## Dan Uher(11-18-1987)

My name is Dan Uher and I am an up and coming poet who really puts different forms of writing into each and every poem I have written. I put my poems into lyrics and make songs out of them as well.

# A New Beginning

This is what it takes  
To relieve my aches  
My heart so strained  
Rarely contained

I let my bursts of anger  
At a random stranger  
I know it is wrong  
But my heart sinks so strong

A new beginning is the way  
For me today  
A new start  
Can only help my lonely heart

Your greatest downfall is your mind  
But you know your one of a kind  
You cannot change who you are  
You cannot change who you may be  
No matter how far  
You will find the way to find peace.

Dan Uher

# All I Want For Christmas

All I need  
All I want  
You with me  
Here right now

You are the greatest present  
That could be given  
A gift so perfect  
So unwritten

I want to write the rest  
I want to be the best  
To show a different side  
Through my disguise

I want to write that book  
And begin a new chapter to my life  
With you here right by my side

Right by the tree  
Or under the mistletoe  
I will be  
The best you'll ever know

Falling in love is hard for me to do  
But I have now found a way through  
You opened my heart  
Gave it a jump start  
I am recharged

Although it is not Christmas  
I never would've missed this  
Every time you are near  
It feels like Christmas  
The gift that's always giving  
Is your heart  
When it is singing

My Christmas is now complete

You for Christmas  
Is all I need

# All In My Head

I vision these horrible thoughts  
So hard and deeply fought  
Fighting these miseries  
It's just my memories  
But what my heart is telling me  
Is to keep myself real  
No matter how I feel  
No matter how hard  
No matter what  
I know its fake  
I know what thoughts make  
They make me think:

Unclearly  
What I have  
Is just misery  
But what I still have is my dignity  
You will never be able to take that away from me

These memories  
All in my head  
All of those uncapabilities  
Is what you said  
I don't care anymore  
I am fine now  
So crawl on the floor  
Asking for more  
But thats:

All in my head  
Will be there  
Until I am dead  
These feelings a part of me  
So trapped are those memories  
All in my head

Thats what it is  
(All in my head)  
Where is this?

(All in my head)  
No matter how hard I try  
I can't bring this out  
From the inside  
(All in my head)  
What this world is tellin me  
Is that I have to be me  
(All in my head)

# Appreciation

To appreciate  
means to liberate  
To appreciate  
means to associate  
To appreciate  
means to show respect  
To appreciate  
means to show your defect

You may not always like  
Many not always love  
Just like riding a bike  
always try to stay above

Dan Uher

# Because Of You

I hate this feeling you gave me  
I hate the way you did this  
Because of you  
I am so lost  
Though the greatest cost  
Is you hurting me deep  
You making me weep

My feelings are hurt  
My heart filled with dirt  
So deep  
So full of sorrow  
Like there's no tomorrow

Why the heck did you do this?  
You make me feel so pissed  
Remembering our first time we kissed  
Thrown out the door  
And laid on the floor

You mean nothing to me  
Nothing at all  
Picking myself up before I fall

You don't deserve me  
You don't deserve to be in my presence  
I'm too good for you  
I can live without  
Your \*expletive\* all about  
My life is free  
Of all your misery

Because of you  
I am free  
Because of you  
I can be me  
Not someone I'm not  
I'll just leave you to rot  
Because of you

I am free  
OF YOU! ! !

# Black Hole

Sucking me in  
Drawing me inside  
Filling the sin  
Don't know where to hide....

So deep inside of me  
My control has been let free  
Its force is unimaginable  
So supernatural

this black hole has brought me to a new reality  
This black hole has changed my formality  
It tells me i must reform  
That I should just learn how to perform

This Black Hole  
Black Hole  
Has taken control  
This Black Hole  
Black Hole  
Hard to let go

Fighting the change in this life is hard to do  
Fighting the power to strive through  
The urges now and again  
will fall upon our hands

No change is at need  
Use your head  
Give it a good feed  
While in bed  
or even asleep.

But that Black Hole....  
So strong  
So great  
So wrong  
Much fate

Fight it  
Fight it  
FIGHT ITTTT! ! ! !

YEA! ! ! ! ! ! !

