Enjoy each day, for it could be your last! ! !

It doesn't really work like that though does it?

We often think that and then get back into the habit of forgetting! Pushing it to the back of our minds and complaining about something that's happened in the day. Like the bus driver who drove too fast and then never said thank you, when you said it to him. Even though you didn't mean it! Or the parcel you missed because they chose to deliver it when you were in the shower and you never heard. Women have an excuse however. There's always one time of the month we're we can be let off :) But i'm just wanting to remind people to try and enjoy each day, if it is a day and a time where you can enjoy it. Cos it's not always possible, Is It? I'm hoping these poems are lifelike cos some are real and i felt a certain way when i wrote them, and others are just written out of boredom or something. Hope you enjoy them anyway!

A Friend For Life

A friend for life
A friend forever
When there's no one left to dance

A friend for life
Two friends together
When no one else would take the chance

When there's no one left awake
You stay awake to talk

When there's no one left to care
You are my shoulder

When there's no one left to share
You share my thoughts

From you i cannot stand to be apart
My friend forever.
My heart.

Lucy Vernezze

A Thousand And One

What can i say?
I've told you it all
From the very first line
To the moment we fall

I've poured out my heart
And cried you a well
Where will we get babe?
I never can tell

To reconstruct us
Is gonna be tough
But i've thrown my last lifeline
And it's never enough

Your heart wont diminish
To a thousand and one
Cos every last ounce of wonder
Has finally gone

I'll pour it all out to you
And dwelled on the past
From the very first day
To the very, very last

I'm not in the public
I'm here on my own
And through all our troubles
We've finally grown

I've consoled through the heartache
An fought past the pain
We just need to make it
Through the rain

And on this last note
I've got to understand
If you hate me so much
Why take my hand?

Lucy Vernezze

Are You Positive

Do you think of me at all?
You say you do
But are you sure?
Are you positive?

Do you need me at all?
You say you do
But are you sure?
Are you positive?

Do you want me at all?
You say you do
But are you sure?
Are you positive?

Cos you know that my feelings for you
Can't disappear
You know i love you more
Than i explain here
In these word
But i'm sure
I'm positive

I just like to be reassured
I need you to stay here
For me to know that i'm yours

You say that you love me
But are you sure?
Are you positive?

Lucy Vernezze

Aren'T You The Friend You Promised Me That You Were?

I'm dragging my feet
I don't understand
Why when i'm down
You wont take my hand
Aren't you friend you promised me that you were?

You've built up my trust
You've taken it all
Please don't break my heart
Please don't let me fall
Aren't you the friend you promised me that you were?

I'm treading on
And i'm getting by
Even though i just feel the need to cry
Just answer this one question that i ask
Aren't i at least worth that?
Aren't you the friend you promised me that you were?

Lucy Vernezze

Babe

Don't fall down and cry now, baby
Stand up and Stand tall
Don't be afraid of defeat now, baby
You'll never lose it all
As long as I'm breathing
I'll be by your side
You can always run to me
If you've got nowhere to hide

The shadows may follow you now, baby
But they'll never win
Don't ever let them get to you, baby
Trust comes from within'
The voices echo everywhere
But they can't deny their sin
The shadows may follow you now, baby
But they'll never win

There may be times you'll ask yourself, baby
Where do I go from here?
And your blinded by the darkness, baby
And all you feel is fear
If I'm not around then baby
I'll be looking down on you
Your guardian angel will guide you, baby
And help you make it through

I will always love you, baby
Even though you not yet born
My love for you is so strong, baby
You'll never be alone
Although you haven't got a name yet, baby
My hearts not made of stone
And I want you to know you'll never be alone
And I need you to know you'll never be alone

Lucy Vernezze

Back2basics

Fearlessness is anger
Just pent up anger
When you don't care which arrows you throw
And who gets hurt

Desperation is just needing
When your whole world is bleeding
You pour it on the defenceless ones
In times when their believing

I can't imagine being
The one that you aren't seeing
If dependency gets too much
I'm much too used to feeling

Will you still be needing me
When your fears are so unknown
I hope so dear
Will you be here
Don't chill me to the bone

Lucy Vernezze

Blank

You show no emotion,
No expression on your face,
How can i tell what your feeling?
If you were hurting could you tell me?
Would you tell me?
Cos i'm unable to know a wound's in need of healing

At least let me know that your okay
And take that blank, black look away
Just smile, laugh or cry if you have to
i'm gonna help you find a better day

Just smile, laugh or cry if you have to
I'm gonna help you find a better day

Lucy Vernezze

Blind

Here i lay
Making patterns with the sky
All i ask is why?
Why not me?

My last chance
Without another failed romance
I looked into your eyes
To help me see

And now your gone
I can't move on
I can't see anything
Without you

I am blind
I've lost my mind
And i can't live
I will not live
Without you

Lucy Vernezze

Block It Out

All the hurt inside me
I just block it out
All those tears i need to cry
I just block them out

All those memories of past years
That would still make me cry
I never said goodbye
I'm scared that if i let them out
They'll never stop

I've got a reputation of being happy
Always on top
I can't let them down
Let them see me frown

I just block it out
I just block it out

Lucy Vernezze

Braver Than Brave

You smile even though your heart is down
You laugh when you're in pain
You cry inside
Then wipe your tears
And prepare to face the world again

You whisper when your soul is aching
You worry that you're not good enough
You think that you aren't strong
But you're stronger than the mighty tough

You're an angel with invisible wings
You're so strong, you'll never know
How proud I am of you
You're the bravest person I know

And next time that you're hurting
I want to see you cry
Don't run away and hide it from me
Let me hold you
Till your pain subsides

Lucy Verneze

Broken Dreams

I don't see a long road ahead of me
And my coffee cup, instead of been half full
It's always half empty

I got no home
I'm on the streets
An in the cold lonely morning
I'm awoken by somebodys cries an screams

All I've got left is my broken dreams

My past's erased from my memory
Anyone I knew before
Never cared enough to contact me

I've lost my friends
I've lost my family
My life's falling apart
It's coming loose at the seems

All I've got left is my broken dreams

The dreams I used to dream
When I was a kid
Never left my heart
But I never did them, I never lived

So now I cry into my glass
To try an make it full
I'm crying lost rivers an lost streams

All I've got left is my broken dreams

Lucy Vernezze

But I Am Me

I'm nowhere near perfect
I still act like i am nine
I don't know where im heading
But i'm sure i'll find my way in time! !
I still trip up on my laces
I still get ice cream round my face..
I still listen to cheesy pop, when all my friends are into Drum N Base
I dance like noones watching
An sing songs way out of time
I get drunk really easily on alchopops and cheap ol wine.
But i am me and you are you...
Everyones different so please be true! ! !
Don't pretend to be something you are not, cos that wont wash
You either like me or loath me
Love me or hate me
Ditch me or date me....
You decide

But i am me.

Lucy Vernezze

But I Love You

You make me mad
You make me mad
You make me mad

But i love you
I really do
Through and through

What can i say
You've took my heart
And sold my soul

You make me mad
You make me sad
But i love you

I can't believe i've found you
But have i lost you?
Surely i havent lost you
If i still love you?

You make me mad
You make me mad
But i love you

Lucy Vernezze

By Then

Don't be worried...
When i don't know your name
I am not really here
I'm no longer the same

I promise it's not you
You're not to blame
I still love you
But i wont know you
By then

My spirit will have left me
But i'll still be around
Just not where you think
My feet aren't on the ground

I promise it's not you
You're not to blame
I still love you
But i wont know you
By then

It kills me to think of you thinking
I no longer feel the same

I feel exactly the same
But i no longer answer to my name

You're not to blame
I still love you
But i wont know you
By then.

Lucy Vernezze

Can'T Beat Much Longer Without You

I'm feeling drowsy and i can't speak
My life is lousy and my heart is weak
I need to get away from this crazy street

Oh yeah and my heart can't beat much longer
Without you

I'm feeling drowsy and I'm really down
My life is lousy when you're not around
I need to get out of this crazy town

Oh yeah, and my heart can't beat much longer
Without you

When you called me the other night
And you asked me if I was alright
I was fighting back the tears
But I hoped you would not notice.

It's cos i'm missing you right now
But I knew I would somehow

Oh yeah and my heart can't beat much longer
Without you.

Lucy Vernezze

Captain Hook

You put me down
Then pick me up

You take the blame
Then pass the buck

If i'm Peter Pan
Then your Captain Hook
We're sat opposite ends of the table

You want money, fame and fortune
You think it's strange that i'll 'just' settle for love

You walk with you head hanging down
While i like to keep looking up

Your glass is half empty
But your intentions aren't sour

But it feels like your waiting
For the dark Witching Hour

My glass is half full
This is what i can't understand

Cos you always ask if you can take my hand
I'm always here

I hope you know
We're just opposite ends of the table

I'm Peter Pan
And your Captain Hook

Lucy Vernezze

Carousel

Around and round we go
Living on this Carousel
Some heated words got said last night
But i'm sorry
Can't you tell?

