All U Need

if you was me what would you do
would you make me reveal my secrets to you
would you hope an prey that they, ll come true
if i was you i know what id do first id tell you where you went wrong
then id tell you that youve gotta be strong
if your strong enough your probems go away
you, ll sure get over it some day

all you need is authority
if you know a tycoon you, ll always be free
perhaps one day that might just be
that, ll surly end your misery

life is hard its what and who you know
one of these days you, ve gotta get up and go
just look for the pearl machavillian girl
just go for the gold somebody big rich and bold
but if your doing it sly he, ll sure be told
hes got contacts thats what hes got hes got contacts

all you need is authority
if you know a tycoon you, ll always be free
perhaps one day that might just be
that, ll surly end your misery
all you need is authority
if you know a tycoon you, ll always be free
perhaps one day that might just be
that, ll surly end your misery

Better Days

weve both done things, we never should of done
i just wanted to untie my hair and have some fun
i never meant to hurt you like i did
we wasnt getting anywhere keeping on the lid
will you ever hurt me in the way that ive hurt you
we need to forget it all, and start a new

were back together at last
lets just forget about the past
we, ll stay together always
so let, s head for better days
were back together at last
lets just forget about the past
we, ll stay together always
so let, s head for better day, s

we, ve both said things that we never should of said
weve got to take it all back out of our heads
lets humour each other until our days end
what goes around comes back at you
i hope and prey its not yet due
i regret what ive done im so glad were not through

were back together at last
lets just forget about the past
we ll stay together always
so lets head for better day, s

Christmas War

there should be no fear, at this time of year
this whole world needs to convert
stop innocent people getting hurt
just for what its worth
we all need peace on earth
i want my daddy home on his local turf

why are we at war fighting over keeping the peace oil and land
at this time of year we should call a truce shake each others hand
the children are the future there all coming of age
troops need to engage and stop all this rage
come on lets make a stand come on lets shake a hand come on let draw the line
lets all unite this christmas time

oh my dear daddy why do we have to fight
i miss you that much i fall to sleep in tears at night
hoping that your safe and not stepped on a mine
hoping your not calling my name burried under the dirt and grime
i just want you to be safe hear at home with me
hanging the decks putting tinsel on the tree

why are we at war fighting over keeping the peace oil and land
at this time of year we should call a truce shake each others hand
the children are the future there all coming of age
troops need to engage and stop all this rage
come on lets make a stand come on lets shake a hand come on let draw the line
lets all unite this christmas time

i want you here beside me as i unwrap my toys
ioften think id like to be like the other girls and boys
there daddys are right there it really feels unfair
the war hurt you but hurt my a whole lot more
i cherish the thought of you appearing at my door

why are we at war fighting over keeping the peace oil and land
at this time of year we should call a truce shake each others hand
the children are the future there all coming of age
troops need to engage and stop all this rage
come on lets make a stand come on lets shake a hand come on let draw the line

lets all unite this christmas time
why are we at war fighting over keeping the peace oil and land
at this time of year we should call a truce shake each others hand
the children are the future there all coming of age
troops need to engage and stop all this rage
come on lets make a stand come on lets shake a hand come on let draw the line
lets all unite this christmas time

Day After Day

i dont want to fight or agrue anymore
i dont want you wrestling me down to the floor
i dont wanna kiss and make all the time
i dont want you playing around with my mind
i dont want you treating me oh so bad
you know im the best thing you, ll ever have

you keep hurting me time after time
i cant take it anymore now im drawing the line
you keep abusing me day after day
you dont let me speak or even have my say
you disrespect me week after week
now you, ve got me feeling bitter and meek

i dont want to always pay heed to you
i dont want you telling me what i should or shouldnt do
i dont want humour you anymore
i dont want to cower when you walk through the door
i dont want to walk on eggshells all my life

Destiny

they all meet up in there blacked out cars
in the tomb to discuss what lives on mars
aswell as what was on the dark side of the moon
knowing that the end maybe coming soon
preparing to go deep down underground
just incase the flares of the sun come down

thee illuminati want your destiny
theyll be coming for you in the group of three
thee illuminati want you destiny
right now anyway how right now
thee illuminati want your destiny
theyll be coming for you in the group of three
thee illuminati want you destiny
right now anyway how right now

just never think that your all alone
your being mind controlled by your mobile phone
big brothers always got its eye on you
it knows exactly where you are and what you do
next thing you know we, ll have micro chips
then fly to differant planets in mercury ships

