# Can'T You See It?

You ask me where the love is  
But you don't realize it's everywhere  
You ask me where our dreams are  
But you don't realize it's right in front of us  
You ask for the promise  
But you don't realize that we already have it  
You ask me where the faith is  
But you don't realize that everything has faith

Can't you see the love beside us?  
Can't you see the dreams in front?  
Don't you know the promise is in our hearts?  
Don't you know that we have faith?

You ask for things we already have  
Where is the love?  
Where is our dreams?  
Where is the peace?  
Where is the promise?  
Where is the faith?

Can't you see the love beside us?  
Can't you see the dreams in front?  
Don't you know the promise is in our hearts?  
Don't you know that we have faith?

Can't you see that it's everywhere?  
Can't you see the happiness?  
Can't you see the peacefulness?  
Or are you too busy  
with looking at the bad things  
To see the good?  
When you look at the bad things  
That's all you get.

Can't you see the love beside us?  
Can't you see the dreams in front?  
Don't you know the promise is in our hearts?

Don't you know that we have faith?

You should be saying  
I can see the love  
I can see the dreams  
I can see the promise  
I can see the faith  
I can see the peace

Can't you see the love beside us?  
Can't you see the dreams in front?  
Don't you know the promise is in our hearts?  
Don't you know that we have faith?

You should be saying  
I feel the love  
I feel the dream  
I feel the promise  
I feel the faith  
I feel the peace

Can't you see the love beside us?  
Can't you see the dreams in front?  
Don't you know the promise is in our hearts?  
Don't you know that we have faith?

If you don't see those things  
I'll show you  
It's not hard to show  
Love  
Be loved  
Dream  
Have dreams  
Promise  
Have promise  
Faith  
Have faith

Can't you see the love beside us?  
Can't you see the dreams in front?  
Don't you know the promise is in our hearts?  
Don't you know that we have faith?

You ask me where the love is  
But you don't realize it's everywhere  
You ask me where our dreams are  
But you don't realize it's right in front of us  
You ask for the promise  
But you don't realize that we already have it  
You ask me where the faith is  
But you don't realize that everything has faith

# Just A Heartache

It's just a heartache  
Just a heart break  
My world is ending  
My life is blending  
It's just a heartache  
Just a heart break

It's just a heartache  
Just a heart break  
I know he was not the one  
He was only in for the sun  
I couldn't control my heart  
It was too smart  
Love is an art  
It's just a heartache  
Just a heart break

It's just a heartache  
Just a heart break  
Your ego was growing  
My love was flowing  
Your love never started  
My love was charted  
Your smile shined  
But your eyes were lined  
It's just a heartache  
Just a heart break

It's just a heartache  
Just a heart break  
Now I know love is sacred  
And that you can't usually break it  
I learned that there is love  
It floats in like a dove  
It's just a heartache  
Just a heartbreak

It's just a heartache

Just a heartbreak  
My head is ringing  
My love is singing  
I told my heart quit  
And for it to sit  
It's just a heartache  
Just a heartbreak

It's just a heartache  
Just a heartbreak  
My world may be ending  
My life may be blending  
Bu he wasn't the one  
he only wanted sun  
So i have to let is go  
I have to let my pain flow  
It's just a heartache  
Just a heartbreak

It's just a heartache  
Just a heart break  
My world is ending  
My life is blending  
It's just a heartache  
Just a heart break

# Just Run

(walk)

I walk to my destiny  
I walk to my life  
I walk to without care  
I don't want to be here today  
I walk without enthusiasm  
I walk without life  
I walk to my destiny  
I walk to my life

(Run)

I run to my destiny  
I run to my life  
I run with care  
I'm glad I'm here today  
I run with enthusiasm  
I run to life  
I run to my destiny  
I run to my life

With walking comes bitterness  
With running comes sweetness  
People who walk with life  
They taking no chances,  
no risks  
People who run with life  
are free  
Free to be them

Remember when you're walking  
don't be so bitter  
try a light jog  
Remember when you're running  
be cautious  
but stay who you are

For those of you who don't  
know who you are  
that's not a problem  
not a problem at all

All you walkers out there  
get up and live  
All you runners out there  
stay true to yourself  
Never stop running

Never stop running at all

Lillie Ellis

# Lay Us Down

Lay me down  
Just set me on the ground  
Please give me some air  
And let me feel around  
Let me recover from the breaking down  
I know you're disappointed  
But what can I do  
Everyone falls down  
Just do me one favor  
Lay me down

