I'm tall and shy. But it doesn't mean that I always hide myself from the world. I'm not that talkative, but I talk with people. I'm good at keeping secrets and always doing the best for others first. I usually put myself last. I'm always concerned about people than myself. The reason why I don't talk too much is because I'm afraid that I'll say something that'll hurt their feelings. I could be a life smart since I love to think about life and people.

Anything 4 U

I would do anything for you
Just to bring a smile to your face
Just to hear you laugh eternally
Just to show that I love you

I would climb the Himalayan Mountain if I could bring a smile to your face
I would try to live with the chimpanzees if I could hear you laugh
I would yell to the whole world that you're mine to show you that I love you

I would do anything for you
Even if I had to risk my life
As long as you're happy
I'm fine
You're part of me
And I'm part of you
We're united into one
And nothing separates us

I would dress up as a baby to hear you laugh
I would boost of people's seats to see you smile
I would sing 1,000,000 love songs to you to show you how much I love you

If I had to dance with you only once
I'll turn on the music that will last forever and ever.

Bitter

Time will wear out
With the dread of weary
That ate your soul

Your heart of love
No longer became lovely
Your heart of trust
No longer became innocent

The wisdom you had
Wasn't used
And it disappeared
As you live on

The warmness of your smile
Became bitter cold
As you frowned
And glared

The beauty of friendship
Will no longer exist to you
Cause you lost a friend
And you're afraid to be hurt again.

Even Though We Said Good-Bye

Although I can't be close to you,
Watching you from the distance
With your new lover
Smiling and laughing
Is good enough for me

I pray to the stars
On the clouds above
For God to never be cruel to you
And your new love will always be true

Whether my heart hurts or not
As long as you put up the smile on your face
I'll be happy
Happy enough to die

It's okay if I'm broken
It's okay if I'm falling apart
It's okay if I'm hurt
But it's not okay to see you gloomy

I'll always put up a positive image
Just in case
If I see you again
You won't worry how I'm doing

If you want to be away from me, it's fine
If you want to make me sad, it's fine
If you want to throw all of the memories we shared together, it's fine
Cause you can't go on with those memories in your heart

Throw all those memories to me
And I'll keep in my heart
Where nobody will ever unlock it
And only you have the key
To open it
And look through all of these memories

I won't hold you back

I won't say anything to you
I won't nag or complain
Cause you're not here anymore.

XXXHolix Fire

Forget Me

I'm waiting
And waiting
For you to forget me
And I will forget you

If you keep searching for me day and night
I will runaway from you
Every day and night

I won't say hi
Or bye to you
But I will act as if I never met you
To forget the past

If you ever see me
Don't appear in front of me
And tell me that you're sorry
Cause I already forgave you

Please erase
Every sing little detail
Of me in your heart
That way
You won't suffer
Neither will I

Just forget me
And go on
Like there will always be tomorrow
And time won't end.

XXXHolix Fire

Holding On

As I lived on
As I learned
As I thought about life
I started to realize
That I couldn't hold on to everything forever

I couldn't hold on to happiness for a long time
It just slipped out of my hands
Silently and stealthily
It escaped without saying anything
Not warning me to be ready

I couldn't hold on to my parents for a long
My parents loosened their grips on me
I loosened my grip on them
We slowly began to separate
Day by day
Silence fills up the gap

I couldn't hold on to my past
I can't always bring my past with me
I can't always think about my past everyday
I can't... because...
It'll jsut ruin me in every way
And I'll never go on

But I realized that gripping onto everything
Makes my life harder
I can't live with complete happiness
But I can't live with complete nightmares

Holding on isn't always good as I thought
It just made me do things
Out of the blue
And losing them all instantly
Then I'll be alone
Nothing comes by for me to hold on.

I'M Sorry For...

I'm sorry, my dear friend Sophia

I'm sorry that I always let my anger out on you when you didn't do anything wrong

I'm sorry that I wasn't there when you needed me

I'm sorry that I... wasn't a good enough for you

I'm sorry that you had to be with a wimpy girl for such a time

I'm sorry that I couldn't be what you expected from me

I'm sorry that I made you feel so angry, depressed, and sad

I'm sorry that I usually have things in my way

I'm sorry that I couldn't say that I was sorry

Most of all

I'm sorry that I left you

I'm sorry that I couldn't be your best friend forever.

Is This The Feeling Of Love?

