A Random Plea

A Random Plea

By, Demon

Tie them up in the night,
Hear them scream aloud,
Beat them until they bleed,
The untouched virgins,
The golden statues,
Let the pyramids crumble,
The pharaohs judge you guilty,
My brother I plead to you,
Time to be the one to save you this time,
I want to damn you to hell,
Let there be light at the end of the tunnel,
My brother I cry in the middle of the night,
My heart is breaking over you,
Now you might die my brother,
I wish I could help you,
I have the broken heart and you the whole heart,
They want to lock you up,
I hope you will change your mind,
My baby brother I love you with all my heart,
I ride to the temple of Isis,
I pray for you,
I want to stay with you,
My black cat stays with you in your heart,
Lie with me underneath the moon,
I will sing for you in the middle of the night,
Sometimes I wish you were dead,
But I see the hate in your heart,
My fire burns so bright,

Betrayal

Betrayal

By, Demon

take my life away,
take it,
tear it apart,
break it down,
break it even more,
sound of sadness in my voice,
you say your sorry,
but i dont know if i should believe you,
it hurts,
the pain that aches my heart,
can i really forgive and forget,
this horrible pain that my heart is feeling,
dreading this unholy fortunes,
why must my heart ache,
why does it hurt so,
so horrible it aches,
so deep the pain goes,
so deep, so deep,
this uncontroled fire,
burning my heart to black ashes,
just once more shall it burn.

Blood Of An Innocent Little Vampire, Maria

Blood of an Innocent Little Vampire, Maria
By, Demon

Maria,
Maria come to me,
Mom will sing a song to you that she once knew,
Far,
Far that angel did cross and he gave me my dear Maria,
Oh my Maria that I love so,
My little angel,
My angel of white and black,
My dear angel that I named my Maria,
My little angel covered in blood,
Oh my Maria what have you done,
Blood covering your whole body,
So many dead bodies on the floor,
So much blood every where on you and me,
The bite marks on our bodies,
Where did they come from my dear Maria,
The blood dripping from our mouths,
Oh my Maria what have we done,
The blood tastes so good to us,
The angel that gave me my Maria,
Wasn't an angel he was a vampire,
A white haired demon with blood red eyes,
Our fangs paired with our angelic vampire.

Bloodstained

Bloodstained

By, Demon Uchiha

bloodstained,
hands on the,
body of the dead,
there is no way,
for redemption,
from the Lord,
that she once,
believed in,
the blood is still there,
on her innocent hands,
that were stained so young,
with the blood of the dead,
her blood on her hands,
her mothers blood on her hands,
her fathers blood on her hands,
her brothers blood on her hands,
her innocent little hands,
stained with so much blood,
the blood is all she has,
to remember all of her sin,
the ones she caused,
and the ones others caused,
the blood is there,
the blood is all she has,
the blood is her,
blood makes her live,
she lives for the blood,
she walks the night,
the creature of the night,
she is the undead,
she is an immortal,
she is a vampire.

Cutting

(actually true about thinking about it)

Cutting

Cutting it hurts me,
It hurts my family,
It hurts my friends,
When I do it to myself,
I tell others not to,
But I think about it,
They say they care,
Then turn around and hurt me,
With words and physically,
It hurts so I cut to feel my own pain,
Someone help me stop,
Please help me stop my pain,
Its too late I'm dead.

Death Bed

Death Bed

By, Demon

Death it comes slowly,
hidden beyond this living state,
deep in this hidden hour,
taken down low slowly,
stating this is the end.

Fallen

Fallen

By. Demon

Fallen to the nevermore,
unspoken forevermore,
tumbling down to the nevermore,
this is yours forevermore,
this is your ending nevermore.

Fire

Burn,
Burn brightly,
Oh such delight,
This fire brings me,
The flicker of this flame,
The shape it holds,
Is so untamed,
Fire,
Oh how you delight me so,
Such fantastic wonders to behold,
But your beauty comes with a price,
Fire burns and it causes pain,
Thats if you live thru it,
Whats the reason,
That the beauty of fire,
Draws us to it,
Even thou it causes pain,
Its beauty compells us to it,
Oh such beauty,
We call it fire.

Gone

Gone

I'm at death's door,
Fallen and no more,
Alone and gone,
None loved by me,
None care for me,
Far from unknown,
But farther from known,
Alone is where I am,
Death is near,
Death has claimed me for his own,
I scream and I yell,
But I can't be heard,
I'm alone and still unknown.

I Should Know

I Should Know

By, Demon

I should know where to walk,
I should know when to stop,
To know not to let my heart get a hold of me,
I should know what you're thinking,
I should know when to talk,

Lil Kitty

Lil Kitty

dont cry lil kitty cat,
your time is almost done,
almost lost and almost gone,
dont worry lil kitty cat,
your tears shed and your cries unheard,
it wont take long to end,
your bitter sadness,
Lil kitty your already dead on the inside.

Lost

Lost in time and space,
forever locked in the darkness,
roaming, roaming, roaming,
forever roaming the darkness,
discovering nothing in the darkness,
down, down, down,
down the dark rabbit hole,
you go down still lost,
in the darkness,
forever you shall roam the darkness,
searching and seeking,
fearing and uncoping,
search for what you seek,
never stop searching and fearing,
the darkness.