Dan Uher

# Boundaries

So thin  
So small  
Like there not here at all  
Splitting us apart  
Keeping us from being together at all  
You try to find ways to meet me  
Your parents can't even see me  
They don't even know who I am  
Just some guy you talk to until 3 AM

All of those boundaries  
Keeping us apart  
You pierce through them like a dart  
Just to see me  
These boundaries keep us from getting any closer  
Not seeing you any more  
Like killing an open door

These things  
Don't mean crap  
Screw them all  
And throw them in a pit  
We'll bust through them  
We'll be fine  
Then you will be mine

All of these boundaries  
Not anymore  
That door has resurrected  
It is open  
To show you how i love you  
Once again  
Cause I love you babe  
Yea Yea  
I love you babe

Dan Uher

# Burning Desire

Your eyes on fire  
I can see the desire  
I can't believe  
What I see  
Is the look  
That i took

Staring into me  
Seeing the love that i keep  
You slide over to me  
My hand on your knee  
Feeling this feeling  
Never known of us  
You could feel

The burning desire  
In each of us  
Our hearts next to each other            (chorus)  
Burning with desire  
Burning Desire

I lift up your chin  
Look into your eyes  
I begin to lean  
And close my eyes  
Feeling: (chorus)

Our lips touch  
Our faces begin to blush  
As this feeling we have  
Shining through us  
In a way only imagined

My hands through your hair  
We take a break for some air  
When we touch  
Reality seems too much  
The Desire we feel  
Doesn't seem real (chorus twice)

Dan Uher

# Contradiction

Say what you want to say  
You'll do it anyway  
You did in the past  
But that was not the last

I'm a fool to think you changed  
A fool to do the exchange  
My heart for your body  
Your body for my soul  
You fooled everybody  
And kept what you stole

You bring the pain  
I took the poison  
Should be ashamed  
But your joyous

I don't get your mind  
You are truly one of a kind  
I don't know how you think  
This is just a game.

Dan Uher

# Darlin

Your my darlin  
Your my angel  
Your my baby  
I just can't help myself  
When I look at you  
And look deep into your eyes  
Like a star shines  
So bright in the sky

My love for you is eternal  
My love for you is forever  
My love for you is internal  
My love for you is not measured

I love you with all my heart  
Not knowing just where to start  
My heart races every time we meet  
My body trembles off my feet

Just knowing your near  
Is all i need to hear  
you make me feel so warm  
Make the sun clear the storm

The lips of an angel is what i see  
The lips of an angel is all i need  
You are the one who amazes my sight  
You are the one who makes me bright

I love you with all my heart  
I love you until the day we part  
You are perfect  
Is no defect  
You are mine  
I am yours  
One of a kind  
Lock the doors

# Don'T Go Away

Don't go away  
You will seize the day  
Don't fall apart  
And go back to the start  
Stay with me to the end  
I will be here my good friend

Lost in the world  
Trying to survive it's strength  
Caught and curled  
Held from it's true length  
Don't go away from the struggle  
Give it a heave and make it on the double

You are the light that shines so bright  
You are the sun that kills my eyes  
I will battle through this pain  
Your presence is enough to keep me sane

Don't go away and let it die  
Don't go away without trying to survive

Dan Uher

# Downfall

Your at the peak  
Can't control my fingers and feet  
Bringing me off of my seat  
Your so tall  
Only thing left is to fall  
So high up in the air  
The presence of mind isn't there  
But my mind is right here  
They cut your line  
No incline  
Just a steady fall  
An incredible downfall  
The downfall has began  
Your heart filled with sand  
The end is near  
The end is here  
You land flat on your face  
Such a disgrace  
A mockery and a sham  
This is what i truly am

Dan Uher

# Falling Away

You feel your at the peak  
Feeling like you have to be  
On the verge of falling....

