Kali Boggs(March 11,1997)

I like writing poetry, but I didn't always it was mostly my friend Brianna Rickey who started me. On here any way because I actually like writing poems in English but I hated evetything else. So poetry is a habit of mine and if you you have any comments or suggestions I would be happy to try it. I like trying new things and I would also be happy to read your poems to just tell me witch one and I will be reading it ASAP. LOVE YALL! !

AIR

Nothing but the breeze
The wind rushing by my ears
Nothing can compare

BIRDS

Tweet, Tweet all I here
Baby birds start out the year
In the world of flight

HATE

Take a clue from me
I hate you so leave me be
Get away from me

4 Letters

Love a four letter word
But every time I hear it, something is attached
a wire or a cord
Though it is hard to catch
Whether it is truth or lie
And when you hear it is hard to ignore
Just because it's a guy
until it is no more
He might say it, but does he mean it
It's a four letter word
It's just a bit
Love is just a word

Advice

Let me give you some friendly advice
I ain't nice
You won't get past my defense
Cuz you don't got no sence
Though if you did
Your not gonna survive, kid
Stay away
And don't come my way
Cuz my advice to you
Was just hinted it those clues

Bored

Bored, Bored every day
There isn't nothing to do anyway.
No one near by
So time can't fly by
Alone in this house, alone
All I can do is moan.
Laptop and Phone have no meaning
Unless I finish my cleaning
TV off limits
unless i get a few minutes
With out these things
Nothing has meaning
Grounded in my room alone
Without a phone.

Boys

Boys, come and go
But friends are always there
Boys, take parts of our soul
But friends are like your teddy bear
Boys, take there toll
But friends will be there
Boys, won't always know
But friends will and will be there
Boys, are not and they soon will go
But friends will always be there

Broken

You like me? ?
How can that be? ?
I say yes I like you too.
Now I've lost my feelings of blue.
Three days only? ?
You should have told me.
It's over? ?
Our love just and unlucky clover.
Depression sets in once again.
I am confused by all these men.
Now I am alone.
My heart pure stone.
I hear from friends, you still like me.
So I wonder, why can't we be? ?
You told me it was true,
And I told you I had the the feelings too.
No more calls.
I'm through with you all.
You just wanted to be friends.
My heart hard to mend.
I am sad,
And you are mad.
Now you have ended us.
No reason now to make a fuss.

Death

I suspect it,
But I shall just ignore it.
Tons and tons of ways people die.
So will some of us cry?
Dangers around every corner in my life.
I soon would be faster with a knife.
I might have died with in the hour,
And all I did was cower.
Would anyone care?
Would they dare?
We all seem to be angels sent from heaven above.
Starting out our lives with all of that love.
Soon to be done.
Our sins weighing tons.
Maybe to be born again,
And then taken back to the end.
Living our dangerous lives.
Even with our plentiful tries.
Shall it end soon or long.
With every thing it's God's true song.

Kali Boggs

Done

You left me with everything, but love.
With no place left, but heaven above.
I'm all alone now,
And all I can say is 'wow'.
You stabbed me in my heart.
You made me fall apart.
I am all gone,
And soon it will be dawn.
You came to me for fun,
But now I am with my loaded gun.
I believed in you,
And I thought you believed me too...
You left me here,
and all I feel is hate and fear.
With out you I haave nothing,
But once I had something.
It was you,
And I thought you loved me too.
We are no more,
So I jump; here comes the floor...
I will be gone,
Because we have no special bond.
I will be dead.
The bullet in my head.

Earth Bound

I am Earth bound
isn't that a sound
Bound to this Earth by Love
The sound of a dove
Love for the Earth or a boy
That isn't a toy
Boy so sweet, lovely, and sound
Is he the reason why I am Earth Bound
Earth with nature that sings
letting me live with all these things
Earth with all of its sounds
Is this the reason why I am Earth Bound
With wind that blew
When everything flew
It's so hard to choose
With so little clues
I hear the sounds
Because I am Earth Bound

Kali Boggs

Every Day

For every day you have loved
me...

For every day you have cared for
me...

Every day you were there...

So for one day...

I am here.

Fire

My heart is on fire
With my true desire
A fire so hot, it's cold
And it will never mold
Time, and time again it hurts
Every time I see you flirt
With someone else but me
You are the key
To my heart and my soul
After time it will take it's toll
I will be left with nothing more
I will be burned right down to the core
And I will become that fire
With no one else to desire
I will be the fire so cold it burns
And I will never turn.

Forgotten Love

Forgotten Of Always
Love Unattended
Broken Forever
Until it is mended

For Now Past Unspoken
Love is Forgotten
Besides of Truth
Useless but Foughten

Faith Of Time
Love of Heart
Bestowence of Honor
Unstowable Art

Friends. The Cause Of Suicide?