CHORUS

intellegant beings are amongst us now
we all need to open up are minds some how
myans always stated that there gods wound fly
drawings in caves of saucers in the sky
if u want the truth of the humanoid
guaranteed that disscusion will be null an void

CHORUS

the rich get richer as the poor get poorer
theyll inplant you brain so that they can explore ya
you people all get ready for this new world order
if you go to protest or intervene
thell cook you inside out with the microwave machine

control your mind forget about what youve seen

Dont Be Scared

i just wish i could wave a wand to stop your suffering pain
the fact that you are lying here trying to fight with strain
just dont be scared of letting go your angel waiting for you
it, ll be somebody you once knew that, ll help to guide you through
youll then feel an intense warmth then feel a sense of calm
youll feel at ease overwhelmed when your angel touches your palm
take the hand it, ll take you back to before you were ever born
loved ones that youve lost before will strum a harp or blow a horn
to welcome you to paradise a place serene and very nice
your pain will stop youll be as you wasat the gate to heavens door
that pearly gate will open up for your angel to take you on a tour
a tour to find yourloved ones to reunite once more
they, ll come a time we, ll meet again when we can be reunited
here on earth at this time were not yet invited

Equal Pride

there bundled in huts made out of tin
there malnourished bodies so very thin
praying all the time for food to arrive
the starving people trying hard to survive
families are parted against their desires
homes they once had are sold to rich white buyers
desperate mothers clutch their babies so tight
in fear they'll be taken throughout the night
husbands will beg to make ends meet
to buy a sack of rice for his family to eat
the injustice must end its gone on too long
replace all the children's cries with a freedom song
return to harmony standing side by side
whatever the colour or race we'll share equal pride

Fake People

the fake people are everywhere
oh no matter what you say to them they just dont care
they, ll make you wait for them no matter how long
then they, ll knock on your door as if they, ve done you no wrong
there never ashamed of anything they do
then the next thing you know got a hold on you

there out to get you they, ll ruin your life
there out to get you there trouble and strife
there out to get you they want what you, ve got
they want the lot there coming ready or not

oh the fake people are on there way
they use and abuse hang on every word you say
they dont care whats in there way they, ll just break through
they, ll do anything to get to you
you give an inch they, ll take a mile convince you there your friend
its the fight of your life that you, ve got to contend

there out to get you they, ll ruin your life
there out to get you there trouble and strife
there out to get you they want what you, ve got
they want the lot there coming ready or not
there out to get you they, ll ruin your life
there out to get you there trouble and strife
there want what you, ve got
they want the lot there coming ready or not

Fast Lane

my motors running i just cant slow down
youve got me chasing you around and around
oh when i try to stop I start to fall down
i gotta get my feet on the ground

ohh ohh ohh oh ohh im living in the fast lane
ohh oh ohh like flying on an aeroplane
ohh oh ohh you know ive get away
ohh oh ohh promise ill be back someday

you know i want you i want you so bad
when your friends around your like jack the lad
when im around you i never feel sad
think of all the fun that weve had

ohh ohh ohh oh ohh im living in the fast lane
ohh oh ohh like flying on an aeroplane
ohh oh ohh you know ive get away
ohh oh ohh promise ill be back someday

you say you love me i know its not true
not even half as much as i love you
manipulating me with all that you do
my broken hearts stuck on you

ohh ohh ohh oh ohh im living in the fast lane
ohh oh ohh like flying on an aeroplane
ohh oh ohh you know ive get away
ohh oh ohh promise ill be back someday

i wanna go but i cant find my way
its just like looking for a needle in hay
always contradicting me with words that i say
im going on a one way holiday

ohh ohh ohh oh ohh im living in the fast lane
ohh oh ohh like flying on an aeroplane
ohh oh ohh you know ive get away
ohh oh ohh promise ill be back someday

im flying high but its not a goodbye
when i was with you all i did was cry
I'm gonna get you back for all that youve done to me
I'm gonna get you back just wait and see yeahh

