Jamie Walker(13)

I grew up and am going to Junior High in the small town I was born and raised in. I've always been by myself or with my best and probably only close friend Katie. I love my 2 older sisters Shoni and Trisha, who are 22 years old and my mom, Juanita who's 54 this year... i think.... i have 2 cats, Bella and Black Beard (yes, like the pirate) , and 1 dog, Ally, who is adorable. i spend all my time on the computer, drawing, reading, talking to friends and family or in school (BLAH)

duhnt duhnt DAAAAAAH! And i have a crush on Ville Valo, Chad Kroeger and a TB (PL) :) all are super cute!

I hope to be a wildlife photographer after school is over and behind possibly move somewhere that's cool. like California or Finland! ! Oooh Finland! ! ! !

Its late Aug and i'm swamped at school so my poems are on hold for a little while. sorry. ;)

All The Time He Wants

I dont know how I keep going
When he is not around me,
I Don't care if it's just for a seond,
But we never have time for each other,

And I want to see all of the rainbow,
Not just the blue and red,
But at least I know he'll be around,
Before I realize it,

And then everything will be colored again,
But for now darkness and the flame are all that is around me,
And that's ok to me,
I've been like this for along time,

So he can take all the time he wants,
Im still going to be here,
Waiting for the light to shine back
In this place of mine

Apologize

I sit here by the window
Watching the rain fall down,
From a gray cloud directly above me

Feeling empty and alone
And full of sorrow
For i know we could've avoided this
But i guess we never saw it coming to begin with

So, as i sit here and blame myself for this
Me, Myself And I
Not you,
You were the unknowing Victim

And I?
I was the Victim as much as the aggressor
And for all your pain I apologize
Eternally damned I feel

Decorating Christmas

I run around the house, trailing a mile of shiny garland,
Cats chasing me like a toy.

I laugh and cover them in tinsel.

Then run out in to the inches of snow outside,

I jump up immediately

I set up the tree and then put all the little angels and toys and things on

And gasp as I see a new breed of squirrel in the middle,

Eating fake berries and popcorn.

I laugh and hang the stockings over the couch, as we have no fireplace

And fall asleep wishing for snow to fall

Last thing to be heard before all was silent?

Hooves on the roof, now who could that be?

Distracted: Better Than Me

I learn many knew things,
I see alot of people,
But i cant help but get distracted by thinking of you

Classes pass slow,
So much homework always on hold
Your often gone so I make the most of this time
Inside im scremin' like a deamon,

Remembering the conversations we have,
Places we've gone,
All at the same time I work,
I dont know how it happens but i get it done..

I guess im just amazing like that!
Thank you for never leaving my thoughts
And for picking me up when i fell
I'm learning life,

Not hating it because of you,
Seems like thats all i care about right?
Nah, I have some life but nothing that people dont poke fun at,
I deal with it but you should find someone else,
You can do so much better than me

Dream Night

You and I, we sit watching the stars from each others arms,
We think of nothing but this moment,
But i also think of waking up, Your warm breath hot on my neck,
Your arms around me forever

I carefully turn over,
Surprised to see your eyes open,
Watching me, i can see love in your eyes
And as you smile i seem to melt into you

I giggle and as you kiss me and get up,
I see a tear roll down your cheek,
I ask if somethings wrong but you smile
And tell me 'its just your effect on me'

And so i smile and roll over to go back to sleep
But then i feel you at my back,
Arms around me again
And i fall back asleep dreaming of an Angel

Jamie Walker

Empty Room

Snow swirling around my feet,
Bone chilling, fingers numbing, i don't feel anything
children running, laughing, falling around me

All I can see is an empty room around me,
I see only the shades of red, gray, and blues
I live this way because I cant see your face,

In my head, When I feel like the worlds crashing down on me
But its probably for the best,
One of us getting lost and hollow is better,

Than having to watch each other suffer,
Watching each others pain,
Slowly kill us deep inside

So I let you get away,
Now go and give the world,
All that i took for granted,
And see all the colors of the world

So that you will go on and be an inspiration to someone
Who sees your true colors shine through
Let yourself out

Jamie Walker

Eternal Sleep

As I lay here
With you against me,
I feel as though I've died
And gone to an eternity of wonderment

Wonder when you'll grow tired bored of me
And when we'll go our own separate ways
But i soon forget that as i turn over

I look up into the cutest face Ive ever seen
and i fall asleep in the arms of an angel
Never say its not love when u find your self in another
World for eternity

Jamie Walker

Fallen Angel

Me being with you is like seeing the first flowers break through the dense snow,
Like seeing the trees bursting with reds. oranges and yellows.
And feeling warmth rush through my veins,

I know you feel the same yet dont know how to express it
When you touch me its like the heat of the sun is in your hands,
When I lean on you I feel like I am part of you,
I think of fire and ice but all i feel for you is fire

And whenever I talk to you and think of you,
I lose everything in my mind except that you care for me,
I see you're face and think of the words you speak to me,
Like a Fallen Angel

Jamie Walker

Forever

Make it last for ever
This love for each other
Every day for the rest of our lives
Wanna see you there, wanna hold you tight

Every Moment of every day
We dream of love
And love is opened up
Like a door for you and me

To explore,
Together forever,
Hands locked for eternity
Together we can do any and everything

Jamie Walker

Heart Thoughts

I look back at the mistakes
And see only the other half of me was missing
But i know your always beside me,
And i behind you when necessary

And as i turn over to say the most important words
I know you'll never leave me to deal on my own
You always want to protect me Right?
Well how do you protect my heart?

