## see fee lee(27/08/1962)

I haven't passed an exam in school  
I left school at the age 14  
Not one blue mark but all red  
The whole class I will  
Be the last or second last  
most word I can't spell  
I just use the word I know  
Sometime I know the word  
But can't find in dictionary  
So I have to phone my brother  
To spell it for me  
and English is not my first  
or my second language  
I never can and never will  
I start writing poetry at 43 now am 44  
I have written over hundred  
My hope bottom heart and wish  
Someone out there  
Publish my poetry all in a book  
Riches is not my aim  
My fulfill ness is to see  
People in theworld reading my book  
Know me as such

## 03 January: Energy Gives It All

Recently I feel inflow of energy,  
I feel, that it goes from this energy afar also is pure and heated  
I think it is your love encourages me and given to me of forces  
You operate on me even on such big distance ashore  
I present, as you will operate, when you will close  
I dream, seeing you walking above the sea as like walking in land  
Have I perfectly wasted time?  
The nature calms and pleases me  
In time I frequently recollected walks  
When the soft cool wind concerned my love  
I represented, that this your contact  
And you gently iron my cheek  
And I feel yours you remoteness from me more and more  
And from it to me it became whole  
But I believe, that, despite of all barriers  
I think that we in the future shall be together

## 28 November: Early Birds

Early morn the ground is wet  
Fewer birds fond to be up  
To search for the best and healthy worms  
Other lazing in the nests  
Will be the last or nothing left  
Be early and be the first  
Cause no fight no clash  
and be the one that grant much  
My purpose of my life  
I work hard and smart  
and will be the first  
I will find I will get  
I will conquer  
and I will succeed

# A

A day a night a dream  
A hope a wish a pray  
All day I thinking of you  
Is impossible no to FB  
At night I fantasize of you  
Warm by side in mind  
In dream I see image  
Coming to my illusion  
My hope you come  
To me you real  
Wish became truth  
Meet in person and in flesh  
The pray I ask is to fulfill  
My life with you

Cheering Happy New Year 2010.

A New Year a new counts down.

And nothing is easy in life's.

family work and housing.

We are very fortunate.

with many close family.

and some don't have anyone!

forgotten. Dead or alive no one know.....

Is sad... It could be you.

be please to have a job.

It doesn't matter cleaning toilets, as long it paid the bills.

And shelter, How fortunate we are.

Winter, snowfall stopped traffic and transports.

A new start, begin.

like the weather, when it going to change.

We will never known.

fireworks display munificent colours.

But the beauty is not always there!

A New Year a new counts down.

What the weather be like today or tomorrow.....

Will there always be a munificent fireworks?

Of cos no, what will happen in the next hour.

What change never be known

Hard time lighten heart.

Stop stop complaining.

Enjoy every moment we can.

# A Person's Sky

A person's sky is very blue,  
is blue a little melancholy;  
A person's time is very free,  
is free a little lonely;  
A person's day is very relaxed,  
is relaxed a little bored,  
but thought of a person's time is very happy,  
is happy a little sad.  
I want to say to you,  
that has you under the identical,  
A piece sky also to have me,  
many care about you the person,  
even if melancholy is inexplicable,  
but the emotion is actually sincere;  
A person's time is very free,  
but in this freedom lonely  
only then understands the life the human can withstand;  
A person's day is very relaxed,  
Always anytime company from left and right  
Thought of a person's time is very happy,  
but that small not well-known  
Sadly wants some people to undertake surely,  
because to you all thought of that,  
will look like that fine rain,  
to be ordinary surely,  
Flutters seeps my heart spleen.  
Ha-ha,  
I want probably so,  
to think that your form and your talent,  
the heart is always tranquil and fills with the move.  
Therefore I said that a little heart movement,  
for you understands my heart.

# Adults Play With Fireworks! You Will Be Burns

Adults play with fireworks! You will be burns

Why you adults never grow up? Playing with fireworks, it will burn oneself badly and it never be heals!

I really don't understand, Why adults playing with fireworks and firing at their neighbour's?

Have they thought of what Consequence will costly to themselves and their own?

