i had a rough childhood but all those things that happened to me helped me be who i am now... so in a way im grateful for what happened to me but at the same time i just can't help to feel that anger and hatred for what they put me through..... but other than that im a good nice, wierd, normal girl: P

## Daisy Pruneda &Lt;3 X3

a beautiful flower  
stands tall like a tower  
sweet and kind  
one really hard to find  
lucky if they get her attention  
let alone her affection  
she's like a little sister to me  
and her name is little daisy: D

# Death

death surrounds the air  
leaving people in despair  
crazed with grief and pain  
letting their energy drain  
some living in the shadows of death  
taking their life, breathing their last breath  
others learn to cope  
while the rest sit there and hope  
that things will get better  
or trying to get themselves together  
the thing about it though  
is that death comes real slow

# Fears

dwelling in the past  
i wonder how long that will last  
crying through the rain  
trying to release all the pain  
that i've felt these past years  
but at night comes all the fears  
of what i went through  
i try to believe it's not true  
people criticize me  
but they don't really see  
the pain i've felt  
and all that i've delt  
with in this life i've had  
but i guess i'm just glad  
that i have that one special friend  
and i know that he'll be there till the end.

# Gabriela Alexes Pruneda &Lt;3 Xd

strong as a stone  
yet delicate as a bone  
beautiful as a rose  
a strong and elegant pose  
has to be strong  
she's been like this too long  
she doesn't remember herself  
her feelings she puts in a shelf  
not showing any weaknesses  
she has such selfishness  
thinking no one knows  
but in her eyes everything shows  
how much pain she has  
she thinks it'll pass  
for a friend she longs  
so she listens to sad songs  
patiently waiting for her time  
so i guess this is my last rhyme.....

# Gone

tears slowly run down these eyes  
been hurt for the last time by your lies  
not ready to let go of you  
but far apart we grow  
with each passing day  
it gets difficult for me to stay  
you tell me you love me  
and i trust you blindly  
thinking your words are true  
but pain you put me through  
then you say sorry and feel bad  
well i'm sorry you wasted what we had  
i thought you were one of a kind  
but you stabbed me from behind  
left me there to die  
from the poison of your lie  
i just hope you find what you're looking for  
because you are no longer welcome to my door...

# Goodbye

feeling i keep inside  
trying so hard to hide  
the pain of losing a loved one  
what have i done?  
same question asked everyday  
wanting to shout out and say  
that i don't want you to go  
but now you're gone.... so  
there's nothing left to say or do  
so much apart we grew  
and now it's time to say goodbye  
while i sit here waiting to die.....

# Her

&lt;/&gt;pain filled eyes  
she feels numb as she slowly dies  
heart cold as snow  
she doesn't let any of her pain show  
different emotions overflowing  
she can't see where she is going  
she's lost her way in life  
in her hand she holds a knife  
ready to end it all  
all she needs is one last fall  
no one sees her pain  
and how it's driving her insane  
her life is a total mess  
she begs god to give her happiness  
hurt and all alone  
feels hollow as a stone  
but soon it'll all be over  
so she tries to stay sober.....

# Hidden Feelings

the light is getting dim  
but when i see him  
everything gets bright  
i'm amazed at the sight  
of the glow of his face  
that my heart starts to race  
his eyes and his smile  
are enough to keep me happy even if just for a while  
all i want is to see him happy  
even if it means my heart feeling crappy  
he's one of the reasons i want to live  
and i just want to give  
him all the love i feel  
for him and show him that it's real  
if he would only give me just one chance  
i would give him that one last dance

# Him

knowledge filled eyes  
always catch me by surprise  
always lending a hand when i fall  
to help me stand tall  
grateful to God that we met  
you always comfort me when I'm upset  
sorry i bother you a lot  
you're one of the few good friends i've got  
i appreciate what you've done for me  
i just wish more people could be  
more like you... nice and sweet

# I Miss You

it took one look in your eyes  
to know you'd tell me truths and not lies  
as time passed we grew close  
and my love for you bloomed like a rose  
you make me laugh and smile  
even if it's just for a while  
i wish we could spend more time together  
and i wish it'd last forever  
but it can't cause I'm so far away  
and i wish i had the courage to say  
that i love you with all my heart  
and it kills me to have to be so far apart  
so instead of giving you a lie  
i'll just say for now this is goodbye....

