## kelly Martini()

I am nothing more than a depressed sadistic 17 year old girl, that is somehow moving through life.

My ultra depressing life can be summed up in as few sentences as:

sexually abused and used starting from when I was 13, my parents fighting, and my heart getting broken by the one guy I loved, who left me for some other girl who I don't get on with....

So please don't ask me why it is all depressing because that's the only reason I can give.

My friends also mean the world to me, so they helped me through all of it....

I also know that I can't write that well, but I have a lot to write, so please put up with all the spelling mistakes.

I have also squirreled away most of my collection of my work and somehow lost it, so please put up with what I have.

# Abyss

Left in the land of the old  
There in space but empty place  
And nothing remains in the space  
Nothing but plain black  
In the abyss of death  
There is nothing in space

kelly Martini

# All Is Gone

When all is gone  
When all is lost  
Life will disappear  
From this world  
We live in peace  
Till the world ends

# Among The Trees

I wonder lost among the trees  
Looking for the one my heart calls for

I wonder lost among the trees  
I see your light amongst the dark

I wonder lost among the trees  
Your light is brighter than the rest

I wonder lost among the trees  
Your light is out of my reach

I wonder lost among the trees  
Your light comes closer

I wonder lost among the trees  
Your light is bright like an angel from the sky

I wonder lost among the trees  
Your light fades away and leaves me alone

I wonder lost among the trees  
Without a hand to guide the way

I wonder lost among the trees  
Looking for my guiding light

I wonder lost among the trees  
I wonder lost, alone

I wonder afraid of the world  
Around me I look for the one

I wonder lost among the trees  
I wonder lost and alone forever.....

# Bodies

When all life has disappeared  
And bodies littered the earth  
The grass green fields are turned to red  
From the blood of all that was  
And when all is dead  
When the fields run red with blood

kelly Martini

# Death

Life will die  
All will be gone  
All will die  
When the world ends  
So will life for the world  
When the world ends  
As the world sleeps  
Dreams come over all  
Peace, calm and rest  
Come over all  
We dream  
We think of what should have happens  
But doesn't  
We hope are secrets come true as we sleep

# Fights & Crimes

We always fight,  
But I dont know why,  
We are good together,  
So why commite the crime,  
If we want this to work,  
Then we need to see,  
Eye to eye,  
Understand? ,  
How we each feel,  
When we fight,  
And How,  
We feel so worthless,  
So alone,  
When all we need,  
Is each other,  
So why do we fight,  
When we want this to work,  
Why do we bother,  
To commite the crime,  
If all we want is each other  
All I need to do is think of you,  
When we fight,  
And all I do,  
Is cry because,  
Of what I might have just lost

# In Her Eyes

You see the pain that lies in her eyes,  
But, alas, her eyes are dry,  
She won't cry.  
No, she won't cry.

You see the anger that burns from her gaze,  
The madness that sets her eyes ablaze,  
She won't cry.  
No, she won't cry.

You see the fear that closes her eyes,  
The smile she wears is but a disguise,  
She won't cry.  
No, she won't cry.

You see the hope that is finally dead,  
She cannot trust for her heart has been bled,  
She won't cry.  
No, she won't cry.

You see the love that lies within,  
But she shall never love again,  
She won't cry.  
No, she won't cry.

You see death's hand that has glazed her eyes,  
No one saw her die inside,  
They won't cry.  
No, they won't cry.