Get On Your Feet

hey oh people everywhere they stare and compare
a bit of jealousy over there
but you know something i just dont care
if your walking down the road
and your wearing all your gold
if somebody tries to grab hold
id say dont touch my gold coz im about to explode

get on your feet
dance to the beat
get on your feet
your doing it sweet
get on your feet
youve gotta be beat
get on your feet
but they cant compeat

when im sat at home staring at the wall
sitting there waiting for my friend to call
when theres a knock at the door i shout who is it
my friend shouts me ive come to pay you a visit
come on she said lets go on the street
so get off that chair and get on your feet your feet

get on your feet
dance to the beat
get on your feet
your doing it sweet
get on your feet
youve gotta be beat
get on your feet
but they cant compeat

Have A Go

you always walk around with your arms astride
to give the impression that your neck is wide
you can only hit women but you cant hit men
then you tell your wife it was all back then
until you get drunk then you do it again
it depends on how many drinks that you sup
you, ve got a big mouth but you cant back it up

oh your always saying
come an have a go if you think your hard enough
come an have a go if you think your hard enough
come an have a go if you think your hard enough
you think your hard you think you hard enough
come an have a go if you think your hard enough
come an have a go if you think your hard enough
you think your hard you think you hard enough

you offer me when know you, ll get beat
theres no comparison you just cant compete
with me or anybody that asked
exept for the women that you, ve harrassed
you need anger management you know its true
you gunning for people so there gunning for you

oh you, ve gotta stop saying
come an have a go if you think your hard enough
come an have a go if you think your hard enough
come an have a go if you think your hard enough
you think your hard you think you hard enough
come an have a go if you think your hard enough
come an have a go if you think your hard enough
come an have a go if you think your hard enough
you think your hard you think you hard enough

Hear We Go

here we go to the place we love
we dont want to come back
until we find the time
when were feeling fine
we, ll get to together and do it again

the sun is out is shining bright
the day is hot its a pure delight
i want to stay here with a glass of beer
elaxing on the pier

here we go to the place we love
we dont want to come back
until we find the time
when were feeling fine
we, ll get to together and do it again

im gonna get in such strife
im making the biggest mistake of my life
but im gonna jump staight in the deep
im gonna take a giant leap
the cliff is high
im touching the sky

here we go to the place we love
we dont want to come back
until we find the time
when were feeling fine
we, ll get to together and do it again

we like to go to the beach
running to the sea feeling sand on our feet
in the dunes hide
until we see the tide
we have to
but we, ll back soon

I Dont Want You

your such a dissappointment in every single way
i just want you to go away dont stay another day
i hate you when your nasty
but i love you when your not
your treating me so badly im losing the plot
your here when i dont need you
ohh your not here when i do
but even if your here or not you still make me blue

i dont want you
you cant tell me what to do
i dont need you anymore
you made me feel so insecure
i would of loved you always
but my love has been erased
ohh from you that im sure
oh just get out of my door

you flirt when im around you
you say dont make a fuss
you look at the girls with your eyes full of lust
you say your a man and thats just your way
blaming all your friends that they led you astray
i know its not them your the only one to blame
your like a wild animal that nobody can tame
your to much stress for me your making me ill
im so glad im single now im having a thrill

i dont want you
you cant tell me what to do
i dont need you anymore

you made me feel so insecure
i would of loved you always
but my love has been erased
from you that im sure
ohh just get out of my door

I Must Confess

why dont you see/ you still have a hold on me
i must confess /idont love you any less

you come around my place
chuck the past in my face
you say its all my fault, blame it all on me
wishing i never met you, im finally free
pain you caused me, the sleepless nights
waiting up for you, until dark came light
chatting girls up, with your flirty ways
same as with me, back in the days

why dont you see/ you still have a hold on me

you cheated so many times
you thrived in all of your glory
when i did it to you
it was a differant story

why dont you see/ you still have a hold on me
i must confess /idont love you any less

you put me down, i wont get an attraction
off other men, just to grt a reaction
itook your words to heart
you tore my world apart
i feel so worthless when you put me down
you think your a king, and you wear the crown

why dont you see/ you still have a hold on me

who do you think you are
your no shining star
the world dont owe you
now your comupence is due

why dont you see/ you still have a hold on me
i must confess /idont love you any less

revenge is sweet, knowing what i will do
my loves turned to hate, now im coming for you
you ought to be dead meat
but your not worth a charge sheet
ill foget what youve done, for the sake of our son
hes nothing like you, for that i am glad
you gave us up, just to be jack the lad

why dont you see/ you still have a hold on me

inow decided to get on with life
all the time with you, was nothing but stife

why dont you see/ you still have a hold on me
i must confess /idont love you any less