They both sign's agreement time after time, no more play ground staff's! Untied nation

body help to make this agreement. Stop playing with firework and stop the invention!

But how long did it last? A week? A day? Or a minute? Firework's firing into neighbours

a seconds of bright yellow' light with the horrible sounds that no one like to heard it over again and again!

Maybe a life's been token or more, and the lights of the fireworks blinded all, maker blindness retaliation to protect themselves, whatever means necessary!

The aggressions it not the making it they created the maker! ! !

I really don't understand. The whole mid-east and throughout those world, ongoing is attacking a small minority people?

In a tiny country! What fear has in them? What hatred really in those?

To the smallest minority race's living on mother earth?

Peace? No such a thing human or prays can give us Peace! ! ! Peace is in oneself hand making and maker children must teach to love their neighbour. Peace to oneself and the peace will be with us all

With peace to oneself: SEE

# All Day Long

All day long  
I thought about you

Even when I tried not  
To think about you  
I thought about you

When I closed my eyes  
But my mind open  
I thought about you

When I thought about  
The beauty of the season  
I thought about you

When I thought about the  
Warmth of the upcoming holidays  
I thought about you

When I heard a love song  
On the radio  
I thought about you

When I checked my email  
In ring my bell  
I thought about you

Even when I said goodnight  
To the stars and the moon  
I thought about you

When I slipped underneath my blanket  
And gave in to the bliss of sweet dreams  
I thought about you.

I just cannot stop  
Thinking about you

# Battles Santa

We battles of thought and in mind  
Satan is not far behind  
We battles with family and friends  
Satan is happy to see  
We battles with the love one  
Satan love it  
We battles all our life  
Satan is there to destroy us

BATTLES, BATTLES, BATTLES

Why let Satan control our thought and in mind  
Why we think Satan is behind  
We chose to became Satan  
My excuse  
No my fault blame Satan  
Look deep in side  
See you or Satan doing  
Satan has no body  
To me he don't exit  
If I am bad all come from myself  
Not by Satan told me to

Nothing to worry  
I know we all have  
Satan within ourselves  
But still we in control  
Satan never can control my mind

# Be My One

Hi, Darling, honey, Bebe, sweetheart  
and I call you with any sweet word.  
You are in my dream, my life, my love,  
my heart and in me forever.  
We've been tangy.  
At each other, all the time,  
in second, in minute, in hour,  
in day and night.  
In week in month and year  
the feeling strong and touch  
with silent word,  
and will never go away.

Darling, honey, Bebe, sweetheart.

Wash my cloths and iron  
Can't you woman do anything right

But you man do nothing  
At home

Come sing just my song.

Look honey bees bussing all around.  
Busy making the sweet honey.  
From the sweetest honey bees.

# Chance In Life

Life is like the weather  
Changing everyday cold windy and sweat  
Warm humid and nice

Sweat we need to be clam  
When sad we find comfort  
When pain it take time to heal  
When hurt we learn to forgive and forget

# Christmas (Fallen Guy) .

Christmas (Fallen guy) .

Christmas has come in the winter season.  
and snows has start falling.  
battling cold, sleeping rough on the street freezing.  
For us it just like any normal day.  
warm house, warm foods and warm baths.  
We seem cannot see those fallen guy.  
Living on the street.  
Wonderful celebration, we all enjoy around the world.  
No one give a damn at them.  
Daily passing by homeless.  
This is Christmas celebrations.  
Some church kindly offer shelters.  
to the homeless. Hot soups and breads.  
Can someone and everyone give them a look.  
Please, bring some old clothing, make some sandwich and hot soups.  
To the homeless.  
For once, for a season.  
For this celebration, to give and care.  
Come together, we can make a difference.  
To keep homeless warm.  
My wish is not to see you another winter.  
on the street.  
God bless us all with warm clothing, shelters and foods.

Merry Christmas.  
Love you all human.

