Arrow In My Heart

This single arrow is the only thing keeping my heart together
Pull it out and I will love you
Because you have killed me
And all that have caused my pain
Thank you in advance my love!

Shelby Jasmin Estrada

Can I Be Anywhere But Here?

I want to be somewhere but here
This place is like a crowded room
Somewhere you can't even hear yourself
I don't like it
These people don't even know me
They think they know everything
But they are so naive
I can do anything without them knowing
I won't though
Because I still have a brain
I still have feelings
I also know what I think and feel
But them
They know nothing
They can't tell when something is wrong
They only know what they want
They don't care like they say
I wish I could be somewhere but here

Shelby Jasmin Estrada

Castle

Feel like you're in a castle
High in the sky
Within the clouds
With the doves at your window

Shelby Jasmin Estrada

Chains

The chains of love have broken
You have broken them
Broken our love
The love I trusted

Shelby Jasmin Estrada

Comfort

Doubt through a question
Joy between laughs
Feel whole from serenity
Like voice aware to surrender

Shelby Jasmin Estrada

Confused

My heart is confused
I don't know whom I love
I have no real feelings for anyone
It's not fun to be confused
But I guess it's how it's supposed to be
It's kind of crappy
It's damn shitty
Why can't it be different?
Does it always have to be like this?
My heart is confused
I want it to stop

Shelby Jasmin Estrada

Dark Sands

Dark sand running through my fingers
Like water dripping from the leaves of a palm tree
Smooth and rushing
This dark sand
Like the stars in the sky
Shining with every movement
The dark sands of a beach far away
Rushing in the oceans waters

Shelby Jasmin Estrada

Darkness

When you are alone
The darkness cannot comfort you
Not even your love can
You are alone
No one to hold
Darkness takes over
Hatred is darkness in your heart
Hatred for the one that never know

Shelby Jasmin Estrada

Do It!

Burn your body
Cut your wrist
Make yourself hurt
Feel the pain
Be alive in a new world
It's like dying,
but you never die
It feels amazing to die in a mind

Shelby Jasmin Estrada

Do You?

Do you love me?
Or are you trying to break my heart?
I know you want to be good to me
But you are hurting me badly
I don't want a heartbreak
All I need is your love
Will you give it to me?
I give you mine
I surrender my life for you
Because I love you
You alone

Shelby Jasmin Estrada

Dreaming

He made me dream
Dream of him
I am dreaming
Dreaming of us
Our love
Our trust
He made me dream

Shelby Jasmin Estrada

Drug I Can'T Quit

I want you to know
That I love you forever
You're the one that I consider my drug
The one that cures me when I'm in trouble
The one I can't quit
Because I know you'll never go away

Shelby Jasmin Estrada

Fall Emotions

A single leaf blowing on the cool ground like a lone tumbleweed
Naked trees shivering as the wind blows; as I'm walking down the road
I'm thinking to myself "Why does this weather change my emotions like a bird
caught in the twirls of wind
Shifting and changing me
Sad to glad
Happy to mad
In love to sick of love
Making me something I don't like
Falling changing the trees
Changing my emotions

Shelby Jasmin Estrada

Fall Night

Bright stars

Black skies

Moon shining high above

Like his eyes, gold in the sun

Trees shaking and shivering as an October breeze blows softly

Twisting and turning the leaves on the ground

Red, orange, yellow and brown

Shelby Jasmin Estrada

Flying In The Air

Birds flying lightly through the deep blue sky
Like their life have no problems
They only have their destination;
wherever weather takes them
Free to fly to their choice
Away from the worlds flaws
Just to let loose

Shelby Jasmin Estrada

For Anyone Who Has Never Been Loved

You are special
You are beautiful
You are wonderful

You have certain qualities only someone like you can have
I don't mean to single you out or tell you your special,
but in a way you are
You have something in you, that makes you you

You have courage, something only you can have
You are brave
You are caring and loving
You have peace within you

No one can hurt you when you are you
You don't need drugs or alcohol
You don't need to hurt yourself to free the pain

Alls you need to do, is believe in yourself and do the impossible
For those of you who have been abused, raped, molested, hurt in anyway, or has
thought no one loves you
Think again my dears

Love is only a close of your eyes
And a dream away
Dream big enough and it will come true

Shelby Jasmin Estrada

For You

I'll do anything for you
You're the only one I love
Jump off a cliff
Dive in an ice-cold ocean
All I want is for you to hold me close
Look in my eyes
Tell me "I love you"
That's all I ask for

Shelby Jasmin Estrada

Gone

You left me
You left me nothing
Nothing but the pain of yesterday
You are gone
And you stole my heart
Soon I will be gone
I cannot hold this life together
I am broken
Because of you

Shelby Jasmin Estrada

He Loves Me

He knows I'm his
He knows I love him
He is my heart
No one can change that
He loves me