The feeling that makes my toes to squirm
The feeling that makes my tummy warm
The feeling that makes my nose to itch
The feeling that makes my face to turn into a strawberry
What is it called?

Looking at the endless sky
Makes me wonder
If love is endless
Than will this feeling of love be endless?

The feeling that makes me full
The feeling that makes me blissful
The feeling that makes me feel so high
The feeling that makes me to believe
What is it called?

Looking at the stars
Remind me how shiny your teeth are
When you smile just for me
That makes me feel like a sun is shining only for me

The feeling that makes me laugh
The feeling that makes me feel intelligent
The feeling that makes me look beautiful
The feeling that makes me a superstar
Why... do I have these feelings?

Looking at the birds
Soaring high in the sky
Will we be able to go near the sky
And touch the stars
And kiss under the bright moon?

If this is the feeling of love
Then I guess I'm in Heaven.

It Won'T Be

It won't be me anymore
That will shed your tears
From all the bitter thoughts
And words
You faced

It won't be me anymore
That will smile at you
With these eyes
That will make you melt

It won't be me anymore
To save you again
As a superhero
That everybody wishes for

It won't be me anymore
To call you
Wishing you were right here with me
Or else I will suffocate

It won't be me anymore
To love you again
Or look back at the times we had spent together
Because it's someone else.

Just You Only

Your love for me is greater than this universe
Beyond the stars
Beyond the comets
Beyond the planets
Our love will stay true

Our hearts won't waver
Our thoughts won't shatter
Our love will overcome anything
Just you by my side
Is all I need to survive

Your smile of warmth
Is hotter than the sun
Your laughter is music to my ears
Your shinging eyes
Are brighter than the stars

I don't need a sun
Cuz' I have you
Your warmth is warmer than fire
Your tears are gleamier than the seas
Your mind is purer and cleaner than diamonds

I wish you were my diamond
That I'll wear everyday
No matter where I am or where I go
You'll be there with me.

Last Words

The last words I can say to you
Before I'm gone
Is that I've always loved you

Before time runs out
I want to say everything you've done for me
Everything you've given me
Everything you shown me
And everything you made me learn

I want to say that I never felt this way to anybody before
I want to say that I never knew about the world
I want to say that you've changed my world
I want to say that you're the only one I have
I want to say more
But I'm sorry to just say that I've always loved you

I wish I could find the right words for me to say
I wish I was given more time
To say all of my last words
But too bad it'll take eternally for my last words to finish

My last words for you isn't just that I've always loved you
I wanted to show you how I feel
How much I want to hold you in my arms
How much I want to say your name
How much I could go with you
I wanted to show you that I've always and always will love you

Sorry my last words were too short and simple
But it shows such a strong picture
A strong bond
A strong love
Between you and me.

Life Vs Time

The greatest enemy of life is time
Time always gets in the way
No matter how much we try to avoid
It follows you around

When we laugh
When we're happy
When we're innocent
Time goes by so fast

When we're depressed
When we're blue
When we're not right
Time goes so slow

No matter how much we pray for time to go fast when we're sad
It goes slower than the three toe sloth

But life can't live without time
Time doesn't exit without life
Because there's time
Everybody tires to do things in a hurry
Thinking that time will go by fast.

Love - My Only One - Sweet!

I'm writing this only for you
No one else but you
It shows my love for you
That will never change as we get older

The only fact that's true and pure is that my love for you is greater than anyone else
I never felt this way to anybody before
Just feeling this immense love for you
Is the reason why I live

No matter how bitter my tears are
Your small comfort blocks out the feeling of emptiness
Your small comfort can defeat anything in this world
And I'm glad that you're mine

I'm glad that I'm yours and you're mine
Even though you're just a human
You're different
To me, you're perfect in every way
Your flaws are uniquely charming and graceful
That I fell in love with it as I love you

I feel this joy
That boils inside me
As I say your name
As I hear your voice
As I see you smile
And as you're next to me

Because of you, I can be happy everyday
Because of you, I don't live without any regrets
Because of you, I smile everyday
Because of you, I love you
Because of you, I live

I giggle when you talk about me
I giggle when I just look at the present I gave you
I giggle when I feel you next to me

I giggle when you whisper to me that you love me

It hurts me when I can't see you in every second

It hurts me when you don't say my name

It hurts me when you don't smile

It hurts me when you forget to hug me

I want to thank you for everything you've done for me

I wish I had more than a lifetime to pay you back

I wish I had eternal time to pay you back

Of all the joy and love you only gave to me

Nobody ever filled me with happiness as you did

I'm only writing this to you

Because there's no one else I can write this to

Since my love for you will never change

And I love you.