I Want You

i want you to know why
you always try to make me cry
if i asked you, youd tell another lie
i know you more than yourself
i know you more than anyone
if you dont realise, you dont know me at all

everytime i see you, i get a pounding in my heart
i dont think i, could bare it if we part
i know in time that we might
i wont give up without a fight
if you want to, i wont believe you do
what are your feelings for me
are they as deep, as mine for you
hope it turns out, that you will feel the same

CHORUS (IWANT YOU TO KNOW WHY)

so lets get off, on our own
if you dont come, ill go alone
you said that you would, but you wont leave your phone
why have you taken me for a ride
youve broke my heart, youve hurt my pride
i am so glad, i never married you

INSTRUMENTAL (GUITAR)

i hope this happens to you
hope your heart aches, hope your heart breaks
then you, ll know what, its like to be heartbroke
i end up getting hurt
i dont know why, but its a cert
wonder why i, pick all the dodgy ones
i dont want you anymore
just turn around, get out the door
dont come running back, when you get bored with her

jayne harris

Just Not Care

to get through life youve gotta just not care
as well as individualise the clothes you wear
oh it doesnt even matter how much people stare
coz you know yourself you beyond compare
everybody is different in the world
everybody is different ooh yeah
everybody is different in the world
everybody is different ooh ahh

youve gotta just not care
if you wanna get somewhere
just not care if you wanna get there
just not care if you wanna get somewhere
just not care if you wanna get there

to get through life youve gotta just get by
dont let people upset you and make you cry
answer to nobody and never ask why
trust in nobody thats how youll get by
everybody is different in the world
everybody is different woo yeah
everybody is different in the world
everybody is different woo ahh

youve gotta just not care
if you wanna get somewhere
just not care if you wanna get there
just not care if you wanna get somewhere
just not care if you wanna get there

Knocking Me Down

knocking me down

i call you on your phone
i dont get an answer
so i walk up to your home
i peered through your window
you were with somebody else
i watched you for a while
i could see the compassion in you
as you looked into her eyes
you cheated once before
should of known by the last lies
so i walked up to your door

just as im on the up up up up
you keep on knocking me down down down
i hit the ground
just as im on the up up up up
you keep on knocking me down down down
i turn around
just as im on the up up up up
you keep on knocking me down down down
i hit the ground
just as im on the up up up up
you keep on knocking me down down down
i turn around

INSTRUMENTAL

just as im on the up up up up
you keep on knocking me down down down
i hit the ground
just as im on the up up up up
you keep on knocking me down down down

Love Of My Life

when your around me i feel so warm
all im waiting for is your love to form
ive been in love with you for oh so long
thats why i let you off with your vicious tongue
you already know this you know i, ll never leave you
even when your nasty and your making me blue

i wanna be with you always
without trouble and strife
your the love of my life
but you wont make me your wife
its not a good thing
you wont buy me a ring
ive fell apart at the seems
you were the man of my dreams

ihate the way you yell at me but so glad you walk away
tomorrow is forgotten its a brand new day
we start over being best friends again
i want your hand in marriage i wait for if and when

i wanna be with you always
without trouble and strife
your the love of my life
but you wont make me your wife
its not a good thing
you wont buy me a ring
ive fell apart at the seems
you were the man of my dreams

