Psalm100vs 3 "Know that the LORD, He is God; It is He who made us, and not we ourselves; we are His people and the sheep of His pasture" (NKJV)

The road of life seems to be a fictitious path as a result of listening to what people are saying. One must understand that it is not what people say that paves direction to their destiny, but what gives them the reason to face tomorrow, is what paves there direction.

Living is answering to life's demand because humans are the sum of what drives them to face the future` if there are not ready to face tomorrow than they have failed the divine gift of breathing. The influence you receive from your day-to-day life contributes to your destiny, so it matters what type of influence is it because being destined comes with a great deal of responsibility.

This also implies that life comes with reasoning, reasoning indicates that there is more to life and when there is more to life questioning is at the heart of every human being. The journey of life needs more then just taking the right route it needs one to consider the aspects that let him/her find fulfilment in their life. There is a reason behind everything that is made, what makes us human is what is inspire us to find purpose behind nature.

Purpose produces inspiration and inspiration brings fulfilment while fulfilment installs the reason for breathing so if the influence you get is not in line with the path you are walking on then failure is your potion because what aspire you must be in accordance with what you are predestined for. Inspiration lets you see your life from a different perspective in other terms it acts as a perspicacity to let you find existence. Today many people are lost, there are without direction as a result of taking into account what people think is the best way to live life.

Purpose is a map giving life the direction to the fulfilment of a destiny that has already been determined by the Creator, He is the one who knows the very existence of creation. Then the real aspect of having life is not just living any how there are principles that govern life. Life is an expression of the creativity of the Creator in creation through the mandated destiny. One must understand that life is not defined by success or prosperity, but is defined by a purposeful life that is in pursuit of fulfilment, because life lived without a purpose is like oil mixed with water.

Purpose never abates because it knows what you must do and for what reason or the ability to see the future that is ahead of you in other words purpose is a visionary it sees what other people cannot see. Proverbs28vs18 "Where there is no revelation (purpose) , the people cast off restraint (perish): But happy is he who keeps the law. The visibility of your purpose in life is dependant on you find the reason for your existence on earth so purpose is a vehicle to fulfilment in life. The reason that life seems to be unforeseen event comes as a result of being

taken by the pleasures of life which offer a two minute fulfilment those later results in regret and an unhappy life.

Purpose gives you the courage to never abate to the situations in your life, while it also incubates inspiration by letting you see the end of your race. Then there is nothing without reason in life for with every action there is a motive which resulted from an idea which came as a result of a thought, so purpose is the idea that gives you a picture of your destiny. Life is not based on you being yourself, but letting yourself take direction from purpose. The failures that humans face in life is not because of their surrounding or background, but taking other peoples dreams, goals, objectives, and destinies trying to make them fit in their own. Greatness is not in credentials but in you understanding life and knowing what God has placed in you in order to fulfil the destiny He predestined you for so that you can express the ability of an effective life. Life is light the brighter it gets the more you enjoy walking your journey because every thing is clear you can see the destination that you are mandated for.

Faith and purpose cannot be separated because faith is an expression of the ability of the Creator in creation in other words it is the expression of the effective creativity of the Creator in the life of the creation this shows us that the glory given to the Creator by creation is fulfilment incubated by purpose.

Jeremiah 9vs11 " For I know the plans I have for you, declares the Lord, plans to prosper you and not to harm you, plans to give hope and a future"(NIV) .

The question is what plans? Purpose which is to give glory to Him, to prosper you in what way? Let you fulfil your destiny, and not to harm you in what way?