Shelby Jasmin Estrada

Her Wedding

Blue beads and wedding rings
Lilacs fumigate the rooms
Rose petals spread across the floors
Vanilla makes the crowd smile as if the bride and groom just kissed
Slow dances create romances
Sweet laughs of satisfaction fill the dance floor
Cake on her nose is hysterical
Ribbons and roses fly through the air into unexpected hands
Cans rattle after the car as if chasing it

Shelby Jasmin Estrada

His Love

His fingers entwined with mine
Making me want him so badly
To be with him
We kiss like it's our first time
Nervous shaking in our voices
Bodies sweating
Mouths quivering
And I know that he is all mine
To hold, to love, forever

Shelby Jasmin Estrada

I Am Not The Same Without You

I used to see you as someone I loved

I used to think you were the stars in the sky

I used to want you to hold me in your arms,
just to hear your heartbeat

I used to love the sound your breathing made

I used to see you in the clouds
on a bright sunny day

As the tears flow down my face
I think to myself the way you used to look in my eyes
and tell me that I was your only one

I used to feel like I could trust you with my life

If I ever jumped off a building or flew through the air like a bird
off of the waterfall into the ocean,
I did it because I knew you would be there to hold my trembling body

You used to soothe my aching heart when I was down

When no one cared about me,
you were there to make everything go away

You used to be the drug that cured my pain

I used to think you were the one,
the one who would never leave me

But I was wrong

When you walk through that door with your bag and the look of satisfaction to
save your country

I knew you were never coming back

Until the men in the suites with your dog tag,
came to my front door

I couldn't breathe

I couldn't see anything,
but the man I used to love

The man who went to Iraq

The man who went saved the world from a war that cost him his life

Shelby Jasmin Estrada

I Can'T Forget You

I can't forget you
Your eyes shining like a moon
Bright like a star
Your smile is radiant like a sun
Radiant like a white horse glimmering in the sun
The way our hearts beat together
I see your face in the stars
In the rain
In a rose petals
I see your eyes in the ocean
In the dandelions
You're beautiful to me
I never want to forget you

Shelby Jasmin Estrada

I Don'T Know What To Do

I don't know what to do
I can't sleep
Without you
I can't stand
My hearts beating
It's almost dead
Because you aren't here
To let me be free
It's impossible to be free
When I know you are out there
Trying to not think of me
As I can't do of you
I want you to be here
So then I can know you love me
I feel it in my heart
But my head says it can't be true

Shelby Jasmin Estrada

I Just Want You To Know

I just want you to know
That I love you
It's an uncontrollable love
Something unknown
You're my reason for life
I'm not the prettiest
Or the smartest
But I just want you to know
That I do love you
I'm not the skinniest
Or the most intellectual
But love just comes from the heart
I just want you to know

Shelby Jasmin Estrada

I Love Everything You Do

I love everything you do
The way you love me
All the things you do
The way you move your lips
The way you make my heart pound
The way you kiss me
It makes me happy
To know that you love me
All the hugs
All the gifts
Everything you do
You make me high
You make me drunk
Your smell intoxicates the room
You're like my morning coffee
You wake me up with a single kiss
Because everything you do
Is my drug

Shelby Jasmin Estrada

I Love You Much

I love your beauty
I love your grace
I love the loveliness of you face
Your heart is pure like a dove
I will always love you much

Shelby Jasmin Estrada

I Love You!

I love you!
Just high school love
That's all it is
Do you love me?
High school romance
Moves to true love
I love you
You love me more than words

Shelby Jasmin Estrada

I Need To Just Leave

I need to leave this place
I need to get out of here
Just get away
Run away
Fly away
Leave this way of life
Let these tears be no more
I hate living this way
I hate being with you people
I need to get away
Run away
Fly away

Shelby Jasmin Estrada

I Need You

I need you like the rain on the mountains
You're the one that I need
I need you like my heart and soul
I need you like the stars in the sky
It's a need that lasts forever
You have my heart forever
I need you like the air I breathe
You're on my mind
I can't live without you

Shelby Jasmin Estrada

I Thought You Said

I thought you loved me
You were so good to me
You understood me
You were the only one who said I love you
And I believed you
At first I thought you were just saying it to say it
Then I realized you did love me
Staying up in the middle of the night
Talking to me about anything and everything
Out of the blue saying 'I love you'
Telling me I had beautiful eyes
That my lips were beyond kissable
I was someone you didn't want to hurt
I know you didn't mean to hurt me
I just get hurt too easily
I thought I told you
I thought you knew I loved you
Even though we lived in complete different states
I still love you
My heart is acheing
And I can't stop it
Tears are falling down my cheeks
My eyes are sad
Why did you do that?
I thought you said I was beautiful,
And you never wanted to be without me?