Mckeans Poem

i didnt wanna leave you i didnt wanna go
but all the pain that i was in would make my heart beat slow
my love for you is very deep of that you can be sure
the place ive gone is beautiful so peaceful and so pure
i just want you to know that im around you every day
if you need me close youreyes kneel down and pray
life is to live enjoy it to the full
youve gotta keep on shining dont burn and go dull
never rely on anyone just look after yourself
dont take life for granted and look after your health
i will be with you through the bad and the good
the highs and lows ups and downs like a mum should
ill be forever shing down on you ill be your guiding star
it doesnt matter where u are how near or how far
i will always keep you safe in no matter what you do
i just dont want you to go through what ive been through
you mean the world to me ill miss you oh so much
ill really miss the warth of your gentle touch
if your ever feeling really down and out
close your eyes kneel down and give us a shout
i try and ease your pain take away the strain
you to me are as delicate as lace
i find it hard to take without seeing your handsome face
i just hope you recall the things we used to do
all the days out we had like visiting the zoo
taking photos on the beach building castles with dad
i just hope you can recall all the great times we had

Midnight Foe

I'm sat at home waiting for my phone to ring
I'm dressing up I'm putting on my bling
Ain't been out in years I've been stuck under the thumb
I've got butterflies I'm feeling so fearsome
Then my friend rings she's says she's on her way
Am lost for words I just don't know what to say
Let's pop the cork on the wine before we go
My spirits high I'm no longer feeling low

Where goin goin goin on the town
we're dancing dancing dancing the on down
We're singing singing singing our favorite songs
fWhere goin goin goin on the town
we're dancing dancing dancing the on down
We're singing singing singing our favorite songs
It feels like nothing nothing can go wrong
It eels like nothing nothing can go wrong

Clubbin it tonight
Dance until the daylight
The music is ecstasy
My heart is feeling free
Gotta do this every week.
I've reachedthe highest peak
I could do this everyday
Ohh dance my pain away

Mother Mother

Mother mother I love you
I'd do anything you want me to
I would go to hell and back
Daughter love I seem to lack
But that's in my head not my heart
I couldn't go on if we fell apart
I say evil things that I don't mean
Oh mother dear your my shoulder to lean
I'm sometimes good but sometimes bad
But when you shout it makes me mad
Your high pitched voice drills through my head
It make me say i wish you dead
I never should of said the things I did
Sometimes I'm spoilt and act like a kid
Mother mother you everything to me
I wish this devil would set me free
The one in my head not in my heart
I've both need to make a fresh start
If we did we wouldn't feel low
All we can do is get up and go
There the only person I can trust
If we work on it our love won't go bust
I will ask you now to make a pact
My love for you is deep and that's a fact
I'm wrting this poem especiallly for you
My darling mother let's start a new

My Life

my life has to much heartache
has so much pain it really drives me insane YES IT DOES
my life has never been easy
so many people abuse me THEY DO
dont let it get to you it does you no good
someday your sure to find love
youve gotta just make the best of your life

my life is so hard
i dont think i can live it
best thing to do is live it to the limit
youll no your there
when the stress is out the air
but your still unaware
when the stress is in the air

my life its not got a meaning
i cannot get by all the things in my way
i struggle through it when it does me no good
i always fall with a thud
it can only get better it couldnt be badder
ive got to take my frown right off the ground

my life is so hard
i dont think i can live it
best thing to do is live it to the limit
youll no your there
when the stress is out the air
but your still unaware
when the stress is in the air
my life is so hard
i dont think i can live it
best thing to do is live it to the limit
youll no your there
when the stress is out the air

Numb

i should of known right from the start
that you would hurt me and go break my heart
i always knew you was all for yourself
all you think about is your ego and wealth
you have no emotions your just like a android
things you say to me just makes me paranoid
you bring my flaws up and throw them in my face
youve now got me feeling i cant trust the human race

how could i love you
with all the things you say to me and all that you do
i cannot trust you with all the things youve done
i dont feel anymore im sore and im numb
i really dont know when im gonna learn
ive now reached the point of no return

what goes around come back times three
you say its all me and im my own worse enemy
i feel hated i feel under attach
everytime my guards down i get stabbed in the back
just as im feeling confident to start over again
ill get hurt again its just a matter of when
i just need to learn to be strong
i really dont know where im going wrong

how could i love you
with all the things you say to me and all that you do
i cannot trust you with all the things youve done
i dont feel anymore im sore and im numb
i really dont know when im gonna learn
ive now reached the point of no return how could i love you
with all the things you say to me and all that you do
i cannot trust you with all the things youve done
i dont feel anymore im sore and im numb
i really dont know when im gonna learn
ive now reached the point of no return

