touch
I just want
Your love
But if you can't
Offer me that
Give me back
My broken heart

Anna Cellmer

Normal Day

And another date of your coming here
Just flowed away
Did I believe this time?
Yes a bit
I put some skirt
And stockings
On me
And I was thinking
What I'd do if you call
Suddenly
And I smiled
But in the deep of my heart
I knew
That you wont come
This time
So I hadn't change any planes
I have had
It was just normal day
As every other
But I still believe
That you are
With me
As always

Anna Cellmer

Not A Right Place

As more I listen these
Things
As more I want
Just one
I wish to be
In your arms
Open and warm
To me
Nothing more I need
But will you care of me?
Your life is so busy so complicated now
You don't have time enough
To have me all
So just stay like this
Live in my dreams
Just keep the touch
Just believe
Just be when I need
Your sweet words
I have to be strong
In life
I suppose
I need to realize
All these things I have
Until my boys grows up
And then
We can meet
And then we can be together
For a while
Or forever.

Anna Cellmer

Not Disappointed

Disappointed am I
You said
No, honey
I'm not going to be like that
I have a faith
In this love but
Just sometimes
I have these whiles
When I realize
That all I have
Are just these
A few big words
Which you said
Some time ago
And your silence
So far
But it's alright
My love
I know you are with me
Somehow
I know everything
Is gonna be great
Because you know
That I love
And I know
That you want this
More and more

Anna Cellmer

On The Way

You live inside
This dream which
I used to call
My life

We never know
Where this path
Leads us
And this is
The most exciting
Part of the story

Anna Cellmer

Once We Did Love

Once
We were lovers
But not to the end
And this way
You have stayed
In my dreams forever
And never I could find
The man like you were
You shouldn't left me like this
So full of hope so warm
If you planned to go so far away
But today you are so close again
And all I need is
That you could finish
This what you started
I gave you my heart
I gave you my soul
My body is waiting for you
What do you need more?

Anna Cellmer

One Call Is Enough

I can tell you a thousand words
I can write a poems too
But I don't know
How can I speak to you
That you could
Want me this same way I do
Thousand words from my side
And your silence so far
But just a one call phone is enough
And I know
That you are just you
Who I belong to
So, what else I can do?
To show you that I love
And that there is no way
To me, just you
And this way I go
Until we meet
My sweet boy

Anna Cellmer

Open Case

You were this man
I had to know
To believe in love
But you got away
For so many years
To stay alone
With all these things to do
But you forgot
About this little case
To close, my friend
So, now I'm standing here
Asking you for this
That you could tell me
What you are going to do
With me
When I love you
And you are this man
Who I can't never forget

Anna Cellmer

Our Creation

Picture of heaven

We created once

And we even touched this

Even tried

All of those tasty colors and smacks

All of those branches and fruits

We know, we tasted

Oh just why

I feel so moved

Watching some silly sexy movie

On one of those sites

And why I'm so sad

All this is so far away right now?

But you love you said

And you think every day

Of our time together

I have to wait than

I know

It's just so hard sometimes

When there is no you around

Not even word

Any touch

Just a memory and promise

But I know you are here

Inside me still

And in all

Of those sites places some faces too

And our words here

And our souls

I feel so rich now

Though still hungry too

What amazing is this all

With you right now.

Anna Cellmer

Our Love Is As A Wave

Our love
Is as the wave
from one to another promise
I fly high to fall down
Into disappointment
but after years
I used to us like this
and I never lose my faith
That one day
We really meet
My man

And this Faith
is all my religion now
From the time
I saw you and I fell
For the miracle
Which filled me
So merrily

Anna Cellmer

Our Site

From the time you are here
This place is more exciting to me
So let's play like this
If I can be a little mouse
You can be a child
That's all right too
I want to play with you
I thought I love the man
But now I see
That you are Mr. Mystery
So if you like your site
Then, all right
Let's play like this
Let me guess
What do you like the best
I love this home too
I like to play with you
But if our home is this site
So, maybe poetry is our life.

Anna Cellmer

Outcast

You don't want me anymore
So why do you want to read me still
If you don't need me
If I'm not worth of your love so suddenly
If you just scrap me on the floor
Like a broken doll
Which doesn't work anymore
As you want

You don't want me anymore
You don't believe in my love
So why do you want to read
My words
It's all broken right now

You don't want to see me on your site
You don't want me in your life
So don't take a pleasure
From my write
From my poems to you
If you don't want me anymore
My words are like me
So go away from my dreams
About this love for whole life
We could live with
Leave to the end
Me
Never come back
I can't stand another
Goodbye from your side
It's simply too hard.

Anna Cellmer

Playing My Game

I'm as a child

Who is playing in this

Game of life

With a smile

Sometimes I cry too

When I lose

Something I love so much

But after a while

I smile again

When I see you came

To me

again

My gentle man

Anna Cellmer

Please Smile My Friend

I feel I was not good to you again
And I make you feel not the right way
I know I touched you by my words
I wish to make you smile again
Please smile to me, my friend
Please stay with me, my man
Please understand that sometimes
I'm as I'm
Some things around make me still
Not as I wish I could
Be for you
Please forgive me
I was so busy with my thoughts
So silly I am sometimes
So not good
To you
But I can't sleep I can't live
If I'm not sure
That everything is well with you
So please let me know
That your mood is better now
That you are fine
That you stay with me
Like this until
I'll be ready to be
This woman from your dream
I wish to be reborn to you
I'm still inside this world
Where I'm not easy to stand to you
But I don't feel well with this, so
I need some change
I need new dream
To invite you
To be
To create
To love
Or to die
If I'd ever lie

Please Stay

I don't like your silence
you know
and I don't feel so comfortable

anymore
but maybe you have some reason
to be like this,

there is not any problem for me
that we can't meet
I know as well as you

that it can be difficult
but I love you
and my life really started

from the time you came but
if you don't feel good with me
anymore
you can go
away

Oh no please stay
Forget it what I just said
Never go away
Please stay

I need you so much
To live
You are this one for me

Who i can trust and love
and understand
and be real with

Please don't go
How I love you
How I love

Every single inch of you
Your every thought
You are my love

You are the part of me
Don't forget it
You understand me well

You can accept me as I'm
Even this what you said at the start
About all these mythologies around

You dont believe in
Makes me sure
That we are both as one

You can play and live as me
You can understand everything
All I want to do

Is just to dance with you
So, please stay
And come to me someday

I want this so much
I can't imagine my life without
You

Here inside my heart and soul
Here within all dreams I have
Because of you

Anna Cellmer

Poem To My Favourite Critic On This Site

Do you think
There is something special
In this piece
Do you think it is something real
Or it's just a shit what I did
Please tell me
What do you think
David

Do you think
This is something good
Or it's just a crap
Tell me that
I need your words so much
I want to see your critic sight
To feel all right
And I know that you will come
And you will tell me this
What I miss

Tell me the true
And write another masterpiece
About me, please

Anna Cellmer

Prophecy

Sunken by You
For ever
I became a shell
Listening with attention, waiting,
For the High tide
You would tackle me
Inside you
Relishing
The magnitude of your love
My ocean
The most ubiquitous

Every road
Which takes me away
From you
Is incorrect
Every moment
Even the merriest
Far from you
Is lost
Because only you are
My source of love
And my happiness
The most essential.

So I wait
Turning back
From the incorrect roads
Which I tread
Wanting for a moment
To get away
From your power
In vain
When the Moon also
Prompts me the words,
That I'm yours
How could I
Not believe it?
When even my heart

Laughs
Into the sweetest
Prophecy
How could I
Distrust my heart
Which screams
For you, and it knows
That it is you!