Feeling like your falling  
Falling farther that ever before  
My body giving way (chorus)  
Feels like your falling  
Falling Away

Your having fun  
Feels like nothing can go wrong  
Feeling like you have the will  
to live on

Thats until it hits you  
Your life has changed  
New things in life  
Making things strange

Then you start on your downfall  
Life has changed  
Everything in your mind doesn't seem clear  
Just filled with fear (chorus)

Worked so hard to get this far  
Giving it everythig you got  
Nothing came easy  
Nothing came cheap  
No one help me  
To get to where I am  
But now everything so hard  
My things thrown onto the yard  
Making my mind seem unclear  
Once again filled with fear (chorus) (1st verse) (chorus)

Dan Uher

# For You

I would bleed  
I would cry  
I would die  
I would give up everything  
For you

I would give up everything in this world  
Anything at all  
Just for you (chorus)  
Just because I love you

When your not here  
I feel empty  
Everything else in this world feels dark  
Until you light it back up

Your like the star in the sky  
Your perfect in every single way  
Your mine girl (chorus)

I love you  
I love you  
I love you girl (chorus)

I can't believe my good fortune  
To have met someone as great as you  
You light me up  
Make me feel so good inside  
So peaceful  
I need nothing else to help me  
Cope through what i'm going through  
In other parts of my life  
Girl I love you (chorus)

Dan Uher

# Forever More

Forever more we shall fall to the floor  
Forever more we shall watch the poor  
The existence of a higher power  
Will topple those who may cower

It is night and day  
In every single way  
We think we're so helpless  
When really we just cannot help this

It is an epidemic we face every day  
To see those who struggle to get their pay  
A cry for help is what they show  
Whatever happens, nobody knows

Dan Uher

# Gimme A Reason

I've given all I can  
I've given up everything for a chance  
I've given up everything to be your man  
I've given up everything just for romance  
Never asked for too much  
Never asked you to do such  
Never forced you to do anything  
Never had to do everything  
For me

I've given my life up  
Given time  
Given money  
Given up my mind  
Even called you honey  
You threw that away  
Now you want it back  
Want me to stay  
Without any delay  
I am a privelege  
Not a right  
You make me deep into suffrage  
And it's hard to fight

Gimme a reason to continue  
Gimme a reason to stay with you (chorus)  
Gimme a reason to believe  
That the worst has already been seen

One reason is all I need  
One reason is what will fullfill  
My feeling that really kills  
You've given me pain and pleasure  
But what do I have to measure  
Your sorrowful ways  
I can count the days  
That you've made me struggle  
Even when I undid my belt buckle  
It was always there

Always breathing my own air  
(chorus)

Give me a reason  
Give me a reason  
Give me a reason to believe  
that we can succeed  
Through all the troubles  
All of these bubbles  
That cannot be popped  
Unless something sharp  
Pokes right through  
Just like will have to be  
If there's a me and you  
(repeat once) (1st verse) (chorus)

Dan Uher

# Hard Way

Don't always look to ease  
Something may shock you  
And cause you to freeze  
But in the end my heart knows whats true  
There's always another way to use

It's the hard way  
Just might defy you (chorus)  
Just might hurt you  
But sometimes you godda take the hard way

This life as we know it is never easy  
Believe me I know it's cheesy  
But we have to battle through  
We have things to look forward to  
The good, the bad, the ugly  
We love em, hate em  
We feel them in our hearts  
We feel it each time we part  
We must battle through  
Not the easy  
But the hard (chorus)

It's no that hard to find  
Always right in front of your eyes  
You know you have your life to look forward to  
Bringing back memories I wish  
I didn't have  
Always lurking  
Always there  
Like I have no fear

But i do....(chorus) (1st verse) (chorus)

My heart is racing  
wondering why me, why me  
It's because I'm strong  
And have everything to fear  
Not afraid to face it

Face my fears

Dan Uher

# Headache

All these things thrashing about  
All these noises being so loud  
I think I'm gonna shout  
If these things don't stop  
I might just get a cop

Its all just bouncing  
All just just trouncing  
Too much thinking  
All in my head  
I feel it shrinking  
Laying in my bed

I got a headache  
Thats killing me  
Why won't this world just let me be  
Feel so dizzy  
Walking around  
People making weird sounds  
Feel so light  
So not bright  
It's hard to make  
This headache  
Make it  
Go AWAY! ! !

