## ~\*the Moon And Stars\*~

Beneath the shining stars,  
beneath the gleaming moon,  
when night has healed the scars  
of the burning noon  
and so, to you,  
if hate possess your heart,  
when the day's hot strife is through  
bid hate to depart  
the disappointing day,  
whenever wrong, or how,  
is something that has passed away,  
it is ended now.  
Forget, forgive, the stars, and  
sleep will find you soon  
Beneath the shining stars,  
the gleaming of the moon

# A Butterfly's Wings

Teardrops fell from Shelley's face, as she held her mother's hand  
Sorrow filled her broken heart, as she fought to understand  
Why her mom was dying, why she had to let her go  
And as her fear grew stronger, Shelley felt her panic grow

For how would she survive without her mother guiding her along?  
Giving words of encouragement, support to make her strong?  
As Shelley started trembling, the tears continued down her cheeks,  
She realized that the end was near, she'd prepared for it for weeks

But now here in that moment, Shelley couldn't say good-bye  
Instead she stood there silently as her mother watched her cry  
And as if her mother read her mind, or maybe her heart,  
She spoke her final words, intended to leave their mark

"There are so many things I need to say, so many things before I go,  
But time is of the essence, so it's important that you know...  
That sometimes, you'll feel powerless, believing you can't win  
What others think of you will be the image you hold within

"You'll feel you have to follow quietly, at someone else's pace,  
And be the image on magazine covers, the perfect smiling face  
With the pressure to be perfect, you'll doubt yourself, and what you can be,  
But I ask of you, dear Shelley, whenever you doubt yourself, stop and think of  
me

"For when I look into your eyes, I see a million stars,  
Shining from within, all you're magic and who you are  
In your face, a flower's blossom, a starlit winter's night,  
A butterfly's wings spread gracefully, without effort taking flight

"A summer's breeze and sunlight, colorful leaves found in the fall,  
Springtime filled with new life; Shelley I've found it all  
All in life that's remarkable, when I look at you, I see  
And if you can't believe that of yourself, then at least believe in me"

Shelley listened closely, as her mother's breathe grew weak,  
She wanted to remember every word her dying mother fought to speak  
"You can always make excuses, or you can make great plans,

You can bow your head in shame, or, Shelley you can take a stand

“And know how well deserved your place is in this world  
Be a clear example, be a mentor to every girl  
Take pride in all you are... a woman who is strong  
Even when you stumble, when you feel you don't belong

“For God had a part in making you, and all that's on this earth,  
And even if you don't realize it, you have tremendous worth  
For even though a butterfly may seem delicate...fragile to the eye,  
Don't you overlook the fact; it has what it takes to fly”

Shelley's mother closed her eyes; her life on earth was gone,  
But her words remained behind, giving Shelley the strength to carry on  
For in her mother's words, she heard a message reliable and true:  
There is nothing in this world that a woman cannot do

Though there are often times when Shelley feels weak and small,  
And it would seem easier to give into others, instead of proudly standing tall,  
She finds herself thinking clearly of all the little girls on earth  
Who feels so unimportant, not aware of their own worth

And then she hears her mother's voice, from a breeze softly passing by,  
“Don't you overlook the fact, you have what it takes to fly”

# A Million Times

I have seen you a million times  
And every time I see you  
I fall in love with you all over again  
My heart starts to race  
My frown turns into a smile  
And all my worries are now in my past  
When you smile at me my heart melts  
You give the sweetest hugs  
Every time you hug me  
Your smile is like a new day  
Your sense of humor is like no other  
The ability you have to make me smile  
Is all you need you love me  
Your laugh is so soft and sweet  
Just looking in your eyes  
Makes me melt inside  
Your lips look so soft  
Soft enough to kiss  
You, yourself relive me from all pain  
Your hands are as soft as a pillow  
The way you comfort me is amazing  
Every time we say good-bye  
I start to cry  
I say good-bye to you too many times  
I said good-bye to you a million times.

# Angels

angels gather all around  
angels down here on the ground  
angels wings are white and frail  
angels won't sing there hearts to hell  
angels sad and  
angels mad  
angels may not sing again  
angels fly up to the sky  
to see a place that we recognize  
so angels smile across the day  
and when night comes they  
hit the hay

Hayley Foster

# Angels Among Us

there are things in life  
that will make you cry  
and its times like these  
when you barely get by

there are people in life  
who will make it hard  
there are times when you'll feel  
like you're off your guard

but up in the sky  
the stars shine bright  
over your sorrows  
and all through the night

upon those stars  
the angels watch  
and guide us through  
life's toughest parts

they make us laugh  
and dry our tears  
they release our anger  
and calm our fears

there are angels among us  
when you're feeling blue  
and when you feel alone  
they come to you

they pick you up  
and hold your hand  
they walk with you  
they understand

so the sadder you get  
and the worse you feel  
always remember  
angels are here

Hayley Foster

# Be

Overcome a fear  
Laugh out loud  
Break the silence  
Speak to the crowd

Feel the joy  
Taste the wind  
Breathe the stars  
Imagine

Model kindness  
Wear peace  
Show mercy  
Act as least

Know her sadness  
Heal his pain  
Listen closely  
Receive the same

Make a promise  
Give from the heart  
Take and return  
End and restart

Rise from the bottom  
Soar from the deep  
Smile and rest  
Desire and seek

Learn the secrets  
Read between the lines  
Thirst for the truth  
Look for the signs

Sing and dance  
Love and dance  
And remember you get  
Whatever you give

Hayley Foster

# Because Of You

Its all because of you,  
I'm never sad and blue,  
You've brightened up my days,  
In your own special way.

How can I get you to understand,  
That I love you more than I can,  
How can I get you to see,  
Your the only boy for me.

Its all because of you,  
my dreams have come true,  
Your everything Ive wished for,  
and I could never wish for more.

I cant describe how much I care,  
But when you need me I will be there,  
To wipe your tears when you are sad,  
To make you happy when you are mad.

Nobody is as special as you are to me,  
Now I hope you are beginning to see,  
Just how much I care for you,  
And all my feelings will always be true.

