A Box

Inspired from a person that likes to hide into her little box,
hoping that a day, there will be enough space for the both of us.

When you're down, when you're sad,
when your feelings fill you till your nose,
wouldn't you put them into a box and close?
Leave them there, alone to be mad.

When you're down, when you're blue,
when your face can't show a smile,
wouldn't you kick that box far a mile?
Leave it there, without any clue.

Leave the box and run in the park,
let it handle your deeper pain,
let it call your happiness as main,
Leave to it all your sufference's mark.

How are you doing without any sensation?
Do you see just blank on your sight?
Is the emptiness settled in you tight?
Do you see Those were your motivation?

Throw out your feelings and you're just a null,
they can be painful, but you need 'em to sense,
there is a reason if they're so damnly intense,
wake up, go back on your step, don't be so dull.

Important sensations make you think,
to follow your dreams is not a piece of cake,
there are sacrifices you can't avoid to make,
the joy if you are not alone is behind a blink.

You are not the only that has to revert,
everyone forget the box and its name,
'coz it hold the tears you can't tame,
call it with his name, call it Heart.

A Star

Alone, walking your way, your hope's gone.
Raise the eyes and find a star bright,
the sky that smile for once at your sight.
His best one, so brilliant before I saw none.

Like a kid you just can't stop to look,
it's a sweet sensation that just disarm,
not just a light but something that warm,
that warm u inside, that get you at hook.

It takes your breath away. What would you do?
It hold your body close. What would you do?
It hugs your head gently. What would you do?
It caress your soul softly. What would you do?

I made something that was hard for me,
Something possible only 'coz i had thee
I made something that from me was tied,
I did it again, I did it to you, I smiled.

The happiness can't last and so the sparkle
in a tick a darkness cloud away will tackle.
I don't know what's better for me to do,
I just know I can't stop thinking to you.

Just Another Night

Night...as always at window tonight.
A shiver. I shake. I get a blanket.
A quiver. It pierces like a bullet
and this cold is inside me tonight.

I am here again under the moonlight
to watch the stars waving on darkness,
wishing to them to make me heartless
to not get affect from another twilight.

Night...I am writing for you tonight.
I know you will tell my words are fake
but you know you are making a mistake.
You know it yet and I'll tell you tonight.

I can't tell what's wrong and what's right
but i know who I am, myself and my breed.
I can tell you that if you hit me I bleed
and a feeling can't just take and flight.

Night...I know you are sleeping tonight.
but I wonder if you sleep or you dream
when you think my emotions are just steam.
Night...Now i know you can't dream tonight.

I know my flaws and lacks. I see'em bright.
But ask yourself if I was so easy moving
what's the reason to be still here writing
or do you think I've just lost my insight?

Night...it's passed just another night
in a cold in which any flower would die,
I am living this night without any lie
just to tell you once again Good Night.

Live Or Die, Just Don'T Cry

Life often isn't what you would expect,
it wrecks your dreams without respect.
Life sometimes shows you a misleading hope
just for the pleasure of cutting the rope.

Whoever said life was an easy task to accomplish
didn't realized how far he was from the finish.
Every step you can feel the burden steadily raising
but no one ever asked you to accept this fighting.

Here's something I want to say:
Live or Die, just don't Cry.
Here's something I want to say:
Then or Now, you'll end to Lay.

No one told you to accept the challenge
For no one's sake you're here to revenge
It's up to us on which side of the line
we are standing on so you can't whine.

Here's something you gotta know:
Live or Die, just don't Cry.
Here's something you gotta know:
Fight or surrender, just don't lie.

Now as strange it may seem life is a gift
either you grab it or it turns in a rift.
If you resolve on yourself to go ahead
just don't care how much you will bleed.

Here's something you'll know by now:
Life or Death, it's always a goodbye.
Here's something you'll know by now:
Live or Die, just don't Cry.

Saverio Terracciano

Not Easy

You will agree that's not easy to dream when,
you've seen your dreams die into your arms then.
Putting aside prudence and pride yet
yourself on that breath you decided to bet.

You will accord that's not easy to hope if,
you've seen your hopes roam off like waif.
Without fearing it was vain or right
all yourself you gave on that sight.

Dear friend, I dunno if you can think
what means, closed your eyes, alone,
to fall in the absolute void and sink.

Dear friend, I wish you could think
what means, opened your heart, alone,
to see that bunny you loved be not pink.

It's sad, believe me, in the night
the head on your wet pillow to set
not to dream again, but to forget
whom you wanted just to hold tight.

Sugar And Salt

And once again I am here sleepless
sad and cold watching me inside
finding a boat shoved by tide,
sails ripped off, driven wayless.

Into an ocean of loneliness I am lost,
you could be my anchor, my rescue rope,
you could be my chance, my unique hope.
Leave me there or bring me to the coast.

I am drowning in my deep feelings flood
Dive in it and gimme just a warm breath
I'm freezing, I need you as my life heat
stay near me, your hug is the best hood.

Take my hand, and on the sea we'll walk
gulls and waves for us will stop to talk
the sea know well that nothing can sever
an instant that is made to last forever...

Is it my fault if every waft of wind,
bring her crystalline laugh to my mind?
Is it my fault if just her scent of hon,
bring my fantasy to wake up and turn on?

Also if on my head there is only you,
Also if in my mind there is just you,
My sad heart knows that sugar and salt,
still from you it's all he can have...

Saverio Terracciano

Tum Tum. Tum Tum. It's My Heart, Not A Bell.

Tum Tum. Tum Tum. It's my heart, not a bell.
And my legs, like jelly on the ground weak,
till someone from far smile and make me tweak.
If I'm into a vision at least a thing lemme tell

When your most wished phantasy become real
you can't believe it, like it was an eye ban,
now you are there, also the time stop to ran,
caught in a moment you thought just ethereal.

