## faith toy(something)

Well.....I like to read so that something. An as I'm sure you can see like to write poems, also I'm trying to write a book got a lot .. I love to listen to music its awesomeee! XD.I like coke, sometimes ya I like to talk to some people as long as there not annoying it for now, (i like chicken)

? ? ? ?

People say they know me  
But do they really?  
You said you love me  
But do you love me?  
You said you need me  
Do you?

I believe you  
And you killed me  
My friends all say  
They need me.  
But in the end they leave me.

Its like where going through the moitions  
Of a scripted destiny.  
And everything is changing everything but me.

# Believe

This is when I say that life has gone its way  
Its taken me in its grip  
I guess I let myself slip  
Who would of guessed  
I'm just a misfit.

During the day I sit in say I'm never going to save the day  
Somehow I don't believe myself  
I cant let it be this way  
Because I want to save the day  
I want to live my way.

# Broken.

Rain, rain go away  
Its you that makes my pain stay  
Slit my throat, cut out my heart  
Leave me lying in the dark.

Tears so poison stream down my face  
I find it hard to stand in place,  
As I'm standing in the rain.

I repeat these sullen words,  
I hate you, I don't need you.  
But I do.

Without you I'm nothing but a  
Broken dream,  
A bad melody singing you your broken song.

To bad you cant sing along.  
Still you left me singing in the rain yet another day.  
Left me like a broken frame,  
Bounded here to stay.

# Cloudy Gray

People ask me things  
Most always a hang my head in shame  
People say I wear tight jeans and cut my hair  
But that doesn't mean that I cant scream with loud like noise  
I have a voice I got a choice.

We all come from a broken home an try to find are way through a cloudy gray.  
But not all have issues that cant be fixed.  
Sometimes all we need is a friend to show us the way through that cloudy gray.

But most of us wont except the gust that blows are way we like the cloudy gray.

So much for time wasted  
At least some of us made it.

# Emo Is What They See

As I walk this hallway of shame  
I realize who I really am  
What people see me as  
A person who  
Self-harms.

People call my name  
Emo  
And I hag my head in shame  
I just cant wait to go home  
An grab my razor blade.

I cant walk out in denile  
Of who I really am.  
I want to yell in pain  
I want to tell you how I feel.

It's just I don't know what is real.

# Fool

Remember when we were at the park you left me standing in the dark.  
Remember when you use to say that things will be okay?  
Why don't you break my heart an watch me fall apart,  
I'm always the enemy never a friend to me,  
Took my confidence, then my happiness cannot be found  
you left me lying on the ground.  
You got the best of me and left me with the rest, I'll never be the same.  
I can't believe you playing the game.  
I thought this was love but I guess I was dumb,  
I was being strung,  
But now I look a fool I actually fell for you.

# He Lied

He said I know you  
I said you don't.  
He said I love you  
I said ya right

He said no really  
I said sure, sure

He said can I take you on a date?  
I said isn't it late?  
He said it doesn't matter  
I said you sure?

He said anything for you.  
I belived him  
He lied.  
I cried.

# I Hate You With Love

As tears roll down my sullen face  
I learn to hate you along with all your lies.  
Then why do I still love you.  
Why cant I just see that you wasn't meant for me?

All those times we spent together wasn't real to you.  
I'm just a person you use  
I'm nothing to lose.

People say that its plain  
People say its clear that if  
I run away you'll disapear.  
But how can I run away from something that's so dear?

I love you with hate,  
I hope you don't  
Misunderstand.  
You are my one an only man.

# I've

I've seen pain  
I've seen tears.

I've seen broken frames  
I've seen tattered graves

I've seen screams shared  
I've seen lovers flare.

I've seen people playing games  
I've seen people being played.

I've been in love and torn  
I've been shattered and lured.

I've been here and there  
I've been seen everywhere.

Time and again I've been in love.  
But being turned down is always the hardest part.

# Just A Thought

When I looked outside my window  
I saw a face I knew all to well  
When I looked outside my window  
I saw you standing there  
Oh so quite you were  
My breathe so easily swept

Your smile so intense  
An when I hear your voice it makes me rejoice  
An when I smell your sent it makes me forget my worries  
But ever sense that fall I wasn't sure I could stand  
Without you to hold my hand  
You to catch me before I hit the ground  
To pull me out before I drown

But now I'm just a hopeless dream  
Couldn't be cought at the secne  
I'm just a blasted memory.  
There or only me to see.  
I'm just a thought for me to think.

# Lie's

When you say  
Hello I know you mean goodbye.  
When you say  
I love you  
I know you mean its over.  
When you hug me when I cry  
I know its just pretend.  
When you tell me its okay  
I know its just a lie.

And when you told me  
Your always there you  
Told yet another lie  
Why don't you just leave me there to die.  
And stop saying I'll love you till'  
The end.  
When I know its just  
Pretend.

# Love Is

I love it when you smile  
I love your so solid eyes  
I love it when you say my name

I love it when we embrace  
I love when you say three words.  
I. Love. You.

But I hate when you lied to me  
And said you wont let go  
But what I hate the most is  
that you lied to me and said  
I love you most.

You did leave me  
And you don't love me most.

faith toy

# Lover

Even though I hate you  
I'll still let you be mine.  
Even though I lost  
I found you in the crowd.

And why you ask  
Do I go through all this trouble?  
Is because you were my first lover.

faith toy

# Man

A man knows how  
A man knows what  
But does this man know who?