I'm sick of all the fighting
It must happen everyday
But no matter what i do
I can't tear myself away
Because you're mine

We argue
We cry
And say our goodbyes
But we find ourselves back again

Like two songbirds never to part
You'll always be in my heart
As soon as our paths crossed
We knew that we'd never be lost
As long as we have each other
Because you're mine

It's a never ending story
And you're beautiful to me
We've lived the same old situations
And know it comes with the territory
And it's just our way of life

And i need you
Because you're mine

And i'd never leave you
And i need you
Because you're mine

Lucy Vernezze

Couldn'T See The Wood For The Trees

I now know we're not best friends anymore
Tonight you proved it
Showing your selfish side
Yet again

No room for me
I guess it's time to see
What was right in front of my eyes
The respect you never gave me
The respect you never had

And you never gave it
For far too long
I couldn't give a shit
Best Friends
Yeah?
Do Best Friends
Not know what's legit

And i've lost all sense of feeling
For you
I know with you i'm out of site
Out of mind
An i've lost all sense of feeling
I always knew you we're one of a kind
One of a kind
That i don't want to know anymore

Cry The Pillow Dry

I missed you that summer, when you went away. An I've missed you every season
and still do to this day. I still can't believe it. I thought you would have stayed. I just want to know why? Every night I still cry, I cry the pillow dry.

It was a turn up for the books, when you walked into my life. I thought that was it. I thought you'd make me your wife. I've never felt love so real and so pure. Il never feel
that way again, I'd never felt it before. Obviously you never felt the same. If only we
could give us another try? Every night I still cry, I cry the pillow dry.

These words are not seeking for your sympathy. Not that you'll ever read them. You ran away, never to return. You couldn't even leave me a letter or drop me a line. I'm not
bitter, no I'm not bitter, it's fine. I would just care to know why? Every night I still cry, I cry the pillow dry.

For all I know now your living down in Timbuktu, you have a boat for the Nile. You stole
a camel from the zoo. You probably happily married with a wife a kid. I bet you've forgot my existence. But you'd lie that you did. And yet my love for you is still as high as the sky. Just have the decency to answer the question why? Every night i still cry, I cry the pillow dry, I cry the pillow dry.

Lucy Vernezze

Daydreamer

I'm a daydreamer
I dream away
Another dream
Another day

I can't quite cope with the real world
I would prefer

To take a nap
And slip into
Another world
Another view

I can't quite cope with the real world
I would prefer

What is the use in being
Unhappy with the truth
When you can just go to sleep
And revert back to your youth

Happy times
Happy days
Get rid of wrinkles
Get rid of greys

Can't quite cope with the real world
I would prefer
To dream
To daydream
To dream away

Lucy Vernezze

Don'T

Don't bite the hand that feeds you
Don't spit upon their grave
Don't take one another for granted
Noones born to be a slave

Don't hurt one anothers feelings
Just practise what you preach
Don't forget 'skies the limit' or
however far you can reach

Don't fall by the wayside
It's hard to get back on track
Once you've lost who you are
There's no more going back

Just don't do this and don't do that
and do not break these rules
These ones are important
and only broke by fools

Lucy Vernezze

Don'T Like Change

So here I am
Wasting ink on you again
Well this is the last time
I write a poem for you.

I bet you never expected
Me to be the one
To put the final nail in the coffin
To our friendship

You knew i loved you
You abused the fact
But there's only so much
Someone can take

You've hurt me so many times
You must have known
I've cried with worry, fear
And just from missing you

And now i wonder why i missed you? ?

Now the tables have turned..
Karma!

It's time for you to miss me
It's time for you to cry for a change
I'm all cried out

I've nothing to say apart from
Take care..
I don't begrudge you that

Lucy Vernezze

Don'T Listen

Anyone who puts you down
They're only jelous
You're beautiful
Don't let no one tell you different.

I wont let no one hurt you
I'm here for you..... Forever

Weak people try to be stronger
By putting strong people down
But the strong ones don't break
To the jokers and the clowns

So while there wasting away
Living in a gutter

You can always laugh at them
Cos you've got so much more Respect
Love
Life - that's for sure.

Lucy Vernezze

Don'T Take Things For Granted

What would you do if the water ran dry
And the sun could scold your face?

What would you do if everyone disappeared
And you felt so out of place?

What would you do if the music stopped playing
And you couldn't hear people sing?

What would you do if you lost your sight
And you couldn't see a thing?

What would you do if you lost your home
And got kicked out in the rain?

What would you do if no one would believe you
And they all thought you were insane?

All these questions you may think are irrelevant
But that's not true

Don't take these things for granted
For they could be coming true

Lucy Vernezze

Don'T Tar Me

Don't you dare tar me
With that same brush
I am nothing like her
Can't you see? ?

Don't you know me by now
I thought you knew me so well
Maybe i'm wrong
Am i that hard to read? ?

I would give you the world
Ten times over
I would steal you the stars
From the sky

I would die
For our endless devotion
Die for you
In the blink of an eye

So don't you dare tar me
With that same brush
She never gave you a second thought
Don't you see? ?

I'd give you it all
My body and soul
An i'd stumble and fall
You are everything
Everything to me! ! !

Lucy Vernezze

Dust To Dust

A river is just water
But a whole lot more

A fire is just a flame
But a whole lot more

My heart has got no name
What are you fighting for?
It's all true

A tornado is just wind
But a whole lot more

An old lady is trying to sing
With a voice so pure

A sparrow has broke her wing
And is laying on the floor
What do i do?

Pain erases pain
Death brings out the rain
Happiness can be in vain
What do we do?

My heart is made out of love but a whole lot more
I have told you the truth
It's all true
I'll leave it upto you

Lucy Vernezze

Earth, Wind And Fire

If I'm an actor in a play
You are my lines
If I'm a psychic
You can always read my mind

If i'm an artist
You're too beautiful to paint
You're my angel
You're my hero
You're my saint

If i'm an author
You too amazing to write
If i'm a potholer
You would always be my light
If i'm a poet
You would always be my words

Can you see
What i'm getting at
You're my everything

My Earth
My Wind
My Fire
My Water

Even Shakespeare Didn'T Learn How To Fly

I love you
But i hope you know that by now
I feel many things it's hard to sum them up
But this feeling just sorrounds me somehow

I'm trying my best to tell you
I want you to know so much
It's making me cry

Realistically all problems aside
Even Shakespeare didn't learn how to fly

Noone can put love into word
It's a magic noone can achieve
I can't explain this feeling to you
It's so tragic it's making me bleed

I live for you and care for you
More then you could ever know
But even the greatest writer can't put into words what we know

Realistically all problems aside
Even Shakespeare didn't learn how to fly

Not one word i have wrote is a lie
Even Shakespeare didn't learn how to fly

Lucy Vernezze

Fallen From The Stars

Why do you do it to yourself?
Smoke yourself off the shelf
Never to stand up again
You wouldn't care
You never did

Laziness is dying slowly
In a way, it really is
Not been bothered to present yourself
In a way that others see fit

You've done it
Your mothers worst dream
Fell at the roadside
Falling away at the seams

But it's still not too late to get away
It's still not too late
It can all wait
Don't let it ruin you
Don't say you've fallen from the stars

Lucy Vernezze

Fighting Gets Us Nowhere

Tone down the shouting
And we might be going somewhere

Don't resort to violence
Show me that you care!

Don't act like you want me
Be sure you really do!

What's the use in lying
If the outcome is untrue

When you have decided
Are you gonna let me know

I hope you know your own mind
Will you ever really know

Lucy Vernezze

First Love

She took your hand
Gave her heart to you
So true
She built her faith in you

She couldn't describe
Just how she felt
But her stomach fluttered
And her heart did melt

She followed you
Like a little lost pup
She gave and gave
You took, you took

But it wasn't long
Before you dashed her dreams
She cried and cried
And her eyes just streamed

You took her love
You took her faith
It'll take her years to get over you
And you never even told her why

You took and took
And knocked her down
Like a buffalo
Standing on a butterfly

And still years and years after
She still talks good of you
She says you were her first love
But you never saw it through

She followed you
Like a little lost pup
She gave and gave
And you took, you took! !

Lucy Vernezze

For Better/Worse

Where have you been all my life?
How come we've only just met
And feel how we feel for each other
You're someone i'll never forget

Where have you been all my life?
Now i have you i can't live without
Couldn't live if you were gone
Two hearts molded into one

Where have you been all my life
We're together now
So it's ok
I need you forever
Till death us do part from today

Lucy Vernezze

Forever I Will Love You

I will always love you
Your hand belongs in mine
Your thoughts are with me all the time
You're the best

Your laugh makes me laugh
Your smile makes me smile
Your cuddles are worth the while
Don't you see

I am yours eternally

Your the bestest friend i've ever had
I can't believe im honered enough
That your a big part of my life
Forever i will always love you

I am yours eternally.

Lucy Vernezze

Free Spirit

A free spirit is what she was
She drifted in the wind
No worries where she was travelling to
No worries where she'd been

She'd often get up in the night
Pack all her things and go
A traveler is what she was
No one to tell her 'No'

She never hurt nobody
She wouldn't harm a fly
You could often hear her singing
Her voice soft, like a velvet lullaby

She never showed her upset
She'd smile through her tears
A beautiful creature she was
She disappeared soon out of here

I often wonder where she is now
I often dream she's here
Or walking in the sunshine
Or skipping on a pier

I'm glad i met such beauty
Though i never knew her name
Perhaps she was an angel
Others often said the same

An angel looking out for others
To take to heaven soon
She makes me think it may not be too bad
Maybe we could dance up on moon

When i think of her i smile
And appreciate everything i have
Don't think about the rubbish things in life
The good always out-ways the bad.

