# Cake Heart()

## ...Perfection

I see his face  
It stand out  
In this crowded space  
There's no doubt  
He's perfection

My mind spins  
I freeze up  
Fortunately, my mouth wins  
I speak up  
A salutation

I feel crushed  
He looked right through me  
I should've guessed  
He wants better quality  
His perfection

# Agony Of Abandonment

The pain slices through me  
Sadness quickly replaces the agony  
Then, numbness invades my body  
All because you disappeared

You abandoned me  
Right when I needed you most  
Support was all I asked for  
I guess you just weren't strong enough

Here I am now  
Scars decorating my figure  
Staring at the mirror  
Wondering why you left

# All I Ever Wanted

She says one thing  
He says another  
Tell me everything  
No matter how much it'll hurt

Thanks for the truth  
I'm glad I found out  
Now I know  
You're just fake

I guess you're glad  
You think I'll move on  
News for you  
It's not that easy

My heart will live  
Torn and broken  
Yet, I'll still love him  
Forever and ever

All I want  
Is to see him smile  
To see him happy  
That's all I ever wanted

# Cruel Game

Is this what you do?

Date then hate?

What other girls  
Have you done this to?

Is it best I warn  
All future girlfriends?

So that their hearts  
May not be torn

From this unfair game  
You love to play  
It was utterly cruel

I never played the same

Bur I'm just some chick  
Who gets lead on  
And heart-broken

Because of some dick  
Just like you

# Done With The Bullshit

Wiping away the memories?  
Not exactly  
Putting them away  
Under lock and lots of keys.  
Done with the past  
Done with the lies  
Done with the bullshit  
This is definitely the last  
No more drama  
No more pain  
No more tears  
No more trauma  
What ever happened to  
Seizing the day?  
And living like it's your last?  
I'm such a fool for falling for you

# Dying

I hear you talk  
Her, her, and even more her  
It seems like your trying to mock  
The girl that loves you

As I sit here  
On my bed  
I wish I had told you, dear  
I'm the girl that loves you

Now, I see your lips  
They move, not a sound comes out  
I am dying, my heart has rips  
From seeing you and her

I'm the girl that loves you  
Who just got tired of waiting  
Tired of being number two  
Second, against girl who doesn't even care

# Friends

Our footsteps match  
Left, right, left, right  
We talk  
We laugh  
My smile never fades  
When I'm with you

You're always there  
When I need you  
Serious or amusing  
You're a friend to lean on  
You never let me down  
You amaze me

I hope you know  
Just how much  
This friendship  
Means to me  
If you don't,  
It means more than the world

# Fuzzy In Haze

I'm in a slump  
I'm stuck in a dump  
Is it worth it to jump?  
I don't even remember  
How it feels to be better  
Mentally healthier  
I've only one true friend  
I'm at the very end  
Why bother to try and mend  
My disastrous lifestyle?  
Go look at the pile  
Of blood and bile  
From my many nights  
Of verbal fights  
And spinning lights  
My lonely days  
Fuzzy in haze  
All in grays  
I can't sink anymore  
I'm on the floor  
Back to the door  
Razor to wrist  
Hand in a fist  
Creating the list  
Of anyone  
Who'd stop me from feeling numb  
I still have none...

# High And Pride

Her black face walks the crowded hall  
The sea parts, only to have her fall  
But she stands again, proud and tall  
No one can break this wall  
Racism don't phase her  
Whispers? Brushed off her shoulder  
Those crude remarks just make her stronger  
This girl's a fighter  
She carries herself with grace  
Never lets herself feel out of place  
Pride, shines across her face  
Pride towards her race  
Who are they to judge?  
It's their ancestors that hold the grudge  
Against her skin like chocolate fudge  
But this girl won't budge  
Her eyes stay dry  
She never feels the need to cry  
Although people do try  
To break her down, but why?  
She's always been a girl so silent  
It's not like she's violent  
Nor is she defiant  
Yet not overly compliant  
She's just searching for peace  
Searching for an increase  
In the level of ease  
That everyone tries to seize

## Hopes: Crushed

The corners of her mouth  
Slowly creep up  
Her eyes sparkle  
She thought you gave up