Do you really know me  
Or do you just think you do.  
Can you tell me why or even when?

faith toy

# Mistake

I was so close to you  
But so far away  
Its raining today  
And your not here to hold me  
I'm crying  
Still your gone  
I'm screaming  
But no one hears me  
Cant I go back and fix this mistakes  
There's never a time to tell you  
I'm sorry

# Moments

Sometimes life to quite  
Like the moment of silence.  
Slicing through the dark  
Doesn't even make a spark.

I guess this is how it is standing here,  
Here without you.  
Oh how I miss the company  
The company is you.

Oh man the moments that were wasted  
The times when are lips met.  
The warmth when are skin touched,  
Them picture perfect movements  
That we made.

Darkness that we keep out  
Is now all seeping in,  
Just because I cant win.

# My Love

I've been up all night thinking about you  
Do you ever think about me?  
I want you to remember my sent  
I want to hear our voice say my name.

Do you ever want the same?  
Are you with someone else to night  
Are you always running away from my name?  
D you hide your face in shame?

Well I don't I love yu so much  
Even if it's not the same for you.

# Not Meant To Stay

How can there be so much pain in a world of joy?  
How can we watch as we fall apart?  
How can we cry when there's so much laughter?

Why wont the pain go away?  
How come it wants to stay?  
I guess we have to go are sepret way  
Our love isn't meant to stay.  
Will be alone in our own way.

faith toy

# Remembered Past

The familiar breath of your old lies.  
Somehow changed my life.

Every now and again I remember we were friends.  
Even though its in the past maybe can change at last.  
I remember your long lost stare  
I remember the sent of your hair.  
I remember every touch an kiss,  
I remember my fingers tracing your lips.

I remember losing you bit by bit  
I remember when it slipped.  
I remember when I fell  
I remember how it felt

But what I remember the most is that you didn't hurt.  
That you were okay with letting go

faith toy

# She Is Me

She's so joyful  
I'm depressed  
She's so pretty  
I'm just a mess  
She's got friends  
I have none  
She stands out  
I hide in  
She so perfect  
I never win  
My mask is perfect,  
It almost seems real.

faith toy

# Silent

Why is your face so out of place?  
Your mind always in a wondering state  
You never listen to what I have to say.

You act as if I'm the only one who makes mistakes  
In the middle of the night calling out other peoples names  
Acting like its all a game.

Seeing you with another girl  
Made my world come crashing down  
But still I made no sound.

faith toy

# Snow At Night

With watching eyes  
I see the snow fall.  
So peaceful and white.  
Yet so cold and wet to touch,  
But with sunlight of the morning day  
Will wash all peace a fray.  
So I hope night shall stay  
For as long as I'm awake.

I want this moment so simple an fresh,  
Just like the morning, crisp.  
Just like the grass with dew,  
And just like a peaceful morning with  
You.

faith toy

# So Pretty

She's so pretty  
Like her  
She's always neat  
Date her  
She comes pre-wrapped  
Un-wrap her  
She never comes undone  
Love her  
She makes you laugh  
Chose her  
She straightens her hair  
Come hers  
She's all meant for you  
Why me?

# Song Of Pain

He strummed my life with his words  
He killed me with his lines  
He touched my pain with his fingers.

He sang this song for me  
He sang it as if he knew me  
And each of my despair.

And yet even with his kindness,  
I figured that he might just  
Love me enough to stop.

But he keep singing just as strong  
And then I realized he didn't even know I was there.  
An so he just keep singing his song of pain.

# The Incomplete Phase

Even though patience brings tranquility  
We cannot always hold back  
Because you need pain to feel love  
We cannot always unlock the same door  
You can try to find a key  
Try to unlock a new door  
Try to find true love  
Like a new beginning to a new chapter.

As we look at each other  
We see the pain we feel  
The love we could find but the pause we take.  
Even though we embrace till it hurts  
We cannot become one.  
We hold hands till dawn  
But we cant hold it off any longer.

Lets run into the twilight, love like no one else  
Bind us help us become one.  
I love you, lets stay together always.

# There For You

I think that friends are there for life  
I think they help you through thick in thin  
I think their there for you to lean on  
To help you when you cry  
To keep you in your spot  
At times I wounder if there true.

When you look at them what do you see?  
When you look at me or read my letters  
What do you think?

When you lean on me am I good support?  
When I help you when your crying do you say I owe you one?  
Do you even care?

faith toy

# Trust....

I read in a book once before that without trust love is incomplete.

Is that really true?

Can one trust without knowing?

Can one love the other fully?

I once was blinded with love

Maybe its time to look somewhere else

Someone new.

faith toy

# Unspoken Love

I saw you standing there  
Gasp of air I let slip  
Trying to compose myself  
Before you saw me slip  
Before you saw me crumble  
Before you told me no

But not only to my surprise  
Not only in your eyes  
You keep standing there  
Even after I told you so  
You wasn't saying no  
You wasn't letting go  
And you even told me so.

An so we ran just making plans  
Unaware of unspoken eyes  
Unaware of secret spies  
Unaware of shouted out lies  
We only had are gleaming pride  
An that we did not hide

# What Do They See?

People look at me  
I wonder what they see.  
When they whisper in someones ear  
I wonder what they hear.  
Is it bad or more like sad,  
Does it bring them tears  
Or moreover fears.  
Do they laugh,  
Or look real mad.

Should I run  
Or stand real still?  
Will I turn  
Or walk up to them?  
Would I look real stupid  
Or do I already?  
Will I cry  
Or more like shout in scream?

I guess I see real soon  
For here comes some one judging me.
