Examophobia

Be prepared
Exams are near
20 days are there
And still we are roaming here and there

Session has vanished like smoke in air
It is just like my first day here
Be prepared
Exams are near

Teacher are in hurry
Taking classes at 2: 50
Motive is to complete the course
Whether it come through any source

Time is not too much
Our syllabus is such
That it will not be completed in rush
So be prepared for another fuss

Be prepared
Exams are near
20 days are there
And still we are roaming here and there

Falling Heart

My heart is falling
Falling falling falling
My heart is falling
Falling of my heart

It was raining
Raining in the winter night
She was standing
Standing in front of my eyez

Waiting watching
Watching for the bus to arrive
Shivering shrinking
Shrinking like a night at dawn

I was standing
Standing at her sight
Watching smiling
Smiling till the bus came running through my eyez

I was wondering
Wondering that I am in love at first sight? ? ?
Twisting raising
Raising to see the final glimpse of her.

The night was there
The rain was there
The cold was there, but
She was not there not there not there

It was raining
Raining of my heart
My heart is falling
Falling in the winter night

Glory

Glory glory glory glory
Wisdom truth and pride
Alltogether we say
Glory glory glory glory

We will keep the green flag floating
You will hear the masses sing with pride
Just we have to see ourself far and wide
Glory glory glory glory

We have done it before
And we will done it again
No body can't stop us
Strong determination is with us

Marching green are on the foot
Will bring laurels to it
Waiving a victory sign
With a sparkle in their eyes

Zenith is near
You are here
Turn your head
And you will here

Glory glory glory glory
Wisdom truth and pride
Alltogether we say
Glory glory glory glory

My Love

You are the angel
You are my love
You have come from haven
You are my love

You are God's masterpiece
You are my love
You are the queen of wonderland
You are my love

You are more beautiful than helen
You are my love
You are more admirable than a crescent moon
You are my love

O my love
Be in my heart
I dont wanna loose you
Otherwise i'll will be deserted in this beautiful world.....

Smile Has Gone

Smile has gone
Happiness is lost
Trust has flown
Feelings are frozed

For a while
I want your sigh
I want to be
What i was before.