Ode To The People

The whole of my feeling sick
Is all down to people taking the Mick
I feel like a crowd is rioting inside me
I feel so sad very far from glee
tension inside is making the walls breathe
I just want to go up forever to leave
The whole of my body is beating & pounding
What people do to me is more than hounding
It's like my head is stuck in a vice
Believe me people it's very far for nice
I wish you all could feel it to see how it feels
The hatred and pain I feel is so unreal
My heart is burning my Brian's not working
Inside my body there's so much jerking
I just can't stop my tears from seeping
As for life I don't feel like keeping
I often thought of suicide
My panic attack make me wanna run and hide
if I had a pint glass I could fill it to the top with tears
I hustled hope this doesn't last for many years

Out Of Control

i sit back and think of all the drugs ive done
charlie white crack in a pipe or anything to make me numb
idont think i like this person that ive become
ive had a very colourful life but had such fun
my life was just a game id keep playing it all the time
until one day ill get that call then ill see the sign
but until then ill calmdown and tow the line

im out of control
i need somebody somebody to rely on
i know that it sounds crazy
i need sombody somebody to save me
ive got to settle down and change my hectic life
maybe get married have someone to become my wife

im sure a child of my own will change my then
its just a matter of time if and when
i fool around a lot im stuck in one place
always with that same expression on my face
i just need a good reason to change my company
as the saying goes whatever will be will be
i just hope that kind of life was sure meant for me

im out of control
i need somebody somebody to rely on
i know that it sounds crazy
i need sombody somebody to save me
ive got to settle down and change my hectic life
maybe get married have someone to become my wife

ive had relationships thats all turned out bad
i suppose thats always why i play jack the lad
im going to take time out to find out who i am
i never took life serious i dont think i ever can

im hoping to change my life with all my dedication
all it, ll take is preparation and all my motivation

im out of control
i need somebody somebody to rely on
i know that it sounds crazy
i need somebody somebody to save me
ive got to settle down and change my hectic life
maybe get married have someone to become my wife

Out On A Limb

look up at the sky
the suns going down
were gonna go out on the town
lets go see the sights
it, ll be a delight
were gonna go where the lights are bright
lets all unite
go out on the town
were gonna turn this night upside down

what you ve gotta do
is just try something new
spontanisity it is such a mystery
never plan your day
just face what comes your way
take every chance
that you have to make your day

were goin down /were goin out
were goin down and out tonight
were dressing up /were coming in
were goin out out out on a limb
were goin down /were goin out
were goin down and out tonight
were dressing up /were coming in
were goin out out out on a limb

just try what you want in life
dont be to vain to sacrafice
dont let society make you weak
be bold take hold dont be affraid to speak

Pauls Poem

Why do the best of us have to go so fast
when people like Paul, should be born to last
Paul was a diamond an angel in disguise
he was pleasant, loving and he'd tell you no lie, s
we were so lucky to have known you, in the time you were here
Paul was so innocent, gentle and very sincere
with you being taken in such a haste
I hope there's a heaven, a utopia of such a place
Paul was my angel when I was at death's door
it was him that brought me back to life of that I'm sure
he would pray for me every day sat by my side
he helped me fight he made me strong he was my guide
I remember how overwhelmed he was when he learned, that he had a girl
he was so excited being a dad his head was in a whirl
your mum is so proud to have raised a son like you
you were a credit to her and all your family too
you've now gone to a place where some of your family has passed
a place where in time we, all meet again at last
I'm so sorry you had to go in such a harsh way
we love you so much, you'll be in our hearts every single day