Shelby Jasmin Estrada

I Will Always Love You

I will love you always
Some kind of love that is undefined
You are like the light at the end of the tunnel
The dove in the sky
The only purity left in the world
I will love you always
You make my dreams romantic
Every dream about you is filled with the love
The love only in fairy tales
You are my prince charming
My Casanova
The castle in the clouds
I will love you always and forever

Shelby Jasmin Estrada

I Wish I Could Erase It

I want to be able to take away your pain
Like a magic fairy
Just erase it all
To make everything go away
Make your bad history, the history that hurt you, disappear
To make you happy, not live with the shame of having no way to protect yourself

I want to make your life a breeze
I want to destroy your pain

Shelby Jasmin Estrada

I'LI Be The One

With the love you take
I'll be the one
I'll be the one
Here for you
I love the way you are
I'll be the one
The one for you
Because you love
I'll be the one
I hope you understand
That the love you take
Is mine
I'll be the one

Shelby Jasmin Estrada

I'M Complete With You

Sun and the moon

Stars and the birds

Flowers and the water

These are all the things that remind me of the things we did

The things we did together

That made everything right

Made my life complete

It was like nothing mattered

Like everything was perfect

The stars aligned

And I was complete

Shelby Jasmin Estrada

In My Head

There is this urge inside me to live no more
It screams 'DIE DIE DIE! '
'Kill yourself' my heart tells me
Makes me feel depressed
My body feels lost
I feel like I need to die
I don't want to hurt anyone
I only want to hurt myself
You need to die
Just end it
Stab the knife into your body
Let it pierce your skin
La la la, just sing a song
End it all
Begin something new
Make yourself someone

Shelby Jasmin Estrada

Inspiration

People can be your inspiration
When you move away from them
Things happen
You lose a part of yourself
You can never find who inspires you
They pass, they leave you
When you least expect it
You can remember them
When they are gone
Nobodies there for you
Because nobody was there for them

Shelby Jasmin Estrada

Into Broken Plans

Into broken plans
Only if you could understand
I love you
I'm still here for you
I've come to your rescue
But you disappoint me...
Can you hear me?
If I ask you to stop,
will you change?

Shelby Jasmin Estrada

Into Broken Plans, Part Two

Into broken plans
You said you would try to understand
Where are you now?
I don't know how,
but you left me all alone
I'm alone
I thought you cared
It was my heart I shared
Don't you love me?

Shelby Jasmin Estrada

Is It True?

You may love me
But is it true love
I can't stand to be hurt
It isn't right
You can't hurt me
I don't want that
Don't love me unless you want to

Shelby Jasmin Estrada

It's Just Right

Veins pulsing
Hands sweating
Blade breaking the skin
Blood rushing
No emotions
Everything feels perfect
My body feels amazing
It's my high
No drugs, no alcohol
It's my favorite satisfaction
The look and taste of the blood
Slowly dripping to my lap
The open wound
The smell rising is sweet
I feel like I'm on the merry go round
It feels like flying colors
This only lasts a few seconds
But those seconds
Oh, those seconds
Make my heart pound
I love the feeling
The feeling of not hurting
Breaks my barrier
I finally feel like I fit in
That I'm not alone
I actually have something to live for

Shelby Jasmin Estrada

Just Go Away?

Everyday there is a feeling
I feel lost and unloved
My depression hurts
I'm not sure why I feel this
Why am I depressed?
Who has hurt me?
I have no clue
It doesn't feel right to smile
When I smile
It feels like I'm trying it for the first time
I have an empty feeling in my heart
I'm starting to think it's because I have no one to hold me
Am I love sick?
Do I miss him too much?
He lives so far away...
I don't know why I did this to myself
I try to tell myself it's all going to work out
I'm going to be with him soon
Distance can't keep us apart
The tequilla I drink alone on the kitchen floor does not help
It takes my mind off how much I hate myself, but not how much I love him
He is everything to me
I fell in love for the first time
And he lives far away
I sometimes feel like ridding this pain
End it all
Make it disappear

Shelby Jasmin Estrada

Late Night

Paint splatters
My heart pitter patters
At the thought of rain
Without any pain
Just another day
With a ray
Of beautiful sunshine
The trees of pine
Blow in the breeze
Just at ease
Leaves blow
Cat meow
Its night
Lets not fight
I love you
Its nothing new

Shelby Jasmin Estrada

Loneliness

Loneliness

Nothing in the world to live for

Long glares

Whispers of disgrace

No one wants you

You are not needed

You are alone

Because no one likes you

Shelby Jasmin Estrada

Memories Of You

The colors of the rainbow remind me of the joy you brought to me
Blue skies and butterflies
Rushing rivers send shivers down my spine
A chocolate kiss says I miss you
Green grass just tells a story of the past
Candles lit, lights dimmed tells me you still love me
Trees' blowing says summer is gone and a winter chill arrives
The writing on scrolled out on the paper tells a love story
Heated fires and warm cups of cocoa make you think of what its like to be a
snowflake