# Discovery The Stranger

The wife the lover and mother of our child  
She took the risk Cross Ocean and flies from skies  
To reach another stranger to be her beloved  
And will be the father of the children  
But how can it possible she can't spoke my language  
The culture thinking and way of life  
It not the same will it work how long will it last  
To me I love the stranger quality risk she takes  
and she give up all, hometown and family  
The beauty is we start to learn each other language  
To understand each other what she talking about  
Not just that but each day we discover each other more  
Wow your weather is the same wind blows in different way  
Just like here nothing different food are even better than here  
It make wonderful because we both will never get bored  
Each day sometime new each day is new  
A new discovery a new happiness I enjoy  
Discovery the stranger your entire life  
Will never be an end of discovery

Treat the stranger well remember she give up all  
From millions of her kind  
But she chose you and love

# Disease

disease

I don't agreed in civil war,  
insurgent and Terrorism,  
causing ruin of disease from those devil's  
feeding poison with word from the lord.  
reality and truly is their own greediness.  
and selfish craving for is own evil power.  
injecting disease into innocent being,  
and forcing them to accept, if not you will go to hell!

I don't think human being are that foolish.  
no knowledge what they doing.  
or become and became inhuman!  
word to protects? fights and kills.  
thought is right and think blessed.  
and what really is in their mind?  
do they genuine believe paradise exit?  
don't they know, what they doing?  
you playing ugly will be ended very ugly.  
no heaven or earth, for you to go or return.

devils feeding preys,  
Tiger, you can't and cannot be capture alive.  
and instructed to kill themselves.  
Muslim, missions is to be a martyrs.  
promising 100 virgin's and go to paradise.  
if there one such the paradise!  
preacher feeding believer to believe.  
and why don't those devils go first into paradise?  
but sending your child and your woman to kills and die?

terrors and civil war never stop!  
from Africa to Asian and to mid-east.  
why why why, we killing our own!  
neighbours and surrounding?  
Africa civil war and terrors been on going.  
100 years or more and on.  
independent Asians proud to be.

but never stop warring against own and former countrymen?  
terrors is daily living by.  
the mid-east, history repeats itself.  
brothers killing brothers true deadly.  
2000 years of bloods-line.  
never ending history?

The most beautiful creature on the earth  
Which float on earth visible to seen  
The build and height body illusion our mind  
Which bodily hunger to strike on your eye  
The fragile of this creature make the light  
Shining through top and bottom tiny bit  
Make up grow up horny and large  
Refuse no way eat me away  
Because we stone the creature air  
To behave wildly and ourselves is a creature

# Gaza Broken Tears

Gaza broken tears  
Tears sadness, when we been told we done wrong  
Tears pains, when we been discipline  
Tears hurts, when we lost and alone  
Happy, joy and feeling great proud with tears  
Because we are human being  
When I see this GAZA girl broken tears  
Broken Tears dropping from her eye  
Her heart been tear apart, this world it so unfair to her  
Nothing left for her all gone  
Why this thing happen to her  
She just a little girl, what can she be possible do any harm to anybody?  
Why, you have to punish her like this  
Tearing her hearts into millions pieces  
And why, you adults make it possible sitting down and keep talking  
Whatever tensions and grieve, resort it in a peaceful manner  
Don't you adults ever think of your children?  
How we been taught, we needed both to guide us  
We needed to learn loves and living in peace and happiness  
But you adults show us such examples  
Hatred killing and murdering WHY  
What we will become when we grown up?  
Do you want and expect us to follow your footsteps?  
I believe we both want peace, and it doesn't matter who start first  
What does matter, If we acting aggression towards each other  
No one ever thought of consequence can last for generations  
To the Israelis, I know our adults have been making troubles to you sometime.  
But we both know the trouble it does not only cause by our adults only  
Sometime is from you Israelis and I know we have been  
Unfriendly, toward each other over half a century  
But one thing I do want you, to give a thought, do you want your own little girl  
like me  
with broken tear the rest of her life?  
I believe you don't want this happen to her.  
I am begging to you Israelis, please to be kind and gentles, toward us even so  
our adults acting rush  
Please have big hearts spared us, don't destroy our villages and us.  
Just because you looking for somebody or groups, you destroy everything  
and we are innocence we did not make any trouble towards you

And not all our parent's and I am ashamed of our government  
don't have enough power to stop this troublesome people here  
Show me show us you are genuine gentlemen, show us peace. We ready to give.