# I Wish

i used to cut through the rain  
to release all my pain  
it's really sad  
i miss the life i had  
once with my family  
we lived so happily  
i miss those days  
that's what everyone says  
i wish i could have my old life back  
cuase now happiness i lack  
but wishes don't come true  
so now i'm left with nothing to do.

# I'M Sorry

i know i hurt you  
but i didn't know what to do  
i had no choice  
i can't raise my own voice  
to say what i want to say  
each and every day  
i hate myself so much  
i know i will never find such  
as you you are one of a kind  
you were so hard to find  
i let you slip from my hands  
and now look where my life stands

## Jasmine Priscilla Pruneda :) &Lt;3

a strong hold she has  
just waiting for time to pass  
she longs for her loved one  
but for now he's gone  
thinking no one sees her pain  
but thinking about it drives her insane  
i see and feel the pain she feels  
and i also know how she deals  
thinking she's misunderstood  
no one really seeing all her good  
a passionate spirit she has  
but so delicate as glass  
wanting the pain to go away  
listening to depressing music all day  
she laughs and smiles  
her life goes on for miles  
but here she has a good friend  
and i hope she knows i'll be here till the end :)

# Lies Waiting To Die

tired of living this lie  
sitting here waiting to die  
this life has given me nothing but pain  
that i think i might just go insane  
gambling with life and death  
waiting to take my last breath  
waiting for death to claim my soul  
so i won't have to feel this empty hole  
that's been left in my heart  
i don't want a brand new start  
because this life only brings me shame  
playing me like a brand new game  
but in the end everyone just dies  
so the heck with all the lies  
i don't mean to offend  
but please God just let this life end

# Meaningless Wishes

i wish you knew these feelings that i hold inside  
the ones i try so hard to hide  
i wish you knew this pain i feel  
from a broken heart that does not heal  
i wish you knew about these tears i shed  
and about how much this heart has bled  
i wish you could just look and see  
and set this broken heart free  
but wishes mean nothing if you don't know  
because all you see, is all i show.....

# On Top Of The World

i don't have the balance  
think i'm gonna fall  
wish i had teh talent  
i don't belong here at all  
drowning in the pressure  
in over my head  
why did i think i could do this  
i could have walked away instead  
this is my chance to break free  
everything's depending on me  
and if i keep trying i'll be  
on top of the world  
where i can see  
everything before me  
reaching up to touch the sky  
on top of the world  
all my dreams are rushing  
toward me  
stretching out my wings to fly  
on top of the world  
nothing's gonna break me  
gonna get it right  
even if it takes me doing it a thousand times.

# Pain Unseen

lost in pain and misery  
have a bad history  
just waiting to die  
out escapes a small cry  
for someone to help me  
why can't anyone see?  
the fear i have inside  
the one i try to hide  
from all seeing eyes  
slowly my heart withers and dies  
from all the damage it's gone through  
but there's nothing i can do  
but sit here and cry  
till my eyes run dry...

# Reality

People are fake and blind  
Its the good one's that are hard to find  
You have to keep a strong hold  
and treasure them like gold  
cause once they're gone and away  
you're gonna be wishing they'd stayed

valeria gomez

# Sadness In Me

the secrets that i hide  
is from when my brother died  
i lived so happily  
when i was with my family  
but now that's gone  
my life is done  
i don't have that life anymore  
nope someone closed that door....

valeria gomez

# The Way You Make Me Feel

i hate the way you make me feel  
you know that i already have to deal  
with a horrible past that still haunts me  
but still he doesn't see  
the pain i feel inside  
so all i do is hide  
inside a shell  
and try to live through this hell  
i wish i could escape this place  
and not leave a trace  
that i was ever here  
and just be with the one person so dear  
to my heart and soul  
that's my one true goal

# What Feeling Is This?

what is this feeling inside me?  
it's leading me blindly  
where it takes me i don't know  
it's somewhere i don't wanna go  
afraid of what i will find  
i thought i'd left that all behind  
but turns out i was wrong  
now it's back but more strong  
i don't know if i like it or not  
but i know i've been through a lot  
enough to make me hate all guys  
all their deceiving and their lies  
it's not worth all the pain  
or crying through the rain  
it appears of disappears within a blink  
love is for the weak, at least that's what i think  
love will come and go  
but people will never know  
if they don't let go and live  
but i guess that's all the advice i can give.