Anna Cellmer

Quite Ironic Life

Quite ironic
This life seems to be
When there is so many
Beautiful friends around me
But for me
It's still so clear
That it's you who
Could be the best friend of me
But you are afraid of this
Everything is good
Until you show your love
Until you put your emotions so wide

Until you know that you are
Someone important so much

Until someone stop hide its heart
But then you are afraid

Why life is like that
Sometimes it's hard to understand
All these things
Perhaps it's just because
I don't like to believe
That I just can't have everything

Why you don't want to be
My friend at all
I don't know
You are this man who could be
One of these who means a lot
Who could just send another smile
During this long time of life
And there won't be anything wrong in it
But you can't
I'm sure you can't
Do this
Because you are afraid
You are afraid this love I have had

Some time ago
You don't trust me anymore
Do you?
It's hard to understand
But I do my best
To know what is all about
That some are so scared,
Are so scared to be loved

All I have to do now
Is just waiting
For another miracle of love
To come in
There is nothing else I can do
Just feed my self by dreams
And I believe

Anna Cellmer

Ready For Love

I don't know the end
This story of love
But now
When you are so close
To touch
When I know
I can see you again
I just can't
Forget that it is you
Who should be my man
My lover from dreams
Please come back to me
I'm waiting for this while
With all my passion
And all desire
Which I was keeping
Only for you
And now I'm ready
To this love
To start a new chapter
Of my life
There was the time
I was a good wife
But now I need
Something more to live
I need you my lover
I want you my man
It's you who make me feel
So natural woman again
When I think of you
My heart is singing
That's why I want
To be your girl
So, please come back to me
And tell me every your wish
I'm ready to do everything.

Anna Cellmer

Regrets

There is so many years
I haven't seen your face
From all I've done
I regret only one
That I let you to go away
That I wasn't able
To show you how I feel
Through all these years
I couldn't speak
Standing so close to you
During these few whiles too
When I had a chance for more
I regret also that
I stop to believe
That this love can be real
But now, right here
I call you again my dear
Much more strong then before
I call you by your name
Because I'm your love
And you are
Always and again
My man

Anna Cellmer

Request To The Broken Hearted One

Please don't lose your mind
When she goes out
Don't close your heart
Only because she doesn't want you
Don't die for the rest of the world, please
Try to believe in your self again
Try to believe that she is not only one
There is still someone worth of love worth of think about
Don't waste your life for only a cry
Please start to believe in a new life
With the smile
This one you loved is not only one in this world
She is not the most important anymore and someday
You will find another
So sweet, so good, so beautiful, so yours
Just stay open just don't close your heart forever
I know you need now this pain yet
It is still some kind of contact with the one you loved but
It's not good to you
Believe it's true don't feed your self this pain too long
Don't forget about the world, don't forget about your self
Please believe there is still worth to live
And you are just a beautiful broken hearted
And all you need now is just a little time
To realized what you should leave
To find another way to live again
Yes this life is just a road and every day
You can discover again and again
Just don't stop walking
Don't stop believe that something the best is still before
Or beneath or above
Just find it, that's all
Just don't lose your faith that you can

Anna Cellmer

Sad Advice

Someone just gave me
Advice this morning
It makes me sad but
Maybe he is right
Let's see what I received:
"If you love something
Set it free,
If it comes back to you,
It's yours
If it doesn't
It never was"
It's hard, you know?
It's hard to realize
That you just
Don't love me
I want to cry
Seeing this advice
But maybe he is right
So, you never were mine?
How it's hard
To believe at this
How it's sad but
Maybe he is right
I should set you free
My Love
As I've done before
Maybe someday
You will be back
To me again
I'll live this hope
To the end
But don't worry about me
I'll be fine I think
I'm sorry
If I was wrong,
My Love

Anna Cellmer

Sarah

I am Sarah, drowsy and wet
To worship his deity
On different ways
I am woman, trippant
World right next to
Leaving remembrance
I am a cloud, which the wind
Propels over the ground
I am a shadow which you touch
And I disappear
Because I do not exist for you.

Anna Cellmer

Silence

You keep silent
You don't know again
What to do
With that love
It crushed you
So suddenly
That you gnaw on your thoughts
What to answer
On such a call
And now
Maybe you've already
forgot
Where this way leads
Where you never went
Lover
My cold English man
Don't be so cold for me
Just let me love you
Or let me go
Because you are my desire
Until I will be sure
That you are dead to me
I just need to know
What your heart is
Telling you
About me.

Anna Cellmer

Simple Fears

I'm afraid that
I'm not interesting enough
To stay with you too long
I'm scared that I wouldn't be
Such a perfect lover as you dream about
I remember my self from this time
When you were angry for me
That I wasn't as you wanted I'd be
I'm so scared that someday
You could look at me
And I want to see love in your eyes
I'm afraid that
I want to be this girl right
Do you know that
The power of my love to you
Strictly depends
Of my self confidence
And through these days
When I'm weak in my eyes
I'm afraid the most this love
I can love you only then
When I believe in my self
That's why it was so hard
For me to show you how I feel
Through so many years
I preferred to be with someone else
You are too strong for me sometimes
And I resign but then I feel
That this what stay is just a shadow of me
And this real life which I need to feel
So, that's why, I fight right now
And I hope that this time I win
Not with you but with my self

Anna Cellmer

Simple Needs

What do I need?
I need the words the most I think
I need some touch as well to live
I need a music around
I need some special climate
I need love, I think
Love in words
Love in touch
Love in the music
Love in the air
Love in your eyes as well
Love in many simple ways
You can give me your self
Love in the gesture
Love in your clothes
Love in your naked body and soul
Love in your favourites
Specialite de la maison
Love in your work
Love in your smile
Love in the way you speak
About everything around
Love in your mind
Love in your shopping tour
And I love to be in love with you
I love to share my life
With such a guy as you are
I love to give my self to you
I love to make love too
I love to do everything I do
And I love to live this way
With you.

Anna Cellmer

Simple Recipe To Have A Woman (At Least Her Heart)

:

Attract her the way you are
Let her enter freely your life
Fall in love
Then leave her
With a bang
Then you have her
Forever perhaps
Just don't forget to let her know
That all you do
It's just because you love

Because as you know we appreciate these things
which we want and we lost
the most.

Anna Cellmer

Simple Truth

My sweet boy
My love
Today I believe
So strong
That you love me too
And I feel so good
It is so simple truth
When I believe at this
I'm happy
When I try to give up
I don't feel good with that
So I'm in love
Oh, my boy
How I'd like to hold your hand again
Before it was all my fault
I was running away
All the time, all these years
But now I turn around
I'm with you
I'm back
After so much time
Let me be yours forever
Let me whisper to your soul
All these words
I've been keeping for you
My only man
I love You

Anna Cellmer

So I'M Here Beside You Still

You may not feel my touch
Laying in your bed at night
After your always busy day
When you are tired

You may not see me
Watching your sleepy eyes
Just beneath your losing dream
When you are waking up

You may not share with me
Some of your daily things
You simply live by
During your cheerful life

But remember
That no matter what you do
And if things are going
Up or down
You can be sure
That I'm here
For you

My heart never lies to me
So you know
That I'm always beside you
And I feel with this so good
That nothing can change
This simple truth
That I belong to you

And that there is nothing
More precious on this world
To me
Than our story of love
And our dream we drowned both
And you with me somehow
Together
In our dream world finding trip

Forever

So, you know me now
And I'm so bared beside you
Even living so far still
Yet close enough
To feel your breath inside me

Anna Cellmer

So Little You

There is so little you in my life still

How can I be sure that you are real?

How to believe in this love here?

I don't know my sweet man but what can I do

I still wish that all you said to me is true

I still find the light in this way

And this what I love to believe

Is this little dream we have here

That you and me is all

What we really need

Am I wrong?