# Land Of The Old

Time has gone from this land  
From the land of the old  
Life is gone  
All there is left is peace and quite  
None live there  
None can last  
All is gone  
In the land of old  
The kings and queens, prince and princesses,  
squires and knights  
Have gone from the kingdom of old  
All is gone  
All is quite  
In the land of the forgotten

# Let Me See Through Your Eyes

When lovers life wrote the streams and flowers  
I feel like dying every hour  
When we are together I feel power  
That makes me feel like I am betraying my heart  
Even though it was meant to be  
It can never happen between us  
We are too different to notice  
But you have her and I have my soul  
All alone I started and all alone I remain  
Meant to be untouched  
Made to be a daemon  
Nothing you can say to change the truth  
Nothing you can say  
Just leave me here  
Forget that I am here  
Let the silence of death take me  
Leave me to die in peace and suffering  
Let love be at peace  
Let me go from this world  
Let me die from doing good  
Let the evil come  
Let it destroy me  
No don't go and leave me here  
Take me with you when you go  
Don't let the silence take me  
Let me be at your side  
When you forget  
The two birds together  
Perhaps for ever  
Perhaps for never  
Don't leave me here as you go  
Take me with you  
I need to see the world  
Through your eyes  
Take me with you when you go  
Or let the silence be the death of me  
Take me with you and help me grow  
Don't leave me in the dark  
Don't let the silence have me.

# Life Was Here

As the sun travels around the world  
The sand goes  
Grain by grain  
Piece by piece  
Till time of death then all will change  
from life to death  
When the world is dead  
As the wheel turns round  
Life will cease  
As life will not ever live on the life  
Life was here but now no more

kelly Martini

# Lights First Touch

When light first touch  
On painted ground  
The last day is short and small  
Barley noticeable  
Among the living  
Today could be our last  
Time to see and time to breath  
Comes from life  
Comes from love  
Turn to dust when time has gone  
When all has gone

# Loasing You

How can we make this work,  
If I am scared,  
That I will Lose you to her,  
That would kill me,  
To lose you to her,  
Like I do everytime,  
You talk to her.  
Please dont leave me,  
I love you,  
And why can't you see,  
That your the only guy for me,  
Why is it,  
That you cant see,  
That your all I want,  
And why do you only want her?  
Why can't you see,  
That we where ment to be,  
Yet you chase her,  
And leave me all alone,  
Like always,  
If you want this to work,  
Then open your eyes,  
And see me,  
Stop thinking that i'm her,  
But don't mind me,  
I'm just the girl,  
Thats loasing the guy of her dreams,  
To some other girl,  
That messes you around  
But you wont see,  
That she won't have you,  
And she wont feel,  
Not like i do for you,  
And I am here,  
Just like always,  
Incase you change your mind.

# Lost

I lose myself in you,  
I lost myself in the sky,  
When will I ever be found,  
Lost forever,  
Lost in this place,  
Where your face shines everywhere,  
I want to get out,  
I want to be in your arms,  
When will you find me,  
Where will i be when i find you,  
Will you ever try and find me in this desolate world,  
Do I mean a thing to you,  
I will stay lost and alone,  
Till you decide to find me,  
Till I become important enough in your morning light,  
In your face and eyes,  
Here is where i will stay,  
Lost forever.

# Lost And Forgotten

Lost and forgotten  
Need a light  
To help me find the path  
Help me find the path through  
To help me to my feet  
Need help to find the way  
Need help to get me through  
Come find me lost and empty  
In amongst the trees

# Maybe Forever, Maybe Never

You stand there telling me false lies  
I know what you want  
I know how you feel,  
But you will never ask,  
But you keep saying meaningless words  
Things that dont matter,  
Things that dont make a sound,  
You say its for the best  
But is it really what you think?  
I know you,  
Better then most,  
Just open your eyes and see,  
That what we had,  
Was stronger then life,  
That even when it all ended  
All we could see was each other  
That all that ever could be  
Was right infrount of us.  
That we had all we wanted,  
We just had to look inside,  
And see,  
That we where ment to be togeather  
Maybe forever? ?

But who knows,  
We messed it up,  
No looking back,  
No turning back,  
This is what we made  
This is what we did,  
Messing up, a perfect thing  
Because we didn't know  
We didn't understand  
This thing between you and me  
Maybe it was never ment to be  
Maybe we just messed up the only thing  
That was ment to be our paradise  
Our section of heaven.  
But we lost our luck,

We doomed ourselves  
To an unknown fate  
To find another  
To replace each other.