Lucy Vernezze

Full Circle (Sticks And Stones)

Why do they do it
Drive you to that
Kill you before you live
Make you feel worthless
Will there conscience ever forgive

It must have been scary
Up there on your own
Knowing you werent going home
Cold, Shaking and Lonely
At least now they'll leave you alone

But it breaks my heart
To hear the stories
To see a waste of life
To see the tears
And feel the pain
And hear the mournful cries

Well i know you're going to heaven
You should be there by now
And i hope to see you again
My friend
But i want to see you now

So i'll cry for you
And i'll talk to you
And i'll wait to hear your call
And i'll get the Fucking Bastards
That may aswell have pushed you off the wall

Lucy Vernezze

Geisha Girl

She used to be a Maiko
And trained hard to be a Geisha Girl
When she had become what she'd dreamt of
She thought she had the world

Her destiny
Her everything
But was it all of that?
She got treated like garbage from all the men
Dressed in suits, ties and hats

Such a young girl
With such a big heart
And a clever head on her shoulders
But no appreciation for this
She needs to break the borders

She will carry on dreaming
She will reach for the stars
She has come so close
And has got so far
To give up now

She will get a standing ovation
Or an ovation at least
From the men who think they own her
But they will never know her true self
She is a quiet girl

She thought she had the world
It may not be that easy
But one day....
She will have her dream
If she just keeps going! !

You've got to just keep going! ! ! !

Lucy Vernezze

Heartache

I can feel your heartache
In your voice and in your eyes
And it makes me wanna cry
It makes me wanna cry

It may be your barrier
But for me it's no disguise
I can see the truth in your eyes
The truth in your eyes

You don't have to hide
Anything from me baby
I love you for who you are

I can't stop now i've started loving you
And i would die if you ever asked me to
Let me ease your pain
Your whole life through
Cos baby
That's all i wanna do

Lucy Vernezze

Heaven

The piano played its final tune
And strings got torn in two
And the old lady sang her final song
As her grand-daughter cried all way through

It's the end of a chapter
An era in time
The piano lid closes
The old lady shuts her eyes

And drifts to a land far away
The last generation ends
But doesn't go to waste
It's a sad story that happens all the time

Unfortunately.....

But one day this old lady will open her eyes, sing again
And the piano will mend it's strings and play again
And her grand-daughter will hear this song
And smile..... instead of cry
She'll smile again.

Heaven On A Plate

I hope to find you well, when i get back from outta space
You know that i still love you but i need to get away
My sanity is dying and my body's getting tired
My house isn't homely and my boss just had me fired
Instead of falling into place things are just falling apart
You know that i still need you but i have a heavy heart
My patience is getting thinner and my luck is running out
My breath is getting weaker and my livelihood's in doubt
Babe, i just need to get away
I need another planet i can stay
Stay with my thoughts and clear my head
Please myself how late i go to bed
Not have to worry about any bills, not have to check what time it is so i
remember to take my pills
Just please myself and not cry about which friend or family member
i have upset today
Yes i just need to get away
No alarm in the morning for me
I'll get up when i want and i'll have a cup of tea
Maybe this is what heaven is like
No worries, no selfishness, no anger or hate, no waiting around or rushing, no
traffic jams no broken plates, this other planet equals heaven for me

Lucy Vernezze

Herbal Tea

I need some inspiration
Sat here with this cup of herbal tea
Tell me what's your problem
Why do you always bother me?

I've told you it's all over
I need some space
What is your problem?
You crazy headcase

I need some TLC
Sat here with this cup of herbal tea
I could do with something stronger
But i'm all out.....

Out of vodka
Out of love
Fallen from heaven
With a bump

I need some diagnosis
Sat here with this bleeding herbal tea
Now because of you
I'm a crazy headcase too

I need to get my head back in the clouds
Fly away from here
Far away
And go back home

Lucy Vernezze

Hold My Hand

Hold my hand
Confront your fears
Never back down
Strive for what you want

Don't give in to fear
Don't be scared
You not alone
Search within' yourself
You'll be sure to find your home

Don't be dissalusioned by terror tempting fate
You can only have what you've got
Don't rise to the bate

It's all easier said then done
But at the end there's no intended pun

Lucy Vernezze

Hole In Me

If you left me
I'd be empty
You'd leave a hole in me

I couldn't get over
The fact that it's over
You'd leave a hole in me

That's my greatest fear
You leaving me here
You'd leave a hole in me

It would kill
The hole would never fill
You'd leave a hole in me

Lucy Vernezze

How About You

Did you know i was blind until i met you
Did you know i was lost and lonely too
Did you know i was homeless without you
At least my heart was! !
How about you?

Did you know the sky was blue
With no cloud in sight
As soon as i met you
The sun was so so bright
I'd only ever seen it rain before
What a miracle
That is how i felt! !
How about you?

I could stay by your side forever
I'd never need feel the rain again
This is how happy i am
Because of you
My friend
I love you.
How about you?

Lucy Vernezze

How I Wish I Was 20 Again And Knew What I Know Now

You come into life on a wing and a prayer
With absolutely no idea
You'll go through doubt and dreaded fear
You'll learn to love and love to live
You'll break some heart and hope they'll forgive

You'll want to smile through lonely times
No doubt there will be lonely times
You'll want to cry a rainfall in your life
But laugh a million and one times more

It's a crazy, mad, wild world
That's for sure

When you love someone small things
Don't seem to matter
You'll feel that you can reach the sky
Then you'll believe life's given you
The world on a platter
And you'll wonder why

But as much as you think about what, where and when
How come and why
You'll be older than you think
And you'll want to go back in time....

To today so just bear that in mind
And don't worry about the little things
And don't forget that those who mind don't matter
And those who matter don't mind! !

Lucy Vernezze

Howl With Me

Why are you so sad?
Why are you so numb?
Why are you crying so hard?

If there's anything i can say
Anything i can do
Say the word
An i'll give the world to you

I hate it when i can't stop your tears
I love seeing your smile
Laugh with me
Howl with me
Shut the world out for a while

Lucy Vernezze

Husband And Wife

It's gonna be hard
To get back on track
After all that we've been through! !

Some say we're not meant to be together
Gosh, if they only knew! !

We've practically been brought up together
And lived the same old life
I always knew you'd be my husband
I always dreamt i'd be your wife

So what's so different?
What has changed?
Have we grown apart?

I didn't think that could ever happen
I thought you owned my heart? ?

I wouldn't want to live without you
I couldn't even try
I thought about it late last night
And i cried my pillow dry! !

So don't think about this hastily
We need to talk it out
We vowed together, till death do us part
And I never had a doubt

Let's prove them wrong
We're meant to be
I love you more then life
You're made to be my husband
And i'm made to be your wife! ! !

Lucy Vernezze

I Can Live Without.....

I can live without my right arm
I don't need two

I can live without some fingers
I'll still have a few

I can live without my music
It might make me blue
But i can live without it
This i promise you

I can live without my paycheck
I've just got a few debts due

I can live without my iron
The creases will fall through

I can live without my senses
This is all true

I can live without my mobile
And my make-up too

Can't you see the only thing
That's not on this list is you

Lucy Vernezze

I Can't Take This Anymore

I am numb
Why are you away?
I've got no one to turn to
How long am i to live like this?
I can't take this anymore.

Those words i said
Were just words
And yes they were meant to hurt you
But i'd take them all away now if i could.

Walking on this cobbled street
Alone.
Desperately crying.
Hoping that it's you i meet
I can't take this anymore.

Will you please come back to me
I'm screaming
Can you hear me?
I didn't mean those rotten words i said
I can't take this anymore.

Are you doing this to hurt me?
Cos babe it's working
I now know what you mean to me
It's love.
And i can't take this anymore.

Lucy Vernezze

I Don'T Feel Sorry For You

Why are you always in the wrong place?
At the wrong time?
I don't feel sorry for you

You don't deserve what you've been through
But i don't feel sorry for you

Why are you bothered what i'm doing wrong
What does it matter to you?
I don't feel sorry for you
No, i don't feel sorry for you

The problem is you can't escape from yourself
And there's times when you want to
The problem is you can't just hide away
When that's all you want to do

Why are you always in the wrong place?
At the wrong time?
I don't feel sorry for you

You just have to grin and bare it
Till the end
Cos that's all that you can do

Why are you never here
By my side
Don't hide
Stay with me

Lucy Vernezze

I Love Someone More Than You

I never thought i could love somebody
More then i love you
But i do
I really do

Didn't think it possible
But i now know that it's true
Cos i do
I really do

And i'm sorry
If you want me to be sorry
Then sorry i shall be
But i know it in my heart
I can't change
What's part of me

I still love you
Just as much as i ever did
I still need you
More then you will know

I wouldn't
I couldn't
Let you go

But i love someone more then you

Lucy Vernezze

I Promise You

I'll be here
Through storm and rain
I'll go to hell and back again
I'll walk through fire
And sleep on a bed of nails

I promise you

I'd wade through water
I'd sell my soul
I'd get straight back up
After i fall
Just to make sure
I'll still be here for you

I promise you

I'll never break your loving heart
I'll never let you down
I'll never pull your world apart
I'll never sleep around
I'll be here as long as my heart beats
Then i'll wait in heaven till we meet
Again...

I promise you

Lucy Vernezze

I Will Try My Best

You ask me to write i'll write for you
You ask me to sing i'll sing for you
You ask me to dance and i'll dance for you
At least i'll try
But you know i've got two left feet

So if you ask me i will try
And if you tell me i will try even harder....