Ive let you back into my life
You've promised your undying love
And here you are, Arm over my waist,
Breath on my neck, and loving your second chance

Just know I'd do the same for you
And that we never have to leave
Or worry for the other again
As long as your arms 'round me

Jamie Walker

Heavens On Earth

The Sun is shining,
So bright on me
I'm smiling like heavens down on Earth
But my heart is weeping,

Cause happiness is killin' me
I found what i was looking for
Nothing could bring me down from here

Feeling unknown
as he looks down at me,
Heavens down on Earth
And i'm so far gone
Never comin down

Jamie Walker

I Feel Cold, Let Me Melt

I feel like a snow flake
Cold, alone, useless
But theres nothing you can do to help me
I'm already gone,

Stuck in the breeze,
People catch me but throw me back,
So its nothing differnt now,
I've learned to accept it about me

So push the winter away
And save me from the warmth
Cause that will be the death of me
But all I need is a little help

So, Are you gonna rescue me
Or do I melt into everything else?

Jamie Walker

I'M Dying On The Inside

I feel like im useless,
Like the world doesnt need me,
And it really doesnt,
I cant make a huge change to the world like everyone wants!

I'm just a little freak girl with nothing special about her,
I should just 'go' and i wouldnt be such trouble for people,
Nobody ever says anything good about me anyways
And no one really undersands this pain of mine

And i hope that no one will ever have to deal with my pain,
I've caused so much pain and suffering and so little good has come
From me that it would make veryone so much better off,
So my pain will end and so will theirs

Jamie Walker

Love Loss

Loss was never a strong suit of mine,
You know that yet you take the risk by loving me so deeply,
I can't take this rejection i know is coming,
You saw it too but you still think this can be avoided

Well, now i see why so many people choose to stay alone
This rejection is like you're heart being cut from your chest
You just don't know it till its to late to put back
Irreplaceable is the heart you had,
The love you lost

Jamie Walker

Love Said Wait

You and i used to have the best of times
Rolling in the tall grass, going for walks,
Talking like little kids, chasing each other around,
But now you think i don't care for you?

That it was a big joke for me?
well you were wrong and now alone
so now i hope you see the light
because i want the normal you back

But you have no right to tell me i don't care,
Because i know you can see it as i stare at you
But i'm not coming back to you till you can find me
And when i trust you not to hurt me again

Jamie Walker

Mirror

My time is over
I must leave to find
The life I lost
When you left me to clean up
The pieces of my heart

Well now I've picked up the pieces of me
Now you just pick up the mess
You made of yourself
I've done all but forget the misery

Of how you were when you were drunk
Of what you said that made me
Shatter like the mirror
On the wall staring back at you
All alone now

I Don't lay crying in my bed anymore
I've found a better place than where i was
My friends still talk about you in whispers
As if your the devil

And they hate you for leaving me here
All alone to die with them
Alone,
How do you like it now when you see
Me around where we used to go together?

I don't care anymore
So just stop calling to apologize
I'm gone your never going to find me
Near you Ever again

So just to stop Writing me
Stop calling,
Stop coming to my door,
Stay out of my life For Good

Jamie Walker

My Heart - One Life

My Heart Beats for you
While I am away from you
I feel empty,
Alone,
Dead

Just know my heart is
Open to you and you alone
For ever and ever
till the wind sweeps us away
to the stars
One Heart

Jamie Walker

Opinion Of Love

I'd rather you hate me for something i am
Than have you love something im not
But you only see my flaws as cute
Well that's not gonna work on me

So either see all of me or none of me
Have it your way till the end
But don't mess with my heart, Ever,
Until i know you love me completely

Jamie Walker

Realized Love

I realize you broke my heart by leaving me to crumble
I also know it wasn't intentional but you hold yourself responsible now that your
back

I tell you it wasn't your fault but you just tell me your sorry and hug me harder
I just wish you'd see the truth i speak of here and now...