Hayley Foster

# Break-Up

you loved me  
and i loved you  
but we broke up  
and now we're through  
the pain it hurt  
it hurt that much  
my heart is broken  
and i don't want to be touched  
i know the pain will slowly heal  
but that's not what i want  
what i want is real  
the realness of being loved  
cared for and being hugged  
the warmth of your smiling face  
bringing joy to all my days  
the way you made me feel complete  
my life was better without defeat  
and now everythings just closing in  
without your love that could have been  
this is the way it was supposed to be  
this is the way it was  
this is the way i want it back  
back to the way before we broke up

Hayley Foster

## Break-Up2

Here lays my heart,  
All broken and torn;  
There are no feelings left in it,  
for me to mourn.  
Here lays my mind,  
which has repressed;  
all the memories we have shared,  
that have left me a mess.  
Here lays my soul,  
which you took away;  
Along with my faith and trust in you,  
that you broke in a day.  
Here lays my body,  
All mangled and left to die;  
I hope that I can get through this,  
and find another guy.

Hayley Foster

# Broken Dreams

I love you more than life itself  
But I'm afraid to love.  
My heart is like the fragile wings  
Of a tiny little dove.

I'm scared to get too close.  
I feel that I can't win.  
You'll love me for a little while  
Then you'll set me free again.

I've lived so long on hopes and dreams  
I don't know what to do.  
I don't think I can trust my heart,  
For it belongs to you.

I know you'll only hurt me  
Yet, I still keep running back.  
Between the paths of our hearts  
There's a worn and beaten track.

You've got my heart held on a string.  
It's breaking right in two.  
Enough belongs to me -to hurt-  
The rest belongs to you.

I know that somewhere in your heart  
There is a place for me.  
I just don't know how to find it  
And there's no way to make you see.

I can only hope that someday  
You'll wake up and you'll find,  
That while my heart belongs to yours,  
Yours, too, belongs to mine.

Hayley Foster

# Broken Heart

Broken heart  
Torn in two  
Shattered apart  
“N”  
I lost you  
The tears that fell  
They fell like blood  
Twisted and turned into one  
The days that last before I die  
I refuse to say goodbye  
My thoughts and dreams are gone and gray  
I’m wishing they’d come back and stay  
My hearts a shattered broken mess  
Red with blood thick and wet  
Tears that will not cease to fall  
Piercing daggers through it all  
And with scars and cuts along the way  
Always dreaded the day you’d say  
“I think that we should just be friends”  
And this is where it all will end  
And as you turn and walk away  
There lies a broken heart you threw away

Hayley Foster

# Broken Promises1

Promises get broken  
Just like someone's heart  
Promises get broken  
Even from the start  
I get tired of broken promises  
And people who say they care  
And of all the broken promises  
And lies and cuts and tears  
Promises get broken  
Over so many years  
And as these promises get broken  
People figure out exactly what they feared  
They fear that broken promises  
Are never going to end  
And what a shame it's not a lie  
Broken Promises never die

Hayley Foster

## Broken Promises2

You told me you loved me  
I told you I loved you too  
You said together we'd always be  
I said I would be true

You promised you would hold me  
You promised you'd be there  
I promised I'd cross the stormy sea  
To give you my loving care

But you never kept your promise  
You aren't the way you used to be  
You just gave up on us  
And you just gave up on me

You said let's take a break  
You said let's just be friends  
But please for my sake  
Just say the truth, cause it's the end

You promised every day  
That you would be there  
You molded my heart like clay  
Into the shape of a broken chair

You promised to me  
That we'd always have our love  
You said to me  
I was all you could think of

But, now, your walking away  
Saying 'let's just be friends'  
Now, you made my heart break  
That's your way of saying it's the end

Why did you make a promise you couldn't keep  
Why did you make a promise you wouldn't live up to  
Why did you make a promise that was so cheap  
why did you make a promise to this broken hearted fool

Why did you promise we'd be together  
Why did you say you dreamed of me in your sleep  
why did you promise to love me forever  
Why did you make a promise you could not keep?

Hayley Foster

# Burning With Flames

burning flames in the night  
fill the people's heads with fright  
now the house is burning bright  
people sleep throughout the night  
now the flames are dying down  
may littleones sleep while we gather round  
and everyone knows the reasons why that this house  
just had to die die die

Hayley Foster

# Butterflies

Suddenly I get this feeling  
My mind draws a blank  
My hands are slightly shaking  
My heart begins to race

I feel like I'm losing control  
I'm nervous inside and out  
I have an unexplainable feeling  
I wish I could figure this out

These butterflies inside of me  
Keep fluttering all throughout  
I thought they were gone for good  
I didn't know they could come out

It must be the way  
You get to me like you do  
The way you make me feel  
The way I love you like I do.

Hayley Foster

# Changes

'Friends Forever, ' you promised  
'Together til the end'  
we did everything with each other  
you were my best friend

when i was sad, you were by my side  
when i was scared, you felt my fear  
you were my best support  
if i needed you, you were there

you were the greatest friend,  
you always knew what to say  
you made everything seem better  
as long as we had each other  
everything would be okay

but somewhere along the line  
we slowly came apart  
i was here you were there  
it tore a hole in my heart

things were changing  
our cheerful music reversed its tune  
it was like having salt without pepper  
a sun without its moon

suddenly we were miles apart  
two different people with nothing the same  
it was as if we hadn't been friends  
although we knew deep in our hearts  
neither one of us was to blame

you had made many new friends  
and luckily so had i  
but that didn't change the hurt  
the loss of our friendship made me cry

as we grow older things must change  
but they don't always have to end

even though its different now  
you'll always be my friend

Hayley Foster

# Cupid's Arrow

getting strong  
your life is long  
fightin like a pharaoh  
so help me pay my mortgage  
by buyin  
Cupid's Arrow

Hayley Foster

# Dark And Light

let the dark  
let the light  
let me go into the night  
let me sleep upon the clouds  
let the angels gather round  
let the air so nice and cool  
lower me softly to the ground  
take me home where it's  
nice and warm tuck me  
in bed and i say no more

Hayley Foster

## Do I Feel? ?

do i feel pain at christmas time  
do i feel you everyday  
do i feel the tears running down my face  
do i feel hope at night  
do i feel the need to love  
do i feel the sorrow  
do i feel unhappy because your not there  
or do i feel nothing  
just sittin here i thinkin  
do i feel?