Memories

Every memories you have are precious
Happy ones, sad ones, angry ones, and foolish ones
But they mean 2 things in general
They show what you've gone through
And they show what you've crashed into while moving on

Memories of happy ones
Make you smile
No matter how blue you are
It echoes inside your head
With laughter and feelings of comfort and warmth
That makes you want to laugh and be blitheful forever

Memories of sad ones
Make you burst into tears
Just thinking about it
Makes your heart cry
This severe pain
Makes you want to die right on the spot

Memories of angry ones
Fill you up with extreme
It boils your whole body
In which no water can cool it
This anger
Gets you sharp and snippy
But also witty

Memories of foolish ones
Make you laugh and humiliated
You laugh for such a funny thing you've done
You feel humiliated because it was foolish
But it makes you smarter
Knowing how to get through
And knowing what to do

All of the memories you have
Makes you miss the old days
Even if it's something bad

You still won't hate it
Because you've gone through it
And you know that it represents you.

My Dreams

My dreams are somewhere
Where it's beyond my reach
Where it rests in peace
And everytime it sees me
It runs away

My dreams are in a place
That I don't know of
That makes me bump into many things
That I wish I could carry

My dreams are not seen by anyone
But only me
Because it's mine
And it will always be

My dreams and I
Can never be separated
Cause there's a bond
That no one can ever break

My dreams call out for me
Yet it runs away
And the chase never ends.

My Only Father - Only One

I can never ask God for a greater father than you
You listen to every words I say
And you feel how I feel in every way

I don't have to say anything
All you can do is just look at me
And you know what I think and how I feel inside
You know me better than anyone else
And you truly unerstand me

You always put me first
You always try anything you can do to make me happy
All you want from me is a smile of warmth
A kindness from my heart
And my love for you

You always forgive me no matter the situation
And you tell me that it's alright
You trust me so deeply
And it's a disgrace for me to make you upset because you made me happy and I
made you blue

Your fatherness is far better than other fatherness
Your kindness is unbeatable
Your wise words means alot in any way
Your laughter brings the joy to the world
Your warmth is far warmer than fire

Inside me, you light up the fire
The fire that never blows out
No wind can blow it out
No water can blow it off
Nothing can make it go away
Because it's you that can make it go away

You always make me view the world as a good place
It's full of pros and cons
And you made me accept them all deep in my heart
You made me realize that I'm loved by you

And you always will

I hope you read this

This is only for you

Because my only father is you

My hero is you.

XXXHolix Fire

My Only Love For You

I always loved you ever since
Even if I didn't say it to you
I always loved you
No, my love for you is beyond just a love

My love for you lightens your heart
I give you all my strength
All my support
And all my logic
For you never to fall

My love for you never waver
Not even the strongest wind
Could move my love for you
It will always stay strong and protected
For you and for me

Roses are my favorite flowers
My favorite rose is you
You're my rose
But you're different from other roses
Your beauty never withers
While other roses do
Your love for me
Will never be lower than the sky

My love for you can't be expressed by using the word love
My love for you can't be weak
My love for you can't be faded away by time.

Not Just A Mom

My mom isn't just a mom at all
She's also something else
My mom isn't so quiet or shy
But she's proud and doesn't care what others say about her

My mom is like a friend who I will never forget
My mom is always there
Whether I'm sad, happy, lonely, or angry
She's always there, ready to listen
My mom always give me advices to overcome any problems
She supports me in any way

My mom is like a genius to me
She may not be like genius of studies
But she's a genius of me
My mom knows what I think, what I will say, she knows everything about me
My mom knows what to do to make me calm down
My mom knows how to make me automatically happy
My mom knows what and how I feel
My mom knows what I need the most

My mom is like an angel God sent from Heaven
My mom is loud, weird, and crazy
But she understands me the most
My mom always help me to fix my mistakes
My mom always help me to reach my dreams
My mom always love me no matter what

My mom doesn't care if I am handicapped
My mom doesn't care if I'm missing a finger
She doesn't care
My mom loves me the way I am
My mom is like someone who I can't give up on
My mom is like... a daughter of God.