I believe you got much to learn from us happiness!  
To be unity amongst us and living in Peace  
Gentle will receive more respects itself and kindness will be blessed in peace and  
happiness

It seem, like yesterday same old faces.

Looking forward to this wonderful new year.

Much joy and love, give and take.  
Selfish and jalousie, will be stranded.  
giving in full hearted and will rewarded.

Forgive and let it be forgotten.  
what has I done to upset you?  
or said somehow you feel uncomfortable!  
I am sorry, I can't turn the clock back.  
and I am sorry I cannot take back what I said.  
I wish I can turn it round.  
That me, and you can only be oneself.  
You never can be him and she will never can be you.  
Don't stand at the corner whispering,  
looky and never compared.  
Be one and be yourself.

Come together go on to 2010.  
Each day ahead has so much bountiful.

Heal faster and better  
Than any medicine in the world  
Because I know I write  
In anger sad pain and much joy  
Romance exotic and love  
Society reality and life  
Religion GOD and fantasia  
I write what I feel and heard  
Peaceful within, no more hurt or sad  
Anger all to happiness and

# Haiti Appeal

Haiti Appeal

Nature disaster no human can plan and control it.  
It come it come nothing like the hurricane or tornado  
We can have a day ahead hours to warns people get out of there.  
now and soon.  
Disaster can happen any time any where.  
Each time happen the horrific you heard  
Bury alive young and old, children and whole family  
wipe out.  
Well, you ask me is there a God  
No I don't think there a God. if there is one he must be blind.  
Sincerely, sorry, how i put it.  
I don; t have a better to express oneself.  
Why why why  
this thing never stop and hitting the poor and the poorest.  
I don't mean it should hit the rich.  
This should not happen to anybody or anywhere.  
If there a God! ! !

I'm human i live with the human world.  
and i see, I heard, I feel human come together.  
All around theworld,  
so kind offer to help giving aid and muscles  
to digs and hope we find the survivors.  
Aloud there cries without a tears.  
Aid and donations to Haiti.  
But what will happen when the camera gone?  
will we still remember, will we still help?  
will the giving continues?  
Haiti to rebuild their life's?

This night, a small group (The Black Londoner)  
Come together and talk.  
We must do something to help this people.  
Human just like you and me. Anything,  
Human blood is warm and Mother nature.  
nothing we can do when or where.  
But we still can do a lot to help the survivors.

To rebuild their life's.  
This people it not rich.  
Just have a normal pay worker.  
But there all has the heart of gold.  
Do care, do remember, how life's it is.  
You poor, you become invincible  
In most human eye and deaf ear.

Please open eye and ear to feel your heart.  
This people does needed help.  
Put both your hand feel your heart beat.  
You can, give a bread and give a drinks.  
Every human can affords to give something.  
Come together, you can, I give....

Thank you to the United Nations and i want  
to see all nations come together  
Peace and Love, You can, I give....

As hard as you like  
It impossible to feel a thing  
Scream back or challenges back

# I Am The Man Without Tear?

I am the man without tear?  
Who don't feel pain cannot be hurt  
Heart broken without a tear out of my eyes  
What are tears? Sorry, I can't just to show  
When my heart been tearing to millions pieces  
And you ask for my tear  
You want my tears and how much do you want?  
A bottle it a joke, a bucket laughing out loud  
or full bath tubs go to hell and die!  
Will a bottle, will a bucket or the full bath tubs  
Of my tears drops  
I give I show will it make the different  
And what can you do to mend  
My heart has been tearing into to millions pieces  
Forgive me I will not give you a dropp of my tear  
Truly I don't think you see or feel a thing  
Because you think I am the man  
You think I am Painless and bad  
Please don't think like this my love  
My heart is pouring out of bloods  
Uncontrollable not the tear from the eyes  
You will never know  
You will never understand  
You will never see  
I am the man without a tear out of my eyes  
You want to see  
I am happy to make peace and forget and give  
To do my best to make you happy  
I love you on loving you I don't want to lose you  
My heart is dead like hit by a 10 tons lorry  
A dropp of tear pain can't be describe  
A bottle of tears hurting so much powerless to mend  
A bucket of tears like been shots by machine gun  
Hundred holes bloods dripping uncontrollable  
A full bath tubs I will sure die.  
No tear, I can't give you tears  
Maybe is my fault make you cold  
Maybe it best not show with tears  
I know tears we see is painful and hurt