See You

why did you have to go and leave me all alone
it was, nt fair i couldnt bring you home
i often wonder whatyour face would like now
if only theres a way i could see you somehow

i dont know which way to turn your behindme
im just waiting in the dark to see you
just as i turn on my light you appear to me
ill be here always waiting for you

when i had to walk, away and leave you there
in that hospital, in intensive care
my mind couldnt think i felt so numb
i didnt wanna livemy world had come undone
i was on the edge the point of no return
at my lowest ebb a cause for concern
suddenly you came to me an shone the light
you urged me to be strong to carry on and fight
you said you are always around dimentionally
i just need to open my eye ill be able to see
if i sit quitely meditate let my light shine through
next thing you know my eye will open an illbe with you

i dont know which way to turn your behind me
im just waiting in the dark to see you
just as i turn on my light you appear to me
ill be here always waiting for you

i cannot tell a soul about all this they wont understand
walking around with who i once had holding there hand
if i let on that i can see you id be thought of as mad
they cant understand what theycant explain its so sad
i didnt wanna live my life without you i tried suicide
before i could see i was so hurt and empty inside
if only id ofknew i could be with you by channeling my mind
delve into the unknown because you never know what you might find

i wanna be with youwanna be with you

i hope to see you long to see you
i wanna be with youwanna be with you
i hope to see youlong to see you

idont know which way to turn your behind me
im just waiting in the dark to see you
just as i turn on my light you appear to me
ill be here always waiting for you

Shyness

when im walking down the road
if people look at me i wanna explode
i can feel there eyes on me
could it hate or envy
my first impressions are always wrong
coz now we get along so strong
then i asked why she looked at me
she said im paranoid but thats just me

oh ive gotta get over my shyness
ive got people that i wanna impress
ive gotta build up my confidence
if i wanna face an audience
why am i so intravert
oh no i really just cant flirt
i can do it on my phone
or in my room when im all alone

when im out i wanna socialise
stand up for myself with pride
lift my head up and hold it high
take a deep breath exhale to the sky
you, ll feel great when you, ve done that
prevent you having a panic attack
oh it just comes natuarally
you see what ever will be will be

oh ive gotta get over my shyness
ive got people that i wanna impress
ive gotta build up my confidence
if i wanna face an audience
why am i so intravert
oh no i really just cant flirt

Ten Outer Ten

you really hurt my heart
when are love fell apart
im looking for someone new
but im still not over you
i just cant move on
i cant except that your gone

all the times that we had
the good outweighs the bad
i didnt want you back then
but now i love you ten outer ten

i didnt want to be your wife
but i wanted you to share my life
a whole lot longer than we did
esspecially now weve got a kid
i just cant control how i feel
oh my love for you is so surreal

all the times that we had
the good outweighs the bad
i didnt want you back then
but now i love you ten outer ten

everytime we had a fight
id cry myself to sleep at night
we really hurt each other with words
we cant take them back cos theyve been heard
we didnt mean the words that we said
but we, ve both got them stuck in our head

Them Ones

theres so much hurt in this world today
it makes you scared of your children going out to play
it scares you every second that there not on the street
you worry about the people that there likely to meet
you, ll never know when them people are around
them certain individuals that dont make a sound

its them ones not the other ones its them ones not the other ones
its them ones that youve gotta watch out for them ones not the other one
its them ones not the other ones its them ones not the other ones
its them ones that youve gotta watch out for them not the other ones

theres so much violence in this world right now
we wanna stop this war but we dont know how
them people shouldnt be around innocent life
killing decent people with a gun or a knife
who are all them people you never can tell
them demons should be living in the flames of hell
dont trust anybody no matter what they say
coz you could be next they could be on there way

its them ones not the other ones its them ones not the other ones
its them ones that youve gotta watch out for them ones not the other one
its them ones not the other ones its them ones not the other ones
its them ones that youve gotta watch out for them not the other ones
its them ones not the other ones its them ones not the other ones
its them ones that youve gotta watch out for them ones not the other one
its them ones not the other ones its them ones not the other ones

To Young

I would of done anything to have taken your place
I wish I would of been there to give you my embrace
when you was alone and feeling so cold
nobody around you came for you to hold
it was dark in that room there was never light
when you cried yourself to sleep at night
people have failed you they refused to hear your cries
they should of known you needed help by looking in your eyes
you, I always be heard NOW, you, I never be alone
someday you, I be born again into a happy home

your to young to know your to young to goooo
I wanna hold you in my arms forever
your to young to leave to you young to bleeeeed
if you, ve gotta go its now or never
your to young to scar your to young to marrrr
you wont be hurt now any longer
your to young to cry your to young diiiee
I thank god that your fears are over

the world has heard your cries now although its way to late
people that failed you will always feel the hate
you, I never be forgotten your the baby known as p [or got free]
your shining bright above the world for everyone to see
your so adored now, off people you dont know
there hearts are broken, to young to go

your to young to know your to young to goooo
I wanna hold you in my arms forever
your to young to leave your to young to bleeeeed
if you, ve gotta go its now or never
your to young to scar your to young to marrrr
you wont be hurt now any longer
REPEAT CHORUS your to young to cry your to young to diiee
I thank god that your fears are over