Tell me

Anna Cellmer

So Long Ago

It was so long ago
But I still feel you
So strong, so clear
And I don't know
How it is that
I just can't forget
This while
And I even can't
Imagine how could I live
Without this dream
I remember so well
Every your smile and gesture
Every your touch and word
But you know
That it was so long ago
And maybe I need yet
A little more time
To realise
That it should
Stay like that
And you and me
It's just a memory
Is this what you want?
To stay just in my mind?
All right, but why I must cry?
The sweetest boy
Why I must miss you so much,
But if you decide
To stay like that
I'll live with you
Just inside
Because this one
I'm sure now
That you are the part of me
And you must live here
Forever
As a gift, as a treasure
As a cause of my tears
And the deepest pleasure

Anna Cellmer

So Long My Lord

Where have you been
My lord
Where have you been, so long
In the dim corridor of my soul
I know but
Could you come back
To me tonight
Could you hold me again so tight
Could you show me
Your self this way
I dream the whole life
Could you be my man again
Yes you are still here over there
Watching me
In the darkened room where I sleep
In the bed of wanting thoughts
About your hands on me
About your touch so deep
About all your desires all your needs
I could realise so perfectly
Feeling you inside me
So sweet, deep and free
My lord, come back to me

Anna Cellmer

So Naturally

So naturally it comes to me
The way you touch
My dreams
The way you create me
As a girl
So wanting you still

Anna Cellmer

Some Moment In Life

The only moment
that is really sweet
and worth to live
is this
when you say
I'm so special,
beautiful, unique
and that you need me,
want me, love me
and I believe
that it's true
This is the moment
I wish to live forever
When I'm smiling to you
swimming merrily in this charm
which you let me drown in
because life is just as you see your self
and someone else too
some little game you came
to enjoy

Anna Cellmer

Some Special Meeting During The Night

Not great dancer you are
You said
But with the man as you
It's enough
If you just watch

And then I'm glad
To dance with another man
Just feeling your eyes on me
And I'm fine somehow
So joyful inside

For the man like you
Just to be near is enough
To feel good
So thank you
To be so close
For this special moment

To remember
Thank you
To be my choice
And for this little voice
I have had inside
Just being by your side
For a while

Anna Cellmer

Something To Do

Still can't do
Everything I maybe should
During the days go through
But there is not important at all
The most wonderful is
That I still have something to live by
Still have a lot of things around
Worth to live for
I have possibility to do more, than today
Because today I was not able to concentrate again
But it's not so bad
I had discovered so many impressions new
I was looking around this world to know more
Yes, I have something to do tomorrow
And this is good, I suppose
This life is long enough to do everything
You have to do and to not hurry up
With that.

Anna Cellmer

Something Wrong

Sometimes I think that
I have some virus of
Auto destruction inside
Because it's not naturally
To persuade your self
Every day
That's worth to live yet
But I see I need this
I need to prove my self
Some reason
To want exist,
Another way
I can't find
Anything so interesting around
To fight for, to enjoy
And to live anymore
To not feel life as a duty
Especially now with the family too
This duty is going to be more
Then pleasure
Yes there must be something wrong
With me
But I don't know what to do
With it.

Anna Cellmer

Sorrow

Sometimes I think
That if I'd reach
Only for you
To come to me
I'd probably die
From sorrow
That you don't come
That all I see
Is just an empty space
Where you should be
So I have to
Keep whole the world
During this time
When you have been gone
When I'm waiting for you
Alone

Anna Cellmer

Stay My Friend

Yes I don't want
Just sleep with you
I want your love
I want to read your soul
But you
You are afraid to show me
Your self, why?
What is wrong my love?
If you love me
I'm yours
If you don't
I'll understand
This too
So don't worry
Please
Just open your heart
To me
I love you
I beg you
Just be my friend
If you can't
Be my man
Again

Anna Cellmer

Stay Within

It wasn't a long time ago
When you came suddenly to my world
But I don't remember
How it was before
How I could live without your soul
Please stay with me
Stay within
I feel good with you
Like this
I need you to live

Anna Cellmer

Still In Love

There is nothing I can do
For this love
There is nothing I can see
Just you and me
Within this dream
There is nothing I can say
Just that I want you
More and more and still
And every day
Is just a different way
To see me and you
Together

Anna Cellmer

Still Together

So, you are my muse
But I'm not yours
Is it not beautiful what could happen
To this little artist that lives inside my soul
Is it not terrible for a woman I'm?
Oh baby all the time this mix of emotions
I feel inside thinking of you
But I'm nothing but me
So in love with you still
So I don't have any choice
I walk through my life with you
Inside my heart
For good and bad
For light and for dark
Colors
Of our lives
Still together...

Anna Cellmer

Strangers

Write me another piece like this
And you will stay the lover from my dreams
Stranger

Lord, how come you
Let me fall in love
With another one
Nice man who just came
And knocked to my doors
Again

The strangers come and go
This is the way
They become the part of the story

Some of them are with me some of them are gone
This is the way the life goes on

Anna Cellmer

Such A Simple Word

How it easy for me to say to you
This simple word
I love you

That was so clear to me
From the start
When we have met
And it is still this same
My heart is telling you
I love you

Such a simple word
But it is a little sad to me
That you never believed
That I'm real
Why?

Only because I was too young?
Only because you had your plans?
Only because you didn't understand
Why it was hurtful to know
That you must go
Or maybe because you were too busy
To want me, and my love
But what do you think now?
Please don't fear this love
Don't be afraid to love me
My sweet honey boy
Love is good, love is real
Love is this magic you can feel
Don't worry about anything just be
Again with me, it's so easy, so clear
Please be with me in reality
I have a lot of patience to you
You have a lot of patience to me, as I see
So, maybe it's good sign, don't you think?

Anna Cellmer

Sweet Love Anarchy

How it is

That this little anarchy in love

Makes me so happy

Just worry a bit

How are you with this me

So open

Suddenly

Here

Anna Cellmer

Sweety Panties On The Ground

How it's dark here
I'm waiting so long
He could come and take me on
I'm so lonely here
Inside this drawer
Laying without his warm body.

Oh, the sun is shining today
He puts me on
I can breathe so deep
I can be so close to him
So happy

Oh, but his cock start to be
So big within me
Oh, how it's nice
How it's sweet
He is growing and I can feel it!

Oh but she is touching me now
How she come
She wants to see
What the treasure
Is hiding here.
Oh, what are you doing Lady!

Stop, it's my cock!
It hurts my pride
Could you stop!
To touch me so strong
Please be careful
Oh, Lord!

.
. .
How come you
Let me go down
I'm again on the ground.
How come she do it to me

I don't understand she

All the pleasure is gone

I'm so alone

Laying on the floor

Without his lovely

Little flesh so warm

Inside me

It's unfair

I swear I'll do something

When she will do it to me again!

I need to do something

I'm the man!

Anna Cellmer

Take A Lesson From Life

Watch, learn and feel
Then teach and use your skills
That's all you can do
In this world I suppose
And play well of course
Not charge anyone too hard
Not even yourself, you can't do that
You would forget to smile
And this is unforgivable, besides
It's not a good way of life
You never know the whole story
So, you can be wrong, I'm sorry
But I think it's better for you to realise
That the things are not black and white
And the truth is mostly
In the middle of this route
Which you can call wrong or good
And don't forget that you can be free
Only if you know enough
To have some choice and even then
You can't be so sure
If you are right or wrong
But don't worry about and smile
That's the way it is and this is fine
There is one more thing
Don't let use your self more than
You use someone else
You must balance between
This situation when
You can be up or down
Because as you know
You are not alone in this world
So you must learn all the time
How to live with people around
Just balance, and play well
This is not the hell, besides
You don't need to be friend with all of them

The All Sense In This

In this what we do

It's not really sex what is all about

Sometimes it's love yes

This something special in the air

That let you sing all day

But mostly it's relationship we learn to build

To know each other more

To go on our journey through the world

To know our selves and to share smiles and joy

That's all we are for.

Sex is good for a while

To know if we can go further a bit

Or if it is exciting

If we can create some pleasure

And dream, some trust between

And to go on without any fear

In to this lovely trip

Between you and me

That's all we long for.

How many lovers from the dream you can handle?

Who knows this?

I don't, I search

Even if I know I love

This hunger to know more

Put me into another dream

To live in

It's kind of madness maybe

But who cares of this?

If it brings nothing but smiles and tears

If it let me to see more clear

What this life is

Where is the end?

If I go to you

And stay for good

Will I close all other doors

Or I'll cherish my dreams still

Who knows what the future brings?

Is any winner of this story of life?

Is any up and down in it?

