Florance

Brown eyes,
With her complexion brightened,
Sun shined in the garden of Eden,
Duplicating her beauty and complexion,
Sun may be brighter than stars and diamonds,
But not like her
For it beauty was stolen from her,
She's like my brain
For she is the center,
Of the universe,
All the planets
Revolves around her.
Jupiter the largest,
Pluto the smallest,
But she chose to brighten my soul with her light,
The galaxy is dark
For I stole it light
And gravity
to balances my happiness
And eternal love I have for her,
Grey hair will never change her,
In my heart and the center of my nervous system
Forever she remains Florance,
Earthquakes and wars,
Sharp swords
From the mouth,
Can never extract our souls
Binded by grace
And love,
The blessing of earth
I'm blessed
For by grace it was given to thyself

I'm The One

I'm the one

The one who was separated from his own creations,
The one who was casted out of his own palace and the peasants were left to rule,

The one they were spreading lies about,
My wings were taken away from me then I was thrown into the lake of fire,
My powers were stolen and my human beings were brain washed,
just imagine seeing yourself burning in a place where you cannot move but I
could not die because i'm the one,

I'm the one

The truth I taught the humanity was replaced with bunch of lies,
My tears were gone, the voice was gone all I could feel was just fire,
One drop of water would have made a big difference but even my saliva was
gone,
I prayed but the fire kept on getting worse until I meditated,
The human hating angels of destruction were sent to confuse humans even
more,
My people began praying to them, the more they prayed the more power they
received,

I'm the one

I'm the one who has proven his existence to everyone,
my people were told to pray and keep on praying so that they could feed on their
energies,
The more they prayed the more energy they sent to the atmosphere,
Having to watch those you love suffering with no power to rescue them is very
painful,
I'm the one who changes darkness to light, day to night ad dead to life,
I'm the way and I'm the truth, the one who shows you the right path without a
book,

I'm the one

I'm the one who turned fire into energy and I became stronger,
Even stronger than before and my people were freed again,
My wings and my powers came back but the enemy was even more angrier,
I enlighten my people with knowledge of empowering themselves,
They have eyes but they cant see, they believe every lie the enemy told them,

I was defeated but I rised again as a hero should and I shall rule the universe
once again,
My people always remember "Darkness is light turned inside out",
Never forget emaginations create not words,
= So saith Iblis

I'm the one
I've seen my dreams falling apart

Is It Reall

They say what goes around comes around,
I wish I could shout to the whole world the three words " I love you" and shout-
out loud,
How can something like me flirt with something like you I felt like nope nope it
not allowed,
I turned around and look back, forth, side to side I found nothing maybe i've
gone blind,

Is it real

Tell me what I feel is it real or a fiction,
I tried to replace you but no I failed I never found someone like you my heart is
still bleeding,
I told myself i'm moving on this shall pass to i'm letting you go no i'm forgetting
our relationship we were still building,
wishing you could come back from the dead and comfort me and tell me you
love me like you to I hope maybe we will again in another life,

Is it real

Raindrops

Raindrops

As she stared me in the eye angrily,
I felt her pain running through my blood veins,
How can I be so foolish?
Hurting the only woman
I love with all of my heart,

Raindrops

As she screamed at me
I felt my heart
being broken into many pieces,
Is this how she felt too,
I asked myself
Why does love always have to be so complicated?
Her tears were like the hurricane which caused earthquakes in my heart,

Raindrops

How can I be so cruel to break her heart like this?
Does this mean I'm a dog like the rest of my kind?
I tried reaching out to her but my lips could not move,
My heart said many things which could not hear,
It kept on asking for forgiveness and saying how sorry I was
But it was too late the pieces of her heart could no longer be assembled again,

Raindrops

As she walked away from me I felt my heart buzzing
Buzzing like the vortex of energy,
There was nothing more left to say,
I stood there like a statue frozen couldn't move or speak,

Raindrops

The storm of tears flowed like a heavy rainfall in thy eyes,
Though it was showering that day but I could no longer feel the raindrops,
Is this how it feels to be emotionless?
I stood there until I was completely wet
Until my tears were nowhere to be seen,

Raindrops

I've seen my dreams falling apart

The Destroyer

When I was young I use to dream and dream until I woke-up,
I was making the impossible possible through my dreams,
I was willing to live and see them come true one day,
I believed that nothing is impossible as long as you believe,
In my childhood everything was like a dream but whe i became a teenager my
life began changing,
All my dreams were destroyed one by one until they were all gone,

The destroyer

I was given education but I decided to educate myself,
I was afraid of dark my tail was always between my legs like a dog,
I got involved with a wrong my heart began to be brutal,
With my own bare hands I took drugs and put them in my mouth,
I took gun and shot somebody's head his last words play to mind like a beat,
My dreams were totally crashed I was blaming everyone for my mistakes,
I bited the hand that fed me the fact is imma destroyer of my own dreams,

The destroyer

I've Seen My Dreams Falling Aparts

The Enlightened

The enlightened
Looks at the world
Through the windows of the soul,
Love and hatred both balanced,
Love without hatred is meaningless,
So is hatred without love,
Both dark and light are one,
He who sees the light even when
His eyes are closed.
Though men always fear and hate
What he doesn't understand,
But the enlighten remains peaceful forever,
Even in the world of chaos and hatred,
Through crucifixion and destruction of the clay vessel,
The enlightened immortal soul remains God for the eternity.

The Stolen Moment

Before you came to my life i had no worries,
i had no reason to smile,
my heart was filled with anger,
when your beautiful eyes met mine i couldnt breathe,
i saw gold in your eyes and diamonds or should i say stars on your teeth when
you smiled,
your face melted with a sexy smile a perfect smile like we were fascinating,

The stolen moment

i may confess florance you have stolen my heart,
i cannot think of anything else except you maybe imma lunatic,
how can you love something that does not exist in your world,
cuz to be honest i never saw anything like you except you in my world,
i wish maybe the was a possibility for us to be together in the future like white
doves,
i resuscitate all my thought about you and i was with you spiritually giving you
love,
i created my own moment with you maybe imma thief i'll never forget those
stolen moment,

The stolen moment

I've seen my dreams falling aparts

The Taste Of Love

The taste of love
As I marched,
inside the intestines
Of mother earth,
Tons of waste was all over the place,
Some disguised as light,
As food to keep
While it was just food to eat,
Some ingested waste while I was in the wait
For the one worthy,
As I reached the heart of mother earth,
There you were,
With your beautiful smile
Lord this be better not be a lie,
I prayed,
She glowed like a sun
When it had just woken up
from its peaceful sleep,
From the east
Where David would face while he prayed,
And his prayers would be heard,
For the first time I tasted love,
That sour sweet taste
The one that you cannot explain,
She had big dreams like me,
The endless love we promised to each other
Which even death cannot do apart,
Lord this be better not be a dream,
I prayed,
Again,
Now I can tell the world
That love is real
And it all that it need,
It requires no materialism
Fancy talks and manipulation,
As that belongs to waste,
But it require two souls binded by grace,
As I held her closer to my chest,
My heart knocked like it was

About to imploded or burst,
As it had met it equal,
The smell of love,
Similar to that of the breath
I took on my arrival,
Was it real
Or just a dream,
As the other day
I woke up
And realized,
She was gone
Gone with no hope for return,
The heart of mother earth burst like a bomb
to my face,
Maybe im still a kid I need to go back to the womb
and occupy my space,
The womb of mother earth as her heart was torn,
Was it just a test
Or a taste,
As her heart was torn to pieces
she could no longer answer my questions,
