# A Love Story No More

Long ago, there was you and me  
Long ago, we were so happy  
Long ago, we made promises  
And long ago, we made many memories.

Yet, all of a sudden it all fade away  
The love story of you and me  
My heart was in pain and my eyes were about to cry  
My whole body was so weary

How can I let go of you?  
When all along I can always see you  
I am really trying to  
Yet, I can't really do.

Why is it too easy for you?  
Yet, so really hard for me  
Oh, could you please help me?  
For, it seems that you've let go already.

# Friendship That I Never Expected

It was year 2016, month of September  
The 7 of us met together  
In a place we don't know  
For we still are new

For how many days, we still doesn't get along  
No talking all night long  
For we don't know each others trait  
For the fact that we have just met

Yet, because we are in the same room  
We started to have an open forum  
After it, we made many memories  
That surely no one can erase

In best and in worst times  
We are always at each others side  
Trials and tears we conquered together  
For we doesn't leave one another

The corners of our room  
Witnessed our different momentum  
That we will surely treasure  
Even if we are already at our comfort zone

Friendship that's been made unexpectedly  
Strengthen by love, care, trust and loyalty  
Neither one of us will be left behind  
For we were already been bind

We made our vow  
That we will remember especially when we are in sorrow  
That vow is written below  
Just read it until you are through

For better, for worse  
For richer, for poorer  
In sickness and in health  
Till death, ROOM G will never ever be apart.

# Get Over You

Falling in love with you was easy  
But breaking up with you makes me dizzy  
I can't let you go  
And I don't know what to do.

My heart is in pain  
What will I gain?  
Tears that keep on falling down  
Until it already hits the ground.

Can you please just stay?  
For me to be happy  
I will do everything  
And I promise it will be worth staying.

Remember what you've promised me?  
I hope it will remain as it should be  
Come on, don't give up  
Because I know our love story is not a flop.

We made many memories already  
Will you just let it fade away  
Just like your love for me?  
Oh, I don't know what I should say.

I can't bear the thought of losing you  
From my mind and all the way inside through  
My heart always skips on beating  
Felt like I'm in the box ring, fighting.

If our love story will end  
And never will extend  
I have no choice but to say goodbye  
It maybe not cause me to die.

Seeing you with the other girl  
That looks like a pearl  
Can't help but compare myself from a cheerleader  
While me, I am still in the bleacher.

I need you  
But I love myself too  
I know I can get over you  
Even if it is a quite hard thing to do.

I believe someday I can move on  
And reveal my newest version  
Who is now ready to mingle and strong  
Waiting for the right man to come along.

# Someday I'll Learn To Love You

Got a hard time in Programming,  
Stressed, no time for bonding  
Asking help for those who are already a pro  
Wait a minute, what to do?

Problems here, problems there  
My mind had flown everywhere  
Exercises and projects need to be accomplished  
Until there is time for it to be finished.

Why it takes for me to understand the problem?  
It slows down my self esteem  
For they got it fast, I got it slow  
But I am doing my very best, never say NO.

I left with tears my dearest native land  
Trying to pursue what has been planned  
Doing all the things before it's too late  
For good happenings come those who truly wait.

I say never give up, keep on fighting  
Hardship is just part of growing  
Believe in yourself and continue on learning  
Stand up and say, I LOVE PROGRAMMING.

# The Longing Soul

I am all alone  
In this lonely cold room  
My friends are not here  
I am filled with fear

How I wish they are here  
So that my smile will not be replaced with tear  
But fate is so playful  
And I haven't been mindful

I thought it would be easy  
But I am not that friendly  
To be honest, I am not really comfy  
Oh, loneliness please spare me

Until when will I feel this way?  
Is it when my hair turns gray?  
I don't know if I could still hold on  
Or can I really go on

Felt like there is something missing  
Now seems like life is not worth living  
Help me, for I am in sorrow  
Longing for laughter to whom can I borrow?

My friends, my friends where are you?  
Have you missed me too?  
When can we bond again?  
And stay as if we are in chain.

Even just for awhile  
For our distance is not a long mile  
We are just in the same corner  
But, why it seems we are too far from another?

Is it really true?  
That people come and go  
Then why you did you befriended me  
If you will just to leave and stay far way?

I don't know what's wrong with staying  
Because I saw many people fond of leaving  
Is it really too hard to stay?  
To the life of people that are always completing your day

Questions with no answer  
Makes me wonder  
Have I been a bother?  
Tell me, so that I can do better

Not through this way  
That seems you all are ignoring me  
I am not used to this  
For I am attached with our daily routines

Please do not waste  
The great friendship that was once so sweet  
I believe we can still work this out  
And this friendship will grow into a beautiful sprout.

# Yes, We Can! ! !

Being away is too hard to do  
But we don't have a choice but to do so  
To cry is one of the best thing to do  
Because this is for our families future too.

Days are like years  
No shortcuts along the way  
Hardships are everywhere  
Strength can't be found nowhere.

Solidarity and trust from one another  
In aiming something good and be better  
Even if we are still on the process  
Soon we will be at the peak of success.

So, shout out to the Lord  
For we are almost halfway of the road  
It seems like impossible  
But in His Mighty Hands it is visible.