Treating Me

you always treating me like a child, in every single way
your always contradicting me, no matter what i say
i just need you to leave me alone, and get on with your life
i know that your no good for me id never become your wife
you make me feel nervous when your standing behind me
oh you, d better beleive me, im very far from glee
i want a single life again i think i always did
you think you are so mature, keep treating me like a kid

your so nice when your happy
your so nasty when your sad
idont want you anymore, your treating me so bad
i need to go and find myself, i dont know who i am
ijust know this relationship is nothing but a sham

i know you have a loving side, that you dont show a lot
if you used it regular, id give us another shot
now that you have gone, im hurting deep inside
now that ive found myself, my eyes are open wide
i dont know why im missing you, the way that i am
i can not tell you how i feel coz you dont give a damb

your so nice when your happy
your so nasty when your sad
i dont want you anymore, you treat me so bad

Waiting

i was waiting all alone
i was waiting right outside your home
i wanted to knock on
i wanted you to come
outside into my heart and my soul
i love u you very much
i love you much more than you could ever know
i just want to be with you
i just hope that you feel the same way too
oh my heart beats fast when i see you
it beats so fast i feel its going to undo
it feels like i have come undone
my hear beating louder than a drum

instrumental

i finally asked you on a date
we set a time that we would meet at eight
i didnt think that you would show
then when i saw u there i couldnt believe my luck and my sight
you looked so beautiful
i just couldnt take my eyes off you
you said u felt the same as me
i was the happiest man that i could be
then i took you safely home that night
then you kissed me and my heart felt such delight
i just couldnt concentrate on my life is this true is this my fate

instrumental

then i asked her to move in with me
because i wanted to be with her all the time
she said that would be just fine
cant get my head around her being mine
being mine oooooooooohhhhhhhh

Words You Say

im sobbing my heart out lying here on my bed
mulling over all them nasty words that youve just said
i hurt deep inside youve really hurt my pride
saying that you never loved me and took me for a ride
you make me feel so worthless when you say that to me
im so worried youll leave me coz that could never be

youll never change
i know that
words you say
so hurtfull
hurt deep down
inside me
hurts so bad

repeat chorus

i want you out my life when your treating me this way
youve lied to me so much i cant believe a word you say
so should i alet your words go or should i take offence
but the way you always see it its all in your defence
do you mean those nasty words and hate me like you say
i dont suppose we, ll ever know until youve gone away
you play the game you pass theblame convince me that its me
ive said it once ive said it twice now its time to let it be

youll never change
i know that
words you say
so hurtfull
hurts deep down
inside me
hurts so bad
oh youll never change
i know that
words you say

so hurtfull
hurts deep down
inside me
hurts so bad

Your Mine

since i met you youve always made me blue
my mother told me to let you go hes only using you
he, ll take you for a ride
he, ll never make you his bride
he, ll always hurt your pride
ohh i hate to love you like i do

your mine ill love you all the time
your wasting my time i need to see the sign
you make me cry when you say goodbye
im hoping in time it, ll all be fine

why do i let you hurt me
storming out alone leaving me green with envy
my mum was right when she said let go of you
you always interfere no matter what i do

your mine ill love you all the time
your wasting my time i need to see the sign
you make me cry when you say goodbye
im hoping in time it, ll all be fine

oh you dont care what you do
to my heart its falling apart
to my sole its no longer whole
to my mind i just cant leave the past behind

your mine ill love you all the time
your wasting my time i need to see the sign
you make me cry when you say goodbye
im hoping in time it, ll all be fine
your mine ill love you all the time
your wasting my time i need to see the sign
you make me cry when you say goodbye
im hoping in time it, ll all be fine
