# Be My Lover

Be my lover  
A young lady i approached  
Sometime  
She turns to encroach my mind  
In time

She makes me fall in love  
With time  
And am left with a question  
To ask  
Girl,  
Would you be my lover?  
I am in love with you  
Dont make me to be a fool  
I'll hold you tight and cool  
My baby  
Would you be my lover?

She struggles with thoughts  
On her mind  
I have some thoughts  
Behind  
Are you gonna let me be the one?

# Blessings In Loving U

Ever since i met you  
I've been in good  
I can't think of replacing you  
Coz its you that makes my  
Heart  
Mind  
And soul to flow

When am off to work  
she,  
Gives me the wishes of love  
Your kisses are blessings  
Your words are of wisdom  
your smiles are of happiness

If am mistakenly hurt  
She,  
Tries everything to make my heart ease

You are just like an  
'African Queen'to me.

# Fearless

At everytime  
We disappear in time  
They are mourned for sometime  
And left without a dime  
It comes like the moon at its night  
And takes with its might  
None is left  
Its a cleft

# First Date

We fell in love on a first date  
A beautiful girl i saw on a first date  
I look into her eyes all i see is love  
At the back of my mind all i see is her  
I took her places shes never gone before  
She has powers like nothing i've felt before  
I feel like taking her home  
Coz i know i could make love to her for the whole night  
I make her closer to me coz i dont wanna loose her  
Each time she smiles at me  
I feel complete  
I have something running in my mind  
It must be love  
I wish i could see her everyday  
But it's just for a date  
I see her running over my body  
I feel satisfied  
She has powers which makes me not to look at other girls  
But am gonna loose her, coz it's just a first date.

# Give Me A Chance Ft Chidera Nwokeji

When i first saw you  
I fell in love with you  
Each time i wanted to approach you  
I run out of words, to say  
I don't want to see the ending of my love for you  
Am asking for real nw  
Please give me the chance  
I am in love with you dear  
And i'll make you happy  
If only you would give me the chance

# Good Music

play the song for a sad man  
To make his heart ease  
He closes his eyes  
And forgets the sorrows of the world  
To make his heart last long

Lets dance in accordance  
To the tune of the music  
Good music creates victory  
When listening to its meaningful wardings

# Lonely

Lonely  
Am so lonely  
When i feel like i didnt see your face

I feel like am lonely  
When you dont give me the wishes of luv

Am so lonely  
When you dont give me a gudnight kiss

I feel lonely  
When i dont feel your presence around me

I feel lonely  
When you tell me ure going

I am lonely  
When you're away  
Am lonely without you yea

# Long But Sure

It takes a long argony  
To get a full fledged victory  
Sometimes  
Hopes are lost in the middle of suffering  
Ones destiny can only be delayed  
Keep to your faith in relying  
Its only a matter of time  
For one to be remembered  
Its normal to be in long suffering  
But surely you'll be blessed

# Maloo Down

Be straight forward  
To move forward  
Donot rush  
To avoid crash  
Do not be in a haste  
To run faster than your shadow

Maloo down in the things you do  
Oh think twice my dear brethren  
Look before you leep  
Look back while walking  
Be truthful in your sayings.

# My Time's Now

You cant see me, my time's now  
You can't reach me, my time's now  
Everyone wants to melt me, my time's now  
See av got so much talents, my time's now  
Av got to show them, my time's now  
Later can be never, my time's now  
Av got things to do, my time's now  
Things to do to make greatness, my time's now  
Never think to go backwards, your time's now  
Me steady go higher, my time's now  
Rise up and give them what they want, your time's now  
Never sit back, your time's now  
A lazy man eats nothing, wake up now  
You can do it, your time's now  
Make yourself stronger, your time's now  
Dont let them draw you back, your time's now  
Aim for the high, your time's now  
Am in pursuit of my future, my time's now  
Moving radically, my time's now.....