You tell me to cry i'll cry for you
You tell me to lie i'll lie for you
You tell me to die i'll die for you
At least i'll try

And will not stop till i get it right
If that's what makes you happy
I will try
My very best

Lucy Vernezze

I Wish You'D Just Tell Me What The Hell I Did Wrong

Stealing my car
I really don't care
But taking my heart
Is really not fare

I wish you'd just tell me what the hell i did wrong

Just packing your things
And walking away
Without saying why
Or walking my way

I wish you'd just tell me what the hell i did wrong

Cos this song is for you
Just for you
Have you ever done anything
Just for me
Now can you see
Through my eyes

I wish you'd just tell me what the hell i did wrong

Lucy Vernezze

Identifying Loneliness

Please don't do this
Don't leave me to mourn
Come back to me
Leave the knife alone

What's so bad
That we cannot work it out

Turn around into my arms
Why are you feeling low
Hold me like you need somewhere to go

Why don't i know
Just how you feel
Feelings are feelings
Real is real

If you go you will not go alone
Cos i'll be coming with you
And we'll fly to our next home

Lucy Vernezze

If You Were

If you were a beach, I'd be the sand
If you were an arm, I'd be the hand
If you were a hand, I'd be the glove
If you were a magician, I'd be the dove

If you were a bird, I'd be a feather
If you wanted sun, I'd be the weather
If you got in trouble, I'd help you out
If you ever need me, give me a shout

And i will be there for you
And i will give you what you need
And i will see you in my dreams
For eternity

I will be there to help you through
If you are sad, I'll be sad too
I just thought i'd tell you, to let you know
If you want me to follow, that's where i'll go

And i will be there for you
And i will give you what you need
And i will see you in my dreams
For eternity

Lucy Vernezze

I'll Be There For You Through Anything

If you ever want to fly
But your afraid to fall
I will be your wings

If you ever lose your voice
And it hurts to call
I will help you sing

If your ever in pain
And you want to cry
I will take away the sting

Cos i'll be the for you
Through anything

If your ever feeling lonely
And your shouting out for help
I will hear your call

If you ever lose your balance
And are about to tumble
I will break your fall

If your soul gets weak
And your feeling worthless
I will help you stand tall

Cos i'll be there for you
Through anything

Lucy Vernezze

It's Not Over Till The Fat Lady Sings

If i said i loved you would you hate me?
If i wired your jaw would you speak?
If i said i felt stronger then ever before
Would you pull me down an say i was weak?

Tell me what i ever did to upset you?
Did i pull on your broken heart-strings?
It's like im in the middle of a battle with you
But it's not over till the fat lady sings! !

I can tell you're busting a gut just to hurt me
But i know there aint no master plan
You'd have to be clever to create one of those
I'll never eat from the palm of your hands.

I wouldn't mind if you just kept me posted
or told me what i ever did?
All i ever did wrong was to fall for you
But i fell back out of that one quick.

Still stick to your guns if you want to
Im sure you'll let this event run it's course
Just don't come to me when your crying and sorry
Cos you wont get my sympathy vote! !

So why don't you stop been pathetic
And leave me well alone
No more texting, no more ringing cos if you do
I will not answer the phone.

So if i said i loved you would you hate me?
If i wired your jaw wud you speak?
If i said i felt stronger then ever before
Oh i do, guess it's you that is weak...

Lucy Vernezze

It's What You Are To Me

A heartfelt word
A sad goodbye
To hear you laugh
To see you cry

It all adds up
Its what you are to me

A hold of hands
A kiss to cheek
Still makes my heart
Skip that beat

It all adds up
Its what you are to me

Without you
I'd be lost
But my mind doesn't reach that far
You're my one for life
You're my guiding star

It all adds up
It's what you are to me
It's what you are to me

To memorise your sentences
To capture every word
To have every smile you've ever given me in my heart
I couldn't bare to be apart

It all adds up
It's what you are to me

Lucy Vernezze

Just When.....

Just when you thought you had reached the top
Just when you thought the end was near

Just when you hear that beating heart
The one that is always near

Just when you see the finishing line
In the corner of your eye

Just when you think it's time to meet
It's time to say goodbye

Just when you can call a truce
Just when you can let it loose

Just when you can understand
Just when will you hold my hand?

The castles blowing in the wind
The sand flows grain by grain

Just when will you realise
The shadow that's in pain

The shadow meaning you
The sand meaning me

If only you will let me help
I'm here for you
You'll see

Lucy Vernezze

Kill Two Birds With One Stone

You're standing on the edge of realm
Why are you looking down?
I'm feeling really scared for you
Your feet don't touch the ground

My legs are shaking
Your heart is weak
My life will empty
If you don't speak

How do you manage not to move?
You haven't turned slightly since I've been here

Why don't you look up above
And quickly walk my way?
Just turn around to me
I need you just to stay

Block the past
Switch the light on
Always look ahead
I will never leave your side
No matter what I've said

If you jump
I jump too
If you die
I've died for you

Two peas in a pod
That is me and you
Me and You

Lucy Vernezze

Last Breath

Don't take it now
Your last breath
Wondering how
Your last breath
All that it means
And all that it does
Your last breath

Fitting everything in
Just before you take
Your last breath
Want to take mine
Before you've taken yours
Your last breath
Shutting your already opened doors
Your last breath

Don't do it yet
There's plenty to do
If you take yours
I'll take mine too
Your last breath
Please don't
Your not ready yet
Your very last breath

Lucy Vernezze

Laying In My Mothers Arms

You brought me up
You kept me strong
You gave me faith
Gave me a place to belong

When i would cry
You held me tight
You have never let me down

If i didn't have you
Heaven knows what i'd do
I would be a different me.
An you'd make me believe
I had all that i need, in you
Laying in my mothers arms

You gave me time
Yet gave me space to grow
You fed, clothed, loved me
And plenty more

I have nothing but respect for you
I love you always and always will
There is nothing i wouldn't do for you

If i didn't have you
Heaven knows what i'd do
I would be a different me.
An you'd make me believe
I had all that i need, in you
Laying in my mothers arms

I can never repay you, for all that you've done for me
All i can do is give you love, care and dignity
This love is forever....
Unconditional

How i love laying in my mothers arms
I know i'm safe

Laying in my mothers arms.

Lucy Vernezze

Lets Dance, Laugh And Love

If i danced would you join me?
If i sing, shall we duet?
If i'm sad would you hold me?
Would you share my final breath?

If i cry would you wipe away my tears?
All my memories of us live on
As we laugh uncontrollably, through the years

Could i die in your arms?
And live on in your heart?
And everytime something reminds you of me
Would you smile?

You're forever in my life now
No matter what
I breathe you
I love you

So share my life
As i share yours
And lets live on
Happy as we do.

You're all i know
You're all i need
I am always here for you.

Lucy Vernezze

Meaning Of Life

Tell me what you mean to me
And I'll do the same for you
Tell me that you'll help me reach
The sun
The stars
The moon

I'll get you up
If you fall back down
Not only if i have to
It's not pointless to love
It's hurtful not to

I'd cry for the millions
That have loved and lost
Praying that i'm not the last to go
I'd happily wait for you in heaven
Yes i'd be impacient
But i'd hate to see you leave first

What has got me around to this conversation
Maybe it's the thought of getting old
I don't yet now the meaning of life
Not sure really if i'd like to
Just don't want to be the last to go

Lucy Vernezze

Missing You

Hey grandma
I know your there
Sometimes I can sense you
I hope you know that I still care
And remember all the times we went through

I've dealt with the fact that I'll miss you forever
Or as long as my lifetime lasts
But I know that someday we'll meet again
And it's a fact, time does travel fast

As it only seems like yesterday
When I'd come to your house for tea
An I remember all the Christmases we shared
Now it'll never be the same for me

I hate the way it ended
Because I never got to say goodbye
But in a hard, weird sense it was good
Because I would have only cried

It's fair to say
I think of you everyday
But if I think for too long, I end up in tears
You were a strong woman, with a strong character
And I want to thank you for the years

Thank you for the memories
You'll never die in my head
I loved the way you were outspoken
And what you thought was what you said

I love you grandma, I always will
And of you, I am a big fan
I love you grandma, I always will
An I'm proud you were my gran

Lucy Vernezze

My Guiding Star

You've been there through the highs
And there through the lows

You know things about me
That noone else knows

I'd trust you with my life
You'd guard me with your smile

When i look back on life
I'll know it's all been worthwhile

Because of this
Because of you
Because of all that we've been through
Because of us
And how we are
You're my guiding star
My guiding star

I couldn't ask for more
Then what you've given me

You've opened up my heart
and made me feel free

There's nowhere else i'd rather go
Nothing else i'd rather see

Then been there with you
And seeing you smile back at me
And i want to thank you

Because of this
Because of you
Because of all that we've been through
Because of us
And how we are
You're my guiding star

My guiding star

Lucy Vernezze

My Life

Open every door
Let my guards down
Now i'm free
I've got feelings deep inside
I never knew i had

You're my whisper
Your'e my cry
You're every feeling deep inside
You're my anger
You're my fear
You're my love, my heart, my dear
My life

I can sense a tingle down my spine
A sharpened taste of deep red wine
Cos what's the sense of being free
If you're not there to share with me

Every laugh and every cry
A thoughtful word
All truth, no lie
For you're forever in my heart
and that is all that matters

The end

Lucy Vernezze

My Poem

If i go before you
I'll see you at the gate
But please don't let grief hurt you
It's just a lengthy wait

I'll keep you safe forver
And i'll watch over you
I promise that i'll keep you safe in everything you do

So wipe away your tears now
Smile, it's just me
I haven't gone anywhere
I'm just not here to see

Remember if you're missing me
I'll be missing you
And i love you more then you'll ever know, or ever say or do

So remember if i go before you
I'll see you at the gate
Just keep on smiling when im gone
I suppose it's all just fate

Lucy Vernezze

My Poor Old Heart

Sometimes i can hear my heart breaking
And i can always feel it
Sometimes i don't want to wake up
Cos i know i'll never heal it

Sometimes on a lovely day
When the sky is baby blue
I just want to hide away
Cos i'm nothing without you

Sometimes i wish someone
Would just come along and steal it
Take it away
Cos at the minute i just cannot deal with it

I'm best off without it
At least it wont ache anymore
And i am sure
Someone could take better care of it then me

Lucy Vernezze

My Shadow

Hey there shadow
What's it feel like to be the shadow of me?

