A Journey Of Thousand Mile

You wake up one day
Sitting dawn and thinking
About your life

On how to make it in life
But remember
What you want to became
Tomorrow start from today

An old woman and old man today
Was once a adult
An adult today
Was once a baby
An grandmother/father today
Was once a grandson
A married man/woman today
Was once a single
A prostitute you see
On the road, club and street
Was once a virgin
A leader today
Was once a followers
A teacher today
Was once a student
A principal today
Was once a teacher
A dead body today
Was once a living soul
All the pastor, evangelist and prophet
Was once a son of satan
So anything you want to do
You need to star from somewhere
A journey of a thousand mile
Star in a day

A Special Day

It come once a year
To thank thy lord
For his mercy on my life
Everybody wish me well
Saying happy birthday
Everybody is happy for me
Everybody rejoice with me
Gold and Glass pray for me
All the nature is happy for me
Boys and girls dance for me
I become the topic of the day
I congratulate myself saying
HAPPY BIRTHDAY
It june 26 again
Come and rejoice with me

Can We Still Do It Again

when we are working
In the beautiful garden of success
Working and planting
In order to harvest in the future
We work in a team
We work in the arms of success
We play, laugh and eat together
We share knowledge together
We mingle with one another
We fight for one another
We argue with each other
We advise and encourage each other
We plan together
We lose and gain
New ideas every day
People leave and join
Us every season
We leave each other
That is life

Confusion

we have come too the crossroads
And i must take my decision
I must either leave or come with you
I think on what to do
I lingered over the choice
Many people have advice me
But i must take my decision
In the darkness of my douts
You let me know your hearth
Even do you tell me with your mouth
I can see it in your face
The road that i should take
You let me have more experince
You let me know what love is all about
Haved take a delicate decision
All in the name of love
All because to please your hearth
Love is wicked
Love is painful

Don'T Let Me Wait, Too Long

After forgetting the past
Am now trying to move forward
After forgetting what happen
Am now trying to move on
Am now looking for a new life
Am now looking for a new vineyard
Am now looking for a new love
Am now looking for a new garden
Am looking up and dawn
Am looking left and right
Looking for a new love
I now you are somewhere my love
As am also here
I no you are alone
As am alone
I no you looking for me
As am looking for you
I don't see you
But I feel you
Anywhere you are
Anywhere you live
Please don't let me wait to long
Before you come
Because I need you by my side
Am incomplete without you
My future partner
Don't me wait for to long
I need you by my side

Dream Along Imagination

it happen like a dream
When i try to forget you
I think on how too do it
Suddenly you came too me
Again and said too me
You are sorry
I can't believe you came
back
But it happen like that
We talk about love
I feel realive in my hearth
That you are mine
Inside me i am glad
That i finally have you
I am proud that you are mine
I hold your hand and
I feel your temperature
It was cool like a dove
You place your hand in my
Hearth and i feel relax
That you are mine
Suddenly i can find you
Anymore, i look at both
Left and right, up and down
But you are nowhere
Too be found
It was then i remember
That it's just imagination
I have too forget
Yesterday and face
Today and look up
To the future

Forget About Her

When I said I love you
You said you are not ready
When I said i need you
You said you want to think about it
When I said I want you
You said you have no time for me
I still saw you in my dream
I still saw you shadow everywhere
I still remember how you walk
I still remember how you smile
I still remember your shape
But I need to
Forget the way she walk
Forget the way she smile
Forget the she look like
Because she belong to
Someone else now
And someone else live
In her hearth

Hero

Everybody talk about him
But not everybody know him
And everybody feel him
He was in the past
But we feel him in the present
The old still want him
The young ones talk about him
The little ones dream about him
I look at the past
But come once in a while
A man that is courageous
A man that is fearless
A man that is powerfull
It fight for everybody
It live for everybody
He live in the past
And we fell him in the present

Hope

Today is another day
Even I don't know how
The future is going to look like
When I wake up in the morning
I see the bird sing
Saying that this is a new day
And I look up to the sky
And I see that the bright
And that is what give me hope
If I remembering the future
I live my past and have hope in it
If I remember my dream
I forget the past and
Have hope in the future
Even today I s bad
I know tomorrow will fine
I have no money today
I know I still have hope tomorrow
If I cry today
I know cry will be no more tomorrow
As the day is bright
I still have on it
Every I keep on hoping
I we stop hoping
Unless if there is no life in me

If Someone Rejected You

If someone rejected you
someone will accept you
if someone hate you
someone will love you
if someone disappoint you
someone will surprise you
if someone say you are not good
someone will say you are good
if someone say you are not the best
someone will say you are the best
if someone make you feel bad
someone will make you feel good
if someone dislike you
someone will like you
if someone end a relationship with you
someone will start a relationship with you
if someone end a relationship with you
someone will start a relationship with you
if someone don't look at you
someone will look at you
if someone don't stay in your life
someone will stay in your life
if someone don't love you
someone will love you
Never force anybody to your life
because you can't force them but
The people that belongs to you will come and stay

If you said you don't want me

If You Want A Prove

If I say something
You know what it means
If I look at you
You what I say
If I smile at you
You know what is in my heart
If I say I love you
And you think am kidding
If I say I want you
And you think am playing
If I say I need you
And you think am joking
Tell me you want a prove
And I will ask you what you want
If you said you want a lion
I will not look at you
Before I will go to the jungle
If you said you want me to move from my area
On that day I will pack
And move to your chooce
If you call me in the middin night
On that hour I we be at your side
If you said you need something
Within a secons I we give it to you