This pounding  
Inside of me  
Reminds me of this feeling I keep  
Feels so supernatural  
Not very natural  
I harness myself as if I needed help  
Don't make me freakin yelp

Dan Uher

# Headspin

You make my headspin  
Round and Round  
You make my headspin  
Til I hit the ground  
You make my headspin  
Until I fall  
You make my headspin  
And that is all

You make me weak at the knees  
Make me beg for more  
I'd give you the keys  
So you can show me whats in store

Your secrecy keeps me guessing  
Your heart is always blessing  
Yet your thoughts are all around  
I have no clue where they are found

Everytime  
You cross my mind  
I see you running  
Around my brain  
I feel so incredibly sane

I know it sounds weird  
But thats just what I need  
You right here  
Will make me  
All I can be

Dan Uher

# Hidden Desire

Kept in secret  
Kept in one entity  
Witheld from vision  
Witheld from decisions  
Afraid to show my true colors  
Afraid to show my bothers  
The transportation from mind to heart  
Is always the hardest part

There is this emotion in my body  
I don't want to show anybody  
Something very hidden  
Something kept not revealed  
My desire is hidden  
If lost I'd me unforgiven

If given the opportunity  
It could be the best thing that happened to me  
Or it could be the greatest mistake  
That I could ever make  
The hardship that goes on in my mind  
Is truly one of a kind

By keeping this contained  
And locked in my brain  
I get rid of the possibility  
Of being put down  
Being rejected  
And being withdrawn

This hidden desire is here  
Not wanting to shed a tear

Dan Uher

# I Alone

I alone show my true colors  
I alone show my strength  
I alone love my brothers  
I alone strive to great lengths

My sight of the world is renewed  
My vision is now right on cue  
So clear and so real  
So near and yet surreal

Never having this ability  
Never showing my mobility  
My world was clouded  
My world was crowded

I alone showed who i really was  
There was no one there to help my cause  
I neverending thought still in my mind  
Why am i so one of a kind?

Dan Uher

# I Know

\*Written for girlfriend on Valentine's Day\*

I know it's real looking into your eyes  
I know it's real and it's no surprise  
The moment I knew it was so right  
Was when you amazed my sight  
Your beauty shines through  
There is nothing more to prove

I never knew this feeling could happen  
When I'm with you, it feels like heaven  
I never knew I could feel  
As if something could be this real

Your mixture of brains and beauty  
Is the perfect way to get to me  
You don't need to do anything special  
Don't need anything superficial  
You show your true colors each and every day  
It brightens my day in every single way

Your my angel  
Sent from above  
Your my angel  
I can't get enough

Dan Uher

# I'M Waiting

Here without poise  
Here without noise  
The fading voices  
The growing choices

I'm waiting for the world  
To show me it's love  
I'm waiting on the world  
To catch me in it's glove  
Save me from my mistakes  
Save me from my flakes  
Shedding from my brain  
Keep me from pain

I'm waiting for an answer  
An answer given  
Only to those willing  
The ones fulfilling  
The prophecies shown  
Through the book of the unknown

Dan Uher

# Imagine

Just imagine if everything went opposite  
Of what you wanted it to  
You don't have to imagine it  
Because it happens every day  
Nothing ever goes your way

Now just imagine if everything went right  
Just imagine it would so frickin out of sight  
Be like your in heaven  
At the casino always hittin seven's  
That and that  
All of that crap  
Gone, gone, gone  
All of that bull  
Gone, gone, gone

Imagine  
Imagine  
Imagine if this world was perfect  
There would be no defect  
Peace would be all around  
Imagine no anger  
No fear  
No more struggle  
Just being in the clear

You don't even have to imagine emptyness in life  
You know you have it in front of your eyes  
Look around at everything  
So lonely  
So pathetic  
But thats just me  
Just pathetic

So lovely am I  
Lost in this world trying to survive  
Always criticized  
Not knowing how ard to strive  
Feels like I shoulr throw on a disguise

and go AWAY! ! !

My blank thoughts churning

As i draw away

Not knowing if here I may stay

If I'm going to attack or just stay and fade to BLACK! ! !