You know that I care if your sad or depressed
So you Must know seeing you do this to yourself hurts me
More than when you went to figure out the life you merged with mine
I got over that, This is just to sad for me to bare

I sit and hold you and tell you its not your fault for that
And that your back and that's all that matters to me
You clutch me and whisper that your sorry and you love me
This i already know and tell you its alright and I want to move forwards

And as i tell you that it hurts me to see you like this
You finally see the truth of my words
But again you a say your sorry and look horrified by your stupidity
I hug you and you see that i really meant that

Now we can live the life we share
And i no longer see or feel despair
From you, and you see me in the light as an angel
For forgiving you

Well I'd forgive you for anything
Because you mean to much to me
For me to mess it up
would be the most impossibly horrible thing i know

My love is deep and true
I know yours is too
That's why there's nothing i wouldn't do
For you, For us

Jamie Walker

Shadows Follow Me Through Changes

As i walk I feel my shadow beside me
Sometimes when I walk alone,
I take the place of my shadow
Seeing myself in a whole new light

I see our mistakes
My flaws and yours
But shadows follow me,
And sometimes they leave me

But they follow me,
In the day and in the Night
It's always around, Watching
But sometimes its me watching myself change

Jamie Walker

Sister Love

I lost the last thing
I didn't think you were this important
To my life

You, You say you don't miss me
But i know we miss each other
Of course we are family
But it doesn't matter

I know i love you because you help me
When i fall you help me up
And help me in school
And of course you helped Mom raise me
And i know that's where my evil habits come from

You and me and of course your good twin
Make me what i am and what i want to be
Think of that as we drive back and forth
Just to see each other change year by year

Thank you Both and never Duck tape me up again though
And remember, I'll always scream and bang on the door
for you to let in the 2 foot tall demon you raised me to be

Jamie Walker

Special Place - My Time

I hold you close, yet your so far from me
Now When ever I look back
I still Wonder if you really cared for me

If You Really care
Come Find me you know where I'll be
And here I wait

For you to come and save me from this cell
That is the world I left behind

And take us back to our special Place
Before our time has ended
And we turn to dust
And we are set free to Love

Jamie Walker

Starry Night Worries

Leaves fall down on me,
Crunching under foot as I go to School
Thinking of how i messed everything up with you
Yeah you wont talk to me but i can tell you still Love me from your eyes

But then you hug me and i have a bad feeling,
You just stand there behind me hugging for several minutes
Why? i wonder,
But you whisper that We are going to the lake

And i then i know i was wrong
As we stare at the water as the sun sets
And it gets warm and we hold hands as the Moon and stars
Come out to see us
I am glad to be wrong...

Jamie Walker

Summer

Hot weather makes me mad,
My friends aren't really my friends,
But at least I know I always have someone to tell
Of my daily tragedies

My pain is deep inside,
I don't like it when I cry,
I feel weak,
And after what he did,

I never truly felt the same,
But it was both our faults,
Why can't he see that he is my summer
And my winter,

Why can't he believe in that,
Did he get caught in a web of lies?
Or did he just do that to make it summer
For me, and the best part?

It was a lie from the beginning apparently,
so believe it,
and get on with your pride in tact,
Just like I try to do

Jamie Walker

Tall Grass And Teen Realitys

I seek out to you
As i walk across the road into the tall grass
You pull me down and laugh as i 'EP! '
And slap your arm as you roll me in the grass

You say something I've heard a hundred times and cherish
I repeat 'Love you' before you hug and kiss me
And ask me how my day was
But you know the answer so i just stare at you,

My personal God,
And watch the breeze blow your hair around
Your adorable face, as you light the sky with a smile
You call me your little angel Goddess and i call you crazy

But i know as we watch the sunrise
That this wont go on forever
We must go our separate ways
And you have to be successful

I won't hold you back and that's what i tell you
But i know you never listen
You just say I'm part of your success

And there we stay, all afternoon asleep
hugging each other
Never Let Go

Jamie Walker

Teddy Bear

Big and fuzzy,
Cute and Cuddly,
I just wanna hug you for a million years,
My teddy bear

You gaze up at me and i smile
I share all with you and you listen,
Never critical or mean,
Quite possibly my best friend

I'll never get rid of you,
My teddy bear

Jamie Walker

Things Should Be

You make me want to fly away,
To go someplace only you can find
When I wake up to you I think i've died
But when your not there for me,

It's ok because you mean so much to me,
I can never stay away from you for a long time
And thats just the way things should be,

Jamie Walker

Waiting

{Foreword: I've got strep throat and have been sleeping the days away, sorry I havent written anything for a while :) -xoxo}

I wait for summer,
I wait for family,
I waited for light to shine,
But mostly I waited for you,

I let myself down,
Thinking I could make myself better,
But apparently I made myself worse,
But I except that

And so the sun never shines for me,
Shadow's have become my friends
And the rainbow has left me
In the gloom,

But that's where I'm myself,
In this eternal night I can breath,
And step away from all the drama,
And all our problems,

Slowly drifting away....

Where Is You'Re Heart?

Home is where we live
People say that's where the heart is
Well I say home is where you live the life you lead
And that your heart is with the people who love you

Our hearts are in all that important to us
not just the home we grew up in
but in the people who were there
and the lives you care for