Love Paradise

A place were
Everything is cool and calm
were you can't survival alone
Expert with a lover
Were there is no noise
Expert the echo of your voice
Were your personality did not matter
But your love is needed
Were you can't feel lonely
But always with your love
Were you think about nothing
But you think about your love
Were everybody is equal
Were there is no law
But everybody do what is right
Were you don't cry
But always smile
Were you care about nothing
But you care for your treasure
The place were only you
And your love we live for
Rest of your life
Were everybody wish to go
But a little reach there
Because only these who
Truly love live in
Love paradise

She know what is good for me
She cry when I cry
She smile when I smile
She cry when am sick
She risk her life for me
She bring me up
She gave me life when am young
She train me when am an adult
And she have hope in me in the future
My mother is my god

My World

I live in my own world
I believe in my dream
I live in my world
I do things in my own way
Even so, nobody respects my view
I still encourage my thinking
Even so, nobody encourages my work
I still believe in my philosophy
Even so, nobody believes in me
I still give myself one reason that
I should not look back
Even so, many people want to change me
I remain unchangeable
Even so, people want to change my view
I still remain myself
Even so, people want me to be like them
I still be myself
Am not the best
But someone's favorite

Not Forever

Both in the same group
Live in the same area
Playing with sand
Playing together
Growing together

In any condition
In any weather
Eat together
They behave that
They we never live eachother
As time goes on they became mature
And live eachother
Living in difference area
Having a new friends
Chase individual dream
They remember eachother
Once in a while
The become man of individual
And not depend on friend
Be with your friend today
Is by chance
Because not forever

Pain

Everybody feel pain
At a point in life
Many things bring pain to everyone
But once it come it will surely live
Many people smile
Not because they feel no pain
But because they no how to
Control there pain in time
Many people look so good
Not because they feel no pain
But because they no how to
Control there feelings anytime
Every animals feel pain
But nobody no what they
Are going through so nobody care
Nobody will feel your pain
Because everybody have is own pain
Nobody feel pain than anyone
But everybody feel pain
But the most pain things is
When you love someone and the person
Don't even care you

Remember, Have Once Love You

Sometimes ago I demand
For your love
Some years back I need
You in my hearth
Some month ago I said
I need your love
Some days ago I demand
For a place in your hearth
But all my effort to get your
Love, hearth and place in your hearth
Was in vain
If later
If someone now own your hearth
Remember that have once demand for it
If someone now own your love
Remember that have once demand for it
If someone now live in your hearth
Remember have once demand
For a place in your hearth
Anywhere you go always
Remember I love you
But you don't love me
And I know something
And am sure of that thing
Anywhere you go
You can never find a man like me

Rise Again

Downfall and even plan on
How too bring me down
One thing am sure of is
If i fall i we still
Rise again
When i take a delicate step
And even walk on dangerous road
One thing i no is
If i fall i we still
Rise again
When i fail in my academic
And even have problem
In my business
One thing am sure of
Is if i fall i we
Still rise again
Yesterday is yesterday
So i we rise again

Something About Life

Life go on and on and on
Life bring out new things
Life without end
Life with new idea
Life with new dimension
Life want your own idea
Life want your own dimension
Life want your own creativity
But there is something about life
Life give you today
But don't promise you tomorrow
Life give you money today
But don't promise you tomorrow
Every seconds in life is a step
If you have money today
You are rich
If , t have money today
You are poor
If you are beautiful
You are cute
If you are brilliant
You are a genius
But life don't promise you tomorrow
If you want to do something today
To it now
If you want to prove you love
Prove it now
Because life may not gave
You chance tomorrow
Life is very short
If you look back
All what you can remember is that
One century have pass away
life give you today
But don't promise you tomorrow

The New King

Long time ago
In the city of belthelem
A virgin born
A new king to the world
Angel sing and rejoice
That a new king is born
Now man we live forever more
Heaven rejoice
Birds sing and dance
Round the sky
Saying a new king is born
And man we live forever
He come in a humble way
Into the world to save
Us from the hand of lusifal
And man have the second chance
True him
People sing and dance
Because new king is savior
Is born into the world
And they call it
Christmas day

We Need A Change

Life with no accountability
That is how we live in this society
Life of immunity
Is not a crime in our society
Corruption is our day to day activity
Nobody is left over
Because everybody was involve
Nobody see it as a bad things
Because everybody was used to it
Government launch corruption
Citizen support
Everybody change good to bad
And everybody take bad things
As a good things
Everybody involve in one
Corruption or the other
But two thing can't walk together
Many people cry everyday
For good life but no way to get it
We desire transformation
But nobody to give it
We cry for transparency
But everyone have a hidden agenda
Everybody live in a deep sorrow
Let those who cry for food stop it
Let those who cry for water stop it
Let no one cry for any other
Thing than Change
Because change is all we need
Let everybody work toward change
Because change begin with me

Okunuga Olanreywaju

What You Don'T Know

What you don't know is what I know
What I know is what you need
What you need is what I have
But you denied it
I gave you my hearth
You joke with it
I gave you my love
You play with it
You said all my life
Was a mistake with you
You I did not do anything
But the time is coming
When you we know that
All my life with you is opportunity for you
When you you need
The type of hearth that I gave you
When you will need
The shadow of love that I have for you
But by that time you we know
What I do for
You may not see the opportunity again
Because it come once a while
All my life with you is a lesson
Because I know that
A life spend during a mistake
Is more honorary than a life
Spend during nothing