# Not Alone

Not alone  
Am not alone, not alone  
Each time i feel alone  
I feel someones presence  
Slowly he comes in peace  
He comes but to guild  
My actions  
And gives me some good thoughts

When am confused  
He comes with time  
With something to show  
He turns my confusion  
Into determination

When i go astray  
He comes to my mind to stay  
He holds me back  
And i'll never go alone i am

# Prepare For The Worse But Still Pray For The Best

He made the good and bad  
For him to receive glory  
Do not feel bad  
Because it leads to victory

Ask from the lord  
The goddesses of all  
But remember temptations  
Which causes destruction

In a right, there's a wrong  
In receiving goddesses  
You must have suffered in agony  
Which leads to victory

He works with time  
To ascertain great achievement  
To create victory  
For his people

# Speechless

Speechless  
I have been longing  
To be with you in my struggling  
The love is magical  
Thats how i feel

Now i have seen you  
Am lost for words  
To tell how i feel

When i see you  
I run out of words  
I find my self deeply  
In love with you  
But,  
Dont know how to say it  
I have but nothing to say  
But,  
I am  
Speechless

# The Beautiful Lady

A lady recognised  
In sensitive speech  
is said to be beautiful  
A lady recognised  
By the masses  
In pure sense  
Is said to be beautiful  
A selfless lady  
Seen as ready  
In time  
With a dime  
Is said to be beautiful  
A lady  
Who heeds to caution  
To make a decision  
Is said to be beautiful  
A lady is not only beautiful in flesh and material things  
But in sense  
And strength  
To do things

# The Boundary

The boundary

There is time for everything

The evil doers thinks they are the rulers of everything

They torment the living

with their evil doing

Thee sits back unreacting

for he works with time

He sees the wickedness of his own image in the world

for theres limit he intervenes.

izuchukwu lucius

# The Fatalism

The belief of a nation  
Leads to their destruction  
Their thoughts  
Leads to their ending  
The nation tends to forget thee  
And recognise fatal belief  
Their is one great power ruling  
And that power recognises sinners  
Fatal beliefs have encroached on our minds  
And have made us depreciate from the long lasting peace  
Some believers who thinks they are of truth  
Helps in the incriment  
Of fatal believes

# The Great Difference

The great difference  
In the world as a whole  
People struggle to get something to hold  
But it turns to strike  
With its merciless strike

There is difference  
When thought with sense  
The truth is of the almighty  
The other is of the deity

Among the god, the difference is clear  
The almighty treats with fair  
Their is a great difference in the truth and lie  
But people choose to surrender to lie

The God almighty is the great difference.

# The Left Over

Let nation learn to think backwards, coz the forgotten can be the begotten, learn to remember the left over, modernitty can be a forgottenity the past can lead to present let nations not run to modern and remember the old culture ie'the left over'

# The Loved One

The loved one  
Do not think you're hated  
because you're corrected  
A loved one is a cared one  
Do not be in a state of delima  
because you're not mistaken to be chosen.

izuchukwu lucius

# The Master And He's Expectants

The master is one who  
The masses look forward to  
He is the highest  
In the group of bravest  
He is said to do this  
With the support of the masses  
Hes is indispensable with thee  
And able with his courage  
He goes out in argony  
And returns with victory  
He guilds his people  
And prevents trouble

# The Unseparable

The unseperatable  
We found together  
As we hold one another  
We found love in a hardest place  
Love which brings peace  
He is superior  
And am imferior  
When i tend to go away  
He calls me, and show me the way  
Am not his match  
But he sees value in me  
I humbly place myself before him  
He places me higher above all  
Sometimes i ask myself  
What manner of man is HE  
He's my comforter  
My helper and  
Makes me feel in friendship av never been before  
I find excellence in him  
Thats why i hold strongly to him  
We communicate like we are into marriage  
He is called the kings  
Above every other king  
He makes me know more of him everyday  
I want more of him everyday  
Becoz of him, people say my life's beautiful  
Av got no riches, gold, silver and things of the world  
But people confess of my beauty  
I hav him, i dont think i want anything more  
I fear him  
Coz  
He's invisible but visible  
He's presently present  
He polishes and holds those that are in him  
I dont think i want to replace him  
I am indispensible without him  
Which makes us unseperated.....

# The 'V'(Viper)

In a peaceful family  
He works slowly  
He comes between peace  
And turn in piece  
He is the unwanted  
But pretends to be needed

In a peaceful co-operation  
He comes as a friend  
He knows the source of peace in the organisation  
But brings destruction  
Which causes their perfect downfall  
Then, he snicks out quietly  
And looks for another dwelling

In a peaceful friendship  
He brings in hardship  
He causes misunderstanding  
In the minds of the peaceful friends

A viper caught earlier  
Makes it easier  
To be eliminated  
And peace is regained  
As lost in the past