# Pain

She looks at him,  
Not believing that she had her dream,  
So now she fights,  
To keep that light,  
That kept her holding on,  
The light she always had,  
How I was brighter than ever,  
When she had him,  
She doesn't want to lose him,  
But she's driving him away,  
And causing him pain,  
She would kill herself,  
But as soon as she gets close,  
She sees nothing but his face,  
Crying and asking her to stay,  
So she does for the sake of him,  
Only to cause him more pain,  
So she sits there wondering,  
If maybe he would be happier,  
If she walked out that door,  
Then would he stop her,  
Or would he let her walk away,  
Because the pain that she makes him feel,  
Is just too real,  
For her to hold on to.

# Rivers Run Red

Rivers run red  
Fields turn black  
Water boils  
The dead rise  
This marks the end

kelly Martini

# Sun Set On Dreary Streets

As the sun sets on dreary streets  
The moon rise  
With hope and peace  
With rest and sleep  
When moon sets  
War and destruction is soon to follow  
People die and people bore life ends when the moon sets  
The worlds ends

kelly Martini

# The Heart Sees All

When love has gone  
When love has lost  
We see a point  
Where the hart sees all  
And the hart is broken  
The hart sees all

kelly Martini

# The Knights Of Old

When the nights of old  
Are tired and cold  
The dragons are all dead  
None remain in the kingdom of old  
For all is gone  
All is lost  
There is nothing

# The Things That You Say

When the sun rises  
I only see your face  
The things you can make me do  
The way you make me feel  
I know I should walk away  
But something about you makes me stay  
The things you say  
Makes me wish for you everyday  
Stay by me side  
The way you make me feel  
Maybe I should walk away  
But the things you say  
The way I feel  
Makes life so unreal  
Stop the things you do  
But don't stop  
On the things you do  
Keep making me feel this way  
Keep saying what you say  
Keep doing the things you do

Keep making me feel this way  
The way you do  
The things you say  
The things you do  
The way I feel around you  
What do you do to me  
How do you do that to me  
How can you stop  
Help me get over you  
But don't leave me  
Stay and keep me feeling this way  
Don't let me fall away  
Stay and help me  
Keep me on this path  
Keep me feeling this way  
Don't leave me

Always stay by me

Always make me feel the way I do  
Help me back to my path  
Get me out of the dark  
Help me feel this way  
About another  
And help me find out where I truly belong  
To where I should stay forever  
And never go  
I know where I belong  
I belong here  
Right by your side  
This is where I'll stay  
As a friend or maybe more  
That is where I'll stay

Forever more  
You help me through  
For that I am grateful  
And will gladly do anything you ask me too  
No matter how it makes me feel  
I would be glade to do it for you  
Even if it meant dying to save you  
I would  
No matter what the cost  
I thank you  
Forever and always

# When Life Is Gone

When life is gone  
No one remains in this place  
Till the end of time  
When life is gone  
The world will be a desolate wasteland  
Where only the dead remain  
To soil the green fields of love and light  
Forever green  
When life disappears  
The dead remain  
The fields run red with blood  
Of wars gone past and wars to be  
The fields are green all is gone  
All is dead  
The fields are gone  
The world is gone

kelly Martini

# When The World Ends

When the world dies  
Life ends all is gone  
To our fate  
The fate we where born  
To do with deeds untied  
And bodies done all will go to soil and rock  
Go back to were they come from

kelly Martini

# When The World Splits And The Sky Falls

When the sun splits  
The world will turn into a vortex of black  
Where nothing lives  
And nothing dies  
None remain  
All is gone  
Into the vortex of black  
When the sun splits at the end of the world

As the moss grows  
The sky falls  
The world ends  
And the sun bends and greaves  
For a thousand days  
As the human race is gone  
Forever and never to return

kelly Martini

# When Winter Comes

When winter comes  
and snow will fall  
All is white  
All is cold  
And death is on the ground  
When winter comes