You know that I love you

But I know also this that love

Is the shortest from never ending things

This passion between you and me

Is all what we can really win

Let's go for it and don't think of the rest of the world

Don't care about any form

Just drink it

Until all is alive and full still

I know what art is

So don't say you will teach me this

I know this life a bit

Or I can imagine and dream it

I need my freedom to live and to be back to you

To be sure you are this man I long for

You are the man I wish to own and kiss

To be with

I'm just not sure if this life

Is not too short or not too long

For only one story of love.

Anna Cellmer

The Boat Nb 32

What has a meaning to me?
Right now I think
The boat Nb 32
Because it belongs to someone
I find a very special
These eyes so blue
Which captured me
So suddenly
One impression
From the summertime
I have these eyes
Short conversation and
This boat in my mind
Another fairy while
Of my life
The story which has never began
These eyes which found the eyes
But this boat Nb 32
Is still here, so real
And this is wonderful

My favourite boat Nb 32
Which belongs to you
Is still waiting alone
That you could come.

Anna Cellmer

The Death Of Love

My love is gone
He is sitting in his armchair
He is drinking a beer
And he is eating his meat
With full of bones
To crack it
I can't stand this sound
He is watching TV
I'm in bed sleepy and tired
And I'm dreaming about
The soft music around
And my lost love near me somehow
But the light is too strong
I hide my head deeper in bed
To not hear him to not see the lamp
I'm almost in my dream but
He stopped to watch TV
So I feel he's trying to caress me
From my back
He wants to take me
But his kisses
Just annoy me
So, I push him away
He try tender again
I don't react I pretend that I dream
So, he stops without any word
He goes to sleep
And in the morning
He is silent and sad
He knows that something is wrong
With us
But sometimes
When I even let him
To take me
I can't stop to think
About the man I love
And I see him above
I don't know what to do
With this fact

That I lost my heart
And I think that
Right now it'd be better
To live alone and dream
About my beloved man
Because everything else
Is without any sense
And because I love
To live this hope that
He will be back
He lives in all my thoughts
He is my favorite topic
To talk
He is inspiration to my write
He is actually everything
What I have inside
And this what makes me smile
He wins with everything
He wins with the reality.

Anna Cellmer

The Difference

I'm not sure you see this little difference
Between this two relationships
Between the love and the friendship
Because I feel this very strong
So when you become
So friendly so suddenly
After this time when you were mine
When you were so close
I was completely lost
I didn't know anymore
What to think
And how to speak
To you
So, I was just running away
Seeing you on my way
I couldn't stand
You, so close to me
But with this uncertainty
If you are my friend just
Or you are my man yet
But now I'm strong enough
To speak to you, my love
As I always wanted
I'm not afraid anymore
You and me and this
Reality obstacles which exists
Because I wasn't able
To show you
That I can't live
Without you
And that you are always
This man I love the most
And I believe that
You will come back
I lost you, my love
Because I loved you
Too strong to speak
I think

The Doors

I let you go away
To let you come along
I let you to kill yourself
To be alone
I'm going through
My sins so proud
Being the owner of my soul

And then
I want to know
Are you still there
Behind my door?

And then I wish
To believe
That you are there still
But I'm afraid
You do not exist.

Anna Cellmer

The Dream Must Come True

I just have hope that I'm not
A kind of Polish folklore to you
(I don't like folklore at all)
I don't know why I chose
Such a hard man to love but
I just love you and I don't know
What to do now with my heart
Which is describing this story
Of my life
You know that I always liked
To write something
I used to write before
I do anything
And you must to know that
Most of this what I write
I have in this real life
So, right now it's just
A little time we need to
Make this dreams come true
Because I believe in you
And in my heart too

Anna Cellmer

The End Of Love Story

This is the end
The end of this
Story of love
Which has never existed
Anywhere just
In memory in thoughts
Just in my mind
Just in dreams I have had
I'm sorry but
This is really the end
I don't have
Anything to say
To you
Just that
The real life
Is never like
You dream about
But, by the way
I don't regret
Any word
Any poem
Any dream I have had
You are the part
Of me somehow
Just a little part of me now
And you will stay
As a memory
Of this perfect love
I have never had before
It's nobody fault
It's just a life
No, I'm not unhappy
No, but
I just know
What I wanted to know
And now I'm calm
I can live somehow
Just like that
It doesn't hurt me

Yes I have
A few tears
The tears which are
Just a regret
That real life
Is never the same
As we dream about
And that
This love is gone
Just like that
No hope anymore
No light
It's gone with the wind
Somehow
Do you know
It's just a life
That's all
You could be my man
But we lost this chance
Many years ago
So, it's gone
So, what to do now?
Do you know?
Live, I suppose
Just live and smile again
Free from love
Incredible
But I loved you the most
I can't say I don't
But I understand
That you don't
So, everything is clear now
Good bye, my Love
Good bye

Anna Cellmer

The Friend Of Mine

My friend
This life is so simple again
It's so different now to live like that
But I have you here
So I love to come back on your site
To your open arms so wide, so fine to me
No, not to me to her maybe
Or to every one who read this
But I feel it's me
Or I wish to be this one girl
For you here
But I know it's just a dream
Where we can live
The dream world with all this love
With the soul like this of the man I know
How it's wonderful to dream like that
Drifting through your heart and through your words so fine
These words of love I can drink from you mind
All this time
The friend of mine
You know so well what to do to make me smile
Every day to make me feel in this special way I need
It's you who is lighting this little passion I have still in me
So be still and I will be back again here

Anna Cellmer

The Pleasure Of Love

The pleasure of love
Is still in my soul
It was before
And it stay for today
I can feed my self
This way all the time
I love you as I did
I love him
I love these whiles
I keep inside
As a dreams and memories
I love reality around
I love your eyes
I love your hands and taste
I love when you take care of me
Of our home and the kids
I love all these things we share
All these little daily things
We have to do
To make our life more beautiful
I love the boys we have too
They are sometimes so rude
But this is natural, so
I'm angry for a while but then
I kiss them and everything is OK again
Do you know some description for real love?
Just be together
Just keep all the feelings you have
Just be your self
With someone else to share

Anna Cellmer

The Puppet

Yes that's it
You are here
When I set the strings
In motion
When I'm not doing it
You simply disappear
You exist on my request
In the world of my dreams
You are here
When I give you the sign
When I make you alive
By writing this story
On and on
I need to write
To have you inside
And to live
In my own theater
In my own beautiful dream
Which became the part
Of mine and yours existence
As more I'm afraid
You could disappear
As more deeply you can live here
What if I close this book?
Will you go away
Without any word?

Anna Cellmer

The Sweetest Things

It's so good to be back to you

And to know what is the sweetest thing

For me

It's your smile

I think

Yes I'm sure

And your voice of course

And your arm holding me tight

Yes all these sweet simple things

Are the best I think

And walk and laugh

From all these funny thoughts and words

That comes to mind

When we just spend the time

Together

Hand in hand

And this smile,

yes this smile of yours

And your touch.

Theater

Love turned into the form of art

This site is my private theater

And my heart plays on this scene another act

It's real though it's still the play

But love you see is here

I wish you are the main watcher and actor as well

But I don't mind to be seen by all

When I sing my song filling the pages of my life's book

I never know who will come on the stage

To let me scream or dance more

Meantime there is a peace or little monologue

But this theater still lives here and welcomes all.

Anna Cellmer

There Is No Way For Us

Actually my old love
I think I couldn't
Be with you at all
You are not as I was dream about and
You don't understand and don't like my soul
So, there is no way to be together
You didn't understand
Anything what I was going to say to you
You didn't want you didn't play well too
No, there is no way to us in real life
You are too stiff too busy and too serious
I suppose
No, you can't be a good man
To live with at all
For a woman I am right now
No, it won't be good
For me and for you
Because you just don't understand
My soul you even don't see
Anything at all
I think I don't need another blind one
No, I was completely wrong
I'm sorry but
I just realized that
I won't be right to you
Not because of the children
Not because of the husband too
But because of me and you
And this distance between
Which became the ocean so big
That no one is not strong enough to swim
No No I was just wrong
My friend but good luck again
With your life
And find someone worth of love to you
Because this is important too
I think you should know this truth
You see
I still like to write to you

I don't know why but
I hope you don't mind.

