# A Person With No Name

a person with no name can put you to shame a person with no name can make  
you what to run away a person with no name can make you happy but make you  
feel sorrow in that happiness they make you feel a person with no name can  
make you ill a person with no name can make the pain you feel burn away or  
they can help it stay

# Better In Time

better in time will we be free

free from you and free from me

better in time when love will

come and shine like the evening

sun better in time will the rain come

down and wake your body from

it's lonely sleep better in time

will your heart skip a beat

better in time is what i say

it will get better in time any way

# Don'T Play Me

honey you are wasteing your time  
in space thinking you can play  
me if you got wath it takes ya  
i fell for you once but never agian  
cause you will never make me sin

i had you in my mind but that fake  
love ran out of time you fooled me  
once and maybe twice but that  
luck ran out tonight

you was not right for me  
and you never will be cause  
you can't love or like any thing but  
yourself so don't play me  
at all cause at the end of the day i played  
you all

# Forever

forever will we be happily

forever will we be together

forever there will be the two of us

the only people that we trust

forever will we dance

forever will we stand

forever will we never fear cause the love we have is unreal

forever will we learn together cause are love is

as light as a feather

forever will we peaceful and happily

even if it is just me....

# Found Me

i found myself and i loved

what i found the eye's of a

angel the teeth of a lion and the

mind of a goddess and a heart

like no other a heart so pure

that there is not another like it

the worst can't break it is the heart

that has so little but so much at the same

time the heart of a fighter

# Good-Bye Is Never For Every

it is never for every nonething  
is never for every like good-  
bye is never for every so  
when you say good-bye

say it like you will see me  
agian say it like you 'll see  
me later cause i will never  
say good-bye for every

i will always be here  
when you need me  
just look high and put your  
head to the sky  
cause i will never say good-bye

# Gotta Find Me

gotta find my smile that is so bright

and right i gotta find that tear that has

the fear to fall off my face gotta find the

look in my eye's that people love so much

the look that tell's them that hi and that

i am ok gotta find the right way to show them

that i am here i gotta find the person that they love

so much gotta find me

moriah puriefoy

# Here I Am

look at me look me in the eye

it is hard to get in the front when

you have to go in the side when everyone thinks

your different even though they

don't even know your name

it is all the same they call you an outcast

cause they don't know what to say

they call out your name cause they

think it's for play in the hallways they

look at you wondering why you

even come to school you tell the i am the king or queen

of this school so get out my way cause here i am

and here i am going to be i'm let that light shine on me

# Here To Stay

grandmom was always there  
cause she always cared  
she put love in my heart  
and it pains me to know  
that she is no longer here

grandmom was the kind of  
person who could make you laguh  
even if you whated to cry she  
made people what to do better  
for them selfs cause she was her

grandmom gave people love  
and thats all she said people  
needed to make it throug the hard  
times

grandmom i miss you but you are  
here in my heart to stay and when i need  
you all i have to do is pray and you will come  
down in your lovely wings and say  
moriah i was always here and i am here to stay

# Him

it was him who it took so long  
to find that boy that they help  
make mind he first said not a thing  
thinking every girl whats him for his  
bling which an't a thing to me even today

he was with his friend and i was with  
my all you could see was the look in  
our eyes he liked me and i liked him  
and the things we had inside had me alive

he was there when i came and actions  
talked louder then words he seem happy that i was heard  
he was acting kind of werid and not talking that much  
and he looked like he needed my touch we hug and talked

he was my friend and i was his but you will never  
forget when true love happens to it happens to you  
and like me your heart will be blue and you will  
be as happy as you can see thats how it feels to be me

moriah puriefoy

# I Have To Be Me

i have to be me who every i choose to be

i have to be me and stand to see what i see

i have to be me and have the freedom to love me

i have to be me and guide my self in to the unknow

i have to be me and go on

i have to be me and love what i have become

i have to be me and let my heart show what i love

i have to be me and let the sun shine on me

i have to be me and be seen as me

i know you are sad that i said good bye

i know you feel my life was short

but i loved you all the most

# Say Ok

you say ok but can you make my heart  
feel safe you say ok but can you help  
me dream of a better day  
you say ok but when the end comes  
you run

you ran and gave up then you  
come back around and say ok  
when it is not alright you are gone  
like a rolling stone

but when you say ok you  
have to stay cause at the end  
of the day you always say ok

moriah puriefoy

# Stop Running

stop running from the pain

stop running from the sorrow

you got to stop running or you may not see

Tomorrow you have to find your self along

the way let every thing you feel wash away

you stand up for your self you will say

no more fear no more hopelessness

say i will not fear love i will

not fear hope i will not fear me....

# You Are Never Alone

you are never alone even if you feel so

people love you they love your glow

you are never alone even if you are the only person that you see

people love you cause of who your going to be

you are never alone even if people tell you cause they what your heart

which is pure and sweet that' makes there heart break cause they do

not have what it takes

so do not never feel alone cause there happy your here

# You Never Listen

you never listen to what i have to say

it is not like the wind and blow away

you never listen to my words

sometimes they make you hurt even make you burn

that'a cause you never listen to me i am who i am going to be

and that's what no one tells me

you never listen to my kind words they just burn up in flams and turn  
another way

you never listen to my heart cause you do not care to listen from the

start so listen next time if i am silence listen if i am not there listen if i

am there listen just listen
