# Am I Evil Or Am I Not

evil has came down to earth  
haunting people that nows  
right from wrong  
am i the the one to cause this  
if i did show me prof  
Am i evil for believing what i do?  
Am i evil for not agreeing with you?  
Can't i be right and you wrong,  
maybe your weak and im strong  
you never now when  
you walk out of place  
saying i wish i could go back  
and re-take  
my steps but  
i want to now if  
i am evil or am i not  
show me a sign  
that i never forgot  
and then i will  
now from the day  
i start  
what i did to be  
on the evil's list  
the evil is planting  
his plot  
showing people  
that may  
never forgot  
what should i say  
to be off your list  
and what i  
did to be on it  
your list  
but i just want to  
prove you that  
your wrong  
and i'm right  
so what should i do  
to be not evil

in my way  
or not

# As Life Goes On

you gotta take the good  
with the bad  
smile with the sad  
love what you got  
and remember what you had  
learn to forgive  
but never forget  
learn from your mistakes  
but never regret  
people change,  
things go wrong  
just remember  
life is what go's on  
but time by time  
you will learn  
what you did wrong  
and what you did right  
forget what people say  
because they just  
wish they could  
be you  
let them keep talking  
stuff about you  
there just makeing you  
famous  
and that from my point of veiw  
and that is what i say  
just forget  
as life go's on

# Avoiding Trouble

avoiding trouble  
is not easy  
and its not hard  
getting in trouble is what  
i do best  
its hard not getting into trouble  
but avoiding trouble  
is the hard part  
but you know what  
i need to step  
back and take a breathe  
and say you know what  
i could avoid trouble  
if i just tried  
and you know what  
i did  
and thats been  
a life experience  
for me  
and you! ! ! ! ! !

# Candles

candles  
give me bright  
when im feeling down  
and in sorow and pain  
what can candles  
do to help me  
shine my day  
but soon as  
i relized it  
that light is happy  
and dark is pain  
i wish the candles  
whould come with me

# "Confessions"

confessions  
is a hard thing to do  
to come clean  
about something  
you did  
or wanted to come  
clean about  
I know its hard  
I know i did something bad  
and came clean about  
its what everybody does  
beacuse i know you  
did something bad in life  
and you felt bad  
and you felt you  
had to come clean  
about something  
and after you  
came clean about  
your confessions  
you felt better  
after you did it  
so confessions  
is a hard thing to do  
but its a good thing  
for you! !

# Confused

my knees start to shake  
when your in sight  
my mind filled with wonder  
my heart filled with frieght

when will this feeling stop  
when did it start  
how can i listen to my mind  
without breaking my heart

Im so confused  
what should i do  
i cant think of anything  
except you

should i Ignore you  
or should i just give it time  
i cant think straight  
when my heart controls my mind

# Confusion

I'll show you that  
confusion  
aint no crime  
if you got the time

then stand in line

and you will be just fine

I'll show you  
what  
confusion is  
just back up  
and give me time  
just to explane the  
reason why

confusion  
ain't no bad thing  
and its not a good thing  
its time to step back  
and i will show you  
the confusion that i live  
just give me second  
to explane  
my way  
and that way only  
its only  
going to take a second  
of your time  
so listen up  
and listen  
up good

# False Alarm

false alarm  
you fake to get hurt  
just to be by me  
saying something your not  
trying to be next to me  
just wanting to spend more time  
with me  
i call your mom  
saying your in the hospital  
mom is getting all worried  
crying her pants off  
but soon as  
the doctors tell me and  
your mom  
that it was a false alarm  
your mom is

saying why did you do this  
and he said

family is the first people  
you come to if  
you have a problem  
just remember that  
family is going to  
be there no matter what  
in tough times  
and in easy times

# "Fear"

Fear

what is fear

is it when you get scared

is when you practically pee your pants

can you feel fear

breathing on you

when you are scared

fear is when

people get scared

but i dont get

the reason why people get scared

what make's them so scared

to not love life no more

they use to have

why has fear caused this

feeling

when did it start

some people

love fear

then they hate fear

but what has caused this

feeling in the first place

no think what has

caused this fear.! !

why did you hurt me  
in the first place  
you now what you

off to your friend  
but you now how you  
hurted  
and you cant win me back  
no matter how  
much you try  
and how much you  
care it is the  
way of life  
that takes its place  
and probly  
we wern't ment  
to be  
so take your stuff  
and i'll take mind  
just dont get close to  
me when i  
am in your sight  
just keep us far  
away before  
i develop i new way  
to get back at  
you which i will never do

# Inside

bottled up inside  
are words i never said  
the feelings that i hide  
the lines i never read

You can see it in my eyes  
read it on my face  
trapped inside are lies  
of the past i cant replace

with memories that linger  
wont seem to go away  
why cant i be happier  
todays a brand new day

yesterdays are over  
even tough the hurtings not  
nothing last forever  
i must cherish what i got

dont take my love for granted  
for soon it will be gone  
all you ever wanted  
of the love you thought you won

the hurt i'm feeling now  
wont disappear overnight  
but someday, somehow  
everything will turn out all right.

or maybe it may be me  
i dont now  
and i dont care  
because its my life and not yours

your just full  
of pain to give  
while other girls  
laugh upon

but pain to give  
while lieing your  
way out of things

right before you  
hurt another person  
even with me

# What Would You Say

what would you say  
if i was sweet and kind  
also the person nobody hates  
when i go on dates  
and on the  
other hand  
what would you say  
if i was mean  
and crule  
that makes kids  
cry whishing  
they could die  
what would you say  
if i was mixed with  
two things  
and not one  
i need to know  
which one am i  
before someone  
think as me  
as nice and mean  
so  
what would you say  
tell me the truth  
before i choose

# What You Said

what you say  
and what you give

when you really dared  
you said you can be the one  
when you was never there  
i see you now and  
all i9 think is  
all you are  
is one of thoose freaks  
that dont care  
not even share  
with the girls you  
thought you won  
when you really lost  
and there is nothing to say  
of your discuring person  
because i saw you once and  
i saw you last  
and nothing will be the same

# Who Cares

or what you do

who cares what you do  
or what you say  
your just full of lies  
makeing babies cry  
laying down on your bed  
turning red  
saying you sed  
i was thinking should i care  
or just make a flare  
but then again

# Why I Feel This Way

why i feel this way  
i cant explane  
the reason why  
i been acting so strange  
and trying to be mistrious  
just so you could like me  
but i just want to say  
my feelings are no joke  
you mess with my feelings  
i mess with you  
and that is a garante  
why im feeling this way  
sad, mad, happy,  
whatever it may be  
im the one that creates  
and ends with  
my feelings  
no matter what  
but just to tell you  
whatever may my feelings  
may be  
your not the controler  
of my feelings  
from the start  
to finish  
i controle  
my feelings  
and you dont  
and that is what i say  
for all you people out there  
trying to controle  
someones feelings