Shelby Jasmin Estrada

Mountain Top

Clouds at the top of the mountain
Covering it like a sheet of paper
Wrapped around a thousand times
As white as snow
On the mountain top

Shelby Jasmin Estrada

My Dream

Peaceful romance in the eve of the night
Dancing under the stars with you
You holding me
Me just loving you
You're beautiful
I can't stand to be away from you
Jasmine vines hanging from the stonewalls
Lightly blowing in the wind
A sweet smell rising off the water
As we dance on the bridge
Holding each other
With the moon high above

Shelby Jasmin Estrada

My Heart Is Yours

My heart is yours to hold
To do what you like with it
But if you hurt me
You will be in my debt for all eternity

Shelby Jasmin Estrada

My Roots Are...

My roots are... the site of raindew running down my window, the smell of lavender floating through the halls, the murmers of Tom&Jerry in the morning

My roots are... the smell of blueberry pancakes and fried apples, the look my mama gives me when I reach up into the cupboard for a glass to have some of the yummy orange juice

My roots are... the way my daddy used to call me his little tweety bird, and his beauty

My roots are... Jeralynn Rose, Moris Orlando, Jerry Kenneth, and Joan Sharon.

Shelby Jasmin Estrada

Mystery

Sun sets just behind the Blue Mountains
Creating pinks and oranges painted in the sky
As the sky turns darker, tides flow in and out more rapidly
Trees blow fiercer in the wind
Birds fly past a curious cat meowing at the door of a dark mysterious house
The door creaks open, pitch black
There is no sign of movement in the doorway
After the cat is in the house, the door closes the same way it opened; silently
and slowly

Shelby Jasmin Estrada

Once

Once I loved you
And you loved me
You held me tight
Kept my heart trapped in yours
I gave it to you
I never gave it to anyone but you
Once is all I need
For love to take over
I'll love you forever
I'm yours

Shelby Jasmin Estrada

Our Day In April (Part 1)

When you walked through the door and into the room
I thought you were not existed
The way you looked when you smiled
My heart pounded with such aspiration, that i could almost not breathe
Then you walked to me, like you heard me wanting you

You smiled at me and asked my name
With a short breath i said 'Shelby'
Then you told me your name 'Damien'

A few months went by and we learned about eachother
I learned your favorite color was dark blue, you come from Australia, Your first
job was as an astronomers apprentice, and your father was killed in a fire
I told you my favorite color was teal, I lived on the island my whole life, my first
job was as a prep-cook, and I never really knew my real dad

Three years pass-by and it's high school graduation
We have been through so much together, it's hard to believe we have to leave
eachother
My father has died of Leukemia, my brother has lost a leg in the war in Iraq
Your mother got hypo-thermia one winter and lost both of her legs, your sister is
in a coma from a car crash

We will never be the same as we were when we met, that one sunny day in April,
when the flowers were blooming and the rainbows were fading slowly
That day, will stay in our hearts, for the hope that one day, we will meet again
on a day like our day, again

Shelby Jasmin Estrada

Our Day In April (Part 2)

Everyday since our last day of high school, I can't stop thinking about the night
I'm sorry to say we should have not draken the whiskey
But being drunk did not make my first year of college easy
Four months along and I feel like a balloon

That night was really romantic
The way you held me and played our song (My Heart Will Go On: By Celion Dion)

The look you gave me in the morning
The flowers on the bed
The strawberries and chocolate were a perfect topping to the banana pancakes
The smell of brewing coffee
The feel of water running down my spine to the shower floor

Our last night was perfect
Just like you
Your smile, your cheekbones
Your eyes, your lips
Your hands running through my long dark hair

I've thought about calling you, but I don't want to hurt you
If I call you, will you still love me?

Shelby Jasmin Estrada

Our Day In April (Part 3)

I called you in the middle of october
When I called you the first time, you were not there
Nor the second, but the third, you were
When I heard your voice, I almost hung up

But then you said my name
We started slowly talking, then I brought up the subject, and you cried
You cried because you were happy and you loved me

You told me you wanted to be there for me
You wanted to take care of me and our baby

At six months pregnant, you got drafted to the war in Iraq
My heart sunk when you told me this had happened
You told me though that you would return, I believed you

Everyday I would cry for you, and write you my love
Everyone of those days i grew closer to becoming bigger

The day that my water broke, was the day that I cried the hardest
You were not there to hold my hand and tell me that you loved me

Our baby girl named Anne Marie Rose had black hair, green eyes, pale white
skin, red lips, her eyes were as big as the moon, and she weighed six pounds
and nine ounces
She was born April 22,2013
On our day in April

Shelby Jasmin Estrada

Our Day In April (Part 4)

A year has passed by and you are gone and our daughter is as beautiful as a
blood stained white rose
Her black hair is now to her shoulders, her eyes have grown more intense, and
her first word was fire