Dan Uher

# Infected

Consumed in this deception  
Propaganda gives warm receptions  
We are infected by power  
To stand alone and tower  
All the little  
Right up the middle  
Lost hopeless and wronged  
Not so very strong

The deed was done  
We freed a ton  
But still we need more  
We are a needle at their core  
Injecting them with fear  
They no longer see clear

Why are we so divided?  
Since the forces collided?  
The infection of power  
Fills any darkest hour

Dan Uher

# Just Better (Song)

Just better now  
Better than my life showed  
Better now that my life isn't cold (chorus)  
Just better  
Just better(repeat twice)

I've been through so much  
Been through such and such  
The aches and pains  
To much disdain  
But to your demise  
I am back on the rise

My confidence in myself  
Is stronger  
So much stronger at the core  
I know how to score (chorus)

Watch out world  
I'm coming your way  
Can't stop me  
I'm too much  
You can't handle me now can you?  
Yea thought so  
But too bad  
Im here to start a fad (chorus)

Bring me what you got  
Show me what you need  
I'll undo the clot  
And plant my seed (chorus twice) (First stanza plays in background)

Dan Uher

# Just Incredible

Just Incredible  
That's just what you are  
Just Incredible  
No other word say it better  
Whether in a poem or letter

The way you look  
The way you smell  
I never mistook  
Just how swell  
Just how special  
No way superficial  
You truly are  
Incredible

My heart speeds  
Whenever we meet  
My body turns a thousand degrees  
You see what nobody else sees  
We are perfect in every way  
You can always put a smile on my face

Dan Uher

# Left Of Me

I rested my heart on your shoulder  
I rested my heart when it got colder  
I hoped you would find the right  
I hoped you would find me tonight  
I treated you with respect  
What did you expect?

You chose another  
Another partner  
I gave you what you need  
I gave you a reason to believe

Whats left of this man  
Whats left of me  
I'll do what I can  
To find the key  
I am split open in two  
Split into me and you  
You took my heart and ran  
You took my heart and stole  
I don't know i can  
Go on knowing your a mole

Whats left of me  
Is nothing more than a object  
Nothing more than reject  
Caught in the crossfire  
Out on a misfire

You left him for reason  
Left him because you weren't happy  
You were just teasin  
Started gettin snappy  
Why go back if you know it ain't true  
You know that I would always love you

Dan Uher

# Let Me Love You

Show me your heart  
Show me your face  
Gimme some love  
Or shall I take

Show me your heart  
Show me your chest  
I'll be the best  
You'll ever have

So hard to handle  
So hard to control  
Take off your sandals  
And baby lets roll

Let me love you  
Any way I want  
Any way I please (chorus)  
Take what you want  
And give it a tease

Let it roll baby

Down to the ground  
Right on the floor  
I'll leave ya beggin' for more  
Down on all fours

I got the engine  
You got the keys  
Turn me on  
Then let it release (chorus)

Dan Uher

# Lost And Found

My love for this world was gone  
My love for this world was wronged  
My heart was shattered  
My heart was all that mattered

This passion that i thought was lost  
This thrill for life i thought  
Was given at it's greatest cost  
Could never ever be bought

You came into my life as a savior  
You came into my life as a friend  
You corrected my behavior  
And stuck with me to the end

You led me to find my true self  
You led me to let me free  
What I put on a shelf  
Not wanting to let it be seen

You taught me a value of life  
You taught me to really strive  
To get rid of the torrential  
And get back to showing my potential

Your faith in me  
Gave me strength to go on  
Made me who I aim to be

I have found that love for the world once again  
I have found that thing i thought was dead  
My love  
My compassion  
All above  
My loving passion

Dan Uher

# My Distraction

You draw me away from the usual  
You give me a different visual  
You force me to forget about the mean  
You force me to let go what was seen

Just one word that you say  
Is enough to let me make it through the day  
Just one joke  
Allows me to clear the smoke  
Just one smile  
Will make my life worthwhile

You are my Distraction from the norm  
You allow randomness to form  
What you are doing  
Is more than I can ask  
No more clueing  
In on another task

You blurr what I had tossed  
You make me forget about what I lost  
My thanks is not enough  
To show my sincerity  
How much of a rareity  
You are  
By far  
The best distraction this world has seen  
You have no idea how much you mean  
to me

Dan Uher

# My Greatest Mistake

You were the one  
The one I thought  
You were the one  
The one who taught  
You were the one  
The one who fought

You were my greatest mistake  
Wouldn't change a thing  
The give and take  
No sin or ring

You kept me going in the world  
You kept me in your arms  
You held me tight  
Every single night  
That we were together  
Felt like forever.

