Azisiwe Somlenze

Many years have gone by,
Because every 365 days i was praying for a sister
A sister that would love me
A sister that would never let me cry
A sister that would inspire me
A sister that would be my pillar
A sister that would be the apple of my eye.

In you i have find the real sister
You have gave me nothing but passion
You amazing
You passionate
and Inspiring

Blind Love

I sugar coat everything
I pretend everyday that everything is okay
I smile to cover the pain
I laugh to keep my mind busy.

What about the times you lied
What about the times you hit me
What about the times i felt like i did not matter
What about the times you did not value me

People are convinced we are so inlove
People are happy, oh God why?
Can't somebody see i'm crying hurting
I pray to God to release me,
To deliver me from the pain
Because i'm weak and fragile now.

Children

Children are born now and again
Children are born and thrown away like thrash
Our children are raped by their own parents
Our children are abused each day
Our children are killed each day

Children suppose to be a great gift
Children deserves great love
Children needs to be loved
Children must be our strength
Children are the ones that deserves the love of our hearts.

Colour

Colour differentiate us
Colour brightens our day
Colour describes our feelings and fears
Colour describe the character
Colour unites us all.

Depression

You so silent
You silent but you overwhelming
You always see your way in
When someone is going through a tough time.

How many souls have you tortured?
How many lives have you destroyed?
I don't know how to describe you
I don't know how to defeat you
You've taken my life from me
You've created this feary place and sadness within me.

I wish i could stop you
I wish i can be free from you
I wish you can be my victim
So that you can also feel the pain
So that you can see this dark shadow
This world i don't know
I wish i can torture you as much as you did to me.

Don'T Kill Me

Aaaaaaaaaaaaaaaaaah!

Heyi thula wena

You can beat me several times

You can take everything that i have

You can rape me

You can do whatever you want to do

But don't kill me

Killing me wont give you everything

killing me wont make you a better person that you want to be

Killing me wont make you the superhero that you think you are

And i want you to know that

My blood wont give you happiness.

novoti gcisakazi Calpurnia jiya

Half Brother

You've never crossed my mind
I never ever thought about you
Because i never knew you
You came as a shock, but a good shock
You were looking but no one was seeing you
You were crying but no one was ever there to wipe your tears away.

You such a wonderful gift
Your love is so natural
Your smile is so real,
And that's the reason i love you.

novoti gcisakazi Calpurnia jiya

I Will Always Do It For Me

You can destroy what i have
With whatever you have
You can take what i have
Just because you think i'm not worth it
You can make fun out of me
But you will never reach where i am.

You can live high life
But i can afford just like you
Nothing i am doing is ever right in your eyes
Nothing i am doing impress you
Nothing i am doing is good enough for you
But i don't mind
Because everything i do is none of your business

novoti gcisakazi Calpurnia jiya

I'm Sorry

You never liked me
You never believed in anything i do
You always criticize me
And i never thought i'm worth anything.

I'm sorry if i scared you
I'm sorry that my success turned you
Turned you to this monster you are
I'm sorry if my actions reflected something else to you.

I will be what i want to be
I will fight for my future
I will be what you don't want me to be
And i'm sorry that i can't be what you want me to be.

Life

The are times
Times where you feel like no body cares
Times where you cry and never stops
The pain is unbearable
The pain is so severe.

The are times where you wish you never existed
The are times where you will see suicide as your only option
Time ticks but never stops
Our feet walk but the journey is to long and tough
Life is such a pain that no one can define

novoti gcisakazi Calpurnia jiya

Love

What is this Love that hurts us What is this thing that makes us cry Why is love so hard in the heart

novoti gcisakazi Calpurnia jiya

Loving You Is The Best Thing I Have Ever Had

It is everyday
It is every month
It is every 365 days that,
I thank God for bringing you in my life
You're a star that have never lost it's brightness
You're a light that have never shut down
You the oxygen that never let me die

You music into my ears
Your love is nothing to be compared with
Your love is joy that i've ever had
I love you so much and it feels great

novoti gcisakazi Calpurnia jiya

Maggie Benedict

She never give up
She never let criticism get into her way
She has a spirit of an elephant
Shes cool, calm and collected
Shes so brave
She can stand up to people and tel them to save their two percent.

Shes an inspiration
Shes a fighter
Hard worker,
And shes so intelligent, and her intelligence scares so many people.

novoti gcisakazi Calpurnia jiya

Management

It is not all about ordering things
It is not about getting ready to hit the road
It isn't about execution.

It is all about planning
All about organising
All about setting your cards straight
It all about hitting the right button
And it is all about managing who you are and what you going to be.

novoti gcisakazi Calpurnia jiya

My Father

The greatest of them all
The survivor
The lion
The great king of his own kingdom
The father of all times.