The way she looks at me when I'm sad is just like you looked at me
With your eyes in a mood that made me feel happy inside
You and Anne Marie are such alike

She makes me think about you all the time
I love her with all my life
As I did of you

On her birthday, on the sunniest day of spring, with all the rainbows slowly
fading, I pray to the lord for bringing you into my life

And in the eve of the night with the wind gently blowing, and the flowers swaying,
my tear drops fall into the river in our back yard, where I stand on the bridge
thinking about you
As our day in April slowly fades away

Shelby Jasmin Estrada

Our Feelings

Shy looks and nervous grins
Trying to tell each other
But can't, afraid of what the other will say
Knowing we're supposed to be together
Just can't say it
Can only feel it

Shelby Jasmin Estrada

Our Night On The Beach

Waves crashing on the beach
Sand in my toes
Sun setting
Trees swaying
Throwing rounds rocks in the water
Lying in each others arms
Birds on a log
Crabs crawling along the waters edge
Our footprints through the sand
Scattered like the stars in the sky

Shelby Jasmin Estrada

Painted Tree Lane

Sitting in the car
Driving down the painted tree lane
Colors rushing and flying by
Thinking of the days
When nothing mattered
Just relaxing as the sun hits my face
Listening to the road under the tires
Black and smooth under the tires

Shelby Jasmin Estrada

Playful

I am a blood rose of rain
Be frantic to play with me
Dream of the sky
Whisper like a thousand enormous wild flowers
Screaming language could crush a lie
Leave endless shadows on my petals

Shelby Jasmin Estrada

Queen

Cover up your tears
Smile like a queen
Thats what you told me
When my heart was sad

Shelby Jasmin Estrada

Rainy Days

Rain on a cold winter day

The petals of the flowers dripping raindrops, one by one into the dark soil

Bees and birds ducking for cover from getting pelted by the morning rain

Like shooting stars flying through the open sky

I'm sitting in my room, looking through my window as the rain drips from the shed

Falling on the bushes

Each raindropp racing each other to the ground to a dangerous splatter

I want to dance with the falling rain

Prancing and dancing with rain

He is my only friend on a cold rainy day

Shelby Jasmin Estrada

Rivers Flow

The rivers flow is desperate
Desperate to meet the ocean
The deep blue ocean
The rivers flow is winding
Winding along the rivers bank
The rivers bank is covered with creatures
Creatures who use the water to survive
Bears, beavers, and frogs
The bears eat the fish
Beavers build dams in the water to live
Frogs eat the bugs that swarm the surface of the river
Rivers flow moves across the land
Like a serpent through the sand of a dusty desert

Shelby Jasmin Estrada

Sad Place

It's a sad place when you have no one to hold
Everything seems so gloomy
There's no butterflies or rainbows
Only dark clouds and mud puddles
No beauty left in the world

Shelby Jasmin Estrada

Silent Screams

I hear your screams travel up the stairways
like the bears climbing the mountains
Rising higher and higher
I no longer fear your fighting
I ignore it
It's like hearing a t.v. murmur
To me, your screams and shouts are nothing more than noise
Little noise that means nothing to me

Shelby Jasmin Estrada

Sinking

Sinking deeper, and deeper
My heart is sinking deeper and deeper
This puddle never ends
This life is for one who loves to be invisible
Invisible to everyone

Shelby Jasmin Estrada

Something In You

There is something in your eyes
Something that will never change
It'll stay there
Starring back at me everyday
Just right there in your eyes
Twinkling and sparkling

Shelby Jasmin Estrada

Spring Valley

Water tumbling over the hills and through the valley
Sending salmon rushing through the water
Along the bank side bears fish with their gynomous paws
Cubs running through the brush, while chasing the occasional butterfly
Flowers spread through the grass like the different rocks

Shelby Jasmin Estrada

Stop This Pain

This pain is unbearable
Why have you insisted on making it worse?
Lying to me and confusing me
It sucks
And you know it
Yet you stand here
Say you love me
Talk to me like nothing wrong
You hurt me
You taunt me
You make everything worse
But you make me love you with your gorgeous eyes, plump lips, and beautiful hands
Why does this always happen?

