Angel

God send me an angel
From the heavens above
God send me an angel
To keep my heart from bracken
Couse all i do is cry
God please send me an angel
To wipe the tears from my eyes

God sent me an angel
From the sky's above
God sent me an angel
To feel my heart with love
God sent me an angel
So pure and true
God has sent me an angel
And that angel is you

Best Friend

You're here right now,
Standing by me all the way,
You're here to help me through every day.
You help me up when I am weak,
Helping me find what it is that I seek,
You cheer me up,
When I fell blue,
Making me laugh with everything you do.
You catch my tears when I cry,
Pulling me through when the tide is too high,
Just being there for me through thick and thin,
That's why I'm proud to call you my best friend.

Headspine

To ever one out there
Whose head is all over the place with love?
I am telling you straight up if it because you really like someone
Just think don't bother asking that person you like out
Because they will just dropp you
And watch you fall down and down
Till you can't bear it
And just wont to die

I know this because I like someone
So a asked the person I like out
And now I am down
Because that someone crushed my heart

But I know one thing,
I will do anything for her
And I mean that with my whole heart
For she has it and till the end of time

Heart Broken

True love will blow you way,
For when you brake up,
You can always make up,
To make tomorrow a better day.

But if you brake up and you cant make up,
Your heart will be crashed,
It will fill like you just died,
And gone to hell.

Believe me when I say,
You would wish that you had,
For my heart got broken,
And it can't be fixed,
Because the one I loved,
Left me in bits.

Now I cry inside when I see her,
Wishing that we could be together,
But I wipe my tears of sorrow,
And get myself together,
Because I would love her forever.

Killed By The One You Love

Have you ever feel in love
And bin destroyed with in weeks
I have and I am going to tell you about it.

I fell in love with a girl,
And I thought she loved me to,
Well she had a boyfriend,
But that didn't stop her from,
She now don't want to know me,
I feel like I have just been,
Killed by the that I love,
So I won't to ask you,
Have you ever been,
Killed by the you love,
If you haven't then let me tell you,
It hurts a lot I think that I have just died inside,
My insides are now my out sides,
And my out sides are now my in sides
So please don't ever fall in love,
With a girl that has a pretty face,
And a beautiful smile,
A lovely personality,
Because you will just wish,
That you had been killed,
When they break your heart in two.

So have you ever been killed by the one you love.

Mission Of A Missionary

Mission for a missionary
Missionary quite contrary
How does your garden grow
A sixty niner is always finer
Come on lets go, dont be slow
Diggy doggy, you bend over
And i'll do you real slow
No i mean really slow
We both stand up, you pretend
Your looking over my shoulder
For a four leaf clover
We both pretend, because we dont know
We sit and face each other
Well' sit till the cows come home
I'll lie on my back
You pretend where at the track
You saddle me like a colt
I, ll just lie real still
Try not to bolt

My Everything

You are my everything
You are my one and only
You are the reason for me to breath
You are the reason for my heart to beat
You are my queen, my angel
I love you so much
And im never going to stop loving you
Till the day I die on the world I stand.

My Goddess

When we kiss
The sparks fly
When we touch
We light up the sky
For there is a twinkle
In your eye
That makes me feel
Like a little boy
You are my goddess
And I'm your guy
Together we are like
A love that will never die

Over The Edge

To ever one out there
Whose head is all over the place with love?
I am telling you straight up if it because you really like someone
And someone else really likes you
Just think don't bother asking that person you like out
Because they will just dropp you
And watch you fall down and down
Till you can't bear it
And just wont to die

I know this because I like someone
And one of my mate like me
So a asked the person I like out
And now I am down
Because that someone crushed my heart

But I know one thing,
I will do anything for her
And I mean that with my whole heart
For she has it and till the end of time

Star In The Sky

I just saw the star
That shined so bright
It was this star
That caught my eye
When i saw the star
In the night sky
That reminded me of you
The love of my life
So pure and true
For you are the one
That shined bright
The light star in the night

The Light

I and you are like a candle,
You are the flame that I light,
I am the wax that melts all-night,
As the candle light begins to dim,
The daybreak sun shines through and within,
The lights gone out the wax may have gone,
But my love for you will stay true and strong

The Little Angel

You always help people
Never ask for anything in return
You are like a big sister
And a second mum to all your friends
You always put a smile on everyone's face
With everything you do
You are like a angel
The little angel in the sky

True Love

There are two types of love,
I'm talking about true love,
What you feel when you're going out,
With someone special.

Like when you kiss
And you fill whole
Or when you hug
And you fill warm

Like when you get with in meters,
And your knees shake and go weak
When your hands trembles in fear
Your heart races and can't stop

But you know when you've found true love
Because you can't let them go
And they are always on your mind
But you can never bare seeing them in someone else's arms.