Hayley Foster

# Dying

You know dying never felt so good  
When I'm lying in your arms  
But dying in love feels so much better  
When I know you're always there  
But dying when you've shattered my heart  
That's when dying really hurts  
You say you never meant to hurt me  
But I'm lying in the dirt  
You know I said dying never felt so good  
When I was lying in your arms  
But I feel like I'm dying in hate  
And falling with the stars  
So yes, dying never felt so good  
But dying when you've shattered my heart  
That's when dying really hurts

Hayley Foster

## Effect (Jack)

It seems you have an effect on me,  
that makes me fall for you,  
it seems that you control my mind,  
no matter what you do,  
I get lost within your bright blue eyes,  
and your sexy smile too.  
But everytime you look at me  
I fall more in love with you.  
Although I want to be with you,  
I can't get passed my fears,  
that your just gonna break my heart,  
and leave me all in tears.  
I want you to know I love you,  
and I will forever more,  
and soon there will come a day,  
when you won't make me suffer heartache anymore.

Hayley Foster

# Emo Love

Emo heart  
broken to bits  
turns to black  
as she cuts her wrists  
loves the pain  
it's all she feels  
as the blood pours all around

a razor's blade is  
shiny and wet  
drips with blood  
that's from her neck

the life she had  
she couldn't bare  
and as she dies  
she sheds a tear  
of all the memories  
in her mind  
there's just that one which materialized  
of a girl and boy so in love  
she vowed to die  
because she loved  
and as she breathed her last breath  
she realized that love never lasts

Hayley Foster

# Face Behind The Mask (E Unum Pluribus)

she's an artist of sorts,  
with her brushes and paints  
But she doesn't use canvas,  
it's opinion she taints

around certain 'friends'  
she paints on a grin,  
so she can be popular,  
so she can fit in

with other friends,  
she's loud and obscene  
it's the aim of the game,  
to be rowdy and mean

close to her family,  
she's quiet and shy  
they hardly take notice  
if she is nearby

when she's with the guys,  
she's a tease and a flirt  
she gives and she gives  
ignoring the hurt

the people nearby her  
they hope and they pray  
that they could be popular  
like her one day

But when she's alone,  
she breaks down and cries  
for there is no answer,  
when she asks 'Who am I? '

Hayley Foster

# Faded Memories

Faded memories are the worst  
Never knowing what they hurt  
Memories that were once so clear  
Fade away year by year  
Just like friends they fade too  
And brand new scars that speak the truth  
Love that's meant to last  
It comes and fades by the days  
Faded memories are the worst  
Never knowing what they hurt  
Dreams so bright so blue so true  
Slowly tends to fade away  
Those faded memories we soon forget  
And there will be more soon to come  
Faded memories day by day  
Faded memories never stay  
Faded memories are gone and gray  
And  
Faded Memories are the worst  
Because we never know what they hurt

Hayley Foster

# Forgetting That One Person

It's so hard to get that one person out of your mind...  
Even when they did you so wrong you still love them...  
Tell me why is that? ?  
Its cause he stole my heart and I can't get it back.  
Then it's almost like you want to forgive them for what they did  
you tell yourself that you are moving on but really are you?  
Do you just say that to try to make yourself feel better?  
Even though deep down inside you are really not...  
So the only person that you are fooling is yourself...  
Time will heal and that someone special will take that spot...  
You may not believe it right now, even I don't  
but it will happen,  
that's what I keep telling myself.

Hayley Foster

# Freedom Of Flight

I was put in a cage by my parents,  
But now they have opened the door  
I know that my whole life is out there,  
I'm not a kid anymore

They tell me how they had felt,  
The day that they were let free  
They say it was oh-so-exciting,  
But their words aren't enough for me

And now that day is finally here,  
The world is mine to explore  
I know that when I step out there,  
I cannot turn back anymore

My first step will be purely courage,  
My second will be disbelief  
My third one will be with great pride,  
My fourth one will be up to me

Hayley Foster

# Friends

we laugh  
we cry  
were all the same inside  
you glad  
your sad  
it doesn't matter why  
it's you  
it's me  
there's not another shoe  
it's friends  
it's plans  
it's you and me again  
it's gone today it's all the same why  
i'm glad your here every single day

Hayley Foster

# Gone

Emotions ran through my head  
I found myself wishing I was dead  
All because you were moving away  
I knew I would never see you another day  
You got in your car and waved goodbye  
and then I was left all alone to cry  
I felt helpless, and all alone  
I could only talk to you on the phone  
You were my neighbor, and my best friend  
Why, Oh why did it have to end?  
You made me so happy, so carefree  
you made it feel okay for me to be me  
It's been almost a year since you moved away  
but it feels like it was only yesterday  
I remember everything you used to do  
it may seem impossible, but it's true  
You were the best friend I ever had  
Now that you left me, I am beyond sad  
I love and I miss you more than you ever knew  
You've taught me so much, and I want to say thank you.

Hayley Foster

# Gray

when i was a child  
i saw in black and white  
everything was obvious  
either wrong or right  
no arguements, no pros, no cons  
choices were precise  
pure and joyous clarity  
gave me a simple life  
so i grew and learned to face the world  
living life that way  
and now i feel so unprepared  
cause black and white turned gray  
my unfaltering vision failed  
focus left my eyes  
where choices were so obvious  
i can't tell wrong from right  
because today i am a teenager  
and nothings quite so clear  
i'm seeing through an adults eyes  
a child's biggest fear

Hayley Foster

# Green Clover

there once was  
a leprechaun from Dover  
who told an ogre to bend over  
and pick up a thing  
for health and for spring  
a lovely, long stem  
green clover

Hayley Foster

# Guardian Angel

When I look at you  
I know that I am safe  
By the touch of your hand  
And the look on your face  
Holding me close  
Together as one  
My guardian angel  
My only one  
Each moment with you  
Is something I love  
Together forever  
My true love