Letting the inspiration of His word direct you, give you hope and a future in what way? Letting you see the end of your destiny from the beginning. Be positive of what God has made you stop searching for acceptance in groups, friendships, and places the fact that God gave you life and He is with you proves that you have been accepted. This implies that we do not find fulfilment in what people say about us, we need to understand that is not what we want to achieve in life which makes us, but what is it that makes our spirit man find

# Aging-Rate

The grown stage of changing  
The crown of white rewards  
As the field of gress is green  
The sun makes it yield gold`  
That dress up rejection'  
Which has cold benefits`  
Like a tree that turns brown  
In the season of winter  
Although it may reason, it`s fate  
'Of age within creation`  
Satisfaction had it`s chance  
Now the fighter takes vengeance  
On every creature on earth  
It is part of nature to have birth  
And it is also the measure of death  
The bridge to cross over  
To the other side of no limits.

## As I Cross Over.

I go back to the days of adventure`  
As the silence of peace is at presence  
The utterance of words declare the purity of dreams  
There is no longer sorrow, but happiness'  
I reach out to understanding for acceptance  
As I interact with people I see a future'  
with a generation that has achievements  
In their eye`s I see.....

A nation partaking in a foundation of freedom  
Knowing that the future has hope I leave behind  
' A legacy with inevitable dreams and goals'  
A place where there is joy  
I am going to a place called home for it`s  
the place where my heart and thoughts are! !

# Bright Life

Light upon the sea, nation.....generation`  
Let the sea endow the reverent earth  
Let the nation build a better tomorrow of hope'  
The generation of perfection comes within light`  
While the light shines upon the rich and poor  
The sun shows hope for freedom for the nation'  
The demise of life comes from conflict and disorder

Let the nation rise in unity to build a new society  
Let the earth quench its thirst for equality and morality`  
The obstruction of life has to come to an end'  
There is hope for the nation through rebirth  
Show the divine power of love in humanity

The inscription of life is-in-service to in-rush-law  
Life has invigorated the state of mind of infants  
Life has illuminated the state of mind of infants'  
For the essence of change lies with rebirth  
The time is near let the wise be wise and be faithful  
'be faithful to each other to unite the nation.

# Captivity Of Feelings

When you love, you are enchanted`  
To have endurance for the one you love'  
You are forced to engulf them with love  
You have to become fidelity for them  
Why do we have to love....?  
Because we always end up being paralyzed with`  
Sadness, we are anxious to find the one whom we`  
Love, but at the end we find pain and regret

The persuasion of our feelings creates paradise  
Because the peregrination of paradise is endless  
Do not let feelings incinerate you  
Do not let feelings control you  
It might seem impossible, but it`s true  
Be wise and sober when coming to love!

# Creator Of Life

I wonder by my feelings, what is love and life?  
The world is hush and jealous of my success'  
I ponder every hour, why sorrow and obstruction  
Saviour of life I reach out for a better life`  
And I push myself through the narrow path of life  
And I am zealous for wisdom and understanding  
And I graze for paradise and the glory of your Son.

The world is surrounded by a rope of sequacious people  
I hope for repentance to have prosperous ways of life  
Death and Birth rise from the East to the West  
I call upon your name for salvation  
I call upon your name for grace  
I call upon your name for peace  
I call upon your name for perseverance.

The world is confused by the of lack pf knowledge  
Family is division is taking center stage  
Valuator of life, provide an armour for life  
I venerate life, but Dove of life vanquish  
.....for the world delights in evil.....

# Every-Night Has A Shadow

Everynight I look upon the sky'  
I see the magic star of love  
The bright star of faith and miracles  
I see the magic star of hope  
The symbol of holiness and eternity  
I look out unto the night I see the star of memories  
As I face the sky I trace back to the past  
Where the was hardships of peace  
I look upon the star of light I see a chance`  
'Of having relish and a rare natural comfort  
I look carefully at the star of friendship  
The one that has the spirit of life in it  
As the sun arises the morning is being restored  
Another day to glorify the Son of Man  
As I glorify the Prince of peace, streams of water'  
That has life comes into my presence  
I see the doors of paradise being opened.

# Free Well

It is the importance of perseverance  
That creates erratic poetic minds  
With the stature of Laws  
To turn problems arround to be free  
It is the velocity of understanding.