And tears we cannot be seen  
Tear unseen look coldest  
Because my tears is inside you can't see  
The tear you ask to show is a crocodile tears  
Because we are human being seeing is believing  
I love you and you know I love you  
and I know you love me  
I give; I give but not to ask a back  
Please can we stop the tears and fights  
Forget stupid's arguments  
Because I am stupid to love you  
And you stupid to love me  
The chemistry is the same  
At the bottom of the heart  
love I see loving one another  
Even with only daily water with rice  
the rest of my life  
I will not give you wealth and material thing  
But the riches I will give is daily joy  
On living on loving on happiness  
And the tears you can't see full stop

# I Been Walking On The Earth

I been walking on the earth  
To long, I am not old young or teen  
But I am tired without a rest  
Happily bring home one to one

This could work but go with the wind  
Another one comes connect and even sign contract  
Without lasting and long painful end

Stop, no more enough is there a mate out of billions  
One found one the one?  
I walk me walking to tired and sit down for a rest  
Resting and see the world go by

My thought spanning and mind confuse  
But my heart beating, my time has come  
The one the last I been waiting for a long time

In my soul see the one the future  
She walks in front of me  
See and Concentrated don't let her go by  
She frightens cold and lonely

Grab her, Hold her and hugs her tire  
Her soul lost doesn't know what if? and need comfort  
But her need is to be sure her

Protects her safe guiding her to love and care  
You will find only the if you see with your heart  
But not with your eyes seeing the beautiful  
Seeking happiness and don't ask for more

Your past my past will not open again  
Future we see, Be grateful; cherish the one and the last  
Happiness and wonderful joy at last we found each other

Our life fulfill a whole  
Till dead do us apart

# I Can Hear Feel It Clearly They Do Want Peace

I can hear feel it clearly they do want Peace.  
For Peace is to them understand oneself and another.  
Why we been killing each other more the half century?  
GOD honours us so cruel to each other?  
They speak the same language I believe!  
And I hear the voice the sound the cries  
You both got to open your eye and heart.  
No more killing no more any kind attacking toward each other  
And most important don't let the outsider  
To make us angry and hatred  
Biting tongues, heart stopped without a feeling  
Retaliations whatever mean necessary, either sending our own  
Baby to be Martyrdom and does anyone of you see any difference  
Your baby was killed by your opponent is sad and so much pain!  
But sending our own baby to be Martyrdom is hero and blessed in Paradise?  
This I honest don't understand? Forgive me my Lord in Heaven  
No I don't see any difference, all I see and hear daily  
Their mind and thought carryings with hatred and dislike? WHY  
How much more lives both going to lost?  
How much more pain? How much more?  
Does anyone ever think and thought this way the killing will never be stopped?  
Why, I think both already know WHY!  
Please, I beg you both Give a thought and feel the bottom of your heart  
See with your eye, living in Peace!  
Let it be PEACE amongst both. Let the past be by gone.  
God bless us all: See

In time I frequently recollected walks with you  
When the soft cool wind concerned my person  
I represented that this contact  
And you gently iron my cheek  
And I feel yours remoteness from me more and more

In this world there exists someone special  
Someone mean to touch my soul  
And confirm my believe that true love does exists  
Many people throw their hearts  
Like love message in a bottle  
Into the life ocean in the hope  
That someone special would find it  
On the other side  
Maybe just maybe it is a once  
In a lifetime opportunity for both of us  
To find their soul mate  
That most people spend an entire lifetime looking