Anna Cellmer

There Must Be Something Wrong

There must be something wrong
Between you and me
I'm sure it can be
I'm so uptight standing by your side
Trying to look beautiful
I'm afraid to dance
When you are here
When you look at me
I lack all these woman's tricks
I can't play with you
Even as a model too
Put in a new dress
When you look at me
I'm just uptight and not my self
As I wish to be
I'm not a woman I'm just a friend
Or just a girl but
I wish I wish to be
Someone else someone I can be with him
In my dream
There is something wrong with me I think
I can't feel as I want to feel
I don't know what that's mean
But I'm not going well with this
Shyness to my own husband

Anna Cellmer

Thoughts

How many times have I played
Here watching thoughts fly by
My soul
I'm here still waiting
For the answer
It's so scaring
How easily you could
Crash this world
This world of words
With all my love
To you.

What can I do
That my heart
Can speak like that
Only to you
You are this man
I want to share
My thoughts, my soul
And my body too
You are this man I chose

Anna Cellmer

Three Nights In Zakopane

I ran to you on meeting
And I became drunk on your closeness
We plunged to each other
And we felt amazed
Lasting in this joyful intoxication
We couldn't find places
In bed our amusement
Laughing

I trembled as a leaf
In the gust which you were
With cold and fright
Before the storm which fell on me
I clung to you
How I would want to conceal myself in you
And you trembled yet more strongly
Apologizing...

You uncovered me
Now I had to find you
In darkness, blindfolded
You led me, you helped
Because alone I was yet too shy
In order to look before me
I felt guilty now
Sacrilige.

Anna Cellmer

Time Between

I was living in my dream
So long and now
I come back
To this world
To normality again
But I'm not sure
Is it good to me at all
I'm so calm
I see the world around
So clear
I still can smile but
This passion inside
I have had for a while
Is gone now
I'm not going to do
Anything special anymore
Just live as always in peace
It is a kind of relief but
How long I could live
Just like this
I don't know
But I'm sure
I'll start to miss
Something special
On my way again
After this particular time
When I'm just OK
With my self.

Anna Cellmer

Too Much For You?

Is it really too much for you?
This one night what I'm asking to?
It doesn't matter what we will do
Making love or not to
I just wanna lie in your arms again
To feel your smell and hear your breath
I'd like to kiss your mouth
Is it too much for you?
Please give me just this
I can wait as long you wish
But promise me
That you will be waiting
For me
But for now
You can stay there
I need to feel you in the air

Anna Cellmer

Torn Inside

Do you know
The cure for love?
Can you find a way
To stop think about you
During these whiles
When I make love to him
Not to you
I can't set free away my self
From these thoughts
I can't feel his arms anymore
I belong to you
And I don't know what to do
I just want to be with you
But at this same time
There is nothing what scares me so much
As the possibility of you touch

Anna Cellmer

Touch Of Love

The fresh tender
Touch of love
I felt suddenly
This morning
In the fisherman's glance
Which hypnotized me
By his wonderful
Blue eyes as I saw once
And which seems to be
So familiar to me
I can't stop think about this
I know we will never
Probably have a opportunity to
Meet each other more deeply but
I'll go tomorrow there
To buy the fish from this man
To have a chance just to look
At his wonderful eyes again
I know I could fall in love with him
I did this somehow
In this simply tender way
Which doesn't expect
Any beginning and any end
It's just a while which invades me
Rapes my thoughts
And I'm again
In influence of
Some stranger
Love scent touch
When I feel this sweet tendrils
Around my soul
And I know
That this is one of these men
Who could be
Some special one to me
If we could meet
In a different time
And different way
Then today

Anna Cellmer

Trapped In Delight

I'm here

Trapped

In this warming cave of my mind

Demanding fresh juices

To fly

You have touching spirit

I love it

So live here

This light is my daily food

From now

So I devour you

And live still

The pleasure of it

Is too big

To stop

I think

Anna Cellmer

Travelling Thoughts

November nights of great cities
Where the hotel- love dies
Torn with the anchor of the life
With the scream spitting out the world
Again, with the future
I rummage the time in rubbish heaps
To find the essence of the rights
Rulling over the immortality

Dipped in the twilit of the space
Swing with hips to raise the laughter
Which overfills me through and through
To shout unexisting names
To express a charm tells
Which are thundering sluggishly
Through the waves
Caressing my soul
By unremembered songs of the world.

The gentle space raises my body
To pour on himself with the surface
Seeking of the liberation
Somewhere behind the horizon
Of the Uncertainty
The Life depends of the power of shoulders
Groping for
the Resting-place
Would be possible to come back home
And at this time?

Anna Cellmer

Two Birds

There is a beauty

In your words

That I can't deny

There is a spirit I love to drink

Day and night

There is a mystery I wish to follow too

And there is a story we create both

So merrily

Floating here

Among the pages of our own

Realities

We live

We are nothing but birds

Searching wild but cosy nests

Among the trees

Of our dreams

Smiling

Anna Cellmer

Valentine

Hello, baby
If you don't mind
I wish to be your Valentine
Only today
Because as you know
There is not us
Anymore
There is no way
There is no time
For this love lost but
I still think about you
Sometimes
And I know
That this story of us
Still lives
In dreams we have
And here in these words
Wandering around the world
Whispering going on
That some time ago
The woman loved the man
By romantic love.

P.S. It was just to let you know
That you were not just an episode

Anna Cellmer

Visit

Are you single?
I am asking because...
I'd like to visit you
Someday
Some night
I'd like you to wait
For me
Alone
That's why I ask
I just need to come
To you
But I don't know
Your address
Is it a problem for you
That I'm going
To visit you
Without my clothes?

Anna Cellmer

Wait A While

How could you
Leave me
Without your hands
On me
Without your lips
In such a cold place
As a Poland is
Do you think it was easy
To live
So many years
Without your kiss?
How could you do this
To me, my Love
To your lady
To your miss
To your sweetie pie
And your piece?
Do you see
How it looks now?
When I still miss
But
You know
I'm somebody else
Wife
And you know
That it is maybe wrong
That I feel this
What ten years ago
But what to do
If I'm still in love with you?
So, please just wait
A while
Because I know what to do
To be with you

Anna Cellmer

Waiting

You are a big city warrior

And me just a water nymph

From one of these pretty looking lakes

You wish to go by one day

But you don't have the time enough

Busy in your big hard beautiful world

I'm waiting here still

Smiling because I know

That in fact you are here

Inside drowned quite deeply

Just as it should be

With me

Anna Cellmer

Waiting For You

I swung with branches
A tree without roots
Free in space
Summoning it to flight
With every day
Its crown grows
Liberated by the pressure
Of the corset of youth
They would rustle so
So loudly
Summoning its lover
Who it lives for
Who it dances for
The wild dance of nature
Among the rocky hills
Together with the wind
Playing on the waves
Melodie bursts of passion

I call You
My lover
Among the night
I call You
The hum of the wind
I call You
The scream of the storm
You would crash
There on the island
Where I wait

If you want
I will be a willow
To be able to
Wreathen Your shoulders
So that You could hear
The melody of the bird's wings
Fluttering among the branches

If you want
I will be a rock
Where You will reach

Looking for refuge
After a long cruise
If I could
To take You in
Exposing all the caves
In which you could fall asleep
 You could be a discoverer
 You could wander
 Over pulsating valleys and hills
 You could conquer all the hilltops
 You could find the roads to fiery cave
And I will feel Your every movement
You will touch me
With the sounds of music
Which you will feel in your heart
You will be the pianist
Which will play on me
The song awakening to the life
 I call to You
 My dear
 Standing on the rocks,
 Gazing at the Ocean
 Dressed in a gown
 Of gossamer and fog
 And with a necklace of morning dew
 You would arrive to marry me
 Because I'm Your goddess
 Sailor
I call hopeful
That you will land on the island
Where I wait

Anna Cellmer

Waiting Room

Is it not terrible that
In the deep of my heart
I found now
That the marriage of mine
Is just a waiting room
Where I always wait
For my real life
With you

Please forgive me
But I needed to find
Some reality around
While I've been waiting
For you to come
It was just a way
To survive
This cold life

Anna Cellmer

Was It Just A Dream?

