## Am I A Liar?

He doesn't believe what I say,  
He says there is no way,  
I can't believe i liked him,  
I rather i marry someone with a fin,  
I don't like him anyway.  
So why worry what he says,  
I am going to spend more time with friends,  
rather than big, fat speds! !

# Baby Its About You...

I just want you here with me,  
Just to let me know that you're alright,  
Babe I just wanna know if you still love me,  
Like the way you used to.

Every time you used to walk away,  
It used to tear me up,  
Rip my heart to shreds,  
Baby im sorry for lying to you,  
I just want you to understand me and what I'm going through  
sometimes it doesnt feel like theres a connection

Saddly i must go  
i must spread the word,  
babe no matter what happens to us i wanna be with you always  
i love you so much...

# Bad Day

i woke up feeling weird  
went to school and got into trouble  
missed the bus home  
got punched thousands of times  
got big bruises  
but you will get what you ask for {depending who the person is }

# I Am Sorry For Hurting You That Way: (

I am sorry for hurting u that way,  
I told u i loved you,  
But i couldn't stand it any longer  
Megan was supposed to be my friend  
She told me she liked you  
I thought to myself 'is this the end'?  
I was afraid to say yes  
The damage is done i must move on  
I still love you but....  
I love him more  
I cant help liking 2 guys  
I am sorry it just didn't work out  
I am sorry for breaking ur heart  
You will never be the same as any other guy i have met  
There is one thing i never told u...  
I never felt comfortable around you: (  
That's why it had to end  
Deep down i still love you  
I am sorry but deep down your not the one for me  
I still love you

# I Love You

Every night tears i shed  
Every day is a day i dread  
When your around i wish i wasn't  
Because every time i seem to hurt  
I try to take it day by day  
But your in my thoughts and wont go away  
I never wanted to feel like this  
I never asked to even exist  
I just want you to hold me tight  
And tell me things will be alright  
But you don't even seem to care  
And never noticed my love was there  
Even though its painful to me  
I'll love you forever and always

# I Want That One Guy .....

I want that one guy.....

Who doesn't mind if i eat more than him

I want that one guy.....

To listen to all my problems & my fears

I want that one guy.....

Who doesn't mind my sarcasm

I want that one guy....

Who sings along with all my favorite songs with me

I want that one guy....

Who will talk to me about anything & everything

I want that one guy....

Who is never to shy to hold my hand or hug me

I want that one guy....

Who knows i act weird & crazy sometimes but still loves me

I want that one guy....

Who laughs at my stupid jokes and tells me there stupid

I want that one guy....

Who will hold me tight & tell me.....

i love you

# Im Not Perfect

Im not a perfect girl,  
My hair doesn't stay in place,  
I always spill things and catch things on fire a lot,  
Im pretty clumsy.  
Sometimes i have a broken heart but sometimes its meant to be broken,  
My family and i sometimes fight,  
Some days theres nothing thats seems to go right,  
But when i take a step back and think about life a bit  
Maybe im not meant to be perfect  
And just maybe i like being unperfect....

# My Advice And Hell Of My Life

i know this may be scary

but its going to be really bleary i am saying this because i have been through all of this and it makes me realize i should tell some people about it and if they are going through some of this there is some advice but its your choice to follow it or not

Some people feel that there life is not worth living

ADVICE: talk to them and tell them you are always there for them when they do or do not need help

Some people get upset and cry when they are being bullied at school

ADVICE: tell them your there for them give them a hug and let them cry on your shoulder

Most people get upset when people call them fat and go enerexic

ADVICE: stay with them tell them not to waste time on people who call them names which put the self a steam down then when that happens they start getting depressed and thinking they are a failure and make sure they eat some thing

Some people get pressured into cutting them self's when that happens always tell someone about it

ADVICE: Worst thing to do is to get counseling it is better to talk to a family member who understands more about you

im telling you this cause Ive been through all this and it may help you or your friends or your loved ones

# Simple Friends & Real Friends

A simple friend has never seen you cry before a real friends shoulder is soggy from your tears A simple friend brings a bottle of wine to your party a real friend comes early to help you cook and stays late to help you clean A simple friend hates it when you call after they have gone to bed a real friend asks why you took so long to call them A simple friend wonders about your romantic history a real friend could blackmail you with it! A simple friend thinks your friendship is over when you have a argument a real friend calls after you have had a fight. never frown even when your sad because you dont know who is falling in love with your smile

## Walk Away The Pain Is Unbearable...

Walking away makes things worse,  
even though we moved on it hurts so much to walk away from you,  
inside i go insane without you,  
don't tear me up inside just cause i love him an i don't love you,  
but just think about the moment i met you,  
i wasn't even bothering you,  
as time goes by i realise how much i need you,  
but do u see how much you need me?