Hayley Foster

# Hard To Forget

I really want to forget  
that we had ever met  
but you're clinging too tight  
haunting my lonely nights  
I tried to go to places far from here  
yet it's still your voice I want to hear  
your face and smile I want to see  
it's always with you I want to be  
Hope you'll be the one for me  
cause I can't afford to set you free  
though we're a million miles apart  
you'll still be the one in my heart

Hayley Foster

# Have You Ever

have you ever wanted to dry a tear  
that you know you had made fall?  
have you ever said something  
that you never meant at all?  
have you ever wanted to reach out  
to someone who was in pain?  
have you ever wanted to give sunshine  
to someone who lives with rain?  
have you ever wanted a chance  
to go back and change the past?  
have you ever stopped to realize  
that time slips by too fast?  
have you ever loved somebody  
and never told them so?  
have you ever held back a question  
that you really wanted to know?  
have you ever felt you might explode  
from holding stuff inside?  
that's when you have to make a choice  
between happiness and pride  
i decided i would tell the truth  
to share all that i feel  
my heart feels so much bigger now  
truth was the better deal

Hayley Foster

# Heart Of Gold

hearts of gold  
are good i'm told  
to keep you healthier  
if your life was measured  
by its price  
you'd be wealthier

Hayley Foster

# Heartbroken

You broke my heart, and made me cry,  
and a million times I wonder why.  
I thought that we were meant to be,  
together forever you and me.  
Of all the people I thought I knew,  
I never guessed that it'd be you,  
The one who ripped it all apart,  
and left me standing with a broken heart.

Hayley Foster

# Honey, Baby, Sweetheart

you kiss me so gently  
you hold me tight  
you make me smile  
all day and night  
your the beat of my heart  
the love of my life  
my thoughts in the morning  
my dreams at night  
the one that i'll love till death do us part  
my honey, my baby,  
my sweetheart,  
my Sam

Hayley Foster

# Hopeless

I'm all alone in a room that's dark,  
Fighting the urge to add another mark  
My tears are flowing, my thoughts collide,  
And the end result I'll have to hide

I'm battered, bruised, and all alone,  
Unable to fight this on my own  
Friends used to help me through the day,  
But they saw my pain and ran away

I'm growing weaker as the days pass,  
Afraid today might be my last  
I know the next move is up to me,  
Asking for help is the only key

Hayley Foster

# I Am Alone

I'm sitting here alone  
realizing your gone  
I know I cant change things  
I know I was wrong  
They all say I don't need you  
they all say I'm better off  
they don't understand I love you  
yet I never said it enough  
I regret what I did  
but I cant take it back  
wish I could hold you  
I want you back  
I know you deserve better  
I know imp messed up  
but cant go on without you  
I miss you so much  
Baby I'm sorry  
i know i said it before  
i mean it more than ever  
knowing our loves now behind a closed door  
I didn't realize what i had  
till i lost you  
my heart bleeds inside  
i cant forget you  
Cant you find it in your heart to forgive me  
love me once again  
tell me everything's alright  
tell me its not the end  
Yet i know the end is now  
i know you'll never love me again  
I'm sorry baby  
that i was the one to let you down

# I Found Love

I told you once, I will tell you again.  
I love you now, I loved you then,  
Its hard for me to let you go  
but now I don't wanna go that low,  
we made each other laugh, we made each other cry,  
but the hardest thing is to say goodbye.  
When I first saw you it was strange,  
A few days later it all changed.  
Step by step we make it through,  
the funniest thing is we aren't that blue...

Hayley Foster

# I Need You Now

my friend i need you now  
please take me by the hand  
stand by me in my hour of need  
take time to understand

take my hand dear friend  
and lead me from this place  
chase away my doubts and fears  
wipe the tears from off my face

friend i cannot stand alone  
i need your hand to hold  
the warmth of you gentle touch  
in my world that's grown so cold

please be a friend to me  
and hold me day by day  
because with your loving hand in mine  
i know we'll find a way

Hayley Foster

# I Only Wanted You

A thousand words couldn't bring you back,  
I know because I tried.  
Neither could a thousand tears,  
I know because I cried.  
You left behind a broken heart,  
and happy memories too,  
but I never wanted memories,  
I Only Wanted You.

Hayley Foster

# If

If I could go anywhere,  
it would be in your arms.  
If I could have anything,  
it would be your kind heart.  
If I had last words,  
they'd be 'I love you'  
If there is bad in my life,  
I know what to do:  
look at your face,  
see your smile and your eyes.  
There's no more darkness,  
because you bring the light.  
If you were the sun,  
and I was the moon,  
there'd be niether day or night,  
just me and you.  
And as we stood side by side,  
watching the world pass time by,  
my life would be complete,  
my dreams fulfilled,  
knowing you love me,  
and always will.

Hayley Foster

# If Ever There

If ever there was a time,  
that I needed you,  
that time would be now because,  
you would be here to love me and hold me near.  
and if there was ever a time,  
that I wouldn't need you,  
that time would be never because,  
we would be together forever  
and if there was ever a time we need to forget,  
that time would be now from all the  
arguements, and fights, and evil things we said.  
and if ever there was a time for forgiveness,  
that time should come soon because,  
I'm sorry for all the hurt and the pain I caused you  
and if ever there was a time for true love,  
that wouldn't be very hard to find because,  
that true love has been here, and always will be  
until the end of time.

# I'M In Love But Not With You

roses are red violets are blue  
i'm in love but not with you  
why didn't you tell me from the start  
instead of goin around and breakin my heart  
you told your friends how you made me cry  
i told your girlfriend how your full lies  
yeah you can go around sayin how you played me but  
what goes around comes around boy you'll see  
and yes i got a new boyfriend  
and he's nothing like you  
and yes i'm in love  
but not with you! ! !