Soon the last mark on my skin
Will disappear
It will be hard to believe
All it was real
Perhaps it was just a sweet dream
We both have had suddenly
Perhaps it wasn't your lips
Touching me
Not your palms not your...
Are you real, are you real and mine?
Or I was dreaming?
Should I forget all this here?
Do you want me to stay silent
And calm dreaming still
Just smiling from time to time
That perhaps one day
Such dream can open me again
To go for, to wish, to feel you
Just as it was a moment ago?

So.. You have been inside me

and where are you now, my darling?

Around still?

With me?

Near?

Anna Cellmer

Wasn'T Strong Enough

Honey, maybe you are
Strong enough to live like that
But I couldn't stand
These lonely nights
But I wasn't brave enough
To knock again to your doors
Besides you forgot
To left me your new address
So, how could I come
When I had enough to be alone?

Anna Cellmer

We Are Children Of The Earth

Maybe it is just like this
That we are all just a children
Playing well in our life
We need some toys, some friends
We play all the time with many games
We win, we lose something, someone
Some plays are dangerous too, some are forever
Some are not funny at all
Especially when we don't have
These toys which we need the most
Or other pupils don't understand that we want to play together
It's hard to say what we should do
To make fun from all this what we do
There is so many plays, so many possibilities
We just need to know, what do we like through
And what we can or not, what we pretend or what we understand
Because there are always some rules
There are always some Gods or
the people who seems to be so big to us
So we need to be quite polite sometimes
But don't forget that it is just a life
And we must play well and fair
But whole art is to find
What kind of play or with who do you like play to
So, just make fun, and choose, something useful
Be a doctor, a constructor, be a mother, or the father
Who ever you want to, you can be
Or you can just try to play well at this
What the life brings to you with its fate
Just don't play at war if you don't have to
Because it can destroy the world
Besides it is not funny at all

Anna Cellmer

What Can Be Better Than This?

Is this song right

For your ear?

Your words tickled me

Sweetly this morning

So familiar they are

Oh, but you know

That my dance is free

And my heart is singing

To my lover ear

He is my dream still

And his voice is the one

I can hear among million suns

And it let me feel the universe

And million stars

That let my soul dance

What the game

Could be better than this?

What I can hear

In a voice from my lover dreams?

What Did You Mean?

You said it's because

I'm too beautiful and I hurt you

You want me to leave you alone for good

You say that I'm a winner and you lose

But I see my self ugly right now

and I lost something so special

and I still can't come to terms with it

I don't even know when to leave.

What success did you mean telling me this actually?

Anna Cellmer

What Else

It's almost a year
When you came back
To my heart again
And I feel so well
With you inside
But Darling
I don't know
Your side
And what else
I can show you
That you could believe
That I love you
I said all I have to say
To make you feel this way
I feel too
Now it's time
To meet
Because I lack the arguments
I think I used them all
What else I can do for you
To make you sure
That you are only one man
I love so strong and so long
Please just let me come
And you will know
Everything about my soul
From my eyes, lips and hands
I will show you again
How love looks in real
That you could understand
All my words
I wrote to you
My only Love.

Anna Cellmer

What Is This Game You Wish To Play With Me?

What a strange game

You wish to play in

My poet friend

Don't you know me yet?

You search the answer

Which is so easy to find

Who is ania?

You ask

She is nothing more but woman in love

Sometimes an angel sometimes a w...e

Whatever name you can find for her

It's just a word

To find out

What the woman can see

Going deeper inside her own dream

But this dream seems to be so real recently

So she is enjoying it

And dancing still

Just when the music plays

Its fairy dance

Inside her

Anna Cellmer

When I'M In Love With You

When I'm in love with you
I feel so strong that I could move the stones
And I feel so good that I could change the world
I'm so brave and great that I could play with the God
With all my thoughts I keep inside
I feel so special
And anyone around doesn't know
What is it all about
How wonderful world I see when I smile
Full of hope and desire
Of the new things I could do
Being with you
But when I'm with him
I feel nothing
I don't have any force
And I just want to go
To bed to sleep
I don't need anything
I'm just a little piece of ground
And I don't feel the life around

Anna Cellmer

When You Say 'I Miss You'

When you say

I miss you

I just wish to get hold of your beautiful head

Put it tight to my breast

Kissing you on your sweet cheek

And kissing more

Your lips

Your eyes

Your ears

And go down too a bit

Just to see this wonderful rush desire in your glance

With such a great passion and love within

And all your trills and words

To feel and hear

I wish

Anna Cellmer

Where Is Your Heart Now?

I love you,
yes you are right
nothing has changed between us darling,
I've had just this sad night
Because of this what you said to me recently
it's hard to me sometimes
to find out again this reality around,
yes you need someone by your side,
maybe I don't like my life at all
but I don't know how could i change this now
I lived in this dream about perfect love
and now I have to wake up for a while
everything is good if we feel both good with this so
I'll try to accept you new life and love now

oh

but it was just a week ago
when you said
that you are mine
that you love me
and that I should remember this
always
how it is now
my sweet
how it is
where is your heart
placed
where it is?
tell me please

Anna Cellmer

Why Angry

Don't be so angry for me
The new man I have been meet recently
I don't understand
Why so hurry you are
In this way to me
You are impossible
Emotional, passionate
And I'm afraid a bit
You in my life
I don't know
What to expect from you
What you are going to do,
To say to me soon
You are amazing but
I love some other guy
And I can't promise you
That I'd be for you
Someone more than
This little ray of the sun
Which brings you smile
This I can be but
Someone more?
I can't be your lover
If you wish so
I have another man
Worth to wait for

Anna Cellmer

Why Worry?

What do I have to do

Just to be happy that's all

Each day is coming bright

With love living inside my heart

So what to worry about?

Oh maybe just that he shouldn't work so hard

All the time

Maybe that I could work more

A bit right now

Oh actually I think

There is nothing still

All are fine

We spend another day of life

With a smile and this is great

Why childish you think am I?

I don't understand

What kind of problems I can have

With this?

Who can't understand?

All are good and nice to me

So why worry?

Anna Cellmer

Why?

Nothing stay from my passion today
Lovers - go away
I feel sadness inside
I wanna be alone tonight

Why, why I miss your lies
So much?
Can I live without them
Anymore?
What is more sweet then
Your words?
But how to listen you
If I don't believe
No more?

Why some of it
Still sounds so real
In me?

Why if you show
Nothing but
That you just play
With my heart
Why you do that?

And why I can't
Free away my self
From you
Why do I love you?

Anna Cellmer

Wicked Game

You said that
I don't hurt you
This way
You don't love me
Then...
So, it's just
A wicked game
Between the woman
And the man
I understand
And you know
I'm not sure
It's sad at all
It's just a different
Kind of me
Which likes this play
With you and me
And this cold love
In the hotel room
Where I know
I can do
What ever I want
And you too
Because it's just a play
Between the woman and the man
Who understand.

Anna Cellmer

Will You Be There?

Maybe I need both of you
Because I'm not sure
Anyone
Because I don't know
If love can survive
More than while
More than these 30 days
Or something like this
Maybe one year
Can I be sure
Anyone?
Can I believe
All your words?
Will you still love me tomorrow?
Will you stay with me at the time
I'll need you the most
Will you be there
My love?

Anna Cellmer

Winter Time

The winter time is coming soon
Between me and you
Now all we know
Is that you are not going to come
At all
So now it's the silence time
To forget the sadness that came suddenly
To smile again one day
Perhaps to believe
From the start like nothing happened
Like you really wish to come here
Like you really love and wish to be still
And for good
Forever mine
It's such a sweet dream we have
So it's not easy to leave it and go
To all these real things around
That are and will be still
For real
But you and me
Have to be silent now
To forget again
This little disappointment
This little shame
That here is just a play
But no one should know this
Yes we have to believe still
To have this
My dear
It's such a lovely thing
So special dream

Anna Cellmer

Wishes

I want to go to your fairy Island
I want to see the place
You lived as a child
But there is no point
To go there alone
Don't you know?