This is the best surprise  
She's ever got  
Her heart is racing  
And so are her thoughts

And then it's gone  
The frown reappears  
Her hopes vanish  
That was one of her fears

# In The Life Of Teens

The arguments never stop  
The cold stares  
And evil glares  
Never drop

We used to be inseparable  
Best friends  
Sisters `til the end  
It was undeniable

What went wrong?  
The less we chatter  
The more this matter  
Will drag on

I vow to fix it  
What about you?  
You're in this too  
We can just quit

I miss you as a friend  
This is pathetic  
And more than a little dramatic  
I'm sorry  
Sisters `til the end?

# Infection

Another section  
Is torn from my heart  
It's an infection  
That will never depart  
Called love

You diseased me  
The moment we met  
I long to be free  
And to forget  
About love

It hit me hard  
I'm still shocked  
You caught me off-guard  
I thought my heart was locked  
From this illness called love

Where's the remedy?  
I need it quickly  
I know I'm ready  
So let it fix me  
From this infection called love

# Last Friday Night

Take a drag  
Feeling light  
Take a sip  
It's alright  
It's Friday night

With my friends  
Having fun  
We're so young  
Before it's done  
One last run

Lost control  
My final sip  
I couldn't think  
So there's the slip  
And my flip

Stupid mistake  
Now it's gone  
I should've listened  
I was wrong  
I was drawn  
To those drinks  
And those drags  
My last Friday night

# Life As We See It

A fallen hero  
Bleeding wound  
Chaotic parade through the halls  
Dragon failure  
Energy invasion  
Daredevil individual  
Nauseous  
Spaceship beyond the moon

# Medicate The Heartache

The tears keep falling  
My head's still pounding  
Why can't you see  
What you did to me?  
I never smile  
Not in a while  
My wrists are scarred  
My heart is shattered  
Now, these new pills  
Are supposed to be what fills  
The hole inside  
The hurt that I cried  
About each and every day  
That you weren't here by my side

Cake Heart

# Mission Impossible

Through the tears  
I stand strong  
Facing my fears  
It's been so long  
Since I've smiled

We've had our share  
Of fights and arguments  
I say I don't care  
But there are hints  
That I still love you

It's in the past  
Let's move on  
We'll make it last  
Just hold on  
To what's within reach

But I'm still here  
Waiting on your decision  
Make it clear  
I'm on a mission  
To fix a broken heart

Cake Heart

# Nightlife

I sit upon these steps  
And look at the lights  
That dot the blackness  
Of my view

Footsteps approach  
I tear my gaze away  
So I can freeze and watch  
The man walk by me

I'm all alone  
This is how I like it  
I'm in my zone  
I'm part of the night

Cake Heart

## Nono (Grandpa)

Even though I try  
To not care  
I still cry and cry  
You're still there  
In my  
Heart  
Forever  
Though it's  
Breaking apart  
Never getting any better  
From the  
Damages you made  
And the truth that you hid  
It will never fade  
Because it's how you died  
I'll always love you  
And I miss you

Cake Heart

# Pain Without Love

Tears,  
Staining her cheeks  
Weed,  
Appearing in her breath  
Alcohol,  
Sitting in her hand  
Friends,  
Leaving her life  
Depression,  
Becoming worse  
Razor,  
Cutting her wrists  
Noose,  
Waiting to be used

Cake Heart

# Symphony Of Sounds

The music starts to play  
And I escape away  
To the mellow beat  
It's my secret cheat  
On how to leave it all behind  
I clear my mind  
Let my muscles relax  
Erase my mind of the facts  
That surround me  
Right now, I'm free  
By these beautiful sounds

# Who They Used To Be

I look at my stories  
My journal entries  
My poetry  
It's hard not to cry, but I still try  
It's all about 2 people  
Who meant the world to me  
People who I loved to see  
And who loved to see me too  
So why did they go?  
Why aren't they here anymore?  
When they left  
It tore  
It tore at my heart  
My brain  
My lungs  
My limbs  
I fell apart  
And everyday, I wish I could restart  
Because nothing hurts more than a broken heart