Following me around
Head facing down

Got no way of saying
Exactly how you're feeling

In the dark, all the time
What's on your mind?

The shadow
Shadow of me

You're the only one
Who does exactly as i do

Capture every movement
Memorise my fear

You're forever here
By my side

The shadow
Shadow of me

Lucy Vernezze

Naked Truths

Stripping me of naked truths
The promise i desire
Working it out in my mind
Is like sleeping on barbed wire

The only thing i want, can come from you
You're my only hope, to pull me through

I'm leaving it upto you
I'm leaving it upto you
I prey to god you know what to do
Do you?

I'm walking in the dark, sleeping in sunshine
I'm forward in my thoughts
But backwards in my mind
I'm laying with a gun
And laying straight
If this wayward bullet strays
It'll kill the wait

The only thing i want, can come from you
You're my only hope to pull me through

I'm leaving it upto you
I'm leaving it upto you
I prey to god you know what to do
Do you?
Do you?

My battered heart's been bruised
My soul erased
All because dust has settled
On my very distant grave
I don't know what to do
So till then i'll sleep.
An i trust
So i'm gonna leave it upto you

The only thing i want, can come from you
You're my only hope to pull me through

I'm leaving it upto you
I'm leaving it upto you
I prey to god you know what to do
Do you?
Do you?
Do you?

Lucy Vernezze

Need

Season to season
Day to day
Can't believe you've gone
Away

When will you come back
And hold me
That's all i ever want
Need

Playing the field
Reaching the goal
Smiling faces
I'm coming home

When will you come back
And kiss me
That's all i ever want
Need

I can't pretend i'm unhurt
Acting was never my strength
I'm broken
Unspoken

When will you come back
And love me
That's all i ever want
Need

Is you

Lucy Vernezze

Never Know How Much

You're my Sun
You're my Moon
You're my Star

You're my Bus
You're my Plane
You're my Car

You're my Sea
You're my Forest
You're my Sand

Do you know what i'm saying?
Do you understand?

You're the air that i breath
You're my Heart
You're the one i've always needed from the start
You're the one i can't bare to be apart from

Do you know what i'm saying?
Do you understand?

I feel i can fly
When you hold my hand

You're my World

Lucy Vernezze

No More

Your laughter
Isn't funny
Doesn't make me smile
Anymore

You treat me like dirt
You've stepped on
In your new shoes
So you smiling
Doesn't make me the image
Anymore

I end up in tears
When you laugh
I'd rather laugh
When you cry
You don't make my heart skip a beat
Anymore

It's well and truly gone
Overboard
So far in the distance
That you'll never see my shadow
Again

There's no point in
'Loving you'
Anymore

Lucy Vernezze

No More Tears

I've dried up
All my tears
There's no more left
Inside me

Now i only cry from happiness
Cos of you

I've dried up
All my tears
I'm free
Of all the rain

Now i only cry from happiness
Cos of you

It's such a waste
Of energy
Crying over milk
Now i don't need to thanks to you

Now i only cry from happiness
Cos of you

Lucy Vernezze

Nothing Lasts Forever

I don't mean to depress you
I'd never make you cry
But i would just like to explain
How i'd like to say goodbye

I'd rather it be in your arms
As peaceful night lights glow
I'd love it to be christmas time
When the ground is layered with snow

I'd gently kiss you on the cheek
An give you my biggest hug
I know my tears would start to flow
An it'd give my heart a tug

The greatest fear in me
Would be leaving you alone
I'd miss you so severly
But your heart is still my home

I hope this is a lifetime away
Cos we've still got more to give
But i'd just like you to know
You gave me life to live.

Lucy Vernezze

Now You'Re Gone

Hey you,
How you doing? ?
It's been a while
Far too long for me
We've grown up together me and you
Havent we? ?

It had been on it's way for a while
But i didn't want to believe it
So i placed it in the back of my head

I love you
I always will
Always did
But i'm never going to see you again
So it's hurting
Deeply

And i just hope you knew how much i cared
I might not have always shown it
But it was always true
I always did
Always have
Always will
Love you

It's strange you're not here
All i've got left is memories
I hate the thought of you been on your own
Dont think you will be
But i'm lost
Now you're gone

Lucy Vernezze

One Day Mum

Mum,
I mite not always call you
Whenever you want to know
Where i am and what i'm doing
And where i'm gonna go

But i don't do it on a purpose
I don't want you to worry all the time
I'm just chilling with my mates
Maybe sharing a bottle of wine

Maybe one day
I hope i can make you really proud of me
I might never tell you i'm glad you're my mum
But i always am and always will be

You raised me
Fed me
Clothed me
And help me out when i've reached the brink
I can't list everything you've done for me
Cos i'd surely run out of ink

I know you worry
But in a way, i'm kinda glad you do
And i know that that sounds selfish
But i know that if you worry you still care too

I know i don't always show it
But I love you more then i can say
We've got a bond
That will last forever
An noone could take away

Thank you

Lucy Vernezze

Only Take So Much

Do you think i appreciate you treating me like that?
No, I don't at all?
I'm sick of been took for granted, sick of been used.
Is this the time you're gonna let me fall?

My heart's breaking slowly, but you don't care.
I can tell, looking in your eyes.
It's just an empty stare!

What have i done, but just loved you?
Even though the candle has flickered near.
I'll always hold you dear.
But i'm so sick of been used

Lucy Vernezze

Pleading

Picking up the pieces
Of the mess i left behind
The mess that is my life

Broken promises
Painful memories
Of all the good times that we shared

Does it all mean nothing now?
Have i thrown my life away in an instant?
My life i've thrown away
Being you?

I was young
I was naive
I didn't know what i was leaving
But now i do
Your on my mind
All year though

Do you know what you mean to me?
Do you know what you are to me?
Do you know there could never be..... another?

Do you see this look on my face?
It is only you who could erase
This expression on my face
It's so true
It's only ever been you

Please..
I'm on my knees
Please..
Give it some thought
I only want one more chance
This are my last resort

Do you know what you mean to me?
Do you know what you are to me?

Do you know there could never be..... another?

Do you see this look on my face?

It is only you who could erase

This expression on my face

It's so true

It's only ever been you...

Lucy Vernezze

Please Save A Seat For Me

Oh gosh how i wish it was yesturday
Before all this came true
I always assumed i would be me first
Never for one second could it be you

I take back all the fighting
All the bitterness and lies
I wish i hadn't have been so childish
Maybe this will make me wise

Oh how i pray you knew i loved you
The measurement of love's so high
Now memories is all i have of you
And that star up in the sky

Please god i hope you're not in pain now
I hope you've gained a happy heart
I'm sorry i couldn't help you with that
Maybe at the very start

Time is all so precious
And is often an after-thought
It's true
All i want to do now is prove my love to you

But it's too late
To trace back time
My heart is yours
And yours was mine

Can i just give a little advise
You don't know what you have until it's gone
All the pointless arguments are very soon after gone
Just remember who you love

Always remember how to care
Cos without the ones you love
Your heart is empty
Your heart is bare

Farewell
I love you
I always will

Please save a seat for me.

Lucy Vernezze

Please Stay

If you're here today and still tomorrow don't feel like you have to stay. Cos you already hold a place in my heart, so you'll be with me anyway.

You don't have to act excited, when i ask if we can go away? But please don't go without me, I will really dread that day.

I just know someone will take you, be it when I'm old and grey. You'll trade me in for a younger model, that's the usual way.

We've been together now it seems forever. But forever in the nicest way, I really do love you, I hope you feel the same way.

I hope you know you can count on me, I always have a place for your head to lay. That's if your still here tomorrow, but don't feel like you've got to stay.

Cos you'll always be in my heart, and tomorrow's just another day. But you'll be with me forever now, even if you go away.

This relationship was meant to be, your the key to my everything, Your my sidekick, Your my soulmate and yes Your my second wing.

There's no one on this planet that makes me smile as wide as you, Your my happily ever after, I hope you feel that too.

So when our time is over, right when the curtains fall, when we've said our final words and the writings on the wall, i'll look to you and kiss your forehead and promise to the stars and the the Milky Way. I couldn't have lived that life without you.. Please promise me you'll stay.

Lucy Vernezze

Please.... I Beg You

So the bees fly
And the birds nest
And the ants run
But what do i do

I just sit here
All day
And think of you
What do you do?

You fly
You run
You dance
You laugh

Have fun
While i sit
And cry
For you

I love you
Always have
Always need you
Please believe me

I'd never leave
So don't walk out
Don't distroy my world
Please, i'm on my knees
While writing this! ! !

Lucy Vernezze

Rainbow

We're good together

You and i

Lets chase those rainbows

In the sky

Lets place our dreams upon the clouds

And dance around the sun

Just like a maypole.

We'll sing together in harmony

And laugh as long as we know how to

And we'll make a vow to go to heaven together

Just so we never leave each other

I can't bare to be apart from you.