Shelby Jasmin Estrada

Stormy Night

Trees blowing in the wind
Oceans creating large waves
Waves crashing onto the beach
The night of her first kiss
Snow falls
Hearts beat with a first touch
Smoke roars into the sky
Shivers rise through the spine
Of the wonders of a stormy night

Shelby Jasmin Estrada

Strawberry Lips

His lips are the color of strawberries
Plump and fresh
Pressed against mine
Making me sweat
My heart pounding heavily
His strawberry lips

Shelby Jasmin Estrada

Summer

Sun shining

Following my every movement

The cool musty breeze of a summer's day blowing through the old cedar tree

Making my thoughts disappear

My thoughts just melting away into thin air

My body unwinding into the soft green grass

Shelby Jasmin Estrada

That One Night

The moon reflected on the water
Clear starry sky
Tall green grass gently blowing the breeze
As we lie in a bed of daisy's by the water
Watching the birds fly with grace
Gliding over the river
Each heart beat slow like a drum
Pounding in unison
Beating as one

Shelby Jasmin Estrada

The Beginning, The End

It all starts the same
He loves me, he loves me not
Daisy by daisy, torn apart
Girls kissing the boys on the cheeks, by the swings
Innocent Valentines cards, with sweet 'will you be mine? '
From the beginning girls are led to believe they are beautiful
It all ends the same
He loves me, he loved me
Rose by rose, placed on the caskets
Women and children crying, on the shoulders of their love
Forgiving gestures of I am sorry
It starts the same, ends the same

Shelby Jasmin Estrada

The Death Bird

The death bird screams in the chill of the night
Flying through the tree branches
Making themselves scarce
Wind blowing through his wings
The moon being covered by the clouds,
like a knight in shining armor
As the church bells ring, the towns people sleep in fear
Gentlemen stumble drunken giddy with the sweet intoxicating life and alcohol
Their bodies numb with joy
The people do not know the death bird sings for a lost soul
The man on the streets who has never found love
His blood pumps feriously through his body
A thousand thoughts running through his mind
As the death bird screams above his head
Just waiting for death to cross over the dark fearful man

Shelby Jasmin Estrada

The Elements

Wind and Fire
Earth and Water
Spirit and Air
These are the six elements

Wind stands for grace
Fire stands for ferocious
Earth stands for good-natured
Water stands for mysterious
Spirit stands for blissful
Air stands for light-hearted

Wind is graceful like a leaf caught in a tornado
Fire is ferocious like the way my hair whips around in the wind
Earth is good-natured like mother-nature carressing the rivers in the mouths of her mountains
Water is mysterious like the thought of love
Spirit is blissful like the seenity brought by a kiss
Air is light-hearted like the way it lets me live to love

The six elements;

Wind

Fire

Earth

Water

Spirit

Air

They make me feel alive for once, without my elements I would be lost in a world of blank simplicity

Shelby Jasmin Estrada

The Long Walk Home

Walking in the hot sun
Feet aching
Legs and back throbbing
Smelling gasoline zoom by
Hearing tires screech
Listening for a crow to caw
Feeling a breeze rush by
My lips taste like sweat
As I walk the road home
I see the sun slowly fade

Shelby Jasmin Estrada

The Night Alone

Silent moon
Chilling breeze
Flowers still in the eve
Dark blue sky
Trees blowing high
Under the glow of the moon

Shelby Jasmin Estrada

The Night I Could Not Love You Anymore

I'm lying with you in a bed with white sheets
We are just lying there, talking
I reach under the mattress, while you start to fall asleep

The night is slowly drifting with the smell of roses and sound of birds chirping
I reach for the one thing, that will end your hurting me
The one thing to put a stop to this pain and suffering
The dagger my father gave me, on his death bed

The blanket is red, so it won't make a difference

I raise the dagger and aim for your heart, to make you die quicker
I listen for your last breathe and the beat your heart makes

As I run, run out the door into the forrest,
I can't stop crying, I never cry
If I didn't love you, then why am I crying

I didn't need any more suffering and the wreched pain you caused me
The trees whipping past me,
My dress blowing like a leaf caught in the wind

The snow, cold under my bare feet, is white as can be
The blood on my hands is dripping slowly, making a path
As the stars are slowly being erased from the sky
I am closer to the temple
The temple I can hide and let my fears go

One thing I am sure
I cannot go back to that house
The house that I used to know
With his body lying on the bed,
With blood falling to the floor

The Night It Happened

The night it happened
I couldn't stop crying
The night you left
The night you found someone else
It ripped my heart in half
Tared it apart
Made it unable to be put back together
No sign of whether it existed or not
It was gone
I couldn't stop crying
The night it happened

The Ocean

Sitting by the water
On the docks
Watching the fish
Leap from the water
Plopping lightly into the deep ocean
Sinking and swimming
I keep thinking about him
Wishing he was by my side
Holding my hand in his
With the pink and blue sky in the distance
Reflecting in his eyes

Shelby Jasmin Estrada

The Voices

It's like my voice i trying to scream
Over everyone else's
Quiet, hateful whispers