His always been a friend
His always be wonderful,
intelligent and sensitive,
And that is why he will always be the love of my life.

novoti gcisakazi Calpurnia jiya

My Life Will Never Be The Same

Your kindness blinded me
Your sweet voice charmed me
Your eyes attracted me.

You were nothing but a sweetheart to me
You were always there
When i needed you
You were everything i ever dreamed of
But all along you were trying to killing.

You slept me with me
And you've never told me
Told me that you were infected
Infected by Human Immune virus.

I can't sleep at night
I can't eat
Because all i think about is the virus you have given me.

Nothing Is All Well Without Hard Work

You can think you have ruined me
You can think you have accomplished your mission
You can think all of what you want to do is all well

Thousands of miles are travelled
Millions of words are said
Lot of work is required
No blood spills without travelling the long path
No illness is diagnosed without doing more tests
Nothing will be successful without you working so harder.

So many people have tried
So many have spoken different languages but no one hears.

Our Heroes

I bow down to those who fought for democracy
I bow down to those who sacrificed their lives
I give honour to those who believed in freedom
I bow down to those whose blood spilt for us.

We where we are because of those who believe
We where we are because of those who never backdown
We here because they saw the bright future
We here because they wanted us to have what we have today
And thats the reason i'm a proudly South African.

Paint A Smile

Touch me with those soft hands
Pull me close
Kiss me and make me feel dizzy
Take a breath because its gonna be a long ride
Look me in the eyes and tell me you want me
Make me scream Loud
Make me cry
Make me loose control
I want to see you sleeping on top of me
I want to feel the sweat on your body
I want to feel over joyed
Man just paint that smile on my face
Make me loose control

novoti gcisakazi Calpurnia jiya

Parents

They are our mentos
Our pillars of strength
They are the best gifts we've ever received

But parents kills us
How?
Parents wants to make decisions for us
Parents want to live for us and not guide us
Parents makes us do things that we don't want to do
They want us to fullfill their dreams and not ours
This is not right as it is unbearable.

novoti gcisakazi Calpurnia jiya

Politics

Many of us say they fix the country
Many of us say they are good for the country
Our leaders
Our students
Our children
Have all drown in this ocean.

Politics are right
Politics are good
Politics are not rude
But our leaders, students and children are the reason,
Today politics are the major issue in this life we living.

novoti gcisakazi Calpurnia jiya

Say No! To Xenophobia

Why do we kill our brothers and sisters?
Why do we kill people so cruel?
Why can't we be united as one happy bunch of a family
Why cant we consider ourselves as one family.

Blood isn't going to solve the situation
Blood can not bring happiness into our lives
Tears can't bring what we wish to accomplish
What have our brothers and sister done to us?
What kind of anger do we have in our heart?
Are we human or our we Aliens?
What will our next generation say? .

Sing A Song

Sing a song that defines you
Sing a song that speaks to you
Sing a s song that builds you
Sing a song that refreshes you.

novoti gcisakazi Calpurnia jiya

That Kiss

Kiss me here

Kiss me all over

I want to feel your lips on my body

Kiss me in a place where i will remember

Boy just wet your lips and kiss me till i feel overwhelmed by feelings

I want you to kiss me and motorboat me

Kiss me until i tell you to stop

Just keep on kissing me

I will tell you when to stop oh yes right there oh.

novoti gcisakazi Calpurnia jiya

The Choice

We can live together
We can sing together
We can dance together
But what i know is that we can't sacrificies together.

It's so lovely when sky is the limit
It's feels so good when we both laugh and having a good time
I know laughing with me doesn't mean you mine forever
Staying with me doesn't mean you mine forever
Holding my hand doesn't mean you can never let go
Because love is all about choices.

The choices we make doesn't mean we going to be Romeo and Juliet
The word love nowadays has lost it's meaning
How can you hurt me
How can you make me cry, and
How could you beat me up, and
Tell me you love me at the end of the day.

novoti gcisakazi Calpurnia jiya

The People

It ain't those we regard as stupid
It ain't the blind and the deaf
It ain't the cripple
It ain't those who we perceive as nothing
It is the normal people that act stupid
It is the normal people that are blind and deaf while they are given it all
It's those who can walk that are crippled
It's the normal people that can't do anything
While they are given it all.

novoti gcisakazi Calpurnia jiya

The Poems

The great healer of the soul
The friend that will always speak to you
The guardian that will always guard your feelings
The poems set your mind free
The poems let you believe in you
They encourage you
They make you happy all the time.

Poems have words that cleans the soul
Words that will make you a better person they next day
Poems have words that will inspire you for the rest of your life.

Time

Time determines how far we go
Time limits our journey
Time flies when we having fun
Time threatens
Time tortures
Time is our biggest anemy.