The Perfection Of The Perfectionist-You

You don't have to be gorgeous for me
You don't have to be a genius for me
You don't have to be a model for me
You don't have to be an entertainer for me
All you have to do for me is just be who you are

You're perfect in every way to my eyes
No one is so ever gorgeous than you
No one is smarter than you
No one is a model than you
Through my eyes

You're lucky that you are you
You're lucky than you have what others don't have
You're lucky that you're loved
You're lucky that you always shine with your beautiful smile
Glittering eyes
And immense warmth from your heart

You don't have to try to be like Beyonce
Britney Spears
Jennifer Lopez
Lindsay Lohan
You don't have to
Because you're far better than them

You're lucky that you're kind
In which everybody is envious of
And I'm glad that you're you
Who always have that kindness with you no matter where you go

You're beautiful in every way
Even though you have a crooked teeth
That's beautiful
Because that is what makes you, you!

Your flaws are lovely
Because you're you're lovely
Inside and out

You're blessed that you have external beauty
You're lucky that you have inner beauty
That everyone wishes for
And you're the one
Everybody will look up to as a role model
You are my one and only role model

Whenever you go
My body
My feelings
My love
And my eyes will follow you.

This Last Moment

With my last moment of you
I want to make good memories
That I will always have
In my heart

I don't need you to give me flowers
Or buy me jewelries
Or invite me to a concert
Or bring me to a carnival
Cause I know
There's nothing special about them

I don't need you to write me a poem
Or write me a story
Or dance for me
Or sing for me
Cause you already did those

I don't need you to hold my hand
Cause it will make me afraid
To leave you behind
With tears flooding the world

All I need is your love
That will make me cozy
And go to Heaven
Without a single problem

I won't look back
Cause it will only cause me more pain
But I will carry all the memories we had together
And share them to the whole world

To make me happy up in Heaven
Please don't cry
And smile all the time

Your smile wouldn't just lighten up my day
It will lighten up everybody's day

When the sun is gone
Just smile
And the whole world will lighten up

My last moment with you doesn't mean that you have to buy gifts for me
Or sing songs for me
It means to be happy
No matter how hard the problems are
There's always an exit
But you just have to find them.

To See You

Every time I sleep
I see you in my dreams
Your smell
Your prescence
Your aura
Your love
Haunts me

I hear you saying how much you love
I see you smiling
I smell your favorite perfume
I can feel your love
I can feel that aura of yours

Your voice echoes
Whether you laugh
You scream
You yell
You talk
Or you whisper
It rings my whole head
Bringing shivers from my head to my tippy toes

If I can just see you once more
Not in my dreams
If I have a chance to see you once more
I'll tell you how much I love you
I'll show you how strong my love is for you
I'll show why I need you the most
I'll make you happy and smile all day

I wish you were here with me forever
I wish you were my glasses
Because I can only see you
Besides, I only want to see you.

What More? Not Money!

What more can I ask for
What do I need?
What do I want?

All I need is love to live on
All I need is trust to live on
All I need is sense to live on
All I need is someone else's love to live on

Money isn't just everything
It can buy things
But there are some things money can't buy

Money can't buy my parents
No matter how much people offer me billions of dollars for my parents
I will never hand my parents to them
My parents are worth every single thing to me

I need love to go on
The loneliness is something that has a grudge on me
But with love
The grudge is gone

All I need to live on is God
When nobody listens to me
God does
He's always ready to listen
He's always ready to respond

God is like my father
Who I love and care
Because he cares for my parents
I don't care if he doesn't care for me
Cuz' my parents are my top priority
I'll do anything to not lose them

I don't care about money
Because money comes and goes
But love, God, and my parents are with me

No matter where
They're inside me
My fuel energy to live on.

Wishing... Stay Like This Forever

I wish we could stay like this forever
The warmth that comes from our hearts
Will warm the whole world
From all the bitterness

I wish we could stay like this forever
No matter how bad the situation can be
I can lay on your shoulders
That brings the comfort to me
And making me believe that the world is a good place

I wish we could stay like this forever
When we talk
We look into each other's eyes
When I'm sad
We embrace each other
When I laugh
We both laugh
When we forgive
We forget all the arguments

I wish we could stay like this forever
My love won't shatter
Your love won't waver
Our confidence won't fall
Our hopes will rise
And granting our wishes

I wish we could stay like this forever
Without being ill
Without being sad
Without being gloomy
Without being hateful

I wish we could stay like this forever
Because it's my wish
To be with you.