Yes I'd like to have
A wonderful house too
Someday I'll do but
There is no point
To live there alone
But with you, my love

Anna Cellmer

With Or Without You

You are never sure
If you take a prime
Or you are just a little piece
Of a great mystery
Which is going on
When you are take a part in it
And when you are gone
This moment of touch
This moment of smile
Is this what you really have
Then the show goes on
With or without you at all
Though you can always came back
To feel again that you are inside
Of this great book of life
And then you believe again that
It's you who is holding the key
Of my soul and heart

Anna Cellmer

Woman In Love

I didn't know
That I will share
The fate of all these
Women in love
Who cares
About the man's touch
Sending him too much
Messages, and letters
But I haven't found yet
Better way
To show you
How I care
And as you know
I'm terribly scared
That it was wrong way
And now
You will never want
To speak with me
To come
Because maybe
You are afraid this love
Or perhaps
You just don't want
To destroy this
Life I've built
So far
But which I can't see
Right now
Because it's only you
Who exists
In my world
But you know
When you have a children
It's not so simple
To change the place
Or the man you live with
If you have inside
Just a rest of responsibilities.

Wonderful Past

I'm here watching
The stars, the trees
The clouds, the babies
Thinking about this
What has happened
Some time ago
What is right now
And what can be
How it wonderful life
When I have my past
How could I live
Without my memories
I'd be so empty then
And so tired of all these daily things
Around me
Who I'd be without my dreams about you?
Just a simple girl in the little part of this Earth
I can't even imagine my self this way
You were always here, even before
We have been met, my love
I was dreaming about you
About the man wandering
Around the world
Who will find me here
And then we will live together
Taking a pleasure from each other
Yes, you were this man
I was dream about all my life
And you stayed like that
Just in my mind
But I still believe
That we could live
In reality too
Do you believe at this
Mon amour?

Anna Cellmer

Yes

Even this simple 'yes'
Is more than enough
To make my heart aroused

Anna Cellmer

Yes I Love Trains Too

I had little dream

About the train yes

Wasn't Orient Express?

And the stranger on the way

Whose glance makes me feel

So naturally naked

Again?

And the journey was long

Very deep

Surprising

Sweet...

Yes

I love trains too

I think so...

Anna Cellmer

Yes I Love You Still

After few days of my silence
You doubt and ask me if I love you still?
My darling
You don't know how much it cost to be quiet to you
For a while
You don't know why?
I did this little break?
I just wished to give you a little time
To miss me
As you do right now
I was just afraid for a moment too
That you don't need me so much
As I need you
That's why this little silence was for
But you know
How much I miss you here
How much I need to be sure
Of your heart all the time
To live, to go on this beautiful life's trip
Yes I love you my darling still
And I'm so happy you miss me a bit

Anna Cellmer

Yes Or No

Dear love
I wish to know
Do you want me or no
I need to know
Do you love me or no
Yes or no
Yes or no
I want to know
If you want that
I'll come to you or no
Yes or no
Yes or no
I must know
I wish to know
I need to know
or I don't?

Do I really want this?
Or maybe I afraid
What your answer can be
or maybe
That the charm will splash
As a bubble
I'm afraid to lose
What I have now with you
All this hope and dreams
But also I'm so scared that
Anything won't be right
When we finally meet
That I just won't know
What to do standing by you
Maybe I'm afraid this more then
Your answer "no"
But I still want to know
And I'm scared this too
I just don't know what to do
But I need to know
How I get on you
By my words

Please give me some sign
Just a little point
This yes or no

Anna Cellmer

Yes Try To Help Mr Blair

Mr Blair
How to not like you
If you try to help
In my case again
It's you who are calling now
With some of your colleagues too
As Annan
For deployment of international force
To stop this war
We all need peace
And they have some problems
With conversation
So, we need help them somehow
Kofe Annan advise to Lebanon's Prime Minister
How to create some speech to Israel
To stop bombarding his land
But if it wont work
You call for sending some force
To calm them down
Maybe you know
That I lost my friend
Somewhere there in this hell
Which started few days ago
His mobile phone doesn't work anymore
And I don't know
Is he ok or no
This is very special and good man
You should know
I worry so much is he still alive
Because as you know
The most civilian Lebanese die
In this meaningless war
More then 200 so far
As the news said
So please let them calm
I don't want he would die
I want to know
That there is peace again
In his land

In this world

Anna Cellmer

Yes We Said Good Bye

Yes we said goodbye
Yes I know
I'm impossible
Yes I know
I wrote too much
Yes I know I touched you
Not even once
Yes I know
That all I do is the cause of mess
Between me and you
But baby
I don't wanna lose you
If you love me still please
Don't go
Stay
Inside my world
Be here still
You know we can live
Just like this
I understand the troubles with moving
To me or to you
But all I feel is just an emptiness now
When I think you have gone
If you really have to go it's ok
But don't do it only because I did this or that
It doesn't matter at all
I love you
You should know
If it was only because some of my words
Please come back
I love you
And I care
I never want to hurt you again
I never want to let you feel blue
I promise to be good.
Don't go
Please stay
I need you more than air

Yes, My Love

I always know
When you are on the other side
I just come on this site
Always in the right time
We almost don't speak on line
Maybe it's just too hard
We are too much in love
So it's better just like this
Yes messages are nicer for now
More safe
To not crash anything
We have

You came then
Oh you know
How much you get on me still
But at the same time it's so easy
To destroy this
But yes I love
You still
Yes, yes
We are as one
My love, my man
Nothing has change
Come to me again
One day
I long for it
Always
And I live
For this

Anna Cellmer

You And Me

May it be just imagination
You and me?
May it be all just mind creation
Loving here?
We never touch, we never see
So how it can be
To feel you so much
In me
Why can't I stop to think of you
My love?
Why all my life
Is running around you
Right now
Even if you seems to
Walk away into the silence
If all you said was just to please me
If all you said was nothing
You really meant

So why, why
I miss your words and you
Right now

I can fill my life by thousand
Beautiful romances
But no one can take your place
No one can create this story
Of you and me
Don't you know this?
Don't you believe
That you and me
Is something different
That you and me
Is this dream I wish to live
Forever in
That you and me
Is all I want to believe in

You Are Mine Don'T Forget!

I used to live by the rules
Everything or nothing
But this time is different
And I miss even single kiss
Or just a little sign of your existence
And I'm ready to beg you on my knees
Stay my lover, please

Oh, but my love
I'm afraid
That this way
By these words
I can make you
The most adorable
Man in the world
And it's not what I planned
I'm not sure I'd be glad
Seeing you with another girl
But everything is possible
You are so wonderful
That I'm really scared of you
I'm living so far away
I think I have to move
I should take care of you
There is so many
Beautiful women around
I'm getting be really afraid of that
You are mine!
Don't forget!
That I need you so bad

Anna Cellmer

You Are This One

I love you

And I do
You are my darling

So simple loving words between us
Which only we can feel so much

How I love to receive all these lovely answers
Of yours

You are my soul mate
You are my sweet man
I wish to be so close to you
I love to know that I'm yours

I feel you near me
And I'm not afraid
To tell you anything
And I know
You'd understand me well
And I'm sure
Your words are true
You read my soul
And you perfectly know
What I want
You are this one
I was looking for
So long.

Anna Cellmer

You Did Something Good Again

If there is a heaven
Above the sky
For sure
There is some
Nice comfortable
Apartment there
For you
You did something
so good again
I'm proud of you
My old friend
And I wish you the best
In everything you do
Because all of this
Is so good
You are kind of
Angel in this world
And it's so nice
That there was a time
I have had a chance
To touch you
And to fall so deep
In you
Yes
Thank you
and good luck
With your Open Mind
and this
Charity festival
of Polish culture and art
In Jersey Land
For children health
Prepared
For better future
Of all of us
With smiles

You proved once again
That you can change the world

By your self
My friend

Anna Cellmer

You Get On Me, Baby

Such a simple word
"I miss you"
But how much to enjoy
I feel this so merrily within
It's like a pick to my soul
Such little word
Which makes me yours
I can't run away
From you, my love
One your word
And I'm back
To you
From my tour
Not important how far
I was for a while
From you
But always in sight
Of your heart
I'm yours
So happily yours
Whole my body
Is so soft for you
Just wanting
To be touched
How you make me feel this way
My boy
How you are doing this
I don't know
But I love
And I'm so glad
That you come.