Lay me down  
Please leave me be  
It's one of those situations  
Where I don't want to see  
When you come back  
Leave your lectures outside  
All I want is a friend  
Who will stay by my side  
Show some emotion  
That will allow me to trust  
But before you leave  
Will you do one thing  
Lay me down

Lay me down  
Give me some room  
To roam around  
It's alright  
You can cry  
It doesn't make you weak  
Just makes you human  
Before you leave  
To breakdown yourself  
Lay me down

Lay me down  
Please let me rest  
You've done enough

Right now your shoulder is weighed down  
I think I can carry the rest  
Show me that we're going to be okay  
And please don't run away  
I know this scares you  
It scares me too  
I need to rest  
And I think you do too  
But before you go  
Lay me down

Lay me down  
I'll be okay  
I think I can hold on without you  
For about one day  
You make me happy  
With your bright smile and eyes  
And your laugh makes you sound wise  
Tell me if you're okay  
And I will listen  
But first you must do one thing  
Lay me down

Lay me down  
Please get some sleep  
And please try not to weep  
I'm okay  
And so are you  
Show me later  
How to live  
And I will show you  
How to love  
Lay us down

Lillie Ellis

# Life Is More Than In Seems

Maybe life is more than it seems  
While you think about the big things  
It's really the little things that are important  
There's a rush of emotion  
When you figure out who you are  
When you think about the little things  
The things that keep us alive  
Maybe life is more than it seems'

Maybe life is more than it seems  
That guy on the street is in pain  
So how could it be a perfect world  
There is always going to be problems  
That's what makes us who we are  
The past brings us together  
Whether your're whole or not  
Living in the moment  
is easier said than done  
Letting things go  
Takes courage beyond belief  
Maybe life is more than it seems

Maybe life is more then it seems  
Loving is great to do  
But first you must love yourself  
When you find out who you are  
Everything will come clear  
like the beautiful blue sky  
Sometimes you will lose yourself  
But catch yourself before it's too late  
Many people fail  
Life may seem easy  
But when you get a taste of it  
you recoil  
No wonder people give up  
But if we didn't know  
what sorrow was  
We wouldn't know when we were truly happy  
Maybe life is more than it seems

Life is more than it seems  
The bad times will come  
Doesn't matter who you are  
They come big and small  
Just don't lose yourself in the bad times  
Because...

Life is more than it seems

Lillie Ellis

# Monster

I know what it's like  
to feel in the dark  
and to not be a shining star  
That monster tore you apart

It came when you were vulnerable  
It came when you were cold  
It made you feel alive  
It made you feel at home

I know what it's like  
to be in the dark  
and not to be a shining star  
That monster tore you apart

You shook hands with it  
That was enough  
Now you're in the sky  
looking down at me  
It took you to a place  
that you didn't know was possible

I know what it's like  
to be in the dark  
and not to be a shining star  
That monster tore you apart

I still remember that time  
When you were by my side  
loyal like a dog  
dependent like a cat  
You knew who you were

I know what it's like  
to be in the dark  
and not to be a shining star  
That monster tore you apart

It really was a monster

but not your usual kind  
You were best friends at first  
But then he turned unkind  
It destroyed your life  
No you're gone  
Never to come back  
To your real home

I know what it's like  
to be in the dark  
and not to be a shining star  
That monster tore you apart

I need to stop going back  
To those memories  
Before I was replaced  
by the monster himself  
You were a different person  
With a different mind  
You were special  
You were once mine

I know what it's like  
to be in the dark  
and not to be a shining star  
That monster tore you apart

I need to move on  
I need to remember the real you  
I need to forget the monster  
That ruined so many lives  
I need to live

I know what it's like  
to be in the dark  
and not to be a shining star  
That monster tore you apart

Lillie Ellis

# Oh No It's Me Again

Oh no it's me again  
I don't want to see my face again  
I don't want to see my life again  
Oh no it's me again

Oh no it's me again  
I know it's time to get up  
time to face the truth  
time to make a truce  
i have to start again  
Oh no it's me again

Oh no it's me again  
I don't want to see the pain in my eyes again  
I don't want the fear in my lips to come out  
Oh no it's me again

Oh no it's me again  
All you see is a happy face  
But when you take a closer look  
into my eyes  
you will see my life story  
don't only look into my eyes for something entertaining  
watch the whole thing  
oh no it's me again

Oh no it's me again  
I can't help but grimace again  
I don't want to face my world again  
The world is so messed up  
sometimes you win  
sometimes you lose  
I always lose  
Oh no it's me again

Oh no it's me again  
when I have faith  
I will look in the mirror again  
When I have hope  
I might actually like what i see  
Oh no it's me again

Oh no it's life again  
coming to haunt me once again  
i can't believe im still alive  
I think I might break down and cry  
I want to run and hide  
Oh no it's life again

Oh no it's me again  
maybe love will enter my broken heart  
maybe my heart won't ache as much  
i'll have to face the worry  
i'll have to face the pain  
maybe after that i will be brave  
maybe i will have a smile again  
maybe.....