So lets chase those rainbows in the sky

And sing a duet to the stars

You can dance with jupiter

And i will dance with mars.

Without you now

I'm no longer me

I'm standing high above.

So this is what it feels like

This is what people talk about

I can't believe it's really here

I've fallen deep in love

Lucy Vernezze

Real Friendship = Love = Life

As my feet disappear in the sand
and my pulse starts to race a little more.
My body starts sinking in the ground
and I pray that god will open one more door..
and i feel my time is running out
As i scream and as i shout
and i fear this is the end of this journey
and sounds turn to muffling
As i try to keep my head above it all
I start to fall...
Then i get whisked away
By an angel in disguise
Someone i recognise
How could i not?
I thought i'd never smile again
But then i see my faithful friend.
You get me through...
Do you know that i owe my life to you?

You always know how to make me smile when i feel like crying
You can always make me laugh whenever i feel blue
You can always get me dancing even if i don't want to
Do you know that i owe my life to you?
Do you know that i owe my life to you?

Red Bull

Red Bull

They say that it gives you wings

But you give me wings

Baby

You give me wings

I could fly

With just one kiss

One kiss from you

I could fly

I swear

I've never in my life

Felt as free as i do here

My life with you is joyous

I love you

No more fear

Red Bull

They say that it gives you wings

But you give me wings

Baby

You give me wings

Resting On The Breeze

I don't disagree with the future
I won't hide away from the past
I'll never pretend to be something I'm not
This time will have to last

For how many years we can muster
For however far we can reach
Life must not be wasted
We must practise what we preach

I can't ever imagine
Waking up without a home
Walking to the shelters
Of the poor and the homeless swarm

So I must take it upon my shoulders
To help the needy grow
Yes I'm one of the lucky ones
I've never realised it much before

Yes I'll reach out my hand
And I'll help with all my strength
To get you to where I am now
This life is not for lent

Maybe one day we can make it
Maybe we'll all live in peace
But until then I will not stop
Till I'm resting on the breeze

Lucy Vernezze

Romeo And Juliet

Standing, watching, grieving, waiting
For the final hour
The countdown is upon us
The lonely april shower

The fumes are building up
Breathing through intoxicating times
All the appoligies are pouring out
For all those pointless crimes

I forgive you for everything
You've ever said or done
At the end of all this pain
My heart you have won

I cherish you
I need you
Don't know how to live
Without you

Take me with you
If you have to go
Lets commit like
Romeo and Juliet

I love you more
Then you will ever know

Lucy Vernezze

Scared Of Love/Lust?

It isn't love
It can't be
Are you in denial?

Are you sure just what you want?
Do you want to wait a while?

Are you afraid
This could be it
And true love never dies

I know your scared
But i am too
I can see it in your eyes

It isn't love
It can't be
Are you even sure?

What's the point in giving up
What we've been fighting for

I'd really hate to end this now
Love?
I think i really do

But i'm not prepared to go through with this
If you don't feel this way too

It isn't love
It can't be
I really think it could
I love you more then life itself
I really think we should

Did we really last all this time
It didn't end in tears
I love you
And i love you too

Thank you for the years

Lucy Vernezze

Sidekick

Who lifts me up when i am down
Who turns my cry into a laugh
Who's always there to back me up
And be my sidekick when i'm been daft

Who knows exactly what i'm thinking
Without me even saying a word
And knows what my reply is
Even though you've not quite heard

Those deep-ass conversations
General stories of everyday
Our thoughts about the future
And how our lives will lay

Those strings you know to pull
And those lines you never cross
My friend i love you so much
Without you i'd be lost

Them random nights that turn to days
Those drunken long walks home
Those lazy mornings after
And unknown pictures on your phones

The dreams we wont grow out of
The stars we wish would shine
Laughter lives on in memories
And tears dry up in time

I've not known you forever
But this isn't a test
Friendship isn't about who you've known the longest
It's about who came and never left

Lucy Vernezze

Simplicity

You were the last friend i ever made
But the bestest
The very bestest

Your heart sang me a serenade
And i kept it
Of course i kept it

Now i may have gone
But you're still my number one
And i don't regret it
How could i regret it?
I love you

So now i may be six-foot under
But i hope you know you made my life a wonder

I cannot believe i meant something to you
If i could still smile i would
An in spirit i do

I'll watch over you
And make you safe
And happy
Don't worry
I'm still here

I just want to thank you
For what you give to me
A happy
Lovable life
In simplicity

Lucy Vernezze

Sleeping On The Couch Again

Stumbling home
It's late again
Where have you really been

You've been with her havent you
I've heard it before
I've seen

Well don't think you're laying next to me
The couch is yours tonight
We'll talk about this in the morning
Go to sleep, you cheat
Goodnight

Lucy Vernezze

Something I Hope You'Re Not

You break my heart so easy
Do you feel no guilt at all
All these years
My minds been on you
But you get jelous if i stand tall

I could cry a river
Just thinking
Of what you make me feel
Ever so bad and ever so sad
I can't believe it's real.

All i've ever done is loved you
And treat you like a queen
You're my friend
So why pretend your
Someone you've never been?

Lucy Vernezze

Sometimes

Sometimes i want to laugh
Sometimes i want to cry
Sometimes i want to live
Sometimes i want to die
Sometimes i want to run
Sometimes i want to hide
But it's not only sometimes i want you here
I always want you here by my side

Sometimes i want to sing
Sometimes i want to shout
Sometimes i know the answer
Sometimes i'm in doubt
Sometimes i'm happy
Sometimes i'm sad
But it's not only sometimes i need you
I always need you

Sometimes i want to win
Sometimes i want to lose
Sometimes i listen to music
Sometimes i watch the news
Sometimes i make mistakes
Sometimes my heart aches
But it's not only sometimes i love you
I always love you!

Lucy Vernezze

Spirits Live On

If i was to close my eyes now, for sleeping sake
And they never re-opened and i did not wake
Would you miss me?
Would you cry?
Would you keep the memories and never let them die?

Everyone has memories, both bad and good
Sometimes the bad ones are misunderstood
As i drift away now into calm slow dunes
I hope you know how much i love you
As the battles beat me, i have given up

Promise not to let your life dreams wake up
Soldier on now, be strong but tame
Don't let life beat you, don't lose this game
The world can disappoint you, it will let you down
It can break your heart, make you feel a clown

You will learn how certain people tick
It will bruise you ego, it will make you sick
You'll cry, you'll stumble but you wont fade away..
You've got a date with your name on, that will be your day..
Your day for victory, your day will come..

And your greatest fan will be your mum
I'll look down on you, i'll be right there
I'll kiss you, hold you and be so proud
I'll be claping so hard, though it wont be loud
I love you sweetheart I'll never truly leave

I just wont be there for you to see
Don't feel alone now, I've just gone to sleep
My heart is your forever to keep
I'll forever be watching over you
And hear everything you say and see everything you do

And there's no need to be afraid of death
For when you close your eyes
When your old and grey

I will be there to greet you
I will guide your way

So i'll leave it there just for now
I hope you know i'm so proud of you
I'll watch over you now
I'll try my best to keep you safe of scum as you'll always be my daughter and i'll
always be your mum

Stereotype

The Goth
The Chav
The Mosher
The Punk

What are you?
Where are you?
How do you choose?

The Wino
The Freak
The Buisnessman
The Gay One

Sometimes you can't choose
It chooses you.

The gypsy
The Tramp
The Theif

Who are you?
Why do we have catagories?
How do you fall into them?
Which am i?
Is it for you to decide or me?

Lucy Vernezze

Strength Of A Lady

You've been through so much trauma
And you still stand strong
You're one of gods better people
Your soul sings a song

Your eyes tell a story
Of the paths you have tread
But you're not as i'd put it
Very easily led

I've just started to notice
How an angel would be
As my heart feels warmer
When you glance over at me

I could never imagine
Having to cope with your pain
Yet you're still living life
Striving for something to gain

You don't give up easy
An i admire that in you
Through you weary eyes
You must see a clear view

When your time on earth is up
There's not a question in mind
Heaven holds a place for you
That is reserved in time

Lucy Vernezze

Strong Friendships Never Sink

Okay so I admit it
I may be too loud at times.
Sometimes I may repeat myself a little
Because I didn't think you've heard me
Or I have forgotten that I've already told you before.
I may twang your wires and get upset too easy
I may make your brew too milky
Or burn your toast quite bad.
I may pester your life out
Because I want to know the reasons that you're feeling sad.
I may get bladdered far too easy
And fall down way too much.
I may overhear things
Put 2 and 2 together and get 100.
All these things add up to me.
They're the quirky annoying things that you probably dislike about me
But let me tell you something
I would never purposely let you down
Mean to upset you
Hurt you in anyway.
I'll always have your back
No matter how big or little the baddies are.
As I vow I will always be here
Whenever you need me
Or just want to chat.
Because hand on my heart
I take pride in my friendships
And I would never want them to sink.
For every friendship that ever sank, I would die a little inside

Love you muchely xxx

Lucy Vernezze

Such A Waste Of Life

You drank your last drop
And hit the floor running
It's been coming for a long time
What a waste of life

You left the world
Not even knowing your own name
What a shame
Banished, all for a glass of wine

I saw your picture in the paper
I witnessed the road you walked on, taper
The song you sang played hours later
What a waste of life

I couldn't ever imagine
Feeling what you felt
Heart left cold
Cards undealt

Wish i'd been there
In your darkest hour
Rain, a shower
It's too late

Sorry
Would have been there
If i'd known
Such a waste of life!