We die because our time is up
We rejoices because time allows us to
We where we are because time allows us to be
Time ticks and life move forward

To Those We Call Father

So many father's have failed their children
So many have lost the last thing they have
So many have done wrong
So many have traumatized their own families
So many have failed to pursue their own dreams
So many have bullied their wives and children
So many are facing assault charges

So many have lost hope
So many have lost faith
So many have be abandoned,
because they have bullied, raped and traumitised so many souls.

But deep down in their hearts they are filled with love
With love that will never change
But circumstances alters so many minds.

novoti gcisakazi Calpurnia jiya

True Love

True love does exist
True love is fixed
True love is constant
Yes, true love can't be shaken.

This love binds us forever
This love conquers everything
This love exists between the two of us
This love makes us who we are
True love is scarce like water in the desert
True love hurts like a deep open wound
True love is never easy to let go
True love is love that exists eternally

novoti gcisakazi Calpurnia jiya

Unfair Justice

How many souls must be murdered?

How many people must be raped?

How many lives must be tortured?

People walk free with murder

People walk free with rape

People are tortured everyday of our lives

But the law sentences the criminals for maximum of three years

What about the pain that will never go away

What about the wounds that will never be closed

What about the life, confidence and happiness that has been taken away.

Enough is enough

novoti gcisakazi Calpurnia jiya

What Is This South Africa

Our voices
Our dignity
Our lives
Our future
Have been taken
People die every day
People are murdered each day
People are buried now and again.

We say this is a democratic country
Yes i agree
But look at what the democracy have done to our wonderful country.

We living in fear
We fear for our lives
We fear for our future
Ever since democracy was introduced
Our precious country became so uncontrollable.

Lets protect our country
Lets love our country
Lets make South Africa a better country
Lets say NO! to violence.

Why Are You Breaking My Heart

My heart isn't happy as i look
I am smiling because i have to
I am laughing so that i can't be seen that i'm hurting.

My eyes can't reveal how i'm hurting
My heart is breaking
Breaking beyond repairs
Why are you doing this to me?
Why are you hurting me this much?
Why can't you stand up for our love?
Why are you leaving me this heart broken?
If you ever loved me
You would have fight for us.

novoti gcisakazi Calpurnia jiya

Why Are You Hurting Me

You love me but i'm crying
You caring but i'm broken
You kind but i can't find your kindness.

Uhambo lwakho liwuvukuzile umphefumlo wam
Awukwazanga lumela uthando lwethu
Yhini ukundonakalisa emphefumlweni mntwanomntu
Awuzange undicinge
Awuzange ukhathale ngendlela endiziva ngayo
Hamba
Kodwa uyazi ukuba uwonakalisile umphefumlo wam.

Ibinga ndingasitsho osofelweyo
Ibinga ndingasela kude kuphelingcinga
Undonzakalisile
Andiyonto yanto
Andizange ndaxheleka umphefumlo ngoluhlobo
Ndibamba ngazibini kuwe mfana
Ngokuthi undophule umphemfulo ngalendlela
I wish you nothing but the best.

Witchcraft

It's a virus
It's maddness
It's jealous that doesn't have an end
Human souls are taken
Accidents happen.

Witchcraft have tortured so many people
Witchcraft have destroyed so many families
I wounder every day
Woundering when will people stop satanism.

novoti gcisakazi Calpurnia jiya

Women

They are the pillars of strength
They are the one who are always there
They always know what to do
They are the ones raped each day
They are the ones beaten up every day
They are the ones that always take the blame.

They don't have power but have strength
They are not respected
But they teach respect
They are always crying because they are left alone
They are falling because for them theres no easy way.

Why can't we treat them with love?
Why can't we make them smile each day?
Why can't we spoil them for such love?
Because they deserve to be happy.

novoti gcisakazi Calpurnia jiya

You Say You Love Me

We disagree
We argue
We fight
We say words we regret at the end of the day.

You said i'm your sweetheart
You said I'm your soulmate
You said i'm your everything.

Am i still your everything if am crying every night
Am i still your sweetheart if you pushing me away
Am i still your soulmate if you cheating on me.

You use to call me baby
You use to call me during the day
Just to say you miss me and you love me
But look at you now
All of that is gone.

novoti gcisakazi Calpurnia jiya

You've Messed Up My Life

I can still see you
I have these pictures in my mind
Bad pictures
I am not comfortable even in my own home
Every day when i close my eyes
I always create and see bad pictures
Maybe i'm crazy
But you really turned me to this person i don't know.

I want my life back
But how is that possible if i fear every corner i go
My life will never be the same again
I have fear
And this fear is controlling me
This fear is turning me to a monster
What you did to me is unforgivable
What you did to me is unforgettable
So tell me
How do i live like this.