Felt so unbreakable  
So unmistakable  
In plain view  
Right next to you  
You were my heart  
And my soul  
We fell apart  
It took it's toll

Dan Uher

# Never Forget You

Your like a heart of gold  
Even when it's cold  
You heat it up and shine right through  
I don't know what to do  
My love for you is forever  
My love for you is always together  
With me

I could never forget that smile you have  
I could never forget that face that shined so bright  
And you body  
Is so god damn tight  
I could never forget you  
As long as I live  
I could never forget you  
As long as i can live

Your body is so bodacious  
However we are so spacious  
Your personality  
Makes nothing feel like reality  
Like I'm in heaven  
Floating through the sky  
Just to meet you one last time

I could never question your heart  
I could only question your brain  
For breaking us apart  
Your freakin insane  
What was you reason?  
Was it treason?  
Did I hurt you in any way?  
If so, all you had to do was say.

# No More Lies

The truth is never heard  
The truth is kept in secret  
Can't believe you unless I see it  
Why don't you just say what you felt  
Instead of keeping it all concealed  
Why is it hard to say whats on your mind?  
Telling me truth wouldn't kill your behind  
I don't understand you any more  
It's like you got one foot out the door  
Like you want to get out and explore  
If thats what you want  
Then thats what you get  
Your chance to flaunt  
Your chance to forget

Tell Me  
Tell Me  
Tell me no more lies  
Tell Me  
Tell Me  
Tell me why to despise  
Tell Me  
Tell Me  
Tell me no more lies  
Tell Me  
Tell Me  
Tell me how much you are amused  
Tell me how much you want to abuse (chorus)  
Tell Me  
Tell Me  
Tell Me! ! ! (no lies)

Right to my face  
Or behind my back  
You're such a disgrace  
With those feelings that you lack  
All the complications  
Turn into confrontations  
The miserable trouble over years

Has led me to face one of my darkest fears

I can't help my hate

It must be fate

It must be fate

It must be fate! ! !

So please stop the lies

I hope you recognize

I hope you look inside your heart

I hope you look in far

Until you can heal yourself

Alone with me

Heal yourself

Alone with me

You don't know how hard this is

You don't know why my face is numb

Look at what you've become

become

become

become(fading)

Tell me no lies

Tell me no lies anymore

Tell me no lies

Or step out that door

To my life

# Not Like Me

I memorized the words to this poem for you  
I told the world i love you  
But you don't know how much that's not like me

I went out of the way  
I went out to say  
I gave you what you want  
I gave you what you need  
The more you want  
The more you received

You don't know how much that's not like me  
You don't know  
That's not like me.

# On My Own

So far down the empty road  
No one here to guide me home  
Left alone on my own  
On my own  
On my own  
Left alone  
On my own

This lonely path  
Without a map  
Freedom rings  
But nobody sings  
Away from me  
The great sea  
Greatness shows  
No where to go  
To show my strength  
Striving great lengths  
To get to  
When nobody knew  
What was my fate?  
Would I make a mistake?  
All these doubts  
Engulfed in clouds

If you fear the change  
To come of age  
You will be stricken  
When adversity quickened  
Without the help  
Of the world's great self

Making it on your own  
More important than the phone  
On your own you are your own person  
Your own being  
No one to be nursin  
What may sting  
Making it on your own

Is the defining moment  
In someone's life  
Go ahead and give it a try  
You just might find  
It's not easy being one of a kind

Dan Uher

# One After Another

They come and go  
No shame to show  
Many fishes in the sea  
Gives me the will to be me

I know that one day  
Someone special  
Not in any way  
Superficial

I keep an open mind  
To those who want to give it a try  
I love to live life to the fullest  
No knife can kill it  
Trying to be as happy as can be  
In this land of misery

My life is very unique  
There is no peak  
Just a steady line  
Whether rain or shine  
Pain or pleasure  
Can never be defined

Dan Uher

# Otherside Of Me

You may think I'm this nice person  
You don't know this rage I've been nursin  
You think I'm neat  
Until I sweep you off your feet  
Knock you flat on your back  
You realize I have attacked