# Impulsive Identity

Make a wish upon an eyelash  
Kiss a butterfly  
Run barefoot over sandy beaches  
Blow dandelion seeds into the sky

Make a statement loud and clear  
Say what's on your mind  
Wear whatever you want to wear  
Show the world you're undefined

Run and play with wild horses  
Let your hair fly free  
Be confident express yourself  
Let no one tell you who to be

Practice karate on a trampoline  
Be wild and dye your hair  
Laugh and sing at the top of your lungs  
Spread smiles everywhere

Show everyone your fearless self  
Now's your time to shine  
Don't fear at all what others think  
Just paint your own design

Hayley Foster

# Inside

Bottled up inside  
are the words I never said  
the feelings that I hide  
the lines you never read

you can see it in my eyes  
read it on my face  
trapped inside are lies  
of the past i can't replace

with memories that linger  
won't seem to go away  
why can't i be happier?  
today's a brand new day

yesterdays are over  
even though the hurtings not  
nothing lasts forever  
i must cherish what i got

don't take my love for granted  
or soon it will be gone  
all you ever wanted  
of the love you thought you won

the hurt that i am feeling now  
won't disappear overnight  
but some way some how  
everything will turn out all right

no more wishing for the past  
it wasn't meant to be  
it didn't seem to last  
so i have set him free

# Its Tough To Be A Teenager

its tough to be a teenager, no one really knows  
what the pressure is like in school this is how it goes

i wake up every morning and stare into this face  
i wanna be good looking but i feel like a disgrace

my friends they seem to like me if i follow through with their dare  
but when i try to be myself they never seem to care

my mom well she keeps telling me i gotta make the grade  
while both my parents love me it slowly seems to fade

it seems like everyone i know is trying to be so cool  
and everytime o try i end just a fool

i've thought about taking drug i really don't want to you know  
but i just don't fit in and its really staring to show

maybe if i could make the team i'll stand out in the crowd  
if they could see how hard i try i know they'd be proud

you see i'm still a \*(virgin) \* my friends they can't find out  
cause if they really knew the truth i know they'd laugh and shout

sometimes i get so low i want to cash it in  
my problems really aren't so bad if i think of how life's been

sometimes i'm really lost and wonder what to do  
i wonder where to go who can i talk to

its tough to be a teenager sometimes lifes not fair  
i wish i had somewhere to go and someone to really care

## Just A Quote (Not A Poem)

The only thing I really want in life is to be loved by someone, held in their arms, kissed with passion, have my tears wiped away, for someone to truly care about me and to be with that person forever.

Hayley Foster

# Just Friends

I love you more every day,  
my name I long for you to say.  
Do you know just how I feel?  
Do you know this love is real?  
Sometimes I wonder what you think.  
When you hear my name, do your cheeks turn pink?  
Do you dream about me every night?  
Wish to hug me and hold me tight?  
Do you think we're meant to be?  
Together forever, you and me?  
These are the questions that run through my mind,  
your way into my heart, you did find.  
It drives me crazy as to what I should do,  
Should I risk a friendship and confess to you?  
Or should I keep my feelings inside,  
Keep them locked up, let them hide?  
I just don't know what to do anymore,  
my heart it aches, my heart it's sore.  
I love you more than you could know,  
and I don't want to ever let you go.  
So even if I'm just a friend,  
I'll always love you until the end.

Hayley Foster

# Kiss

Point your lashes down  
and you can picture my face-  
Im Smiling...

Open your mouth, speak with your heart  
and you can see my soul-  
Im Waiting...

Place your arms around my waist  
and you can embrace my uncertainty-  
Im Shaking...

Press your lips against mine  
and try to catch me-  
Im Falling

Hayley Foster

# Kiss Me

Kiss me with passion  
or tender care  
kiss me with promises  
that you'll always be there

Kiss me with love  
or to make my heart dance  
kiss me with promises  
always full of romance

Kiss me so gently  
or with heart-stopping might  
kiss me with promises  
that will last through the night

Kiss me for hours  
or until our stop sign  
kiss me with promises  
that you'll always be mine

Kiss me wrapped up  
and safe by your side  
kiss me with promises  
that we'll never hide

Kiss me so deeply  
or in a warm embrace  
kiss me with promises  
that'll make my heart race

Kiss me so rough  
or light and mild  
kiss me with promises  
that'll make me go wild

Kiss me, very calm  
or to let your love show  
but kiss me with promises  
that you'll never let go!

Hayley Foster

# Letting You Go

I loved you once,  
you hurt me twice.  
Now our friendship  
pays the price.  
I always said  
I'd be here for you  
and this statement  
still remains true.  
When you need me  
I'll be right there,  
I'll hold your hand  
and show you I care.  
Just right now  
I'm letting you go,  
but I still love you;  
just letting you know.

Hayley Foster

# Liar

Trust was meant to be broken  
lies were meant to be said  
friends were meant to be hurt  
and left to lie in the dirt  
tears were always meant to fall  
from the eyes that said it all  
i trusted you with all my heart  
but now it all just falls apart  
people tell me everyday  
words and things of which you say  
you must love to see me cry  
so now i wanna go and die  
my broken heart wonders why

Hayley Foster

# Life

life is here  
life is there  
life is upsidedown  
and life is inside out  
life can go on for a  
million miles cause i don't care  
where life will lead cause all i care about is you on this day  
so life here  
and life there  
life alone  
life everywhere and  
life is gone  
and i just said i don't care  
where life will lead cause all  
i care about is you on this  
day  
and  
everyday

Hayley Foster

# Life/Pain

if you could feel the pain i feel  
you'd be very surprised  
it would break your heart and make you cry  
but you'll never understand just why  
your tears would fall  
and they'd fall like blood  
the pictures will make you scream  
you'd be too scared to face the facts  
and you'd be unable to dream  
and if you do the dreams you have  
will wake you up at night  
they'll haunt you, torment you  
til your too weak to fight  
so welcome to my life of pain  
enter if you dare  
because this life that you'll enter  
is too far beyond repair  
so help me make this life i live  
better in some kind of way  
for i'd be much happier if i could live  
a day without this pain

Hayley Foster

# Lonely Heart

If I had a heart I'm sure it would say  
How lonely its been since you went away,  
With no one to snuggle and no one to hold.  
I guess I'll adjust, or so I've been told.

It's hard to sit back as the line seems to grow  
And watch all the flirting, when deep down I know  
There's nobody there who can know your heart  
Or feel your thoughts even though apart.