I am there, into your eyes deeply lost
I've Venus in front of me, and she smile
and my head whirl like hit by a tile,
and i find myself burnt like a toast.

I can feel the scent I thought I never might,
and walk for the street, with you as my light,
step by step ahead, with no worry at my sight,
'coz for me the only care is to hold you tight.

There is no way, there is no world around,
I'd try to summon that moment with my verse
to make you get that is just You my universe,
that your voice for my heart the only sound.

It seems that for once for the joy i signed up,
and also if I sadly know this can't last forever
I beg you Fate, not us, not now, yet don't sever,
and also if it's a dream, please don't wake me up.

Unhappy Ending Fable

From the deepest sky a star I'd like to bring
to put it gently between your scented hair,
and you wouldn't come out from your far lair.
Also a comet for you would be a simple thing.

From the highest mountain a rose I'd like to take
to place it smoothly on your soft hand,
and you wouldn't move from the place where you stand.
Also climb the Andes for you would be easy to make.

From the sunshine a golden ray I'd like to steal
to wrap it around your finger like a ring,
and you wouldn't notice either this thing.
Also the sun for you wouldn't be a big deal.

I am sorry if I am just a dreamer and not more,
I can't offer you much but my stupid dreams.
I hope you will get what your name for me means,
without you I can't breath serenely anymore.

Close your eyes and come with me at least once,
trust me and I'll guide you into our magic tale,
let's get on the flying carpet through the gale,
let's rise the eternity where skylights bounce.

Ahead, till we reach the neverwinter place,
where we can see the true color of the sound,
where we can jump on the clouds without rebound,
no troubles here, me and you for once in peace.

With me on this travel I would have only thee,
1000 princess I could have to choose between,
that my Heart will only call you as his Queen.
You should know your name is carved on my tree.

But this is just my fable without an happy ending,
a foolish fantasy that kept me writing till the dawn,
thinking to you, while the sane people sleep or yawn.

While the night fly away, I am here words shaping.

I know you will take this just like another error,
I know for you all I do is wrong, and you won't care
my best dream would be the One that you can share,
and the fear you'll never believe it, my worse terror.

Wind

Winds. Uncaring, outside blow.
From a window, in a stranger dark room,
listening their sad lyric of doom.
Wearing me down, uncalmed feelings flow.

Wind, don't stop, go ahead, keep blowing,
play your show for a stupid male,
ignore that inside me there is the real gale,
I'm here, unfeeling, impassive, waiting.

Winds, caress my ears with your notes,
touch my dry lips with your breeze,
hold my unloved soul into your squeeze,
make my mind part of your neverending quotes.

Wind, I am here with you, for my last breath,
I am here, tired, without any point,
I am here with you, in the sadness joint,
Don't ask me more, bring me the freedom of the death.

Saverio Terracciano

You 'N Me (Tu Ed Io)

When your heart can't feel at ease
when you feel there's nothing you can do
when the night draws black ahead
'n you shiver alone in despair

Forget all the sadness and the fear
Just close your eyes and believe in me
I promise I'll be there to hold your hand
I promise together we will bear
what life will make us face
I promise we'll be me 'n you near.
I promise. I promise.
Forever you 'n me.

Even if you can't seem to stand up
Even if burden seem to keep you down
Even if you feel left alone for that
For you and especially then

There'll be someone to dry your tear
Just close your eyes and leave it to me
I promise I'll be there to hold your hand
I promise together we will bear
what life will make us face
I promise we'll be me 'n you near.
I promise. I promise.
Forever you 'n me.

No, that sad look don't have [no no]
Remove it from your face
It doesn't fit your heart
I've got a smile for you so

Smile me back 'n your laugh let me hear
Just close your eyes and hug tight me
I promise I'll be there to hold your hand
I promise together we will bear
what life will make us face

I promise we'll be me 'n you near.
I promise. I promise.
Forever you 'n me.
Forever you 'n me.
You 'n me.

Quando il tuo cuore non può esser tranquillo
quando senti che non c'è nulla che puoi fare
quando la notte si estende nera avanti a te
e tu rabbrividisci da solo nella disperazione

Dimentica tutta la tristezza e la paura
chiudi solamente i tuoi occhi e credi in me
Prometto che sarò lì a tenerti la mano
Prometto che insieme supporteremo
quello che la vita ci farà affrontare
Prometto che saremo io e te vicini.
Te lo prometto, te lo prometto.
Per sempre tu ed io.

Anche se sembri non riuscire ad alzarti
Anche se il peso sembra tenerti a terra
Anche se ti senti lasciato solo per questo
Per te, e specialmente allora

Ci sarà qualcuno ad asciugarti le lacrime
chiudi solamente i tuoi occhi e lascia il resto a me
Prometto che sarò lì a tenerti la mano
Prometto che insieme supporteremo
quello che la vita ci farà affrontare
Prometto che saremo io e te vicini.
Te lo prometto, te lo prometto.
Per sempre tu ed io.

No, non avere quell'espressione triste [no no]
toglitela dalla faccia
non si addice al tuo cuore
Ho qui un sorriso per te per cui

Sorridimi di rimando e fammi sentire la tua risata

chiudi solamente i tuoi occhi e abbracciami forte
Prometto che sarò lì a tenerti la mano
Prometto che insieme sopporteremo
quello che la vita ci farà affrontare
Prometto che saremo io e te vicini.
Te lo prometto, te lo prometto.
Per sempre tu ed io.
Per sempre tu ed io.
Tu ed io.