You don't know  
You don't know  
The side I never show  
You don't know  
You don't know  
About the fits I always throw  
You don't know the otherside of me  
Don't know  
Don't know  
The otherside of me

You stand here face to face  
With someone you thought you knew  
Someone who thought their life was through  
After all of these troubles  
All of these obstacles  
Got around them  
The difference of now and then  
Is that I have a reason  
Without showing my treason  
I am true to my word  
Not letting my life become deturred

Strong as I am  
Strong as I may seem  
How much of a sham  
And how much I can go to the extreme  
To get to what I need

I am stronger than ever before  
Much stronger at the core  
Much more my brain starts to flore

All you do is keep asking for more

In my heart I keep it deep  
Not needing to be cleaned  
It's my secret  
I know you may fear it  
I'm sorry you can't have it  
I keep it inside  
Not waiting to let it ride  
Its own course  
It's own way  
Otherwise many will pay

# Passion

When i'm next to you, nothings real  
When i'm with you, i start to feel  
Things never known of me  
Things never know to be  
A part of my life that is forgotten  
That part of me that's not rotten

Intense build up of the heart  
Is where i must start  
To relieve this stress  
To relieve this mess

Everytime you come across my mind  
That feeling is hard to find  
hard to describe  
Everytime you speak to me  
Everytime you can see  
This passion building so deep

Baby, i need you  
by my side  
I need you  
along for the ride  
I just need your presence  
as your beauty presents  
Its figure to the world

Where your at right now  
Is not where you should be  
You should be right here with me  
all through the night  
so i can squeeze and hold you tight

you shine right through like the sun  
not letting your rays become undone  
always shining, never dull  
never empty always full  
of love and affection  
There is no deception

You have great fashion  
I will love you with all my passion.

# Peacemaker

All of these fights  
There must be a winner  
Must be a loser  
There must be a predator  
And the prey  
But always one to save the day

The peacemaker yea  
The peacemaker  
Doing whatever he can to stop the pain  
Peacemaker  
He has no shame  
Peacemaker

All of this pain  
Striking every one of us  
Feeling so undertaken  
All of the commotion its makin

Then comes along  
One who knows how to correct the wrong  
Showing what is right  
And how to stop a fight  
He is, he is (chorus)

Peace he brings  
Peace he; s got  
He doesn't leave it all to rot

He see the struggle  
Sees the pain  
Thinks everyones insane

He throws them some magic  
Hoping everyone will catch it  
And bring them back to sanity  
Back to reality  
He is, he is

# That Picture

I look and I see  
What used to be  
We were so great  
Just one mistake

Always believing in a second chance  
Is what made me let us stand  
together as one  
together whole  
All of that fun  
Took its toll

That picture always remains in my heart  
Right back from the start  
It plays a special tune  
That nothing can ruin  
I thank you for all the good times  
Thank you for showing your love  
All of those signs  
I will cherish for years to come

Dan Uher

# The Label

Don't label me for who u think i am.  
Don't label me for who u want me to be.  
Just don't label me period and you won't have to worry  
i am who i am and i cannot change that

Dan Uher

# The One

You are the one  
You are my sun  
You shine so bright  
Such a delight

My life has never been this great  
Until you came and set me straight  
My life was not whole  
Until you calmed my soul

I thank god every day  
That this fate  
Could be shared by my mate  
Whenever we meet  
My heart skips a beat  
Just knowing you're here  
Makes this vision clear

The vision that you are the one  
The one I will love  
The one I will hold  
Float like a dove  
In this love so bold

I love you with all of my heart  
I've said that from the start  
My heart has grown  
With each word you've thrown  
Throw some more  
And I'll put you on the floor ;)

# The Power Of The Human Heart

The power of the human heart  
Is not measured on a meter  
But by the passion it has

The power of the human heart  
Can't be seen by the naked eye  
But by the effect it has

The power of the human heart  
Is not powered by a machine  
But by the will it has

The power of the human heart  
Can't have a negative effect  
But by the strength it has

A power so great  
A power so full  
The visions it can create  
The visions intact  
You can't put on an act

