## Eddie Fullbright(11-27-1958)

I enjoy writing and reading poetry. I write from the heart and soul. I do not try and impress people with big words. I want the average person to understand and relate to what I am writing. I am a Christian and family man. Work as an ER nurse. Live in a small town called Ninety Six, South Carolina. Enjoy nature and cooking out. Riding motorcycles or in a convertible. I believe in Main Street, USA, and the people who work hard for a living, asking only for a fair shake along the way. I write about what I see and feel. I am not politically correct or ever intend to be.

# A Poem From The Heart

Jesus, I pray you help me write a poem to you.  
You see I just do not have any words that will ever do.

I want to start by thanking you for loving someone like me.  
How you saved this sinner and so many others on Calvary.

On you I always want to rely and depend.  
With you I have learned there is no greater friend.

You have always been there to get me through.  
With you Jesus, there is nothing I can not do.

On earth and Heaven I will sing your praise.  
Strive to know more about you all of my days.

I know you came to earth and on the cross you took my place.  
You were beaten and whipped for me, yet you hold and love me in your embrace.

You were placed in a cold, dark tomb for three long days.  
The grave could not hold you, death did not have the final say.

I can never understand a perfect love as you have shown.  
I accept your gift of eternal life to you I will always belong.

When it is my time to come face to face with God above  
I will stand with my lord Jesus and his perfect gift of salvation and love

# Change Is Coming

This poem was wrote for thew hardworking men and women of Main Street who have been denied a fair shake by Washington and Wall Street for way to long. Now it is time for a change. Time for the people of this land to stand up and set things on a new course. Time for many in Washington to pack it up and get out. In a few days we the forgotten people are going to send a message that will shake thier world.

Can you feel the winds of change sweeping this land.  
The people of Main Street are tired of this corruption and are taking a stand.

The well connected and corrupt on Wall Street and Washington their time is done.

People of Main Street stand up and let them know we have won.

For those of you not yet decided come with us and make a stand.  
It's time for us to stick together and take back our land.

In a few days it's our time to vote and have our say.  
Join with us Democrats, Republicans and Independents and vote for Obama and change today.

For those who don't believe it you just watch and see.  
Obama is going to win this election with people just like you and me.

The old Bush and McCain ways of doing things are through.  
Do not be afraid a new change is coming with Obama for me and you.

It is time for all of us regardless of party, religion, race, age, or gender to unite.  
Time to take back our land and make this corrupt trickle down economics right.

You people of Wall Street and Washington time for you to learn.  
You have danced with the devil and now you have gotten burned.

We the people are determined to make an example out of a lot of you.  
You may run and hide but come election day what are you going to do?

People of Main Street stand up and get out the word.  
Obama is going to win with our votes or have you not heard.

Swing states listen to us and what we have to say.  
You are our hope and future, we are depending on you. Get out and vote for  
Obama today.

# Two Chocolate Labs

This was wrote to my wife, Sharon about our two chocolate labs. Biloxi is male, Cherokee is female. One we named for the place we were engaged, the other the place we had our honeymoon.

When you look at our two Chocolate Labs tell me what do you see.  
Do you see just two big dogs named Biloxi and the other Cherokee.

Next time you look at them, look at them hard.  
They are more than two Chocolate Labs out in our yard.

Cherokee is a symbol of our never ending love.  
She is to remind us that our marriage is blessed from above.

Cherokee is the place that I ask you to marry me by a cold rolling mountain stream.  
This is the place that we will hold in our hearts and keep in our dreams.

Biloxi is a symbol of the love that we have and share.  
He is to remind us of a place that is the answer to our prayers.

Biloxi is the place where our honeymoon was to be.  
This is the place that sealed our love for then, now and all eternity.

Biloxi and Cherokee are more than two Chocolate Labs you see.  
Yes, they are two symbols of two special places called Biloxi and the other Cherokee.

So next time you look at them, look and them with love.  
These are our two special gifts to us, from heaven above.

# Two Cups Of Coffee

Two cups of hot coffee, one for you and one for me.  
This is one thing we love and enjoy, don't you agree.

We like our coffee anytime day or night.  
It always has seemed to make everything just right.

One cup black and one with sugar and cream  
Two cups of coffee, we are living the American dream.

Coffee is a little taste of heaven on earth.  
When I am drinking a cup with you it's even better than it's worth.

Two Cups of Coffee is one thing that we have always loved.  
I think it's a special gift to us from heaven above.

So lets drink a cup of coffee, be it one or two.  
As long as I can share my love and drink it with you.

Two cups of hot coffee, one for you and one for me.  
This is one thing we love and enjoy and I hope it will always be.
