Maa Miss You A Lot

Maa miss you a lot.

Whenever I was nervous before, mother used to embrace me.

Now whenever I am worried, I will spend a lot of weeping sitting alone in a corner,

Why mother does not talk about your mind with you.

Mother feels a lot about hugging you. I want to keep my head on your lap.

Mom remembers that moment when you succeed in hugging me while you are successful.

It is very reminiscent, Mom teach your new things by becoming your teacher, giving your unique knowledge.

Mother remembers a lot, make friends, make fun of laughter, joining with my craze & with my happiness.

Mother Misses a lot, understand my silence And you asked me what happened to you?

Mother remembers a lot, sometimes with anger, chanting quietly, then shuffle your affection on the head.

Mother I have become very lonely in the crowd of this world, you again call me back in your world.

Give me that love of affection for me.