Even when I said goodnight  
To the stars and the moon

# Look Through Crowds Of People

I have looked for you everywhere  
crossroads and to cyber spaces  
among the crowds of people  
I was asking myself how long it's possible to seek  
I'm tired to be lost in the crowd and to wake up alone  
It's so unfair to see how the sun is shining  
to be glad with every sunray with nobody to share my feelings  
To stay along with all my joys and sorrow,  
to live the life without you.  
I see you funny when you smile  
your hair are blown out with the wind  
and I see you going in my direction  
You subtly feel the harmony of the nature  
You enjoy watching the rain drops  
falling high above the sky  
and smash though into different sides  
You there, waving your hair  
You are a one  
It's easy to rely on you in every situation  
I'm delighted with you  
You know what you want in your life  
You do not give up, fall down, then go up  
You go further, it's painful  
But in front you see a beautiful future with the wonderful  
chances in the situation  
when you think it's impossible to chance anything  
Your soul starts to thaw out day after day  
You got warm and with this the hope comes  
You want to live and to think about nothing  
It's warm to you and you fall asleep  
Nothing disturbs you. This is a beautiful dream which gets you far-far away and  
you do not want to wake up. This is an internal fight which will last for ages. And  
in front there are dreams and dreams.... It's our future life with you I hope

ONESELF doing

Who right or wrong, I'm not here to judge! I love writing  
I write what I feel good and bad, sadness and pain.  
You die you lost nothing to do with me. I cannot make a difference  
Surely I cannot bring the dead back to life's  
This mid-east thing been ongoing 50 years, before I was born,  
bring me feeling sadness and shallow to see and heard  
a fellows human being killing each other daily by hatred!  
Surprise, they all look the same, tongues and sounds.  
I really don't know who is who!  
Who is the other? Which your preference!  
and why, they picking a fights. You do me first!  
to my people. I'll do you even worst!  
they do this to your people. Killing at each other never ending?  
You kill my children, we kill your children.  
If there any difference children and any human life's token by hatred  
oneself hand cover with human bloods, can it be ever watch away?

I really don't give a damn to you both, which right or wrong.  
But I do give my hearted, my love to see you both living in Peace!  
If a country infested by this horrible thing  
Maybe we think this infested thing is your only answer retaliation?  
Ask again oneself do you think this can ever being Peace? Or it bring more bloods  
and tears  
If a country government don't have the power or don't have the courage  
to terminated those infested desire! Who can and who let them in?  
Who let them grown? And who shelters them?  
I really don't know, any word can be said and done.  
To clear both mind and thought from fearing of each other!  
away from hatred for both side living in Peace! Side by side  
and I do want you to ask oneself, do you want Peace?  
Can you stop playing fire and can you stop aggressiveness with retaliation?  
And can you both just try. Take your mind away from hatred  
and see give a thought I love my neighbour's  
Amongst neighbours and more important is amongst oneself?

# Pretty Woman

Pretty woman.  
But wife is beautiful.  
Pretty woman is hot.  
But wife is the sexiest.  
Pretty woman is just for sex.  
But a wife is to make love.  
Wife is a forbidden fruit.  
To you and all.  
and wife is more caring.  
Be at home and by her husband.  
and wife is the husband diamond.  
And the husband love making love to her.  
That no other women can.  
Make him feel so good.  
and her husband always in love.  
With her.  
And wife is the husband success.  
Loving and warm full happiness.  
She bears our children. And  
She is the most gifted darling.