It shows hope, life, and love  
To portray the virtues of life  
Although people are very vapid  
The race of grace is very rapid  
While the world is being spiritualised  
Through free-well of interest, and Christ.

# Heaven

Is place where the is a Kingdom'  
The Kingdom above all kingdoms  
Is place of honor and glory`  
Is home to the King of kings  
The homeland of the Lord of lords  
A place full of beauty and light`  
A place where the is no night nor day  
The centre of worship and praise  
Is a place where eternity lies`  
Is a place where every heart desire to be'  
The throne of the most high God who loves  
Is home to all who are righteous  
The place of testimony and love  
The place of Israel the chosen  
Is home to the children of Abraham  
Is home to the tribes of Jacob  
Heaven` home to every born again spirit  
Heaven my one and only Home  
A place of love, peace, and joy  
Home to saints whom fear the Almighty God  
The palace of prosperity and worship  
Heaven' home to all souls and creation  
A place of praside, where we Rejoice! !

# I Am Fine

I stand at the dark corner`  
I tell myself everything is fine,  
But my mind tells me to consider  
Everything that is not mine  
My Father says 'I was born to be a leader'  
I always ask myself is this destiny divine,  
Because I always find myself being a follower  
Looking for words that can be used to define`  
'My life as I tell myself I right being a finder'  
My mind tells me again this my time to shine,  
Because I always stand up as a fighter  
Now everything seems to be nice,  
But my mind tells me to face reality  
As look at my life it is always like ice  
What happened to my nobility?  
Friends turn into enemies  
I look at myself I was a zero,  
But I am fine being a hero.

# I Do Not Know At All! !

Intelligence is not a gift, but the way you understand life  
And what you stand for as an individual in LIFE! !  
Know your purpose so that you may know what the future holds as a divine  
creature! !  
It is what I am, but whose is in me! !  
Am what I was born to be! !  
Is this life with living! !  
Am on the right road! !  
Am I what I wanted to be! !  
I guess no one has the answer to that! !  
Ok maybe there is someone out-there! !  
If I may just know the person I am today! !  
I will know, my direction in life! !  
Life is life, let it count for your Creator! !  
I was not born to be what i am today, but to be what i will be tomorrow! !

# Listen!

The clear sky has an ability to talk  
Come near and give ear to the call  
To hear the sound spirit of the Creator`  
Have no fear to come closer to the Creator'  
So that your tear can drops in the hands of the soil.

For when the soil is touched by water life starts'  
In the ground by roots to a plant that gives life  
Take care of the rare ability of clouds`  
For they are the driving force of nature.

The light of the words of the sky express the spirit  
'Of hope within the creation of the Great Designer'  
For today we sleep knowing that tomorrow will.....  
Have even a deep hope for the future  
As leaders motivate with actions to activate  
The soul and spirit of stature within nature.

# Salvation

What is salvation?

Salvation is Repentance'

It is the power of acceptance

The choice to receive a saviour`

The road to the palace of honour

It is the way to having true life

It is the way to having true love

Salvation is JESUS

The process to reach out to Christ

The relationship of divine nature'

It is the only way of reaching paradise

It is the lifestyle of holiness

The gift of eternal life.

Salvation is Humility

It is the process of submission'

It is the power of Sonship

The manifestation of the God of humanity

The interaction of the soul and the Creator

It is being washed by the divine Blood.

Salvation is the precious Blood of Jesus

The blood of power and grace`

Salvation is the love of the Father

The love that gave the world redemption`

Salvation is the grace of Jesus

The grace that made us His brothers and sisters

Salvation is need by every SOUL! !

# Sorry

How many times must I worry...?  
My emotions always have something to carry  
How many times must I say sorry...?  
My feelings always have to hurray'  
How many times must I be barricaded by pain..  
My heart beats at a rate that I can not explain  
How many times must this endless drops of shame rain'  
My thoughts are always fast like a speeding train  
How many times must I go on with problems like a rail`  
My mind always take me to jail  
How many times must I get bail`  
My mentality is always slow like a snail  
How many times must I have sorrow`  
My journey is always waked on the narrow..  
'Path where there are problems of joy'  
Lord God Almighty forgive me again.

