# Emmanuela Petit Frere()

If I'm not strong enough I'll hold my cane  
If I'm not tall enough the sky I shall hold  
If I can't save us all than Our Love I shall save  
I'm no hero, but one we shall be  
together if we follow the rules of love and God  
than the sparkles in our eyes shall be our foundation  
If you don't believe me than on my eyes you shall find the truth  
If you still can't  
than together we shall not find the stars

# A Cinderella Dance

When we first met it was at a mask dance party  
We only dance once  
but last a lifetime  
It was a magical time  
Even though we never saw each other face  
But you remember how beautiful I dance  
I know I left without saying goodbye  
And I'm glad you've been looking for me since  
Because one song bring two strangers together  
And one dance make two stranger fall in love with each other  
Baby You are my Cinderella  
And I can tell you if we can find each other after all those years  
And if one dance make us fall in love  
We are going to live happily ever after  
The truth is that it wasn't just a dance It was  
A Cinderella Dance

# A Crush On You

I have a crush on you

since the day we first met

When our eyes first met each other

Mine felt like a new star was just born

When you first talk to me

Your voice sound like an angel singing

When you ask me if I was okay

I said yes I was fine

I 'm sorry I lied to you because my heart wouldn't stop raising

When you say bye

I felt like my world was over

I've been looking for you for so long

I finally found you and I let you go

I just wish I could told you

I have A Crush On You

# Battlefield

I never thought, my heart and my mind

could never be in a battlefield

the battle is been there for so long

I don't know which one to trust because its always been a  
Battlefield

My biggest fear is the Battlefied

When is it gonna stop, cause I swear I can't stand it anymore

I 'm tired of always been the wall that hold everything together

Why is my life is like A Battlefield

Emmanuela Petit Frere

# I Miss You

When you ask me how I'm doing

I said I'm doing just fine

If you loved me how you said you loved me

You would have seen it was a lie

I'm sorry that I'm lying to you, but I can't help it and it's the

only way to hide my true feelings

But the truth is that it's killing me inside

And I just wish you could see too

How much I love you, I always have and I never stopped

Sweetheart I'm still in love with you. Just by looking into your eyes

I can tell you still in love with me too.

I go where we used to go together hoping to bump into you

And when I see you, I try to make it look like an accident

But I'm still in love with you and

I miss you

# I Wish You Were Mine

When we were little we use to say whatever that was in our minds  
with each other  
as time goes by now we only say things that we think is appropriate  
If it was a long time ago I would told you how much it killing me  
inside to see you with her  
I would told you how much you meant to me  
I would told you that we meant to be together  
When you tell me how much you love her  
It feel like you rip my heart out  
when I see you holding her hand, it bring me back old memories  
when I see you kissing her  
I remember when we promise each other that we are  
Best Friends Forever&ever  
even though  
I still wish you were mine

Emmanuela Petit Frere

# Just Friend

You Love me as a sister and I love you as a brother  
When you talking about other girls  
I wonder having me as a bestfriend what else you could possibly need  
    Just like you always tell me  
        When I'm talking about boys  
        even thought it's not fair  
Sometimes I still wish that there was only the two of us on the planet  
So that we could have the whole time to ourselves  
I love you more than you'll ever know

I could never wish for a better friend than you  
    However we are just BFF

# Life Doesn'T Always Go My Way

I used to think

I have the answer to everything

until the day my best were defeated and I lost the battle

but now I know that life doesn't always go my way

Now I learned I can never be too exceptional

When I'm wasting my time saying how smart how I'am

someone else's wasting their time hitting the books preparing to

beat me

Today I learned that I'am as smart as my last race

Emmanuela Petit Frere

# The Search Of Me

What Am'I gonna do with my life

When I know everythings in Life is a competition

How should I know what right

When my life is always been so danm protected

How should I choose my future

when i have been locked inside a cage

How sould I choose one thing to do for the rest of my life

when I have no interesting present

What Am'I gonna do with my life

How Am I supposed to know what's right

I can't help the way I feel

Because my life always been so danm protected

Emmanuela Petit Frere

# True Love Or Dream

Sometimes we cough up in a situation where we have to choose

Between our True Love or our Dream  
If life was fair, why would we have to choose between two things that  
matter to us the most?

Why should we put in this certain situation?

Why should we have to choose between our true love and our Dream?

The dream we work so hard to turn into a reality.

We living an unfair life

Where sometimes only one dream can come true

If you choose to make your dream come true

You will live an empty life where everyday you

Feel like a lonesome bird in a storm

But you will die rich and no one to remembers you by

If you choose true love

You will live an unpredictable life and feel like a rainfall in a

garden in a hot summer day

But you will die happy with a family to remembers you by

So if you ever put in this situation think wisely before a make a decision  
The choice is yours

Emmanuela Petit Frere

# What Goes Around Comes Back Around

Every things we do in life will come back to hunt us

So live your life wisely

Think about your decision thoughtfully

Make every second count

Love all even your enemies

Do wrong to none

Forgive even those who can't forgive you

Help even those who said they don't need your help

Make one who's hurting smile

Tell him who have no more hope that there still hope if he believe

Tell him who lost his love one that his love one is living in side of him Just open his heart to see

Tell her who lost her child that there's another child waiting to be loves by her

Tell him who heart is broke that there someone who's waiting to love him more Than he could possibly think

Tell him who think there's no better world out there

That if he works hard he will find the better world, better yet it will find him

Tell him who think life is not worth living to ask himself why her

mother carried him for nine month if she didn't believe he deserve to live

Don't forget what goes around comes around

Even if you don't recompense

Your children, children will

Because in life what goes around come back around.

Emmanuela Petit Frere

# Why Can'T I

Sometimes I got so caught of on my own little fantasy

I forget the sight of everything that is matter

and everything that goes around me

Sometimes I wish God didn't make us all unequal and different

Sometimes I wish God forgive Adam&Eve because of one mistake

the live Of humanity changes

My life changes

Why does I have to wake up every mornings and already thinking about  
Tomorrow

I haven't graduate High School yet

and Already thinking about what college is gonna bring

Why can't I Just enjoy each and everyday

Why can't I just be Thankfull for each, and everyday

Emmanuela Petit Frere

# You & I

When we first met

My worst nightmare was losing you

Because of how close and happy we were  
I wasn't afraid when we were together

I could be myself and didn't have to act like like somebody I wasn't when I'm  
with you

And in a second my worst nightmare turn into reality

I thought my world would be over

But it turn out to be one the greatest day of my life

When we say goodbye I thought my eyes were gonna cry a river  
I did cried but it was tears of joy

When we finally hugs goodbye

I was Happier than Ever

Because I enjoyed every bit of second I had with you

And I wouldn't change a thing for the world

Because you and I are magical and we are

You& I

Emmanuela Petit Frere

# Your Love

What is love?

If you asked me yesterday I wouldn't know

But if you ask me today

I'd tell you it was the moment I met you

My heart wouldn't stop beating

I couldn't feel my legs

My fingers were numb

My mind was giving so many definitions of what I was feeling

But my heart tells me that it something that call love

Since than I knew that loving you was a miracle

Since that moment your love change my history

I love your love because it keeps me going

It keeps me in a time loop

And now I know what is love and my love

Is your love

I love your love

Emmanuela Petit Frere

# You'Re My Star

In our first Birthday

You name a star after your name as a gift to me

when I ask you why you name it after you

You told me it because there is only one star name Michelle

and it was standing right before you

In our second Birthday

I just want to tell you that you are the star

that keep me going each, and everyday

You the star that keep a smile in my face

you're the star that bright my days

Mon Amour you're the Star that keep me going

You're my & only Star