Anna Cellmer

You Had To Do It

You had to leave me
I know
You had to do it
And now
I love you
More then ever
And now
I'm yours
Forever

Anna Cellmer

You Just Fit To Me

You are not too bad

and not too good

You just perfectly fit to my soul

And you make me feel the way I love

That's all what I need to be sure

That you and me is exactly this

What I want

Anna Cellmer

You Just Have Gone For Too Long

You said you are not like this
And when you are with me it something means
One day you wrote that I'm wonderful lady
And no one should ever hurt me
And yes, my darling
No one had any chance to hurt me anymore
Because it is you who I adore
It is you who I miss and long all my life for
It is you who make me cry at nights through
And it is you who makes me feel alive too
And I don't know how can I thank you
For all these years when I couldn't stop believe
That you are this man who always will be
Who come back finally and will be this man I want to be with
But you don't know how it hurts when you are alone
When you don't know anything anymore
When you need this touch so much
And you go to feel again
Just a little shadow of this what you lost
But you know that there is only one, you miss
But you can't find this man who make you feel like this
I'm sorry that it is you who hurt me so much
Only because you gave me a paradise to touch
And then you have just gone for too long

Anna Cellmer

You Miss Me

I love to feel you
This way
As I do today
After your words
Always so sweet to me

I love to hear
Your voice
I love to know
That you miss me

Darling
I love you
Still and
I want you
More and more
Every day
And I'm glad
To come back
To you
With whole my body and soul
I love to be yours
As you know

Never forget about this
My love

You miss me
That's all I need
To feel you
Inside me

Anna Cellmer

You Must Decide

Every day I fall in love
With you again
Every day I wish more
To be your woman
Even if I know
How sad can be the end
I can't find the way
To put you behind me
My Englishman
I don't even try
To set free my heart
Should I?
I don't see the reason
Why?
Should I stop
Loving you
Inside
Only you can be
This one
Who decide
What should I do
With my heart

Anna Cellmer

You Shouldn'T

It's all because
You were so scared
This unborn child
That we could have
You shouldn't stop
Putting your hands on me
So suddenly
You shouldn't
Became so responsible
You shouldn't
Say that you like me
And that you always will
You shouldn't stay here
To start build this dream
You shouldn't call to me maybe
After some time
You shouldn't be silent
After these letters I wrote
You made me this way shy enough
To never have a chance
To say to you all the truth
That I always wait and
I can't stop loving you
You shouldn't build your own world
You shouldn't left me alone for so long
But you've done
Just please don't be scared of me
Right now
I'm this same girl as you know
I didn't come to fool you
And I hope you understand that I must
Try again to call to your heart
I shouldn't marry him maybe
But I did
Can you forgive me?

Anna Cellmer

You Will Never Know Me

I can't show you anything more
I was open enough
More open then ever before
So if you say
That you don't know me still
darling...
It's just I can't say any word
To you anymore
Just this that
I was never more open, more wide
Never more brave then now
Telling you about
Every wishes I have had
Every little thought I had to
Share with you
This what is true within
So if you don't know me still
I suppose that
You will never know me
darling
And something else
I think it's your problem
That you don't want me
I'll look for someone else
And I'll find great love
Because now I know
That I was wrong
Looking for an angel
Angels are not good to me I think
They are not brave enough
To stay great lovers I suppose
I know that I need the man now
Or a devil one
I know I need someone to love
Someone just great to me
Someone worth of sin
Just looking around
You never know
Where you can find

Someone to love
When you can find
These right eyes
To go, to burn inside.

Anna Cellmer

You Will Stay Like That

So you came back to mother of your child now

I know it's better like this to both

I know sometimes we have to leave

Sometimes we have to be a realist

But it's so sad we never met each other and now it is too late

You know, my love, with the time we just put on us a higher luggage that's all,

all these loves that come, some stay other go

it's all in us after years some we left but another we can't

sometimes we are even coming back to put it again on us

depends what we need at times,

I don't know if it's bad or no

but recently I have very colorful life

I know you don't like it,

but actually we are not together

maybe we never will,

though I always feel you near,

you were this first sweet man

who came here for love

and I gave you this from all my heart

but it's not easy to be in love just here, I know

for you and for me too

I need all the time some touches

so I have them

I didn't know there is so many beautiful men on this world,

yes I'm also naughty one

and they give me smiles

and yes I do dance for them too

and they say to me

the same sweet words as you

and they are beautiful in this

Maybe you stop loving me

knowing what I do

I don't know you are easy to leave

and I can understand this I think.

Maybe it's all for some time of my life

so enjoyable I don't know

maybe I have that kind of soul

The only thing I wish is that you will not forget me

and sometimes think of me with a smile in your heart,

you are still so special one for me

though you were never treating me well I think

but even these few touches you gave me and smiles

means a lot and thank you one more time

to put so much love into my heart,

I'll always have and will keep you inside

even if we really never met you will stay

like that

as you are - just beautiful

Lover

I have had

Anna Cellmer

You Wont

You wont be there
Where I stay in
You wont see me on my way
You wont care
You wont share the days
And the nights
Perhaps anywhere in any time
You wont see my face today
You wont hold, you wont kiss
You wont miss me at all too
You wont love
You wont pretend you do
You couldn't
You are so far away
You don't exist anymore
In my world, but
There is not so sad to me
As it used to be before
But right now
I have someone by
Who cares, who can, who loves
Who see and share all these days
So, there is not so wrong
To say good bye to old love
Sometimes it works
And it's so fine to live again
With someone else's arms so open wide
With someone's heart
So, I'm glad the life's going on
And love is still around.

Anna Cellmer

Your New Girl

You don't even know how it hurts
such words
But don't worry about
It's just because I love you
I think I'll be fine soon
I hope
It's just for a while
I feel so bad
Like all the world just become grey
from now
when I see that you are not mine
that you just found
another one
girlfriend to love
but thank you
that you are so honest with me
my love
I was afraid that this dream is too good
and that someday
something will happen like this
something wont be just as i wish
but i know
that it's not possible
to live just like this with me
I know I understand
your need to be with some real warm girl
by your side
but today you just realized me again
who I'm
I'm just married and mother
living so far away from you
I can't give you this what she can do, I'm sure
So maybe I should just go away with all this love
to leave you in peace with another one
I just feel so sad now
But I understand
I wish you the best
I hope you are ok
If you ever need me

Let me know
I'm still here for you
But I think that I should
Just leave you alone
right now
I think I should leave you
yes I think
Yes I'll try
I promise
I'll try to not be sad
because of this fact
that my perfect man
have a new girlfriend
from now
yes I'll try to survive
but how to believe in your words of love
how to understand clear
I'll try to live with this somehow
but I wont fight
I don't have the chance
to win with the reality

but come back to me
when you will need me
come back when you will be free
and for me
goodbye for now
my sweet man
goodbye
don't think about me too much
it wont be good for your new girlfriend
for this new relationship which you start to build
try to be happy
with her
just remember
That I'm where I'm
Just enjoy your new love
forget about me
God how I'm sad telling this
A pity girl
but maybe tomorrow I'll be fine
and I'll understand better

and I'll try to smile
but for now
I can't I'm sorry I can't
It was just too beautiful
that It could be real

but you know that I wish you the best on your way
don't forget me
don't forget

I know it was hard to you
to live with this love alone
but now
it's so hard to me
To live with this fact
that you have a new one
but I'll try
Yes I'll try
Just can't stop these tears fall down
right now

bye I have to go now

Your Poetry Talks To My Senses

Your poetry
Your visions have so much
Lovely tasting smells of life inside
Your love is
Full of charming things
I could not have seen here
If not you and your words
So sweet to me
Which get on my senses
As nothing else
I love when you talk to me
Like this
I love the light you bring to my life
I love this desire I have
From the time I saw you
First time
And I love to live
With the sight of you
Inside.