Dan Uher

# The Present

If there is one present I'd want  
It's to be with you right now  
You make me feel so complete  
Nothing else can do this feat

The hardest thing to do is fall in love  
With someone you haven't known very long  
You are different  
My life flows through a new current

I'll give you my heart  
I'll give you my soul  
You don't need to do much  
You have showed both

I feel so pure  
Not insecure  
Feels so right  
So out of sight  
No matter what the others say  
I will be here day after day

Dan Uher

# The Sweetest Thing

The Sweetest thing about you  
Is you have no reason to hide  
The Sweetest thing about you  
Is you are right by my side

The Sweetest part  
Is your heart  
So pure  
So full  
So incredible

Can't believe your in my life  
Can't believe it's true  
Without a smite  
Without a clue

Why you chose me I have yet to find  
I think you must be out of your mind  
You are one of a kind  
Nothing compares to your beauty  
Nothing compares to your immunity  
From the east to the west  
From the north to the south  
Baby you are the best

Dan Uher

# The Tease

Flaunting yourself  
Haunting myself  
My dreams are of you  
It seem so true

When I see you  
My heart feels uneasy  
When I see you  
My body gets queezy

Such a tease  
Such an urge  
I must cease  
My innner surge

Stop teasing and come to me  
Show me your love  
That you keep  
so hidden and secret  
I want you with me all through the night  
With no regret

Your such a tease  
Now show me who you really are  
Hard to ease  
But your my shinin star

Dan Uher

# Times Have Changed

Vibrant skies above  
Growing trees abroad  
Filter this world's unknown  
Catch them with our golden rod

The times have changed  
Times are less opportune  
Less ranged  
More nontuned

Farfetch'd lies  
Unmatched good-byes  
Just a part of the game  
Things will never be the same

Dan Uher

## To Mom

My times have been hard  
My times have left me scarred  
But you have always been there  
In my time of need  
You've given all your care  
My heartfilled seed  
watered and nurtured  
cared and tortured

You were always there for me  
Always loving  
Always caring  
I love you mom  
The best there ever was  
And ever will be

Dan Uher

# Tourniquet

You're there for me always  
You always have my back  
You're my angel  
Over my shoulder every day  
Always there to make sure I'm okay  
My salvation  
My bodyguard

If any chance I begin to bleed  
You are always there to repair the deed  
I can't thank you enough  
For all the times  
You raised me up  
You brought me back on my feet  
Make sure I look nice and neat

Wrapped around so tight  
Always showing your true might  
A blessing I feel  
Is the perfect seal

Dan Uher

# True Love

Is it true  
Will it be mine  
I will never know unless i try  
Just give it all you got  
If she don't bite  
Then your not true  
That bright light  
Shows you more  
Of what you have in store

Cause baby I need to know  
I need to know  
Is it true?  
Is it real?  
Is it what we feel? (chorus)  
You know it's godda be true  
Godda be true love

Whenever we meet  
I feel like my stomach goes into a knot  
Knowing what we've got  
My heart beats so rapidly  
It's hard to breathe  
I just as you these three questions...(chorus)

Is this feeling so so true  
Thats what I'm asking you  
Yea baby I need to know  
If you love me  
If you adore me  
Cause I love you  
And I adore you (chorus)

Everything revolves around you  
Every feeling I get  
Makes me want to give  
Whatever I possible can

I need to know if u can return it back

Thats why I'm asking you these few questions (chorus)

Dan Uher

# Understand

You don't understand me  
You don't know what I've been through  
Even if you say you do  
Say that you were like this when you were young  
But you don't know how its like now  
Don't know whether to curtsie or bow  
You don't understand  
Shut up and go stand in the back

I'm all messed up in the head  
Don't know if one time I'll wind up dead  
If you don't feel me  
You don't know me  
If you don't know me  
Then go to church and get on your knees  
To pray  
That one day  
I just might give you what you give  
The pain that hurts me so deep  
That you don't understand me

Dan Uher

# You And Me

We are as magical as can be  
Let's go and let the others see  
Don't let ourselves hide  
How great we are by each others side

You and Me  
I love the way we are  
You and Me  
Never will be too far  
You and Me  
Will always be in our hearts  
You and Me  
We will never be apart

Dan Uher