Lucy Vernezze

Tell Me

You're good with words
I'll give you that
Lies just roll off your tongue

But there's only so much i can handle
I thought i knew you
But i must've been wrong

One time you'll tell me you love me
Then the next time you just walk on by
Do you know that you really affect me?
It just seems like you're living a lie

Do you really think we can work on this?
Or is it like fighting a war?
Tell me now and i will put my life on hold
Or if not just let me go! !

Lucy Vernezze

Thank You

Dya know you're the best thing
That's ever happened in my life
The reason that i breath
The reason that i write

You're my smile
You're my laugh
You're my guiding light
I know i'm at home
When i'm with you

I couldn't breath without you
I know that for sure
I wouldn't last two minutes
I've felt that fear before

I just want to say thank you
For being you
You're the best

Lucy Vernezze

Thank You Mum

I know I've give you restless nights
When you didn't get much sleep
I know I've driven you crazy
When I threw good food that you gave me to eat

I know I emptied all my toys
When you'd just tidied up
And you dressed me in nice new clothes
So then I rolled around in muck

You changed my dirty nappies
When they made daddy gip
You took me with you everywhere
Even on the supermarket trip

You helped me learn and watched me grow
You wiped away my tears
You picked me up when I fell down
You'd comfort me of my fears

You taught me respect and manors
Thank you, sorry and please
Whenever I am in your arms
I always feel at ease

You taught me to be strong ☐
And to stand up for myself
All you've ever wanted for me is happiness
And good health

I cannot thank you enough
Or ever give back as much as you've given me
All I can do now is look after you
When you get elderly

I'll only ever be a phone call away
Whenever you need me
I'll wash your dirty clothes
And i'll cook your tea

I'll take you to the supermarket to do your Friday shop
I'll even dust and Hoover
If you think I'll be much cop

I'll give back your time, I promise
For all the time and effort you've put into me
It might not seem like I appreciate it much
But I do
Sincerely

I love you

Thank you doesn't seem to cover much
But I'll look after you now for a change
Put your feet up
You deserve it
Well, at least once they bring down the retirement age

Lucy Vernezze

Thanks

Thank you,
Thanks for looking after me
Thanks for having someone to look upto and admire
Thanks for giving me time
Thanks for giving me space
Thanks for giving me advice
Thanks for making me laugh
Thanks for making me cry
Thanks for making me sing
Thanks for making me sigh
Thanks for giving me everything you can
Thank you

Lucy Vernezze

Thats All I Know

I can't explain
How i feel about you
You're my hero
You're the one who pulls me through

I can't explain
Just quite how much i love you
It's all here in my heart
I just need to get it across to you

You are all i believe in
The faith that i'm needing
The hope i can see
The blood that i bleed

But i
But i... always need you
You're all that i need
To pull me through

I can't laugh till you laugh
Cry till you cry
It's all a system
I must abide

I love you
That's all i know

Lucy Vernezze

The Clown In The Circus

What can i say..
I'm just the clown
Someone to cheer you up
And laugh at when you're down

That's my part
My role in this game of life...
When the odds are stacked again you
I'll role the dice

I'm a lover not a fighter
I'd rather laugh then cry
I don't look further then immortality
And i don't ask questions why

I'm just the clown
I'm just a clown
But what happens when the one who makes you smile
Is the one who's feeling down?

I can't lose my will to live
Or my part in this play
Who will be the one
To take these clouds away

What can i say...
I'm just a clown
I want to cheer you up
I don't want to see you frown

Lifes too short
In this theatre play
but i can't always be the one that's gonna make your day...
But i will try

Just remember at some point in our lives
We all need time
An a shoulder to lean on when we cry
Love from the clown xx

Lucy Vernezze

The Game Of Life

Stolen moments
Hidden treasures
Engraved on my mind...

What a feeling
What a memory
Engulfs the hands of time

I can't accept that this is it
I can't believe that it's all over

Something so strong
Something so powerful
Can leave you feeling so low

I feel so empty
I feel so hopeless
I want to help but I know I can't

The only escape
I know is possible
Is now dreaming of you

I could cry a million rivers
An I could weep a thousand streams
And I can drink myself sober
Till the sunlight beams...
Through my window
Peaking through
Another day
Without you

Life will never ever be the same
As you learn to love
You soon learn
To hate the game

Lucy Vernezze

The Nights Horrendous

The sky did thunder
The lightning was so bright
The rain came crashing
On that fateful night

The wind was howling
Just like the wolves were too
The nights horrendous
Without you

The candles flicker
The coles on the fire spark
The ice is cracking
It's getting all so dark

The clouds are shaking
The shadows follow through
The nights horrendous
Without you

The joker laughs
The queen of hearts cries
The magpie collects
His silver lies

The sleets on its way
The frost will be near too
The night's horrendous
Without you

Lucy Vernezze

The Pursuit Of Happiness

A million of Places
A million of people
A million traffic jams

All of these things
That lead to you
Holding onto my hand

I could kiss you
I could hold you anytime
You make me smile so wide

I can't believe i've met you
A million times i've cried
Of happiness

Lucy Vernezze

The Sister I Never Had

You are there for me
To hold me close
You know when it's right
To let me go

You never let me down
You always stay around
You always fight my corner
And keep my feet firmly on the ground

You are my star
You light my sky
And put that twinkle in my eye
You take me places
I've never been before
I've seen lots of things i've never seen before
You are my star

I may be taller than you
But that doesn't mean a thing
I look right up to you
To me you're everything

You're the sister i never had
You don't leave when the going's bad
I'll always need you in my life
I love you

I hope you know
All the things you do for me
I appreciate them all, i really do
I hope you know i'd do the same for you

You are my star
You light my sky
And put that twinkle in my eye
You take me places i've never been before
I've seen things i've never seen before
You are my star

Lucy Vernezze

The Story Of My Life

I was only joking
When i said i didn't love you
Of course i still love you
I always have! !

In fact it kills me to think
You might've ever thought that
I wasn't telling the truth....
It's never been that bad

Please don't ever believe
That i couldn't love you
I couldn't ever not love you
Even if i tried

It was a cruel jibe
I didn't think you'd care
I didn't think that you'd react like you did
I already explained i need you more then air? ?

I don't regret meeting you
It was the best day of my life
I tell all my friends about it
Day after day

I'm sure they get sick of it
But i could not give a shit
It's the story of my life
The story of my life

Lucy Vernezze

The Time Is Upon Me

Is this the end?
I sense it coming
Time's crept upon me
All the memories flashing by

I don't want to leave you
I don't want to die

What will happen after this
The uncertainty terrifies me
The sun now defeats me
The wind will now beat me

I don't want to leave you
I don't want to die

Leaving everything i've ever gained
Everyone i love behind
My time is up
My time to cry

I just don't want to leave you
I don't want to die

But i'm so thankful i know you
So greatful i love you
So greatful you love me too
And i will sleep until we meet again

i just don't want to leave you
I don't want to die.

Lucy Vernezze

Their Goes My Heart

It's raining
I'm cold
But through the window
It's so calm
And warm
Alone
Their goes my heart

I don't know
Where you went
I don't know
Why you've gone
Alone
Not really home anymore
Their goes my heart

So is that what you want?
Me to sit and dwell
On the past
What we had
Was it really that bad
To up and leave
Their goes my heart

Do you want me
To sit here
And cry
Till i die
Did you love me
That much
There goes my heart

Lucy Vernezze

Things Get Better

Misty days, bleak beginnings, early wake up calls
I hated those depressing winters
No writing was on the walls
I never believed i'd find someone would know my worth
Then along you came from nowhere, you complete my earth

Now these horrid dark bland mornings aren't as bad
Yes, there still depressing, but i wont be sad
I know soon enough the summer will come through
And my day will end up perfect
because i'm coming home to you

Shadows will fall on everyone at some point in life
You can't truly know happiness
If you've never been through strife
I want you to be my husband
And want to be your wife
My days now are all so clear

:)

Lucy Vernezze

This Can Only Be One Thing.....

Can you believe it?
I'd never understand
Why you'd take my heart
An I'd take your hand

This can only be one thing

I never thought i'd reach you
You answer all my prayers
What we've got is heaven
You've cleared all my cares

This can only be one thing

Words will never tell you
What you've given me
How you make me feel
And what you let me be

This can only be one thing

I'm gonna grow old with you
We'll be together at the end
An all the way through
This is not pretend

This can only be one thing.
Love

Lucy Vernezze

This I Am Sure

The mountains are hard to climb
But we can climb them together
This i am sure

The tides are hard to swim against
But we can swim them together
This i am sure

The paths are hard to cross
But all we need do
Is make this pact

We could cross them together
This i am sure
This i am sure for a fact

When the sun is going down
And there's noone at home
All you need to do is call me
You need never be alone

I am here
To face your problems
I am here
To face your pain
I am here
To wipe away your tears
And help you face the world again

You'll never be alone
This i am sure

Lucy Vernezze

This Ones For You

You make me smile
As soon as my eyes open
Even if you're not there next to me

I'm still alive
But i'm in heaven
As you are the reason that i breathe

You're all i need
You're all i see
You're everything i want to be

So ask me in ten years
If i still love you
I know what the answer will be
And so should you

No matter where i am
And what you do
I wont change my mind
This ones for you

As time goes by
And life progresses
I still can't believe
I'm in your life

I just need to let you know
I would never leave you
Whenever you need me
I'll be here

So ask me in ten years
If i still love you
I know what the answer will be
And so should you

No matter where i am
And what you do

I wont change my mind
I promise you

Lucy Vernezze

Ticking Time-Bomb

Why does time stand still when you don't want it to?
And it flies when you're in heaven?