# Promise Land

We got nowhere else to go  
You can say we take over your desert  
We did not claim is back in force  
After the WW2 every country every ethnic  
Have lost family children and love one  
and the entire family, it to ugly to say and remember  
We all try our best to forget it all  
We have come back to our own lost country  
Over 2000 years ago we leave our land  
What truly drive us all away, it does not matter  
What matter is now, we here, we back to live to rebuild our very own country  
Which some don't agree! For goodness this belong to you or belong to us 2000  
years ago  
It does not really matter, It just a desert and is deserted  
To see our country is a no man land.  
Nobody in this world ever wants to live here but we did.  
And no human know how we feel  
How terrifying it is to live in an empty desert  
But we stay, with fully hearted and with our ethnic  
We brave through the desert storms; we brave through any unfamiliar climax  
and things  
And neighbours even feather away  
Building this desert we don't think about fear, but our only fear is our own  
neighbours  
Human being not monsters or desert storm we have come across that really  
scares us  
We centred to builds our home to build Israel in a desert  
Not long after that day have come, five nations of our neighbours attacking us  
This day transformed, the entire mid-east into danger lands  
Don't there know we got nowhere else to go, and we have no choose but we will  
defences ourselves to our very last breath. To our Mighty God in Heaven did you  
permit any fellow human terminate us living on mother earth? Where else these  
beings get permission from Father in Heaven? To see us disappear on mother  
earth? We want your answer? And we want it now?  
Truth or false  
Don't you people understand just a desert we claim back and remember we got  
nothing to lose?  
But much more improvement, the more you going to harm us the strongest we  
will become.

Don't you all see how beautiful the desert have rising up?  
Into a beautiful country Israel  
And the neighbours granted something, we all know  
If we stop killing each other, Mid-east is a lovely place to lives.  
We bring good fortune into mid-east! Why no one of you see it?  
In all eyes, we steal your desert? Truly I believe is not only reason?  
Or is it because over 2000 years hatred ago?  
I don't see or hear one living person 2000 years ago live into this date told  
How bad we are? But one thing for sure, we never disappear, we never will!  
We are human just likes you, unlucky ethnic, crucify by those cruel being. Why  
do this to us?  
We just like you human, we needed oxygen, and foods, water and a land belong  
to us to live in peace.  
No human on mother earth can live without one.  
Remember we got nowhere to go and we build Israel with our own hands  
We here to stay and please we beg you just give a little thought  
Be generous, be kind and don't attracts us anymore  
We believe we can be very helpful to each other and we do need each other  
To live in this promise land  
We truly love you and truly want peace with all our neighbours and throughout  
theworld  
Generosity will receive more rewarding and kindness will receive the Lord  
blessing.

Ps: as you all already know. I love writing and this really hurt me so much  
To see and heard a fellow human being ongoing killing each other daily without  
an end!

I don't have much education, but I do hear the entire story since I was a kids my  
grandparent told me this wonderful ethnic. And I do understand another feeling  
their land been stolen or occupy. But this not the case, as me a Chinese ethnic  
born in Malaysia bad time happen in Malaysia, and I was a a kid. The Malays  
want us Chinese and even India out of their country. This is impossible we born  
here. We live here Malaysia is our birth place. Marker in my name and our  
ancient, The Malays know the Chinese and India helps build Malaysia to very  
wonderful country to live and in comforts. Bring so many riches into Malaysia.  
We don't land on here by accidently in this promise land. I love Malaysia.  
Just like the Jewish rebuilds Israel not by accidently, I believe is every human the  
Lord given all with promise land. Lord wants to see unity where on earth they  
landed does not matter. The Lord has keeps his promise to all human being.  
The Malays has to try harder to understand us, we got nowhere to go; but to  
stay and live; I hope people in mid-east can just try harder! To understand even  
there in tension, like Malays toward us behind their mind. It ok we understand

the Malays as long as we can live in peace. Nothing really matter.

I can see is winning, winning no one really lose a thing. Peace to human landed  
on Promise land

I really can't explain you in just a letter or in word. All I can say is we are here to  
stay.

Please give oneself peace; the earth is full of riches and plenty for us to share.

Watch out, the scams, come on, and be real.  
is she in the flesh,  
like you can really feel,  
And touches.

Space alive,  
Virtual reality is so unreal.  
Transport faster than Lightning.  
Close and in front.  
Messengers live we sent,  
Virtual in the speeds of lightning.  
chatting, and see is real.  
Virtual reality feeling, alive and breathing.

Space alive,  
Unknowns smell and cannot touches.  
But feel close and near.  
Maybe we living in the same town.  
City, or,  
forever lost in unknowns space.  
Hard to believe.  
Seeing you and touching screens.  
Cyber beaming, Electrify charges.  
I am alive and real.