To know your thoughts with just one word  
Without the others being heard.  
To feel your heart and share what you love  
Like some magic secret from up above.

The music flows and so do the smiles  
From you to them across the miles.  
Even our songs that were special there  
Are followed by smiles for all to share.

I guess it's me... I just don't understand  
You told me you loved me and held my hand.  
How can I trust anything you say,  
When I'm yesterdays news the very next day.

If I had a heart it would beat in place  
Instead of having this empty space.  
And yours would beat along with mine,  
And I'd be yours til the end of time.

Hayley Foster

# Love

Love is when you miss him even before he's gone,  
when you could listen to him talk all night  
and never get tired of hearing his voice,  
when the sound of his name sends chills down your spine,  
and when you see his smile the second you close your eyes!  
So many ways to say, 'I love you',  
never enough to say how much.  
The word forever seems like a long time,  
but if you're with the person you love  
then forever isn't long enough

Hayley Foster

## Love 3

The love of my life is  
Someone special, it's true  
He's someone I want to be with always  
My special someone is you

Will you be mine forever  
Is what I want to know  
Every time we're together  
My love continues to grow

The love I feel for you  
Is one I've never knew  
Everything you do for me  
Tells me you love me too

I love the gifts you give me  
They show me that you care  
Each one also gives a promise  
A promise you'll be there

I'll love you forever  
Until the day I die  
I'll be forever by you  
Trust me- I wouldn't lie

# Lucky Horseshoe

Kickin horses

makin you so strong  
by buyin this

you wouldn't dare go wrong

Hayley Foster

# Lullaby For Your Friend

When she's crying on your shoulder  
And you don't know what to say  
Just whisper softly in her ear  
That everything will be okay  
When she says her heart is broken  
And her soul feels so alone,  
Just tell her that you love her,  
Just tell her on the phone  
When you hear her breathe so gently  
And see tears fall from her eyes,  
Wipe them one by one away,  
Tell her everybody cries  
And soon she will look up at you  
And maybe start to smile,  
And thank you just for being there  
Through all the painful while  
And you'll look down in her bright blue eyes,  
And know just what to say:  
That on you she can depend  
And everything will be okay

Hayley Foster

# Mirror Me

When I stare into the mirror,  
What is it I see?  
I see my own reflection,  
Staring back at me

But then I look deep within,  
The mirror of my soul  
I see my present, and my past,  
And what the future holds

I see myself as what I am,  
And what I could have been  
I see the shadow side of me,  
That's hidden deep within

As I stare at my reflection,  
Staring back through my own eyes  
I see myself as others do,  
But I also see the lies

Others cannot see, of course,  
This person I conceal  
They know the person I've become,  
But my other side is real

The mirror rids me of disguise,  
Of Hatred, Truth, and Tears  
I see myself through my own eyes,  
And see my deepest fears

Maybe I should end it all,  
So many ways to die  
I lean up against my wall,  
And suddenly begin to cry

The tears stream down my face,  
As I begin to say good-bye,  
Good-bye sunshine, good-bye dad,  
Can't say I didn't try

Then I look into the mirror,  
And see me standing there  
A troubled, lost, and lonely child,  
With tearstained cheeks and matted hair

The mirror has two faces,  
One of truth, reality  
The other is what others see,  
My made-up fantasy

Well mirror thanks for being there,  
But it's time I step away  
It's time my mask came off for good,  
The real me is to stay

Hayley Foster

# My Deepest Fear

of all the people in the world  
it's funny how i picked you  
it's like every morning i wake up  
my blue skies all turn grey  
but when i see your smiling face  
the grey just goes away  
and for reasons i can not explain  
it's funny all that way  
cause all i want is for you to  
hug and hold me near  
although you're not always there  
i know that you still care  
and your smile can brighten anyone's day  
but no matter how hard i hide my face  
whenever something's wrong  
you always seem to know  
and take the pain away  
for there's a time every now and then  
that i might shed a tear  
it's hard to be around  
and face my deepest fear  
that one day you won't  
be there to help me through this shit  
and all the walls that you once built  
will all tumble to the ground  
and when they fall so will i  
and i'll never be able to you say  
don't cry it's alright i'll never leave your side

Hayley Foster

# My Heart Given To You

My hearts on fire,  
My love so true,  
I want you to love me,  
The way I love you,  
I know how I feel,  
And I want you to know,  
But you push me away,  
my heart sinks so low,  
You don't need to show off  
for people to care,  
you don't need to be cool  
for a love that you share,  
I've always been here  
If u needed a friend,  
Ill always be here to  
Help till the end.

Hayley Foster

# My Life

my life is here  
my life is there  
my life is completely everywhere  
my life is upside down  
my life is inside out  
my life is crazy  
my lifes a scare  
my life leads nowhere  
on an endless path  
my life is really somewhere out there

Hayley Foster

# My Light

you are the light in my darkness  
my shelter in a storm  
you give me strength when i am weak  
and your love to keep me warm  
when i was hurting, lost, abused  
it was your faith that i had used  
when i was cold, depressed, and lonely  
i stayed alive by your love only  
when i felt pushed or shunned away  
it was your friendship that made me stay  
when i was sick and felt like dying  
i knew you loved me by your crying  
i knew you loved me knew you cared  
you did what no one else had dared  
you took the time to learn to see  
just what i really am in me  
you listened to my thoughts and fears  
and helped me wipe away my tears  
you helped me learn to respect and love  
to pray to God my Lord above  
you're the light in my darkness i hope you'll see  
i love you daddy for eternity

Hayley Foster

# My Mind's Made Up

My mind's made up  
you broke my heart,  
its torn in two and ripped apart,  
there's blood and tears,  
wounds and flesh  
destroyed by all the words you said,  
you made me cry,  
you made me hurt,  
you made me fall into the dirt,  
you made me mad,  
you made me smile,  
you made want to kill you,  
while you just laugh and carry on,  
pretending that you did no wrong,  
but now its time to say good-bye,  
I've already found another guy.