When we were younger we all said.
We'd be together til our ends.
Nothing could seperate us.
No matter what.
Or so I thought.
Through the years gone by.
It all seemed a big fat lie.
Older and Older we got.
You all must of forgot.
Through seperation and new friends.
The old ones just seemed to end.
I was left all alone.
No one cared, No one knew.
We just seemed to be all threw.
I was the misfit, you were the trends.
So hard for me to find friends.
You were there for me.
Now it is the end of we.
Left alone to cry in the dark.
Left alone to die on your mark.
You were there...
I was here.
You just thought I disapeared.
No one knew, No one cared.
For me? No, one dared.
With out you my life is threw.
No one noticed me anymore.
I was invisable to all of you.
Just me,
And you so crueld.
You were my friends...
Whom where never to forget.
These things I just can't get.
Why me,
And why not you?
My life is just plain due.
To end so very soon.
You will regret it,
And wont forget it.

It is your fault,
And not just mine.
I did it,
And that is true,
But you were all there too.
You won't forget.
I was there and never left.
Now that I am gone.
You all seem to remember...
I was there and no one remembered.
It is your fault,
And not just mine.
And that is why so many have died.

Grounded

Grounded

Attached to this Earth you might say

Bounded

Close to this Earth for the animals and nature that I see in May

Founded

By this Earth I have lived for 13 year and waiting for more.

Clouded

By judgement of other peoples tours

Grounded

Attached to this Earth by my choice.

Kali Boggs

Hate

I hate you,
But I know you like me.
Why can't you get a clue?
Why can't you see?
With all my hate; I make you blue,
But when you like me you get my fee.
It ain't nothing new.
You're not for me.
I hate you,
But you like me.

Kali Boggs

Love

I love you.
Do you love me?
She loves you too.
Can't you believe?
The sky is blue.
Why can't you just see?
We love you.

Kali Boggs

Murderor

Silence,
Nothing but.
Darknes,
Along with creepy thoughts.
Shadows,
Creeping in the dim light.
Then you see it.
The abnormal one.
Going against twilight laws.
Coming closer,
To me.
What do I see?
What can it be?
Closer, closer....
Can it be....
The one?
Is it my time to leave?
Clearer...
Closer...
Then I know.
As it contorts my window.
I'm to be dead.
When it crosses the thread.
So I give in.
Unlikely able to hide.
Soonerthan later.
I shal be dead.

Kali Boggs

Night

Cool breeze
Every thing is at ease
Stars be bright
Yes, it is night
Moon in the sky
In the day time flies by
But when night comes
Everything starts its hum
Night, a peaceful place
Nothing but space

Kali Boggs

Outside

Hear the birds
With their own little songs
Feel the breeze
That keeps us cool
Smell the air
Fresh and what keeps us here
See the Outside
Were I wanna be

Kali Boggs

Over

Over him...
He has lost me now.
Not my fault. He is so dim.
Now I make you say, 'I wonder how? '
Now I'm gone.
I hope you feel blue.
You and I shall never bond.
I no longer love you.
Now that you have said good-bye.
Give me a few.
So I will soar, and I will fly.
As soon as I stop crying over you.

Kali Boggs

Suicidal

You will ask me to stop,
But I will take the drop.
You have always ignored me.
Now I'm close to death and you see.
So many ways I could've died.
So many ways I wouldn't have to try.
Death to me would be easy.
You never noticed you were too busy.
The floor so close; you so far.
I will soon be another bloody star.
Your fault not mine.
I am dead never to be fine.

Kali Boggs

Tick Tock

Tick Tock

Time is ticking away.

Tick Tock

Isn't there another way?

Tick Tock

No one can help me now,

Tick Tock

And if they can how?

Tick Tock

My time is near.

Tick Tock

I have no fear.

Kali Boggs

Time

Days come and go...
Time isn't under our control.
I just hope we all know...
Time isn't under our control.
So life goes on without us thinking...

Time isn't under our control...
So why do we try?
We all go with the flow...
So why do we try?
We soon will all go...

So why do we try?
We won't ever know.
Time flies by...
We won't ever know.
So why do we try?

Kali Boggs

We Always Know

Days come, and days go
Life goes on, and never stops
We all know
That some will never reach the top
The days will never slow
Life isn't just a prop
We can't all win from the get go
We are all raindrops
Always going with the flow
Until it all stops
And we will always know
Not all of us will hit the tiptop
And we won't always glow
When it comes life will stop
And we will all go

Kali Boggs

World Here After

Life is short.
You know it's true.
Nothing to deny.
It makes us feel blue.
Heart once beating.
Now frozen in time.
Never to beat again.
Nothing left to find.
Everything now is done.
The fight has ended.
Everyone gone...
They're immortally deadened.
Never to be seen here after.
No one exists in our threatened world.
Torn from it forever more.
hate and detruction once implored.
Hate now forever said.
Humanity forever lost.
Evertthing now be dead.