And no matter what
My heart keeps going
Keeps ticking on.....

Sometimes i wish it wouldn't
Sometimes i cannot see
Sometimes i want a change
Just from being me

Not forever.....
But just for a while
Call it a trial
If you must

But i don't know the answers
I havent got a clue
Do any of us? ? ?

Lucy Vernezze

Time Bomb?

I think i love you
But thought too late
Now it looks like
I'll have to wait
But how long am i gonna have to wait for?

You've found another
And live with her
And now i hardly see you
But think of the good times that we shared
How long am i gonna have to wait for?

Will you ever come back to me?
And start what we never started
I feel it in my heart
Still feels new
Long am i gonna have to wait for?

You always seem glad to see me
An wanna spend more time
Like i wanna spend with you
No lies
Am i gonna have to wait for?

I made you happy
Didn't i?
But it never got that far
I gonna have to wait for?

Our friends said
We were made for each other
But we never saw it then
I see it now
As clear as i see your eyes
Gonna have to wait for?

Do you love her
You said you do
But do you really mean it

Does she feel the same
Have to wait for?

What's the answer
Going to be
Will i know
Or do i carry on
To wait for?

I just don't know
Wait for?

Running outta time
For?

Lucy Vernezze

Tired Eyes

You've got tired eyes
The kind
You make me wanna die for
You've got tired eyes
The kind
You make me wanna cry for

And when my tears run cold
Instead of warm
Will you promise me
You'll take me home

Away from this immortal curl
I'll lay with you
Till the sun comes up again
My friend
I'll lay with you
Till the sun comes up again

Lucy Vernezze

To All My Real Friends (You Know Who You Are)

If you cry
I will wipe away your tears
If you sigh
I will ask you of your fears

If you shout
I will leave you to calm down
If you need me
I will always be around

If you need a place to stay
My home's yours anyway
If you need a bed to sleep in
I'll take the sofa

If you ever need a hug
You don't even need to ask
My heart belongs to you
You're in my soul

If you ever need the courage
To face the world after you fall
I will hold your hand
Be your voice
Help you stand tall
My heart belongs to you
You're in my soul

Trophy Wife

Is she just a trophy to hang on your arm?
Not to care for
Just to polish
Who you just like to charm

Isn't she worth more than that?
Don't you ever think?
What would you do without her?
She could vanish in a blink

It's a common situation
But you treat her like a fool
You don't admire what's within
You men just sit and drool

But she isn't made of plastic
She's not a common tart
She happens to be pretty
With a very decent heart

You don't deserve her company
Don't deserve her full stop.
She just needs to find someone
Who puts her at the top

Why can't she see it?
It's as simple as the breeze
It's as if she cannot see
The wood for the trees

Well i hope you feel ashamed
I hope you learn to care
Cos i promise one day you'll wake up
An she will not be there!

True Love

We've been together 60 years now. I know you through and through. It's kinda like we're transparent to each other. No one knows me like you do.

You'll answer all my questions, and i'll tell you of my fears. We fit perfect like a glove. We always have right through the years.

We've been stuck together like glue for most of our lives. Yes we've had our ups and downs, and we've had our rough times.

But you are like my Bible. Yes you are my survival. I can't say it any clearer, your my life.

Love from your wife Xxx

Unconditional Love

I'll always be here for you
Even if you're not for me
If you knock me down
I'll get back up and let it be

If you make me bleed
I'll still hug you when cry
If you break my heart
No doubt for you i would still die

If you kick me when i'm down
I'll still be here for you
No matter what you say
And no matter what you do

In my heart you can do no wrong
Cos i'll still love you
If somebody loves you
They will always love you

I will i swear

Lucy Vernezze

Very Short But True

To love life
We need love
Therefore love is life
And life is love

Lucy Vernezze

Walk Away

Drowning in self pity
Such a lonely fool
What did i do that was so bad?
Oh sorry, did i break a rule?

It's a common situation
But what do you care?
I was always there
You were never there

So stop all the heartache
Don't pretend to act sad
You've got what you wanted
So forget what we had

The future is forward
The past is recycled in memories
So walk away
If you really can
Just walk away

Lucy Vernezze

Walking In The Rain

It's raining
So i'm not crying
Not really
Not that you could tell

No point in hiding my feelings
You say
But i'm not
You could see
If you dared to look close enough

If you held me
And told me everything
Was going to be ok
It makes me feel safe

Doesn't that make you feel good
That you can make me feel that way
Just by being alive
Each and every day

Where are you going now?
Where you went before?
Why close the door on me
You wonder why i feel this way

Isn't it obvious
Why i walk out in the rain

Lucy Vernezze

What Is Normality?

What is Normality?
Does anyone know?
Is it living your life
With people you know
Getting married, having kids
And settling into a home

What is Normality?
Does anyone care?
Does it really matter
If people stare
What does it matter
If some don't agree

What is Normality?
Nothing is Normal
People have there own ways
People have there pet hates
And favourite days

Noones the same
So what's the point in Normality
Really?

Lucy Vernezze

What's The Point? ? ?

Forget about money
Forget about gold
Forget about the stories
You've been told
There's only one meaning of life
And that you'll see

Don't even think about cruises
And dining in style
That's just a luxury
That you can earn in a while
There's only one meaning of life
And that you'll see

What really makes you smile?
What really makes you laugh?
What makes you're heart skip a beat?
When it beats really fast
Within there lies the answer
And that you'll see

The meaning of life
Is Love

Lucy Vernezze

With You I Will Never Be Alone

When the clouds have rolled in, on my sunny day
I can always count on you, to push them away
I can lean on you and you will still stay strong
And find that light, when all the hope has gone

You lift me up
Higher than i've ever been
You give me love
More love than i've ever seen
You give me courage
Courage when all my faith is gone
With you
I will never be alone

Before i sleep at night, i always think of you
You're in my dreams the whole night too
And when i wake, you're on my mind again
You're my very best friend

You lift me up
Higher than i've ever been
You give me love
More love than i've ever seen
You give me courage
Courage when all my faith is gone
With you
I will never be alone

I really mean it
With you i will never be alone

Lucy Vernezze

Without You

Please tell me you feel the same way as i do?
Do you know i am nothing without you?
I don't really know what i ever did without you
My love's so strong
I can't go on
Without you

So many memories
I miss you so bad when you aren't here
When you are here by my side
My life seems so clear
It's like here i am meant to be

When you're here with me
I feel complete

But without you
I'm not me

Lucy Vernezze

Wonder Of Life

If i can make you smile
It makes my life worthwhile
If i could make you laugh
If we could just act daft
When your heart sings to me
It sings me a melody
Of love
Of life

If i could pause this moment
An just hold you close
I try and make the most of this time
As i see your face light up
My heart churns for you
You make me feel so new
Is it just a dream
I'm scared its just a dream
I love you

Lucy Vernezze

Wounded Soldier

I haven't got a name
I haven't got a name
No one even whispers in my ear

I may aswell be blind
Cos no one's ever looked in my eyes
And i don't really see the point in me been here

No ones ever held my hand
That i've felt love just from touch
No ones ever acknowledged me
Or liked me very much

I'm just a shadow
On the wall
Someone to get trampled on
And laughed at when they fall

I'm just a broken soul
An empty shell
How long have i got left?
How can you tell?

I haven't got a name
I haven't got a name
No one even whispers in my ear

Lucy Vernezze

You

This is a poem
I'm writing to you
I know you don't know me
But i feel like you do

By reading my stories
I've told you alot
Whatever i've lost
And whatever i've got

This could be real
Or this could be fake
Just give what you give
And take what you take

Thank you for giving
A minute of your time
To read what i've written
In this little rhyme

Lucy Vernezze

You Don'T Feel The Same

You're the story of my life
The reason that I laugh
The reason that I write
The reason that I breath
The reason that I sigh
You'll never be just someone to me

But I don't mind
If you don't feel the same

You're the answer to my dreams
You're not only there for me in the limelight
You're there behind the scenes

But I don't mind
If you don't feel the same

You know me well enough
To know just what I mean
But do you know that I love you
More then I could ever love another
And I don't mind
That you don't feel the same

Lucy Vernezze

You Said That You'D Call Me!

Don't hate me for caring
Don't tear me apart
I'm lost without you
Please don't break my heart

You said that you'd call me
But my phone hasn't rung
Now the radio's playing
Our song that you sung

My world isn't worth it
Without you by my side
The pains getting worse
But i have to bide by the time

You said that you'd call me
But my phone hasn't rung
Now the radio's playing
Our song that you sung

Everything reminds me of you
I'm scared of never seeing your face again
Your eyes
Your smile
Your lips

Or hearing you speak
Or hearing you laugh
Even hearing you cry
I need you
Here
Here by my side

You said that you'd call me
But my phone hasn't rung
Now the radio's playing
Our song that you sung

Lucy Vernezze

You'Re Not Really Here

If i fall asleep now
I'll not want to wake up again
I've had enough my friend
Enough of everything

Life's got on top of me
And it's dragging me down
There is noone around apart from you
And you're not really here
Really here anymore

What am i to do?
It's all getting too much
I just want to disappear for a while

I just can't understand why i feel like this
I need you
I need you here
But you're not really here
Really here anymore

It's getting harder to breathe
My heart is feeling weak
What's the problem that's caused me to fall?

I just need you here
But you're not really here
Really here anymore

Are you?