## Space Virtual Unreal,

14 December: Space Virtual unreal, which come to be true became reality.

Space we need to relax and to think  
We ask for spaces are we selfish or uncared  
We ask for space to be alone  
Why can't we share the space coziness as a pair?  
Pressure at work pressure at home  
Left it at work don't bring it back  
We try the best make it warmth and happy  
With pretence compromise and understand  
We will work it out together  
Because half already is your space  
And we are a whole

If you could give anyone anything for Christmas, what would in be?  
Peace is with you and happy throughout.

Action you take, can't be amendable.  
How cruel view and thought you become.  
No matter, how many kills and dies.  
Yearning of power, true greediness.

The war stops?  
and thanks GOD the war has gone.  
Don't let it come back.  
End domination and greediness  
Peace for Power, and to the world.  
To the world, for living and in PEACE.  
God blesses all man kind.

# Watch Theworld Go By

2 December: Watch theworld go by

2 December: Watch the world go by and sit down to enjoy the life.

This world such a hurry  
We don't know how to relax and take a rest  
The cars The planes running faster than before  
And broken down even fast  
Seem do not last longer than the old  
Cause being more smarter and  
More canning than before  
True it makes life easier than before  
But we became unhealthy and shorter  
Just like the cars and planes  
Why don't we sit down and  
Relax and watch theworld go by

# We Don't Look At Each Other Eye

Miraculous we go together  
To party to Pub and Theatre  
Still we don't look at each other eye  
And up the alley way in group  
When together and lift together  
Still we don't look at each other eye  
In all events you enjoy chatting with other men  
I have fun going merry go round with all ladies  
Still we don't look at each other eye  
Miraculous we both like to be together  
Attend all event and with the group  
Still we don't look at each other eye  
There must be something wrong we your eye  
Or my need surgery for my eye  
To see onto each other eye  
The moon is full tonight  
Walk with me to the park  
To shine under the moon light  
Kiss and hug warm and beautiful  
When shall we make this a wonderful night?

# What Ever

Whatever

Whatever we do and dreams, Whatever we give and takes  
Self doing is not in dreams, We give and don't expects in return

Whatever face on and off, Whatever hidden inside  
We see just a facial but what behind we will never can be know!

Whatever our birth and religions, Where else our parent from and our  
motherland  
We all dropp down from our mother panties and thank you, for the creation, on  
this great land but why! we fights toward each other and kills!

Whatever that me and my behaver, Whatever big and strong  
Nothing can be change and showing off, cos we're all greeds and selfish being

Am so nice and have to much, ever empty word and charity  
Gorgeously, but greeds for more, Sound so nice and kind no way no profits!

Whatever person and attitude, Whatever racial and country  
People is good truly all human is ugly being, We proud of our origins reality  
Riches are thefts and robbers

# Yin And Yang

Yin and yang go on so well  
Left and right can't without one  
And work together in pair  
Just like Adam and Eve  
Even mistake together they make  
Do not regret do not be blame  
Because yin or yang are not perfect  
Both double the happiness  
Both double the joy  
Both double the work  
Both double the grow

# You Peoples

You peoples

my peoples your peoples, my kind your kind that the kind?  
My family your family, my friends your friends, my parent your parent,  
my brothers and sisters, your brothers and sisters. That human being!

What we fighting for? Why there so much dislike and hatred in us all?  
Is it the pride? Is it the racial? Or because we just too proud?  
Of our tongue, hidden fear showing bravery, became an ugly soul.

How much does we really needed? How can we be enough?  
We steals, we lies, We cheat, We robs, don't give a damn you suffers and hurts!  
Until we get what we want to fulfil our greediness!

Why there is war around us? War again my-your own country! War again my-  
your peoples!  
War again my-your family! War again each other racial!  
War of the colour, blinded with evils, craving for power! To kill to conquer a  
fellow human being?

You peoples, big and small, tall and shorts running warm blooded though the  
vain!  
You peoples, living on the earth! enough for everyone to share.  
We need each other, joins together this earth, peace loving earthy being!

Your peoples