Tumelo Makhudu

# Thank God! !

I am alive today!  
I am blessed today`  
I am favored today  
I am happy today  
Thank God I can dream'  
Thank God I can sleep`  
Thank God I can scream'  
Thank God I can weep  
Thank God I can express  
My human nature to love  
Thank God I can press`  
On to the prize at the end of the race;  
Thank God I can move'  
To the beat of my heart and dance`  
Thank God I can FORGIVE!  
Thank God I can give`  
Thank GOD I can do all things!

# The Morning

It comes with the sign of new life  
When I look up in the midst` I see life  
I feel the air that brings order to life  
'Now the morning spirit creates joy for life'  
Although many may not have it the is hope in life'  
I stand at the window I see the source rising to life`  
It shines upon every creature that has life  
Asking myself what is the purpose of having life?  
Life comes from the divine Creator of heaven and earth  
The purpose of life is found in the relationship of faith'  
I feel it`s presence as it rises to birth`  
It feels great to see it, although some feel death`  
There is life in it as it is the source of peace  
There is joy in it as it is the force of grace.

# The Power Of The Tongue

The utterance of my words create the vibration of results,  
Before I speak I think of the results of my words'  
From the tips of my lips lies death and birth  
I have the power to change the future by my wording`  
I stop to explain to myself about the rain  
Which rain 'I ask myself again, and again'  
The rain of pain that is about to come out of my month,  
But I now stand and change my words to joy  
And I now see which direction is the best'  
Although I may feel rejection I can rest  
Beloved I chose repentance than to perish'  
Now that I have perseverance I can 'NOW' crush`  
The enemy that was so hush on me for my faith  
I rush to heaven to me strength  
I speak the word of the spirit to destroy'  
The towers of my enemies to the ground  
I am who I am say I am  
I am the results of who I am said I will Be!

# The Thought Of Life

IT is the vibration of a direction of determination,  
To create a generation of passion in every nation'  
So the remission of peace can come to creation  
And let the stature of nature abide in nobility  
As the side of love comes to life in unity.

Although life may be vapid  
The the growth of peace is very rapid'  
When coming to public spirit and team work  
Life is an act of humanity and it's Creator  
While the vision of humanity is to create an impression  
That has a satisfaction to stop division in nature.

With the description of expectation that,  
Has no partition to the reputation of nature  
The erratic occasion of nature is a decision`  
To create a bright tomorrow for the next generation.

Tumelo Makhudu

# Visual Sight

I see the sign of influence  
It is like a spine, without it there is no service  
You stand paralyzed without endurance  
It is sized like a mountain it can embrace  
The style of people outside within their face  
As people hide themselves with an offence  
Within their conscious minds that once  
'Ripped their own dreams through'  
'Like the streams of a rough  
'Waterfall lying the ground across'  
The dying rocks in the waters that cross  
Over the line on the other side  
Where the vine of ice light  
With might on their date  
Of bright reach of fright  
As persuasion comes to their fate  
Their visual sight manunites  
Favour upon their life`s

# What Happens....Am I?

Am I in the right position?  
Am I in line with my projection?  
Am I in the right destination?  
Am I in line with my decision?  
Am I in the right designation?  
Am I in line with my ambition?  
Am I using my motivation?  
Am I using my inspiration?  
Am I in need of attention?  
Am I in need of explanation?  
Am I having frustration?  
Am I having starvation?  
Am I in the right condition?  
Am I in the right institution?  
Am I in need of a suggestion?  
Am I in need of a cession?  
Am I in lack of instruction?  
Am I in lack of perfection?  
Am I in the state of completion?  
Am I in the state of revelation?  
Am I the creation of the Creator?  
Yes I am, I have salvation  
What about you?