The Way It Was

The words I want to say
The things I long to whisper
Into your ear
They are no longer there
The look in your eyes has faded
The way you used to mumble my name is gone
The love you had
The heart I loved
Is no more there
It is gone
Where has it disappeared to?
I want to know
So then I can tell you how I feel
I want you to feel the way I feel
I want you to love me again
To touch me like you did
To play your song once again
For me
Only me
I want to hear those sweet words again
Please tell me
Why you ignore me
Why you no longer look at me
I want to know
The way you used to kiss me
The tears you used to wipe away
Now fall from my cheek to my hands
Your fingers no longer feel my smooth skin
Your smell does not linger on me anymore
I want to feel the way your lips used to feel on the back of my neck
Your breath along my hand when we first met, about to kiss it, still lingers in
slow motion
Making me scared
I am still scared to tell you how I feel
Just because I know you don't feel the same
You only felt that way in the beginning
Because you had to
Just for you
No one else

Can you make up your mind?
Please?
I always hear your voice calling me when I want you
When I'm in the park
Or in the ocean
The breeze from the trees
The flowers in my garden
It makes me cry
But one thing is wrong
You aren't there to wipe away the tears
Like you used to
Every time I try to write you my feelings
The words don't come out right
They are wrong
Because my feelings are confused
Can you tell me why?
I want to know
Why my heart always stops at the sound of your voice?
It's like I'm dying because I'm in love with you
It doesn't help
It makes everything worse
Because u know you aren't going to come back into my life
The tears on my paper are not because I don't love you anymore
I'm crying because you don't love me
It hurts to say that
But it's true
The birds don't sing the same song
The songs seem more slow and sad
They are no longer love songs
They are sad songs
Depressing songs
You are not in my life
The pianos do not play beautiful
They play sad, drastic songs
That makes me more and more unhappy
The ring I used to wear now lies in the box
Waiting
To be disposed of
For you to take it back some day
You do not love me
I know that now

The Way You Look

As I lightly kiss your lips
The smell of cherry blossoms rises from your skin
It sends a shiver through my spine
That I can't ignore
All I know is that I want more
It's unbearable for me to stop
Your love is taking me deeper
And deeper
It makes me uncontrollable
And I can't stay away
The way you look
The way you smell
It's so hard to forget
That you are only a boy
Not anything I should get attached to

Thinking About This

This is something I've been thinking about for awhile
About how much I love you
I love you more than I even know
It makes me so frustrated to see another girl in your arms
I get jealous
And I just want to be with you
Do you feel the same way?
Probably not
But it is something I had to ask

Shelby Jasmin Estrada

This Is A Song: About Kyle's Reason

How come your eyes are so blue? People ask
The skies are too dark to be April
It doesn't seem like you love me anymore
You just ignore me
You don't hug me anymore
You barely even know I'm here
You don't even look at my eyes when I cry
You are afraid to see the tears
The tears you cause
Why don't you just go?
Keep me from this pain
I don't want to feel it anymore
You are such a lie
A burden I can't handle
I think of you when I brush my hair
When I smell the roses
When I see a strangers smile
Or the blue jay on the windowsill
People say you are an angel
But that's the only thing they see
They don't see you intoxicated
They don't see the bruises
Because I cover them
To save you
One day you will see
I will let my heart go
You won't be able to save yourself
Because you didn't save me
I saved you
Now I'm not going to be there to save you anymore

This Is For You

Stars above

The sea below

Mountains a far

You beside me

You are the greatest beauty god created

Shelby Jasmin Estrada

This Is How I Feel

You are the one person I can trust with my thoughts
I never want to lose you to anyone
Mainly because you are the one that I know will be there
The one I can tell everything to
The one who will hold me when I'm sad
The one who will tell me everything is alright, even when it's not
The one to kiss me lightly and wipe away my tears
Warm me when I'm cold
Be the one who will know how I feel even if I don't have to say it
You are the one, the one I can trust to keep me safe
Don't ever leave me

Shelby Jasmin Estrada

This Is What I Wish I Could Say To You

I'm sorry for the things that happened to you when you were young.
I wish I could do something to change it
What that person did to you was wrong
They shouldn't have done that
They most likely didn't know what they got themselves into"
That's what I wish I could say to you
But I don't know how
It's complicated for me
I wish I could know what happened
Why they did it
I wish I could learn how to love you
I'm sorry I can't help you change your past
I'm sorry

Shelby Jasmin Estrada

Us

Every time I close my eyes a snap shot of you appears
When I open them you're gone in a flash
When we are together
It's like the universe is on fire
Blazing hot like a forest fire
Growing hotter and hotter
All because of our chemistry
We practically explode with one kiss
We melt Antarctica with one touch
Our fire is growing
Hotter than ever
All because we are one

Shelby Jasmin Estrada

Wandering

I am wandering
Wandering in the dark
Looking for him
He hides
Hides in the shadows
Leaving me to wander about the dark
Praying for him

Shelby Jasmin Estrada

Want

I want him to love me
I want him to hug and kiss me like he used to
To grasp me with light, caring hands
The want for him is strong
I won't forget him
Because I want him

Shelby Jasmin Estrada

Was

He was the past
Past of my heart
He was the one
One in my soul
He was the clock
The clock ticking in my mind
Telling me to love him no more
For he was

Shelby Jasmin Estrada

What Else Can You Take?