Oh no it's me again

Lillie Ellis

# Take My Hand

Take my hand and I'll show you the way  
Take my hand and I won't give you away  
Just take my hand.  
Promise that you'll love me for as long as  
you can.  
So just take my hand.  
I'll just be happy with your hand.  
I won't let you fall.  
I won't let you drown  
I won't let you be away from me  
Take my hand and I'll show you away  
Take my hand and I won't give you away  
I need your hand to live  
I need your love to live  
I need you to live  
take my hand gently  
We don't have to rush  
We have all our lives to be together  
I don't want to waste one second of it  
Take my hand and I'll show you the way  
Take my hand and I won't give you away  
Just take my hand

Lillie Ellis

# The Children In Black

The children in black  
Where did their childhoods go  
Trailing water behind  
How did they become this cynical  
They write words of hate  
Tears of joy is no longer a term for them  
How can they be so small  
But hate so much  
The children in black

The children in black  
What happened to happiness  
Are they that controlled  
That everything can effect them  
Don't they have the right to laugh  
Why are their eyes this guarded  
Does everything have to be that formal  
What happened to innocence  
Did it go away with the faith  
The children in black

The children in black  
I can see the bitterness  
Can't you see the ugly truth  
Bitter minds already got their minds trained  
So why are children so dark  
Is there that much pain  
The children in black

The children in black  
What happened to be open minded  
Did it close like a door  
Only opening for a few  
Is this society that negative  
That they can't see the light  
What happened to love  
Loving parents and friends  
It must have went away  
The children in black

The children in black  
Their hate scares me  
Their eyes make me grimace  
With thier hate they can stop the world  
But how is that possible when they are so young  
Are their minds that easy to twist  
The children in black

The children in black  
I hope they will soon see the light  
I don't know if it's normal to be afraid  
But that's what I feel  
Why do most people find it easier to be sad  
Do they realize it's not  
The children aren't children anymore  
They're miny adults trying to impress  
Why don't people realize this  
Are they that oblivious  
Maybe if people opened their eyes we could do something  
But until then...

The children in black

Lillie Ellis

# The Girl In The Mirror

She's the girl in the mirror  
The girl in the glass  
She is just trying to last  
She's the girl in the mirror  
The girl in the glass

She's the girl in the mirror  
The girl in the glass  
She wants to get out  
But all she does is put on a pout  
She taps on the glass  
Hoping someone will pass  
She's sick of waiting  
And sick of baiting  
She's the girl in the mirror  
The girl in the glass

She's the girl in the mirror  
The girl in the glass  
She sits alone  
And all she does is moan  
She yells for help  
But it sounds more of a yelp  
She hates her life  
And goes for the knife...  
She's the girl in the mirror  
The girl in the glass

She's the girl in the mirror  
The girl in the glass  
She believes it's too late  
and she doesn't believe in fate  
she wants help but doesn't ask  
it seems like more of a task  
She wants to love  
But it seems above  
She's the girl in the mirror  
The girl in the glass

I'm the girl in the mirror  
The girl in the glass  
I am just trying to last  
I'm the girl in the mirror  
The girl in the glass

Lillie Ellis

# The Man In Her Eyes

The man in her eyes  
isn't an ordinary man  
He Haunts her  
Now I can barely see her eyes  
When she sleeps  
All she sees is him  
He's a repeating nightmare  
playing in her head  
The man in her eyes

The man in her eyes  
Took her possession  
Stole her faith  
Stole her life  
He's just a man  
that took her hope  
All she can do  
is hope that  
she will get it all back  
The man in her eyes

The man in her eyes  
Laughs at her weakness  
Scowls at her sweetness  
He wants her to cut everyone out  
For her to be all alone  
So she won't have anyone to save her  
The man in her eyes

The man in her eyes  
No one knows about him  
She thinks that they don't care  
But they really do  
She hates her life  
Almost as much as she hates him  
The man in her eyes

The man her eyes  
She thinks that it's her fault

But it's really not  
She knows she  
can't get her possession back  
But that doesn't mean  
She doesn't try  
The man in her eyes

Lillie Ellis