Hayley Foster

# Never Say I Love You, If You Don'T

Never say I love you if you don't really care.  
Never talk about feelings if they aren't really there.  
Never hold my hand if you are going to break my heart.  
Never say you are going to if you don't plan to start.  
Never look into my eyes if all you do is lie.  
Never say hello if you really mean goodbye.  
If you really mean forever then say you will try.  
Never say forever. Cause forever makes me cry.

# One Chance To Be Me

Today for a second I waited,  
A pause that I needed to take  
Held tight were my eyes to my pillow,  
Delayed was the motion to wake  
A moment was needed to listen,  
To the silence that filled the new day  
A moment to be more decisive  
About the self that I want to portray

Sometimes I wish I felt pretty.  
Sometimes I wish I was more.  
Sometimes I wish I could vanish,  
Through a promising wide-open door  
Sometimes I wish I felt needed  
Sometimes I wish it was true  
Sometimes I wish I could realize  
All the things I've needed to do

But the wishes of maybe are countless  
And the hours do not disagree  
That time makes a habit of slipping away  
And there's only one chance to be me

I'll always know when I'm tired  
And I'll always know each mistake  
I'll always know when I'm happy  
And I'll always know when I'm a fake  
I'll never regret that which happens  
I'll never deny a good friend  
I'll never on purpose, harm my own heart  
I'll be there for me in the end

# Reasons

in my mind  
there is you always knowing what to do  
but now you watch me step ans fall  
having no reason to care at all  
but now your gone  
what else to do  
but sit or stand as life goes through  
i thought you were the only one  
but of course that thought wasn't true  
i loved you lotz and that's the truth  
but you made it all fall through  
you lied to me i didn't care  
because you were just always there  
you made me laugh you made me cry  
you made me feel special inside  
so kiss me and just say goodbye  
and remember You lied

# Seconds

as we grow up, we learn that even the  
ONE person that wasn't supposed to EVER let you  
down Probably will, you will have your heart  
broken probably more than once and it's harder  
everytime you'll break hearts too  
SO remember how it felt when yours was broken  
you'll fight with your Best Friend  
you'll Blame a new love for things  
an old one did  
you'll cry because time is passing too fast  
and you'll eventually lose someone you love  
so take too many pictures  
laugh too much  
and LOVE like you've never been hurt  
because every SIXTY seconds you spend upset  
is a minute of HAPPINESS  
you'll NEVER get back.....

# Shooting Star

I want to be a shooting star  
Gliding through the air  
Hearing everybody's wish  
Upon my shooting star  
To hear their wishes  
To know the truth  
To know just who they are  
Making every wish come true  
Through morning afternoon  
And when night falls  
I shoot again  
Hearing the wishes to be said  
For I am now a shooting star  
And I'm shooting far and clear

# Silent Scream

outside you see me smiling  
and floating through each day  
a little tired a little thin  
but overall okay

but you don't hear my anguished thoughts  
which surface every night  
they plague me, haunt me, torment me  
til i'm too weak to fight

and so next day i come to school  
with deeply shadowed eyes  
i smile, laugh, and speak on cue  
living a pack of lies

a silent scream echoes inside  
reaction to my lie  
til with no warning it erupts  
and i crumble down and cry

come find me, help me, make it stop,  
No! keep out go away  
for if you come, i've no control  
over the words i say

can't you hear my silent scream  
decipher what i hide?  
so come and ask me what is wrong  
come sit down by my side

if nothing else then please read through  
this tangled web i weave  
for you are really not the one  
i'm trying to deceive

help me, i don't know what i want  
i've lost my guiding light  
please hold me, let me cry and say  
somehow you'll make it right

perhaps deep down i know what's wrong  
what keeps me up awake  
what is the source of all my tears  
and ever- ther heartache

but not yet can i face it  
or maybe i just won't  
please someone help me understand  
god only knows i don't

# So What

you broke my heart  
you made me cry  
for that i wish you would die  
the pain you caused was just to much  
and now the only thing to do is fuss  
you did once you'll do it again  
when will your story ever end  
you made a promise that you couldn't keep  
about the love you had for me  
i guess i should just say it  
now  
so what  
you used me  
good-bye  
farewell

Hayley Foster

# Something Right

could i ever have imagined  
would i ever have believed  
that i have finally found you  
the man of my dreams  
like most little girls i believed in true love  
but as time went i did not think for me  
that true love would ever come  
then from out of the stars you came to me  
like a king on a quest  
to look for his queen  
tall, dark, and handsome your eyes called out to me  
like a tiger on the prowl  
my heart began to beat  
soon i was weak  
you caught me off guard  
unaware and unarmed  
yes  
i have fallen  
right at your feet  
though my eyes had a vision of you and i walkin  
love was not yet  
true love was yet to come  
so i followed my heart and i asked god please  
to let me see this man for the man he is to be  
not fot whom i should percieve him to be  
let me see this man the way his eyes see me  
you see  
i  
too would find love  
now  
it is my turn  
let me show you what my love is made of  
with each night i look up to the stars all so bright  
they sparkle back at me  
i know  
i must have done something right

# Stay Beautiful

Stay Beautiful  
Even if we don't stay friends  
Stay Beautiful  
Even if we fall apart  
Stay Beautiful  
Because you're going to be someone in life  
Stay Beautiful  
For me or if not for me  
Stay Beautiful  
For yourself or for the people you love  
Just Stay Beautiful  
Because someday you're going to find the one  
You really truly love and she'll be telling you  
To Stay Beautiful too  
Stay Beautiful  
Because you're an amazing person and  
That'll never change and  
Stay Beautiful  
Because you're one and in a million and  
Stay Beautiful  
Just to stay the beautiful person  
You are today and  
Stay Beautiful  
Because that's who you are  
You're Beautiful

# That's Not True

You think you know, but I know you don't  
I ask you to understand, but I know you won't  
You assume I don't care, but you couldn't be more wrong  
I've cared more than you know all along  
I can't explain it, but I'm drawn to you –  
Your voice, your touch, and all the things you do  
Each time we cross paths, it hurts more to say goodbye  
I try not to care, but that's just a lie  
Although it seems we're always worlds apart  
Know that's not true 'cause you're here in my heart