Every word you say is like a song
Every breath you take is my breathing
My heart is yours
My love is internal
You stole my breath and my heart
What else can you do?
You can love me for life
You can have the last dance
Mainly because I love you
With two hearts beating
We are one

Shelby Jasmin Estrada

What It Is

This is what it starts out as:

Roses and doves

Suns and moons

Purple and blue

Is what turns out of a love gone bad

Turns to hurt and hatred

Bruises and tears

Dark gloomy days filled with wishes and wants

Shelby Jasmin Estrada

Where Is My Romeo?

When Romeo kissed Juliet
I couldn't stop crying
Because I knew I would never have my Romeo
Romeo did not exist for me
He was a faded love letter in a mud puddle
No longer able to read
All emotions gone
All words no more
A figment of my imagination
A dream that will never come true
Disappeared
Only written in the story books
Just reading and no living
Romeo does not exist

Shelby Jasmin Estrada

Whisper Of Night

The whisper of night calls my name
Telling me to love him
I want him, I need him
But I can't
The whisper of night knows I love him
But won't let me near him
For the whisper of night loves him too

Shelby Jasmin Estrada

Why Are You Doing This?

Why are you playing games with my mind?
Don't tell me you love me
Don't even come near me
You don't even know the meaning of love
I doubt you even care
You can't care about anything
You aren't capable of loving anyone
So why are you doing this?
Is it all for fun?
Because I know you don't love me
I can see it in your eyes
It's only obvious
Just leave me alone
I hate this
You aren't nice to me
Just stop
Why do you this to me?

Shelby Jasmin Estrada

Why Do You Hide?

Blue moon in the sky
Oh, why do you hide?
Can't you see I want to see you...
I want to see your beauty through my window
Please don't hide from me
Blue moon in the sky
Why do you hide?

Shelby Jasmin Estrada

Why The Hell?

Why do people say they care but don't do anything about it?
They know you love them and they love you, but ignore every word you say
It annoys the hell out of me!
Why can't anyone tell the truth?
Instead confuse it with lies
Love is a harsh thing but it keeps the world running in circles

Shelby Jasmin Estrada

Will It Ever Happen?

Can you really die?
Is it possible?
Let your heart beat one last time...
Can it happen?
I sure as hell hope so!
I feel lost everyday
I can't be myself anymore
I don't exist to anyone
Can I die today? ? ?
I'm finished with this life!
I hate it!

Shelby Jasmin Estrada

Wind

I want to be the wind
Blowing, lifting the branches on the trees
Birds soaring, I'm ruffling their feathers
Twirling the tall grass around each other
Whipping every ones hair like fire

Shelby Jasmin Estrada

Without You

The sky is black
There is no moon
Only stars in the sky
You are not beside me
That makes me cry
I love you
And you don't love me back

Shelby Jasmin Estrada

You

You are some one mysterious
I love you with all my heart
I am devoted to you
My heart is yours
I have faith you will not hurt me
I have dreams that you love me too
But these are my dreams
My fantasies

Shelby Jasmin Estrada

You And Me Together

When the day drifts away slowly
I think it's because I'm in love
I'm in love with you
You make me happy when I'm sad
I feel complete with you
You make me feel like I exist in this world
It's like I can be myself
I feel confident
I feel like I know every inch of your face
Every inch of your heart
I like I know every inch of your mind and your body
It's like a puzzle that I can only succeed
A puzzle of you and me
I think of you and I start hyperventilating
When I think of you my body heats up and my mind explodes like the Fourth of July
I like it when you hold me
It makes me feel safe
When you are around me
The cold days seem to be hot
Like a summer day in August
You are the one I can be with
The one I know who will not judge me
The one who knows how I work
And can help me, when I'm mad at the whole world
You are my best friend
My one and only

Shelby Jasmin Estrada

You Are

You are the sunshine through the clouds
You are the butterfly in the sky
You are the moon through the palm trees
You are the flowers in the grass
You are the birds flying over the dark ocean
You are the bees in the trees
You are the beauty of the earth
You are the alignment of the stars
You are the drums beating in my heart
You are the rain falling on my windowpane
You are the wind blowing through the rose petals
You are the sight in a blind mans eyes
You are the words in a mute mans voice
The world would not be beautiful without you

Shelby Jasmin Estrada

Your Radiance

The sun on your face
Bright as can be
Shining like diamonds
You are radiant and beautiful
Like a white horse
I love the way you look
The way you move your body
When the wind blows
Your smell is intoxicating
It's like you're a drug that won't go away
Stuck with me forever
I can't quit you

Shelby Jasmin Estrada

Yours Truly

Your smile is radiant

Your laugh is angelic

Your eyes are deeper than any oceans

You're as gorgeous as the sunset painted in the sky
