Bad Day

1,2 I'm gonna kill you
3,4 I'm gonna slap you with a door
5,6 I'm gonna beat you with a stick
7,8 I hope you choke on a grape
9,10 I'm gonna push you off of Big Ben
Hey, what can I say,
I'm just having a bad day.

Get Well

Get well soon
Get well soon
Get well soon
So we can play the bassoon.
Get well please
Get well please
Get well please
So we can eat a block of cheese.
Please get better
Please get better
Please get better
So my face won't be wetter.
Never say never
Never say never
Never say never
Because we'll be together forever,
.....And ever...
.....And ever...
.....And ever.

Hard To Say Goodbye

To say goodbye,
It seems so hard
To look at each other,
And afterwards depart.
It seems like all the memories,
Were left to burn and char.
This is why I don't like goodbyes
Because saying it, is just too hard.

My Description Of Beauty

Beauty is you,
It's who your are,
You don't need someone to tell you how you look
You are you
You make your own decisions
On how you look is up to you
Describe yourself of how you want to be
And if people don't like it
Just look them in the face and say that this is me.

My Guardian Angel

I was so lonely
Like a broken angel
No one could save me from this cold world
I was helpless
Like a homeless girl
On the streets
I was so frighten
Like a deer in the headlights
Stiff and could not move
I hardly could breathe
Like a fish out of water
Trying to get those pieces of oxygen
That are floating away from me
But then you came
A true angel from above
You reached out your hand to help me
To guide me through
The hardships of my life
To never fear no more
Because I'm not alone anymore.

My Holiday Break

So you have a break

To celebrate the holidays

It can be a bad, or a nice holiday

But you can celebrate it in any kind of way.

There is Christmas

Which as you know?

Where you can open up presents

Or even shovel the snow.

Though, you have your family

To celebrate with on your vacation.

So now you can party with them

And have some relaxation.

You would feel

Cheerful through the days

As you and your family

Celebrate the holidays.

You could feel

Joyful, thankful to people everywhere

When the white snow

Blows through the air.

Decorate the tree'

Fill it, and light it up with beautiful decorations.

As you and your family

Celebrates a holiday vacation.

Watching TV

Eating candy

Even feel happy

By just reading.

Hanging reefs, Lighting candles

Eating desserts and more.

Having to celebrate Christmas

With your family is never a bore¹

Having fun

And hanging the lights

As people walk pass

And they glitter all through the night.

Playing with my friends

Having fun

As the holiday of Christmas

Is finally done.

New Year's here.

Fireworks boom through the sky

As they burst out

Beautiful colors that pass by.

I'm so sorry that

The days have to end

But I have to say,

That I had a fun vacation.

Poison

If you drink me, then you will die
If you try to eat me and live
You won't because you'll be dead
If you try to kill me or try to drive me away
Then I wouldn't do that if I were you
Because I am the source that will not go away
And will not die
Because I am,
Poison.

The Powerpuff Girls

A scientist
All lonely and sad
Decides to change
The life that he has.
Adding sugar
And spice
Cuddles and love
Plus everything nice
Accidentally cracked
A bottle of Chemical X
Something that could
Relate to death
The scientist was shocked
As it released a huge boom
With smoke everywhere
Sending him across the room
Looking through the smoke
As it started to disappear
Right before his eyes
Three little girls appeared
Adopting them
And making them his own
He loved them so much
That they will never be alone.

This Is Me

Joyful all the time
Angelic everyday
Smiling to everyone i see
Magnificent 24/7
Inspiring to eneryone
Nice and friendly
Ecstatic human being

This is me.

Waste Of My Time

If you can't look at me
And tell me that you love me
Or even trust me
Then you are not my lover
To me you are just a non-lovable person
you're the description of sadness
You're the image of useless
You're that piece of depression that lingers everywhere i go
You have no feelings
You are just a waste of my time.

What Is Your Purpose?

When I saw your face,
You brung back the pain
My sunshine is gone
And all that's left
Is a sky full of rain.

Why did you come back
Just so you can hurt me again
But I won't let my feelings get the best of me
Because I won't accept you
Not even as a friend.
What is your purpose here
Why can't you just leave me be
But I guess you're to stubborn to see
That all I want to do
Is just be happy.

Would You Be My Valentine

I love you
And will never lie
I'll love you when we get sick and die
I love you like a bread of rye
You're the image I picture in my mind
My heart starts beating when you come by
I love you more than 10 times pi
So would you be my valentine?