# The Shadows

in the shadows of the earth  
i watch as the sun goes down  
it rains it pours  
the light is no more  
the light disappears the shadows move on  
the air is the wind upon the shore  
but without the light standing there  
so this day forward i watch and i wait to  
see the shadows disalate  
so when the light comes back to me the flowers will bloom  
the shadows be gone  
my heart opens up to sing a love song  
and while i watch and while i wait  
to the end of time  
that the light will be some day  
some where  
some how  
out there

# Thoughts I Know Are True

for the people that gave us joy  
may not be here now  
the ones that made us laugh  
will always be within  
though at times it may bring tears  
we know everything's just fine  
and though they can't wait to see us  
we'll always be inside  
the people that we lost and the people that  
we gained turn to us for the world as if it's all the same  
so the angels we have now their souls  
still remain within and without any kinds of pain so  
now it brings us sorrow that i can not control it will not  
kill my memories for the one that  
flies above  
and now they're still with us  
and my angel has her wings  
she'll fly up to the sky and live for all  
eternity

Hayley Foster

# Time

is there time  
for me to see  
how much time is lost  
is there time  
to see  
my angels life  
is there time  
to see how  
much i miss you  
is there time to just be me  
is there time

# True Hurt

You ask me to quit calling,  
you speak in words of hate.  
You say you never loved me,  
that all those words were fake.  
I never really hurt you,  
at times I thought it fair.  
But you put me down and ridicule  
and never seem to care.  
I thought that you were different,  
that you'd never hurt me.  
But now I know the real you,  
now it's the truth I see.  
Your intentions were clear all along,  
you didn't hide them well.  
I soon found that all you wanted  
was to kick me when I fell.  
But I am smarter now,  
for support I have my friends.  
I know for sure next time,  
this won't be how it ends.

# Until I Found You

The first time my heart was broken,  
I thought I was through.  
I swore I'd never love again,  
until I found you.  
You are the one who makes me complete,  
the one I think about everyday.  
Every time I'm near you,  
I start falling in more than one way.  
You may not know this,  
but you've always had my heart.  
I just wanted you to know,  
that I've loved you from the start.  
You make my heart beat faster,  
with every breath I take.  
I know I'm in love with you,  
Trust me, this is not fake.  
The first time I fell in love,  
He ripped my heart in two.  
Forgive me if I seem scared,  
I just don't want to lose you.  
The first time my heart was broken,  
I thought I was through.  
I swore I'd never love again,  
until I found you...

# Untitled

I really want to tell you  
Just how precious you are to me,  
My every thought of you is as loving as can be  
My heart is totally filled with things  
That words alone can't say,  
This comes especially for you  
With love on Christmas Day.

Hayley Foster

## Untitled 2

My mind drifts toward those thoughts of you  
a thousand times a day,  
You're always there within my heart  
you always know the way,  
A constant craving deep inside.  
I need you...oh...so much  
To look into those bright blue eyes  
to feel your gentle touch.  
It's the mere sound of your voice  
that makes my spirit soar.  
It reaches far into my soul  
down to the very core.  
You haunt my dreams through every night  
a vision so intense,  
an apparition  
so sublime no possible defense.  
You are the love of my whole life  
such joy I can't recall  
you are and always will remain  
my everything.....My All.

Hayley Foster

# Vows

I never thought that I could meet  
someone like you  
you are my friend,  
you are my smile,  
you are my everything.  
You are a breath-taking reflection  
of God's heart for me,  
of how he pursued me and loved me  
even when I didn't love myself.  
You held my hand in the Darkness  
and you pulled me out into the Light  
I Love You.....  
And I'm ready to be your wife.

# What Is Love?

What is love  
but an undying flame that burns  
what is love  
with butterflies in your your stomach  
what is love  
but a feeling that can't be controlled  
what is love  
but you longing to see that person again  
what is love  
but a passion that you'll never leave their side  
what is love  
but an emotion that can't be stopped  
that tingles your body soul and mind  
what is love  
for every moment taht their away  
and a small piece inside of you dies  
this is what love is  
and continues to grow over time

## What Is Love? 2

What is love

Love is the gentle touch with a hint of passion and a soft sprinkle of lust

Love is trust

Love is holding hands ever so gently under the moonlight

Love is trust

Love is staring so intently into your lovers eyes with the feeling that,  
this is so right

Love is a sweet walk in the park with that special someone

Love is pain, pleasure and everything nice

Love is trust

Love is loving and caring for you in a very special way

Love is remembering the simple and special things we do and say

Love is remembering how sweet you are and wishing you  
a happy valentine's day

# When I Close My Eyes

I can see your face..  
My heart calls out, wanting you with me in this special place..  
I can feel your arms holding me tight..  
I long to snuggle close and feel all my fears take flight..  
I can see your smile..  
Reminding me to be patient for just a little while..  
I can feel your gentle touch..  
Shivers run over my skin, I miss you so much..  
I can see the love in your eyes for me..  
Shining brightly where all who care to look can see..  
I can feel your presence surrounding me. Holding me. Loving me..  
And I know deep in my heart our love was meant to be..  
I love you...

Hayley Foster

# You

When I wake up each morning  
my first thoughts are of you,  
When I go to school and sit throughout the day  
I daydream all afternoon,  
When I'm walking down the street,  
heading towards my home  
I wonder if you think about me,  
when I'm thinking about you.  
When I lay my head down before I go to sleep,  
I wish you were laying here right beside me  
and that you'll never leave.  
And when I close my eyes each night  
I dream and dream and dream about you.  
And the reason for this is because baby I love you.

Hayley Foster

# Your'Re On My Mind

I lie in bed at night  
I lie in bed and cry  
I lie in bed and think  
About your beautiful eyes  
I go to school a mess  
I think about your life  
And then I know I had enough  
I go and cry again  
I know I want you back  
Back in all our lives  
And even though we're scared  
We care and love you more

Hayley Foster

# You've Touched My Heart

You've given me a reason  
for smiling once again,  
you've filled my life with peaceful dreams  
and you've become my closest friend.

You've shared your heartfelt secrets  
and your trust you've given me,  
you showed me how to feel again  
to laugh, and love, and see.

If life should end tomorrow  
and from this world I should part,  
I shall be forever young  
for you have touched my heart