No Longer Feeling

No Longer Feeling

By. Demon

ur alone in the world,
and no ones home,
dont worry cause ur almost alone,
dont wait up thinking wat u could of done,
dont worry now just go and sleep ur life away,
time spent wondering wat could of happened,
no longer shall u wait to end ur miserable life,
dont worry about the ending,
just end it now,
ur to stoned and cold to care,
how im feeling now,
that you've hurt me so badly,
dont come back to me now,
that u say u don't love me anymore....anymore,
i love u forever more...forever more.

No Time

No Time

By, Demon

There is no time to cry or scream in fear and pain,
To turn the time back so we can start all over,
To stop the pain you have caused that hurts so badly,
To wish you were never born,
To stop the poison flowing through my veins,
To move without a sound in the forest of the night,
To let the demon out to cause destruction,
To transform everything,
To turn the demon and the human into one,
They twist and bend until they shatter,
In pain, they scream aloud with agony,
I wish you were nevermore,
No time to wish you were gone,
Gone and dead but there is no time.

Nothing

Nothing

By, Demon

Take me away,
From this hell,
I want you to hate me but you love me,
In this way I know I'm bleeding,
Bleeding inside,
Don't say you love me,
Cause I'm nothing at all,
Nothing is me,
Me is nothing,
I'm like a white dove without a home,
Sometimes I cry at night just to feel the pain,
Cause I feel nothing at all,
I'm like an angel with a broken wing,
Nowhere to go,
Cause the way I feel is tearing me up inside,
Sometimes I feel like there's a demon inside me tearing my heart apart,
Cause I'm alone and I'm nothing to anyone,
I need someone to love and hold me,
To loose something is to loose myself,
To love myself is to hate myself,
Cause in the end I guess I love you too,
But I'm still nothing but afraid.

Poison

Poison

By, Demon

Your poison is taking over me,

Taking over me,

Your poison is all over me,

Its all over me,

Its suffocates me,

Its all around me,

Its strangling me,

Suicide

What brings me to my last breath,
Whats going to be my choice to end it all,
Depression and Lies,
Broken into pieces too many times,
Haha this is my last goodbye,
Do I get to hear you say You love me one more time,
Or will I die before I even wake,
Silent thoughts about this up coming ending,
Can anyone stop me from doing it,
I think not,
No love for me and no one cares for me,
Go on and pull the trigger,
Drink the cyanide,
Hanging by my throat by this rope,
I deserve to die,
Tell me that I'm worthy to live,
I'll scream at you that I'm not,
Fear my death as I might,
But thats just a story in my life,
I laugh as I pull the trigger,
BANG....I'm dead now...,
Too late for me,
Goodbye.

Tortures

Tortures

Breathing down my neck,
Then u kiss me so sweetly,
Tie me up,
Pull me down,
Throw me round and round,
Till I fall down,
Bleeding from my arms,
Blood dripping down,
Dripping down into the pool on the floor,

Demon Elwin

Untitled

Unseen and undone,
this winding place,
it never ends twice,
it holds no place,
in this unharmony place,
hold your hands up high,
or die in agony,
nevermore holding itself,
as unseen and undone.

Demon Elwin

Untitled 2

Pain and despair,
I wear it like a veil,
the torture and screaming,
is all I hear in this nightmare,
its like a drug,
that doesnt go away,
this nightmare is my life,
this nightmare is my up bringing.

Demon Elwin

Untitled 3

unsurprising is the word pain,
always hurting and breaking you down,
a disease it is flowing throughout your body,
a virus thats let lose,
its all long gone,
this history is gone and done,
the virus is out of your blood,
your alive and the pain is gone.

Demon Elwin

Untitled 4

reach your hands up to the sky,
reach high but don't look down,
hold strong to what you got,
don't let anyone take it away,
be kind but also strong,
believe in yourself,
don't let others hold you down,
don't believe all the things others say,
be strong and keep holding on to ur dreams.

Demon Elwin

Untitled 5

the pain it hurts deep inside,
never leaving or breathing,
never speaking in your mind,
always hurting in the time,
never saying its goodbyes,
never let the pain and hurt,
break you down,
too long but it soon will be gone,
pulling that trigger,
using that knife,
drinking that cyanide,
it never drowns out the pain,
making you suffer more,
praying for your untimely demise,
lying on the floor,
your wrists bleeding,
your heart slowing,
your breathing ending slowly,
then you stop,
crying on the floor,
your blood flooding on the floor,
your dying slowly,
then everything stops,
silence and stillness,
your lying dead on the floor.

Demon Elwin

Untitled 6

have faith in yourself,
thats all you need,
don't think of all the wrong,
thats been going on,
be strong,
don't let urself be pushed down,
don't think of the bad,
think of the better things,
the good times,
even the hard times bring some good,
don't think of suicide or death,
hold on and be strong,
don't give up....never give up...,
don't murder yourself and your dreams,
keep them safe and hidden if you may,
bring laughter and joy,
not pain and misery,
think hard and long,
on the way your living,
be thankful your here,
be thank ful your still here,
breathing next to me,
when the pain and misery,
is all but dead and gone.

Vampire Lover

Vampire Lover

By, Demon

My wings are broken,
And have fallen down to my grave,
Where I lay in an undead state,
I have fallen down from heaven to land on my unforgivable sin,
In a pool of blood I lay unmoved and untouched by a man's hand,
My claws have clawed my way up to the surface,
In the night I find myself in the arms of a vampire,
I walk the night with him,
The sun it burns my skin,
I will live for him forever.

You Cannot See

You Cannot see
By, Demon

I see you walking alone,
Talking to yourself,
I am falling behind,
Thinking to myself,
I run to catch up to you,
I am alone without you,
I am in love with you,
But you are too blind to see,
The love in my eyes for you.
